Yukon Bureau of Statistics

Wholesale Trade, May 2026
July 15, 2026

In May 2026, the preliminary value (not adjusted for seasonality) of wholesale sales (excluding petroleum, petroleum products, oilseed, and grain)[1] in Yukon was $22.3 million. This was an increase of $1.0 million, or 4.5%, compared to May 2025 ($21.4 million). In Canada, the value of wholesale sales (excluding petroleum, petroleum products, oilseed, and grain)[1] increased by 4.3% over the same period.

On a year-to-date basis (January through May 2026), wholesale sales[1] in Yukon totalled $97.0 million, an increase of $17.4 million, or 21.9%, compared to the same period in 2025 ($79.6 million). Canada's year-to-date wholesale sales[1] increased 3.7% over this period.

[r] = revised
[p] = preliminary

[1] Wholesale (sales and inventories) values in this release exclude *Petroleum, petroleum products, and other hydrocarbons*; and exclude *Oilseed and grain*. These exclusions allow greater comparability between figures for Canada and Yukon.
[2] All values are in current dollars.
[3] Percent changes are based on rounded numbers.

Note to readers:

- Wholesale sales data for Yukon presented in this report were unavailable due to residual suppression from July 2022 to November 2024 (seasonally adjusted data) and from July 2022 to October 2024 (unadjusted data).
- Seasonally adjusted data facilitate month-to-month comparisons by removing the effects of seasonal variation.
- Unadjusted data facilitate comparisons of the cumulative change throughout a calendar year.
- Data in this release are presented in current dollars and do not account for inflation.
- Changes in value and percentage changes presented in this release are derived from rounded numbers.
