# Yukon Geographical Place Names Program

The Yukon Geographical Place Names program is responsible for the naming and renaming of places and geographical features throughout the Yukon. This includes lakes, rivers, creeks, mountains, and other natural landmarks. The program encourages public participation, allowing anyone to submit place name proposals that reflect Yukon's diverse cultures, rich history, and unique landscape.

## Yukon Geographical Place Names Board

The Yukon Geographical Place Names Board (YGPNB) reviews applications and provides recommendations to the Minister of Tourism and Culture regarding the approval or rescission of geographical names. The YGPNB convenes at least twice a year to deliberate on proposed names. It consists of six members appointed by the Minister of Tourism and Culture, three of which are nominated by the Council of Yukon First Nations.

## Yukon Geographical Place Names Database

The Heritage Unit, Department of Tourism and Culture, maintains and updates the Yukon Geographical Place Names Database of over 6,000 records. The Unit administers the program for naming and changing the names of Yukon place names and geographical features such as lakes, rivers, creeks and mountains, approved by the Minister of Tourism and Culture, based on recommendations of the YGPNB.

## Guiding Principles

The YGPNB bases its decisions to recommend or rescind a place name to the Minister of Tourism and Culture on principles and procedures originally established by the Geographic Names Board of Canada.

- Priority shall be given to names with long-standing usage within the local community, with particular emphasis on Indigenous names in the local First Nation Language.
- The YGPNB does not hold jurisdiction over the naming of parks, territorial divisions, municipalities, or other legal entities established through legislation.
- Names assigned to rivers, lakes, creeks, and other natural features shall apply to the entire feature. For example, the Yukon River must retain a consistent name throughout its course and should not bear different names at different locations.
- Proposals to name a geographic feature after an individual must demonstrate that the person has made a significant contribution to the area in question. As a rule, commemorative naming shall occur only after the individual has passed away.
- In cases where a geographic feature lacks a known local name, preference will be given to names from Indigenous languages, descriptive names, names associated with historical events and names of individuals who have made notable contributions to the local area.
- Geographical names must consist of identifiable words or acceptable combinations of words. Names that are discriminatory or derogatory based on race, sex, colour, or political affiliation shall not be approved.
- The spelling and use of diacritical marks will conform to the rules of the language in which the name is written.

## Yukon's Place Names Review Process

Place name applications are submitted to the Yukon government's Heritage Unit, a component of the Cultural Services Branch within the Department of Tourism and Culture. Processing place name applications in a timely manner is a priority of the YGPNB. However, the timeframe for processing an application may vary depending on several factors, including:

- Completeness of the application at the time of submission to the Place Names Program (L-2A), Heritage Unit, Cultural Services Branch;
- Whether the proposed place name site is on First Nation Traditional Territory, Settlement Lands, or on federal/territorial lands;
- Whether the site is situated within the boundaries of a park;
- The accuracy with which the geographic location of the site has been identified;
- The extent and quality of the historical and/or cultural background information provided.

## Naming Features on Settlement Lands

Under the Umbrella Final Agreement, the YGPNB is directed to consider the following procedures when reviewing place name applications on Traditional Territories:

- When considering the naming or renaming of place names or features located within the Traditional Territory of any Yukon First Nation, or when acting in coordination with a federal agency where joint jurisdiction exists, the YGPNB shall consult with the relevant Yukon First Nation or federal agency.
- A Yukon First Nation has the authority to name or rename geographic features located on its settlement land. Such names shall be deemed to have been approved by the YGPNB upon submission.
- Traditional Indigenous place names shall be included, to the extent practicable and in accordance with the map production specifications of Canada, on revised maps of the National Topographic System (NTS).

