## A. Introduction

The 2017 Yukon Housing Corporation Survey was designed by the Yukon Housing Corporation (Government of Yukon) and was conducted by the Yukon Bureau of Statistics. The purpose of this household survey was to collect information to gain an understanding of public awareness and perception of Yukon Housing Corporation (YHC) programs and services. The results will help YHC develop communication and marketing plans.

## B. Methodology

The Yukon Bureau of Statistics fielded the Yukon Housing Corporation Survey in combination with the Government of Yukon Communications Survey between February 8 and March 31, 2017. The survey was conducted over the phone.

The Yukon Bureau of Statistics used its household survey frame to draw a random sample of all Yukon households. The sample was stratified to represent all Yukon communities. From a total sample of 3,692 households, 2,433 eligible respondents were identified. Those with invalid or incorrect contact information who could not be traced were removed from the sample.

Analytical weights were applied to the responses to correct for non-response and to adjust for the community of residence, age and sex of the respondents. The weighted response rate for the survey was 60.2%, while the refusal rate was 10.6%.

## C. Results

Ninety-three percent<sup>1</sup> of Yukon residents have heard of the Yukon Housing Corporation (YHC). The majority have heard of YHC's awareness programs on topics such as radon and carbon monoxide safety (67%), home repair loans and grants (61%), and home ownership programs (58%). See Figures 1 and 2.

<sup>1</sup> All percentages given in the results section of this report are estimates of the adult Yukon population. Survey responses have been weighted to adjust for the community of residence, age and sex of the respondents.

Figure 1. Percent of Yukon residents (age 18+) who had heard of the Yukon Housing Corporation

