Northwest Territories	61,750	65,450	58,510	89.4%
Nunavut	40,250	42,040	38,160	90.8%

Notes to readers:

- Only tax filers 15 years of age and over, as of December 31 of the specified year, with wages, salaries and commissions are included.
- For the 2019 tax year, the extension of the filing and payment deadlines of income taxes had a small impact on the number of tax filers included in the preliminary tax data. Therefore, caution should be used when interpreting moderate changes in counts and aggregate amounts between 2019 and other years.
- Wages, salaries and commissions include employment pay and commissions as stated on T4 information slips, training allowances, tips, gratuities and royalties. It also includes tax-exempt employment income earned on an Indian reserve.
- All figures for previous years are in constant dollars and have been adjusted for inflation.
