Note to readers:

- All estimates are rounded to the nearest hundred.
- All territories' monthly figures are based on three-month moving averages and are, therefore, not included in the overall figures for Canada.
- The Labour Force Survey (LFS) estimates for July reflect labour market conditions during the reference week of July 13 to 19, 2025.
- Every 10 years, the Labour Force Survey (LFS) sample is redesigned to reflect changes in population characteristics and updated geographical boundaries. The updated sample design — based on the 2021 Census population characteristics and the 2021 Standard Geographical Classification — is being phased in from April to September 2025.