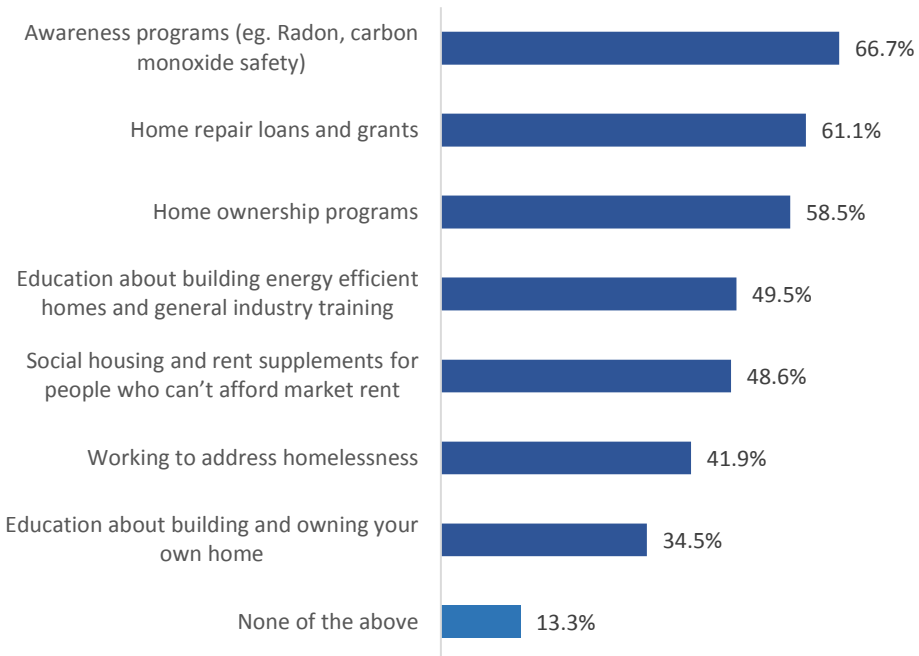

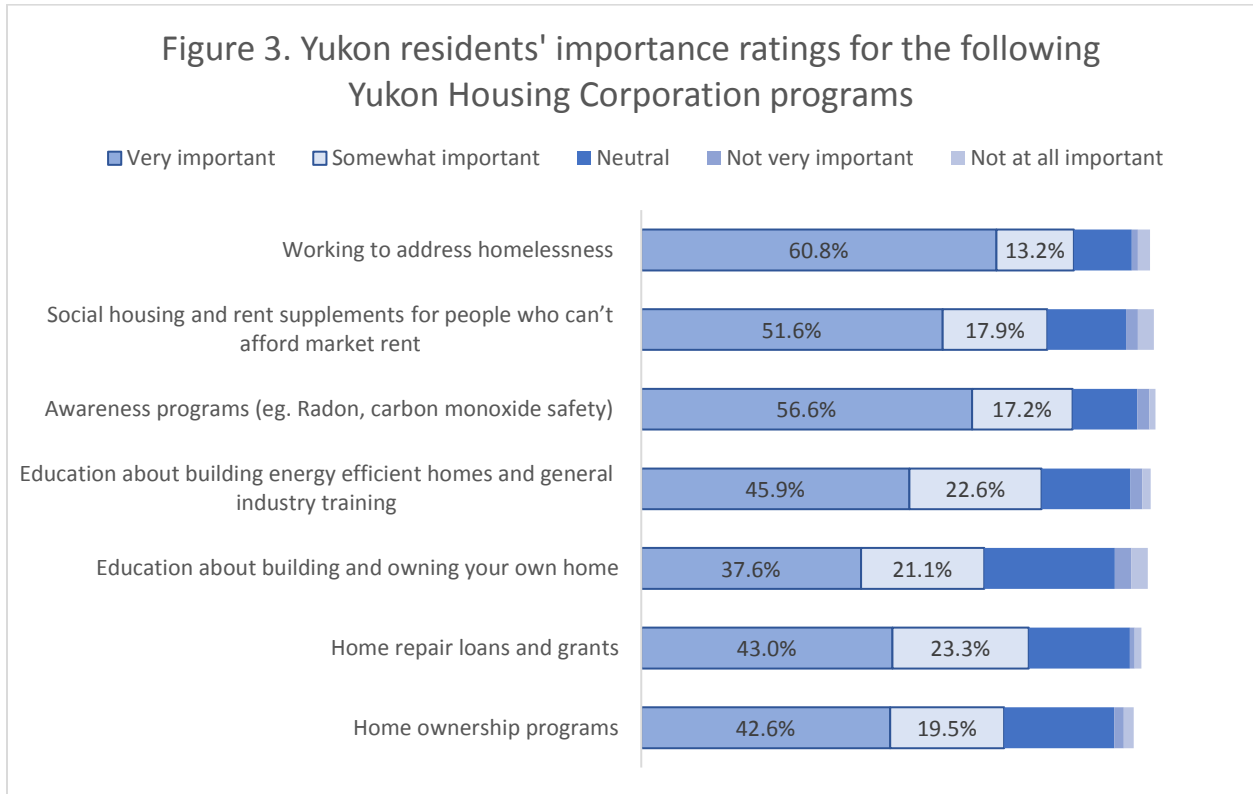

Figure 2. Percent of Yukon residents (age 18+) who had heard of the following Yukon Housing Corporation programs

The majority of Yukon residents think YHC programs are ‘very important’ or ‘somewhat important’ (Figure 3).

Twenty-nine percent of Yukon residents have accessed YHC programs or services. Eleven percent have accessed YHC home repair loans and grants; 7% have accessed the home ownership programs, and 6% have accessed social housing and rent supplements. See Figures 4 and 5.

