

**Consumer Price Index, January 2026**  
February 17, 2026

Comparing January 2026 to January 2025, the Consumer Price Index (CPI) increased 3.2% in Whitehorse (data are not available for Yukon). Whitehorse's year-over-year CPI change for the month of January 2026 was 0.9 percentage points higher than that for Canada (2.3%).

The main contributors to the year-over-year increase in Whitehorse CPI for the month of January 2026 were food purchased from restaurants; rent; and homeowners' replacement cost. Some of these increases were offset by price decreases in travel tours; gasoline; and fuel oil and other fuels.

On a monthly basis, the CPI in Whitehorse decreased by 0.1% in January 2026 compared to December 2025; nationally, the CPI remained unchanged (0.0%).

**Note to readers:**

- The basket weights of goods and services used in the calculation of CPI are derived primarily from the national Household Final Consumption Expenditure (HFCE) data supplemented by the data from the Survey of Household Spending and provincial/territorial HFCE series.
- Percentages in this release are rounded to the nearest decimal place. Percentage points are the actual numerical difference between two rounded percentages, such as: 3.2% – 2.3% = 0.9 percentage points.
