¹ Wholesale (sales and inventories) values presented in this release exclude Petroleum, petroleum products, and other hydrocarbons; and exclude Oilseed and grain. These exclusions allow greater comparability between figures for Canada and Yukon.

Note to readers:

- Wholesale sales data for Yukon presented in this report were unavailable due to residual suppression from July 2022 to November 2024 (seasonally adjusted data) and from July 2022 to January 2025 (unadjusted data). January 2026 is the first reference month for which year-over-year comparisons of both data series are available for Yukon.
- Changes in value and percentage changes presented in this release are derived from unrounded numbers.
- Unless otherwise stated, figures in this release are presented in current dollars and do not correct for inflation.
- Seasonally adjusted data facilitate month-over-month and year-over-year comparisons by removing the effects of seasonal variations.