Figure 4. Percent of Yukon residents (age 18+) who have accessed Yukon Housing Corporation programs and services

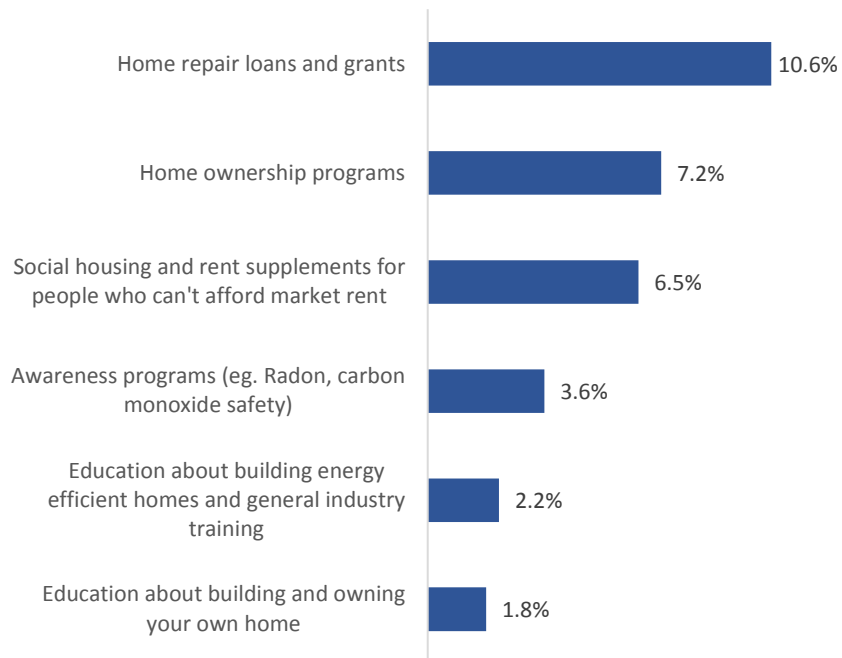

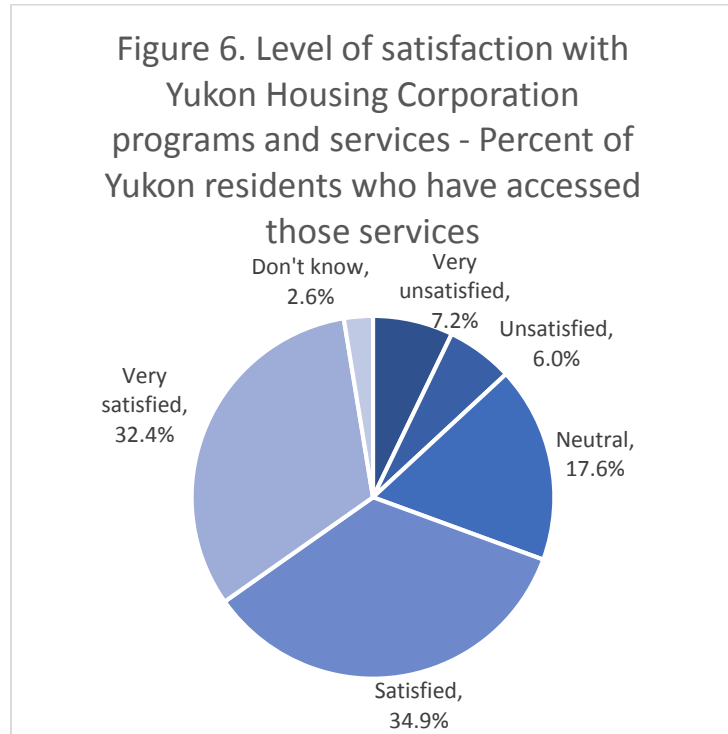

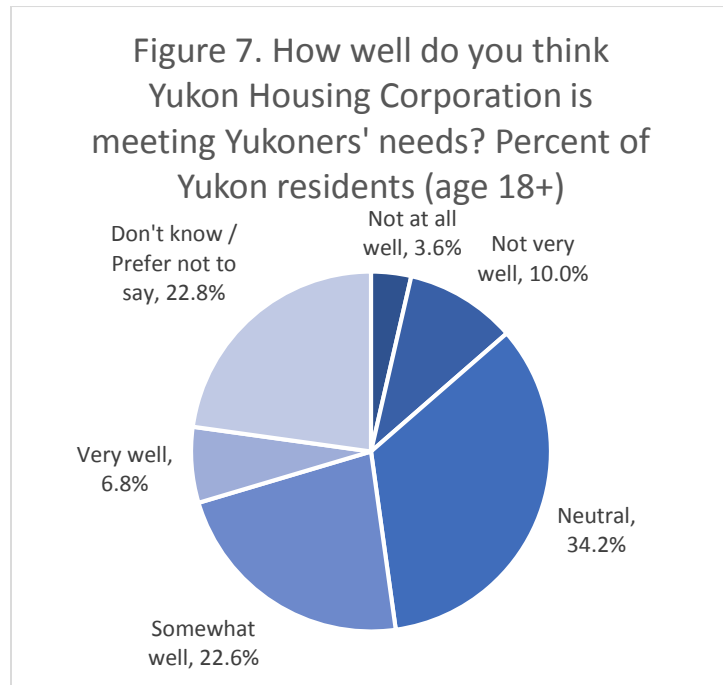

Figure 5. Percent of Yukon residents (18+) who have accessed the following Yukon Housing Corporation programs and services

Of those Yukon residents who have accessed YHC programs and services, 67% are either 'very satisfied' or 'satisfied' with those programs and services (Figure 26).

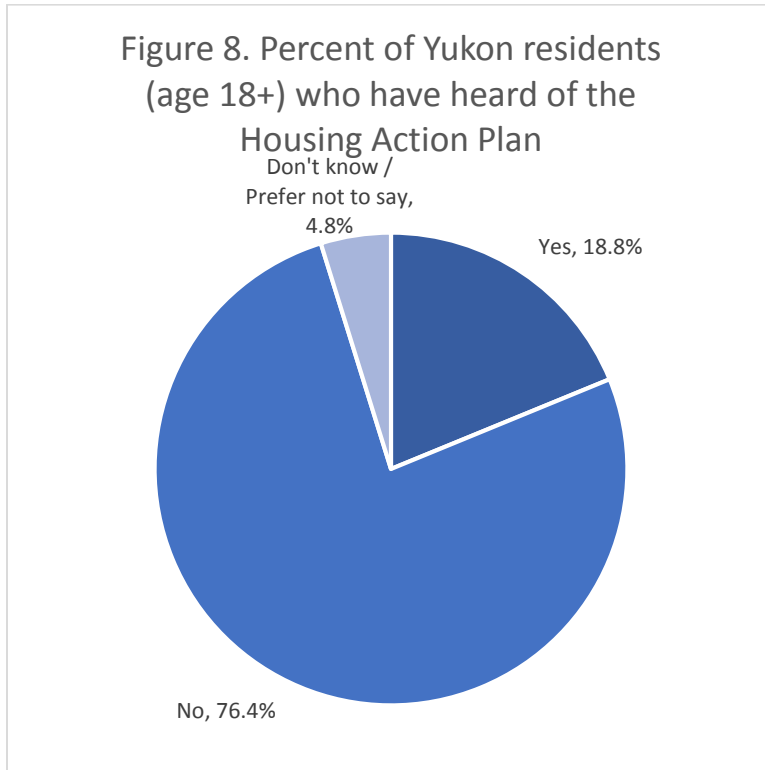

Twenty-nine percent of Yukon residents think YHC is meeting Yukoners' needs 'very well' or 'somewhat well' (Figure 7). Fifty-seven percent are neutral, don't know or preferred not to respond to the question. Fourteen percent think YHC is not meeting Yukoners' needs well.

Respondents were asked if they have heard of the Housing Action Plan; most had not heard of it before (Figure 8).

Twenty-eight percent of Yukon residents have visited the YHC website (Figure 9). The most popular topics were home repair loans and grants (37% of those who have visited the website), and home ownership programs (31%; see Figure 10). Other types of information people said they had looked for include: general information on programs and services; contact information; laws, rules and regulations; places to rent; and a variety of other topics. The full list of topics is included in Appendix 1.