## Inquiries Concerning Yukon Geographical Place Names

For information regarding geographical names in Yukon, or the mandate of the Yukon Geographical Place Names Board, please contact:

Secretariat  
Yukon Geographical Place Names Board  
Box 31164  
Whitehorse, Yukon Y1A 5P7  
Tel: (867) 667-2200  
E-mail: [yukonplacenames@yknet.ca](mailto:yukonplacenames@yknet.ca)  
Web site: [www.yukonplacenames.ca](http://www.yukonplacenames.ca)

For inquiries regarding the Yukon geographical place names process, including matters related to spelling, new name proposals, modifications to existing names, or to request a status update on a submitted application, please contact:

Place Names Program Lead (L-2A)  
Government of Yukon  
Box 2703  
Whitehorse, Yukon Y1A 2C6  
Tel: (867) 667-3099  
E-mail: [geographical.names@yukon.ca](mailto:geographical.names@yukon.ca)  
Web site: [Yukon.ca/en/geographical-place-names](http://Yukon.ca/en/geographical-place-names)

## General Information

The information presented in this volume of the Gazetteer of Yukon has been compiled from the Yukon Geographical Place Names Database. In our commitment to remaining responsive to the needs of our clients, we welcome feedback on this publication. If you have any suggestions or comments regarding the content, style, or presentation, please contact the Place Names Program Lead at the address listed above.

## Understanding the information

The information below provides a quick summary of the data found in the remainder of the gazetteer.

**CGNDB Key:** A unique identifier given to each Official and Alternate Name by the Geographical Name Board of Canada. Each place name can be found online here: [Place names - Query by name](#)

**Official Name:** A geographic name that has been formally approved by the Minister of Tourism and Culture, based on the recommendation of the Yukon Geographical Place Names Board (YGPNB). Only Official Names are used in official publications, whether in print or digital formats.

**Alternate Name:** A geographic name that has also been approved by the Minister of Tourism and Culture upon recommendation of the YGPNB, which differs from the Official Name. Alternate Names reflect names in common or local usage and are officially recognized to support the preservation of First Nation languages. A geographic feature may have up to four Alternate Names.

### Glossary of Feature Types

<b>Arm</b>	Long narrow extension of a water body.	<b>Bar</b>	A ridge or succession of ridges of sand or other unconsolidated material extending across the mouth of a river, harbour or bay and which may obstruct navigation.
<b>Basin</b>	Part of a water course, which has been widened and deepened, generally located at the foot of a change of gradient, where the water is calmer than in the adjoining areas.	<b>Bay</b>	Water area in an indentation of the shoreline of a sea, lake or large river.
<b>Beach</b>	Gently sloping shore of unconsolidated material along the margins of a lake or a river.	<b>Bend</b>	Change in the direction of a watercourse.
<b>Bight</b>	Water area in a broad indentation of the shoreline.	<b>Bluff</b>	A steep-sided hill or promontory.
<b>Bottom</b>	Level land of valley floor.	<b>Branch</b>	Tributary to a river or creek.
<b>Brook</b>	Small watercourse, often tributary to a river or creek.	<b>Butte</b>	Conspicuous isolated hill with steep sides and a flat top.
<b>Canyon</b>	Deep narrow valley with precipitous walls.	<b>Cape</b>	Prominent elevated projection of land extending into a body of water.
<b>Channel</b>	Narrow stretch of water, either an inlet or a connection between two bodies of water.	<b>Cliff</b>	A steep rock face projecting nearly vertically from the surrounding land.
<b>Col</b>	Low point on a ridge joining two summits, usually enabling passage between them.	<b>Cove</b>	Water area in a small indentation of the shoreline of seas, lakes or rivers.
<b>Creek</b>	Watercourse, usually smaller than a river.	<b>Crossing</b>	A short stretch of stream where a boat, following a channel, crosses from one side to another.

