Terms and conditions

Definitions:

NRCan – Natural Resources Canada

Appliance rebates: Appliance rebates are calculated at \$100 rebate per appliance in hydro-grid communities and \$300 per appliance in diesel-grid communities.

Hydro-grid communities: Carcross, Dawson City, Faro, Haines Junction, Keno, Mayo, Pelly Crossing, Ross River, Stewart Crossing, Tagish, Teslin, and Whitehorse.

Diesel-grid communities: Beaver Creek, Burwash Landing, Destruction Bay, Old Crow, Upper Liard, and Watson Lake. Off-grid applicants must provide property lot number for off-grid confirmation.

Eligible applicants: Owners of properties located in the Yukon including individual homeowners, businesses and organizations registered in the Yukon, Yukon municipalities and First Nation Governments.

Eligibility: Products, projects and services must be installed in buildings located in Yukon. Applicants must show proof that the appliance is ENERGY STAR-certified. This includes submitting the EnerGuide card or manufacturer specification sheet or be listed on [NRCan's searchable product list](#). Receipts and invoices must be dated within one year of the date the application package is submitted to the Energy Branch. The date of the invoice is considered to be the date of the most recent payment on the invoice. For new appliances installed in new buildings, receipts and invoices must be dated within one year of the new building's occupancy permit. A home or building that was recently built and is under 5 years is considered new. Appliances and products must be new. Used appliances and products are not eligible for this rebate.

Clothes washers, refrigerators, freezers, dishwashers and ventless-clothes dryers must be ENERGY STAR®-certified to qualify. ENERGY STAR appliances have an ENERGY STAR symbol featured on the EnerGuide card attached to the appliance (dealers must provide EnerGuide labels for products sold in Canada). ENERGY STAR appliances are listed on [NRCan's searchable product list](#).

Refrigerators and freezers must be 7.75 cubic feet or larger. (Compact refrigerators or freezers that are less than 7.75 cubic feet are not eligible.)

Dryers must be **ventless** and [ENERGY STAR-certified](#).

Receipts and invoices: Receipts and invoices must be legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Where applicable, supplied invoices must include the applicant's name given on this form. **Every invoice must have a zero balance owing or be noted as "paid in full" and initialed by the supplier.** Payment will be made to the individual or business identified on this application form. It is the applicant's responsibility to ensure that any other parties that may have participated in the purchase or project are aware of this rebate application and approve of these terms.

Limits to program: The Good Energy program is renewed annually pending fiscal year budget allocation. **This program is effective from April 1 to March 31 of a fiscal year. The program expires on March 31 unless it is renewed.** Rebate offers are subject to program funding and revision and may change or end at any time. The Government of Yukon does not give rebates that are more than the product, project or service value. Some of the Good Energy incentives and rebates are funded in part by the Government of Canada's Low Carbon Economy Fund.

Applications and payment: Receipts, invoices, and required documents must be dated within one year of the date application package is submitted to the Energy Branch. The Government of Yukon is not responsible for lost, late, misdirected, damaged, illegible, incomplete, or ineligible applications. Allow up to 12 weeks for payment. Payment may be done by direct deposit if you have been employed or under contract with the Government of Yukon.

Qualifying products: The Government of Yukon's Energy Branch relies on third-party standards to identify and validate energy efficient products, projects and services. In promoting these standards, the Energy Branch does not endorse any particular manufacturer, supplier, contractor or installer.

Personal information: Collection of this information is authorized by paragraph 15(c)(i) of the *Access to Information and Protection of Privacy Act* SY 2018, c.9 to determine whether you are eligible for a Good Energy rebate, issue payment, and provide you with updates to the Good Energy rebate program. For more information please contact the Manager – Energy Programs with the Energy Branch, Energy, Mines and Resources: 867-393-7063 or toll free: 1-800-661-0408 and ask to be transferred.

Disclaimer / no liability: The Government of Yukon Energy Branch's role is to incentivize the purchase of energy efficient products, projects and services. The Energy Branch is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. The Energy Branch does not guarantee energy saving results by approving an application. The Energy Branch is not responsible for claims by third parties about the Good Energy program, rebates and product eligibility.
