

Consumer Price Index, December 2025

January 19, 2026

Comparing December 2025 to December 2024, the Consumer Price Index (CPI) increased 3.4% in Whitehorse (data are not available for Yukon). Whitehorse's year-over-year CPI change for the month of December 2025 was 1.0 percentage point higher than that for Canada (2.4%).

The main contributors to the year-over-year increase in Whitehorse CPI for the month of December 2025 were food purchased from restaurants; telephone services; and rent. Some of these increases were offset by price decreases in gasoline; travel tours; and purchase and operation of recreational vehicles.

On a monthly basis, the CPI in Whitehorse increased by 0.7% in December 2025 compared to November 2025; nationally, the CPI decreased by 0.2%.

Consumer Price Index, all-items

December 2025 (unadjusted), 2002 = 100

	Dec '24	Nov '25	Dec '25	Nov '25 to Dec '25	Dec '24 to Dec '25
	----- % change -----				
Canada	161.2	165.4	165.0	-0.2	2.4

Note to readers:

- The basket weights of goods and services used in the calculation of CPI are derived primarily from the national Household Final Consumption Expenditure (HFCE) data supplemented by the data from the Survey of Household Spending and provincial/territorial HFCE series.
- Percentages in this release are rounded to the nearest decimal place. Percentage points are the actual numerical difference between two rounded percentages, such as: 3.4% – 2.4% = 1.0 percentage point.
