

Highlights

- In December 2019, Yukon's unemployment rate (4.5%) increased by 0.5 percentage points compared to November 2019 (4.0%).
- Compared to November 2019, Yukon's labour force decreased by 200 to 22,200, the number of employed decreased by 400 to 21,100 and the number of unemployed increased by 100 to 1,000.
- Nationally, the December 2019 the unemployment rate (5.6%) decreased by 0.3 percentage points compared to November 2019.
- Compared to November 2019 figures, the labour force in Canada decreased by 0.1%; the number of employed increased 0.2%; and the number of unemployed decreased by 4.3%.

December 2019

Yukon Employment at a Glance:

Labour Force	22,200
Employed	21,100
Unemployed	1,000
Unemployment Rate	4.5%
Employment Rate	70.6%

Notes: All figures are based on Statistics Canada's Labour Force Survey (LFS) estimates. Statistics Canada reports LFS figures rounded to the nearest hundred. Therefore, components may not add up to the total.

Analyses and data tables in pages 1 through 4 are based on seasonally adjusted numbers. Unadjusted figures are available on pages 5 through 7.

Seasonally adjusted employment figures are widely used and quoted, as they are considered to be a more accurate picture of the current employment situation than unadjusted figures. Some variables, however, are only available on an unadjusted basis. Comparisons between adjusted and unadjusted figures should not be made. For more information, see [definitions on page 8](#).

Comparisons with Canada, Provinces and Territories - Snapshot

The participation rate measures the percentage of the population aged 15 years and over, which is working or actively looking for work. In December 2019, Yukon's participation rate (74.2%) was the highest in Canada, followed by Alberta (70.7%).

Yukon's December 2019 employment rate (the percentage of the population aged 15 years and over, which is employed), was 70.6%, also the highest in Canada, followed by Alberta (65.8%).