<b>Delta</b>	Fan-shaped alluvial land at the mouth of a river, usually with distributaries, channels and small lakes.	<b>Dome</b>	Mass elevated above the surrounding terrain of rock or ice with rounded top.
<b>Elbow</b>	Sharp turn in a watercourse.	<b>Falls</b>	Perpendicular or Steep descent of water.
<b>Flats</b>	Level area of land usually composed of fine material, extending from the shore.	<b>Fork</b>	Branch of a stream.
<b>Gap</b>	Narrow opening through a ridge or mountain chain.	<b>Glacier</b>	Mass of permanent snow and ice flowing from an area of snow accumulation on high ground.
<b>Gulch</b>	Deep, steeply graded, V-shaped declivity, sometimes containing a stream.	<b>Harbour</b>	Sheltered water in a shoreline indentation suitable for mooring or anchoring vessels.
<b>Head</b>	High prominent land feature extending into a sea or lake.	<b>Hill</b>	Elevation of terrain rising prominently above the surrounding land.
<b>Island</b>	Land area is surrounded by water.	<b>Inlet</b>	Watercourse flowing into a sea or lake.
<b>Lake</b>	Inland body of standing water.	<b>Lagoon</b>	Body of water, separated from a lake, river or sea by a narrow land barrier, which may completely enclose or leave a shallow passageway into it.
<b>Meadows</b>	Low-lying flat, seasonally wet grassy area.	<b>Mount, Mountain</b>	Mass of land prominently elevated above the surrounding terrain, bound by steep slopes and rising to a summit and/or peaks.
<b>National Historic Park</b>	A place declared to be of national historic interest or significance by the Minister responsible for the administration of the Historic Sites and Monuments Act.	<b>National Park</b>	Legally defined land area under federal jurisdiction, maintained for the preservation and appreciations of wilderness and wildlife.
<b>National Park Reserve</b>	Lands set aside for the establishment of a National Park, but clear title to which is subject to the resolution of Yukon First Nation Land Claims.	<b>Pass</b>	Low opening in a mountain range or hills offering a route from one side to the other.
<b>Passage</b>	Narrow stretch of water between land masses, joining two larger bodies of water.	<b>Peak</b>	Summit of a mountain or hill, or the mountain or hill itself.
<b>Plateau</b>	Extensive, elevated region with either level terrain, or nearly uniform summit levels.	<b>Point</b>	Land area jutting into a water feature; also used for a convex change in direction of a shoreline.
<b>Pond</b>	Inland body of standing water, usually smaller than a lake.	<b>Pup</b>	Small watercourse possibly intermittent.
<b>Ramparts</b>	Steep rock wall (s).	<b>Range</b>	Group or chain of mountains or hills.
<b>Rapid, Rapids</b>	Fast-flowing section of watercourse, usually with turbulent water or exposed rocks.	<b>Reef</b>	Rocks rising to or near the surface of a body of water.

<b>River</b>	Water course of variable size, which has tributaries and flows into a body of water or a larger watercourse.	<b>Slough</b>	Backwater area, usually marshy; or a meander channel cut off from the main drainage.
<b>Spring</b>	Site of natural flowing of water issuing from the Ground.	<b>Stillwater</b>	Stretch of a watercourse where the surface appears motionless.
<b>Stretch</b>	Relatively straight section of a river, lake or inlet.	<b>Summit</b>	High point of a mountain.
<b>Territorial Park</b>	A legally defined land area, under territorial jurisdiction, for camping, outdoor recreation and preservation of wildlife.	<b>Tower</b>	A conspicuous mountain or pinnacle.
<b>Trail</b>	Rudimentary route, usually in a largely uninhabited or undeveloped place.	<b>Trench</b>	Large-scale elongated depression between mountain ranges.
<b>Uplands</b>	Area of elevated terrain.	<b>Valley</b>	Long relatively narrow depression, commonly containing a river or other water feature.

## NTS Sheet

The purpose of this column is to assist the user when a map is required. The National Topographic System (NTS) Sheet given for each approved name is the 1:50,000 scale. These map sheets can be accessed online at [Topographic maps](#). It should be noted that some of the names in the Gazetteer of Yukon may not be found on the referenced 1:50,000 map. This may occur because of congestion of named features, the small size of the named feature at that scale, or because the name was approved after the publication of the current edition of the map.

## Approved Names

Below are the official names for place name features in Yukon Territory as of August 2025.

**It is important to note that the Yukon Geographical Places Names Database may contain historical terminology that is considered racist, offensive and derogatory. The Government of Yukon is committed to addressing offensive place names and this work is ongoing.**
