

Evacuation Alert

For areas of Ross River along the Canol Road between Sawmill Road and the Pelly River ferry landing

June 11, 2022

An Evacuation Alert has been issued by Yukon Emergency Measures Organization. The affected properties are in Ross River along the Canol Road between Sawmill Road and the Pelly River ferry landing. Other areas may be affected as time goes on.

This alert is because of the potential impacts of flooding in the area near the Pelly River. Residents in the affected area are being notified by incident staff. If you are in the affected area, you should be ready to leave within an hour of being notified.

When preparing to evacuate, you should:

- Locate all family members and choose a safe meeting place;
- Gather important things like medication, eye glasses, valuable papers and immediate care needs for dependents;
- Move livestock or pets to a safe area;
- Arrange transport for your household members in anticipation of a potential evacuation;
- Arrange accommodation for your family. In the event of an evacuation, emergency accommodation may be provided, if needed; and
- Look for updates from local news sources and [Yukon.ca/emergencies](https://www.yukon.ca/emergencies).

The Canol Road is closed to non-local traffic north of the Pelly Road. Due to heavy equipment activity, non-residents should avoid this area.

For more information, visit [Yukon.ca/emergencies](https://www.yukon.ca/emergencies).