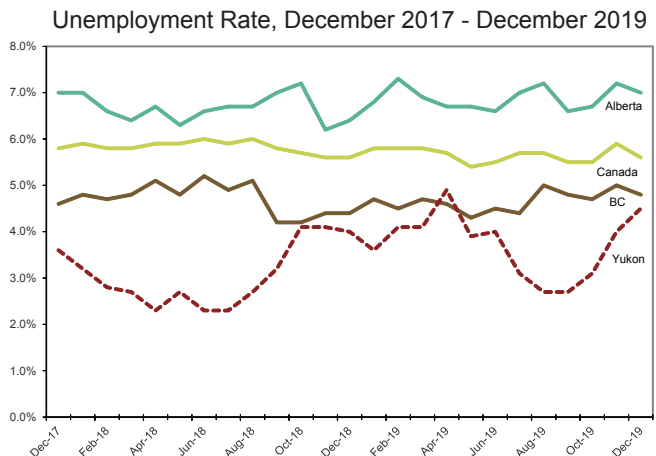

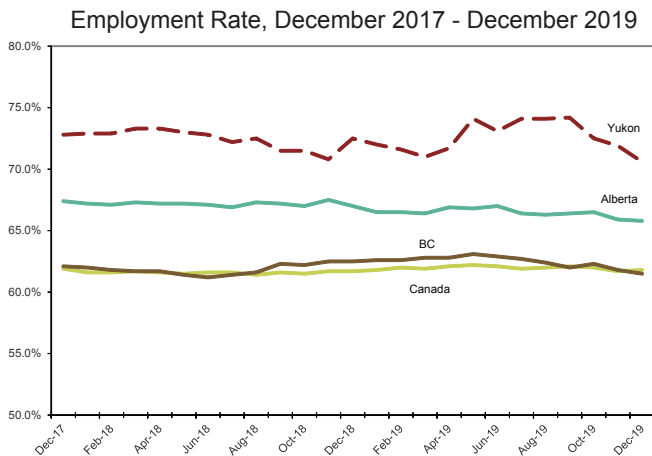

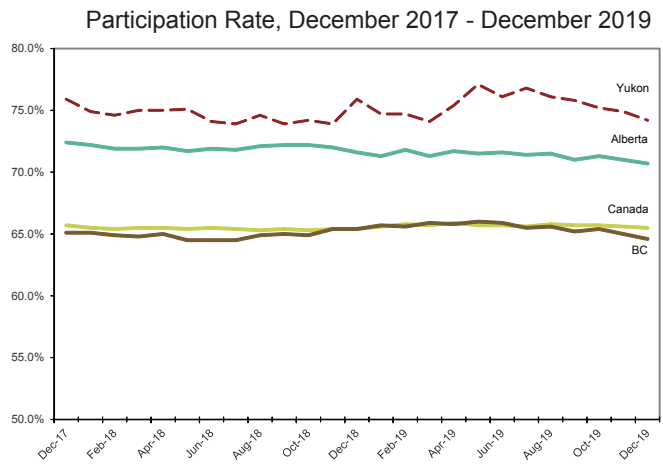

Comparisons with Canada and Selected Provinces - Historical

The Labour Force Survey estimates that 74.2% of Yukoners aged 15 years and over were employed or seeking employment in December 2019.

Yukon's participation rate in December 2019 (74.2%) decreased by 0.7 percentage points compared to November 2019 (74.9%) and decreased by 1.7 percentage point compared to the rate in December 2018 (75.9%).

The December 2019 employment rate of 70.6% decreased by 1.3 percentage points compared to November 2019 (71.9%) and decreased by 1.9 percentage points compared to December 2018 (72.5%).

Yukon's labour market in terms of participation rate and employment rate tends to be similar to Alberta's. However, as is often the case with a small population base, our rates show a higher degree of volatility.

Employment by Age and Sex, December 2017 - December 2019

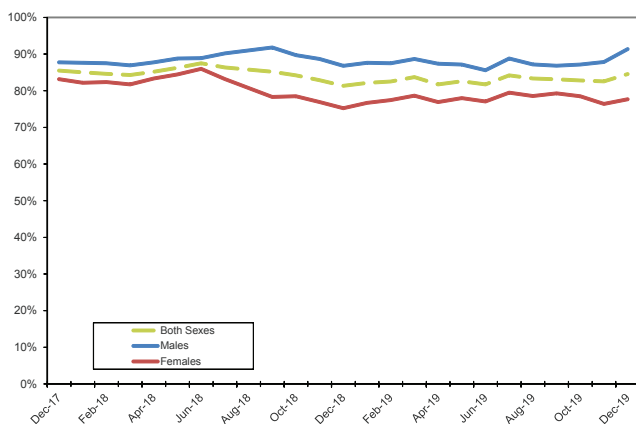

Unemployment Rate by Age and Sex, December 2017 - December 2019

- Comparing December 2019 to November 2019, the unemployment rate for males aged 15 years and over increased from 3.6% to 4.6%, and the rate for males aged 25 years and over remained the same at 3.1%. Over the same period, the rate for females aged 15 years and over increased from 3.6% to 4.6%, and the rate for females aged 25 years and over increased from 3.1% to 5.2%.
- The unemployment rate for Yukon's youth (aged 15-24) increased from 8.0% in November 2019 to 12.5% in December 2019.

Employment, *Unadjusted*, by Full-time/Part-time, December 2019

Full-time employment as a percentage of all employment, December 2017 - December 2019

- Of employed Yukoners aged 15 years and over, 17,500, or 84.5%, were employed full-time in December 2019. This was the fourth-highest proportion among all other jurisdictions. Nationally, 80.3% of employed Canadians worked full-time in December 2019.
- Of employed Yukon males, 91.3% worked full-time, compared to 77.7% of employed Yukon females.
- Comparing December 2019 to November 2019, full-time employment remained the same at 17,500. Part-time employment decreased by 500 to 3,200.

