

Natural Resources Sector, 2024

October 19, 2026

In 2024, Yukon's *Natural resources* sector contributed \$220 million to real Gross Domestic Product (GDP) (in 2017 chained dollars), a decrease of \$71 million, or 24.4%, from the 2023 revised figure (\$291 million). Nationally, the *Natural resources* sector real GDP (in 2017 chained dollars) increased by 1.9% over the same period.

Of Yukon's real GDP attributable to the *Natural resources* sector in 2024 (\$220 million), the majority (68.2%) was from the *Mineral and mining* subsector. The *Energy* subsector accounted for 24.5% of Yukon's *Natural resources* sector GDP, followed by the *Hunting, fishing and water* subsector (5.5%) and the *Forest* subsector (1.8%).

In 2024, Yukon's *Natural resources* sector accounted for 1,099 jobs, a decrease of 109, or 9.0%, compared to the 2023 revised figure (1,208 jobs). During the same period, nationally, the number of jobs attributed to the *Natural resources* sector increased by 0.9%.

Natural resources sector, real Gross Domestic Product (2017 chained dollars)

	Canada			Yukon		
	2023 ^r	2024	% Change	2023 ^r	2024	% Change
	----- (\$000,000) -----			----- (\$000,000) -----		
Natural resources sector 1	225,355	229,527	1.9%	291	220	-24.4%
Energy sub-sector	154,153	158,273	2.7%	55	54	-1.8%
Forest sub-sector	16,917	16,723	-1.1%	3	4	33.3%
Mineral and mining sub-sector	47,397	47,560	0.3%	221	150	-32.1%
Hunting, fishing and water sub-sector	10,550	10,713	1.5%	12	12	0.0%

Natural resources sector, number of jobs

	Canada			Yukon		
	2023 ^r	2024	% Change	2023 ^r	2024	% Change
	----- Number of jobs -----			----- Number of jobs -----		
Natural resources sector 1	665,042	671,064	0.9%	1,208	1,099	-9.0%
Energy sub-sector	319,794	325,482	1.8%	150	145	-3.3%
Forest sub-sector	122,446	117,676	-3.9%	55	55	0.0%
Mineral and mining sub-sector	217,838	221,614	1.7%	986	881	-10.6%
Hunting, fishing and water sub-sector	23,677	24,819	4.8%	21	21	0.0%

Note to readers:

- The release incorporated new benchmark values from the supply and use tables for the 2021 reference year.
- Volume and price estimates for the natural resources gross domestic product are given for the 2017 (2017=100) reference year.
- The Natural Resource Indicators provide quarterly indicators for the main aggregates in the Natural Resources Satellite Account (NRSA), namely gross domestic product, output, exports, imports and employment. The estimates from this account are directly comparable with the estimates in the Canadian System of Macroeconomic Accounts.
- Data on provincial and territorial natural resources for 2024 have been released along with revised data back to 2022.
- Data on international and interprovincial trade by province and territory will be released by Statistics Canada at a later date.
- Data may not add up to totals due to rounding.
