## Note to readers:

- In 2025, in response to the impact of US tariffs, the Government of Canada (GC) introduced temporary special measures to the Employment Insurance (EI) Work-Sharing Program with effect from March 7, 2025 to March 6, 2026. On March 11, 2026, Work-Sharing supports were extended to March 31, 2027.
- In addition, GC announced additional temporary measures that include: (a) increasing regional unemployment rates used to determine hours needed to qualify for EI benefits for claims between April 6, 2025 and October 11, 2025; (b) eliminating the one-week waiting period for all new EI claims that start between March 30, 2025 and October 10, 2026; (c) exempting earnings received from separation (e.g., severance or vacation pay) for claims starting between March 30, 2025 and October 10, 2026; and (d) increasing the number of weeks of regular benefits for long-tenured workers, up to a maximum of 65 weeks, for claims that start between June 15, 2025 and October 10, 2026.
- The number of regular EI beneficiaries for the current month and the previous month are subject to revision.
- The number of beneficiaries is a measure of all people who received regular EI benefits during the reference week of the Labour Force Survey (LFS). The reference week for the LFS is usually the week containing the 15th day of the month.
- Figures are rounded to the nearest 10.