Employment, *Unadjusted*, by Industry, December 2019

	Both sexes	Males	Females
Total employed	20,700	10,400	10,300
Goods-producing sector	3,300	2,800	500
Forestry, fishing, mining, oil and gas	500	400	x
Construction	2,100	1,900	200
Services-producing sector	17,400	7,600	9,800
Trade	2,400	1,300	1,100
Transportation and warehousing	800	600	x
Finance, insurance, real estate and leasing	600	200	400
Professional, scientific and technical services	1,300	800	500
Educational services	1,700	600	1,100
Health care and social assistance	3,600	900	2,700
Information, culture and recreation	1,000	600	400
Accommodation and food services	900	300	600
Other services	700	300	500
Public administration	4,100	1,800	2,300

- In December 2019, 17,400, or 84.1% of working Yukoners were employed in the services-producing sector, while 3,300, or 15.9%, were employed in the goods-producing sector.

- Of Yukoners working in the goods-producing sector, 63.6% had jobs in the construction industry and 15.2% had jobs in the forestry, fishing, mining and oil and gas industry.

- While females accounted for 56.3% of workers in Yukon's services-producing sector, only 15.2% of the goods-producing sector workers were female.

Goods- and services-producing sectors

The goods-producing sector includes industries that are involved in extracting resources directly from the earth (e.g. farming, mining, logging) or processing the resources (e.g. utilities, construction, manufacturing). Yukon's goods-producing sector consists primarily of industries in construction and mining.

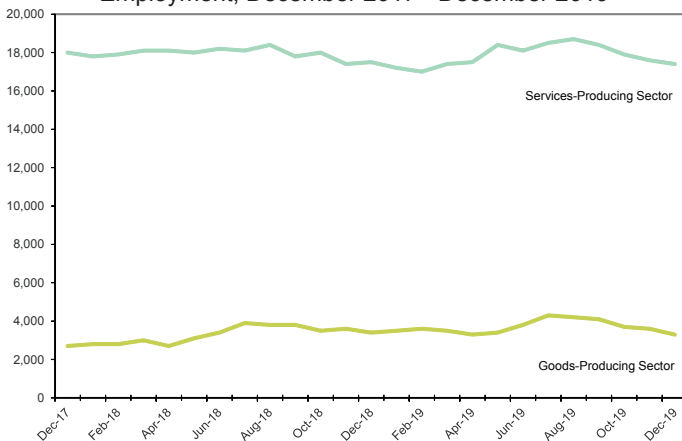

The services-producing sector includes industries involved in the provision of services.

Notes:

The sum of industries does not equal sector totals as industries with fewer than 500 workers are not shown; row data may not add up to industry totals due to rounding.

'Industry' refers to the general nature of the business carried out by the employer for whom the LFS respondent works (main job only).

Goods- and Services-Producing Sectors, Employment, December 2017 - December 2019

- Employment in Yukon's goods-producing sector peaked in July 2019 with 4,300 workers. Employment in the services-producing sector reached a record-high level (19,100) in July 2017.

- Comparing December 2019 to November 2019, employment in the goods-producing sector decreased by 300 to 3,300 and employment in the services-producing sector decreased by 200 to 17,400.

Public and Private Sectors, *Unadjusted*, December 2019

	Both sexes	Males	Females
Total Employed	20,700	10,400	10,300
Public sector employees	9,100	3,500	5,600
Total private sector	11,500	6,900	4,600
Private sector employees	7,800	4,500	3,300
Self-employed	3,700	2,400	1,300

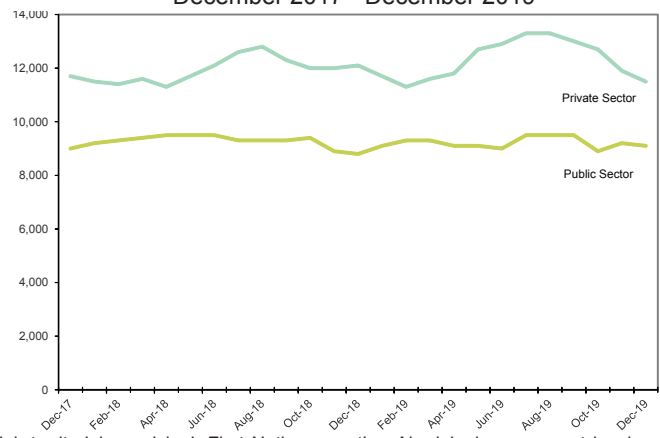

Note: Data may not add up to the totals due to rounding.

