

AIR EMISSION REGULATIONS
**APPLICATION FOR AN AIR EMISSIONS PERMIT
STRUCTURE BURNING**

Activity-specific form for demolition of a structure by burning

- This form must be submitted with the **General Application for an Air Emissions Permit**.
- Additional information may be required upon receipt of this application.

Read carefully and fill out all sections.

Part 1 - Burn details

1. What is the approximate mass of solid waste that will be burned? _____ kg
 - a) Will the burning be conducted in batches or continuously? _____
 - b) If conducted in batches, how often will the burning occur and over what period of time (e.g. days, weeks)? _____
 - c) If conducted in batches, what is the approx. mass of solid waste that will be burned during each batch? _____ kg
2. Describe the precautions will be taken to ensure that the burn is conducted in a manner safe for humans and the environment. (Attach a separate sheet if necessary.)
3. Describe the specific types of solid waste that will be burned and approximate mass of each type. (Attach a separate sheet if necessary.)
4. Describe in detail any alternative options for disposing of the structure(s). Discuss feasibility, estimated cost, environmental concerns, and other relevant information of each option as compared to burning. (Attach a separate sheet if necessary.)
5. Will the burn be conducted by a fire department for training purposes? Yes – go to Part 2 No – skip to Part 3

Part 2 - Fire department burns

This part is to be filled out and approved by the fire department in charge of the **burn before submitting the completed application**. The fire department has the right to refuse to burn a structure, before or after agreeing to do so, for any reason.

Note: that Yukon Environment reserves the right not to issue a structure burning permit regardless of whether or not a fire department accepts the structure for training purposes.

6. Provide the following information about the structure:
 - a) Age _____
 - b) # of floors _____
 - c) Can the structure be entered safely and can the floors carry a load? _____
 - d) Describe the equipment staging area (e.g. is there an open area for equipment, manpower and fire vehicles near the structure) _____

7. Have you applied for a municipal or Yukon government burn permit? Yes: permit number _____ No

I, _____, am the authorized representative of _____,
PRINT NAME CLEARLY FIRE DEPARTMENT
and I certify that the structure identified in this application will be burned by the department for fire training purposes.

Representative of fire department

Date (YYYY/MM/DD)

Part 3 - Burns by property owners

8. Describe how ash resulting from the burning will be disposed of and any analyses that will be performed on the ash to determine its characteristics.

9. For structures located outside the city of Whitehorse boundaries, have you received approval from the Fire Marshal's Office

Yes: Contact name _____ Date of approval _____ No

10. Have you applied for a municipal or Yukon government burn permit? Yes: permit number _____ No

This information is being collected under the authority of section 11 of the Air Emissions Regulation, section 9 of the Solid Waste Regulations and/or section 9 of the Special Waste Regulations. Information collected on this form is pursuant to the Access to Information and Protection of Privacy Act, S.Y. 2018, c.9, s.15(a)(i) and may be disclosed. For further information, please contact Access and Privacy Analyst, Environment, Government of Yukon, P.O. Box 2701, Whitehorse, YT Y1A 2C6, 867-471-0020, or env.privacy@yukon.ca.
