

## Consumer Price Index, September 2025

Released by Statistics Canada – October 21, 2025

Comparing September 2025 to September 2024, the Consumer Price Index (CPI) increased 2.9% in Whitehorse (data are not available for Yukon). Whitehorse's year-over-year CPI change for the month of September 2025 was 0.5 percentage points higher than that for Canada (2.4%).

The main contributors to the year-over-year increase in Whitehorse CPI for the month of September 2025 were electricity; food purchased from restaurants; and rent. Some of these increases were offset by price decreases in traveller accommodation; travel tours; and inter-city transportation.

On a monthly basis, the CPI in Whitehorse decreased by 0.5% in September 2025 compared to August 2025; nationally, the CPI increased by 0.1%.

### Consumer Price Index, All-items September 2025 (unadjusted), 2002 = 100

#### Note to readers:

- The basket weights of goods and services used in the calculation of CPI are derived primarily from the national Household Final Consumption Expenditure (HFCE) data supplemented by the data from the Survey of Household Spending and provincial/territorial HFCE series.
- Percentages in this release are rounded to the nearest decimal place. Percentage points are the actual numerical difference between two rounded percentages, such as: 2.9% – 2.4% = 0.5 percentage points.