- In December 2019, 44.2% of working Yukoners were employed by one of the four levels of government in the territory.

- In the private sector, 32.2% were self-employed.

- Comparing December 2019 to November 2019, private sector employment decreased by 400 to 11,500 and public sector employment decreased by 100 to 9,100.

Public/Private Sector Employment, December 2017 - December 2019

Notes:

'Employees' include full-time, part-time, permanent and temporary employees.

'Public employees' are those who work for: a government at the federal, provincial, territorial, municipal, First Nations or other Aboriginal government level; a government service or agency; a Crown corporation; or for a government funded establishment such as schools (including colleges/universities), hospitals and public libraries.

'Private employees' include all employees who work for private firms or businesses.

Labour Force Survey Definitions

Employment — Employed persons are those who, during the reference week, did any work for pay or profit, or had a job and were absent from work.

Employment rate — Also referred to as “employment/population ratio,” it is the number of employed persons expressed as a percentage of the population aged 15 years and over. The employment rate for a particular group (for example, women aged 25 years and over) is the number employed in that group expressed as a percentage of the population for that group.

Goods-Producing Industries — Goods-Producing Industries (or goods sector, or goods industries): includes agriculture, other primary industries (forestry; fishing and trapping; mines, quarries and oil wells), manufacturing, construction and utilities (electric power, gas and water).

Labour force — The labour force is the civilian non-institutional population 15 years of age and over who, during the survey reference week, were employed or unemployed.

Not in the labour force — Persons not in the labour force are those who, during the reference week, were unwilling or unable to offer or supply labour services under conditions existing in their labour markets; that is, they were neither employed nor unemployed.

Participation rate — The participation rate is the total labour force expressed as a percentage of the population aged 15 years and over. The participation rate for a particular group (for example, women aged 25 years and over) is the labour force in that group expressed as a percentage of the population for that group.

Reference Week — The reference week is the entire calendar week (from Sunday to Saturday) covered by the Labour Force Survey each month. It is usually the week containing the 15th day of the month. The interviews are conducted during the following week, called the Survey Week, and the labour force status determined is that of the reference week.

Seasonal adjustment — Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those that are caused

by regular annual events such as climate, holidays, vacation periods and cycles related to crops, production and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contain irregular as well as longer-term cyclical fluctuations.

Self-employed — There are two broad categories of workers: those who work for others and those who work for themselves, namely, the self-employed. The self-employed includes working owners of incorporated businesses, working owners of unincorporated businesses and other self-employed.

Service-Producing Industries — Service-Producing Industries (or service sector, or service industries): includes trade; transportation and warehousing; finance, insurance, real estate and leasing; professional, scientific and technical services; management, administrative and other support; educational services; health care and social assistance; information, culture and recreation; accommodation and food services; other services; and public administration.

Three-Month Moving Average — All monthly figures for the Territories, whether seasonally adjusted or unadjusted, are three-month moving averages – for example, the March 2011 unemployment rate of 4.5% is actually an average of the unemployment rates for the months of January, February and March. April’s unemployment rate became the average of the rates for February, March and April. Because they are three-month moving averages, the Territories’ figures are not included in the calculation of Canada’s numbers.

Unemployment — Unemployed persons are those who, during the reference week, were available for work and were either on temporary layoff, had looked for work in the past four weeks, or had a job to start within the next four weeks.

Unemployment rate — The unemployment rate is the number of unemployed persons expressed as a percentage of the labour force. The unemployment rate for a particular group (age, sex, marital status, etc.) is the number unemployed in that group expressed as a percentage of the labour force for that group.
