

Quick Start energy efficiency items request form

We offer a variety of energy-saving items for free. These are easy-to-use items that you can install to increase your home’s energy efficiency. View the [installation guide](#) or for more information on our energy incentives and rebates, visit yukon.ca/good-energy

For residents living outside of the Whitehorse area: In the list, click on links to view items. Select items you can use in your home and complete the form. We will mail you the items selected. **Note:** Limit of one item per household.

For air sealing:

- [caps for electrical outlets](#), pack of 4, use on exterior walls.
- [gaskets for switches and outlets](#), pack of 12, use on exterior walls.
- **caulking** – two options:
 - [small squeeze tube](#) – does not require a caulking gun.
 - [large tube](#) – requires a caulking gun.
- [plastic film kit for windows](#), pack of 5.

For water saving:

- **shower head** – two options:
 - [low-flow](#) - with Teflon tape.
 - [handheld](#), low-flow.
- kitchen [faucet aerator](#)** – comes with Teflon tape.

For energy efficiency:

- [LED light bulb](#) – replaces a 60 watt bulb.
- [LED night light](#) – automatically on when dark.
- [temperature card](#) – measures the temperature in your refrigerator, freezer or of your hot water, works like a “mood ring”.
- **hot water pipe insulation** – two options:
 - [1.27 cm \(half inch\) diameter](#) by 91 cm (3 feet) long.
 - [1.9 cm \(three-quarter inch\) diameter](#) by 91 cm (3 feet) long.

Install on hot water pipes closest to the hot water tank.
