Preface

Notes and Caveats

- Students can voluntarily self-identify. The Self-Identification categories are:
 - Yukon First Nation (YFN), Other Aboriginal (OA) or Non-First Nation (non-FN).
- Schools are organized by urban and rural regions. Yukon Wide includes all urban and rural schools, but does not include virtual schools or home schooled students.
- Some charts include small numbers and thus the illustration may or may not be relevant. Please consider the data table in conjunction with the chart when reviewing.
- In some cases, population segment numbers less than 10 have been masked or omitted to protect the personal and private information of the student.
- The data and analysis are as to-date as possible.
- The Department of Education makes small and continuous improvements to the quality of its data and analysis. Sometimes these changes result in differences from previously published reports. The data and analysis in this report are the most accurate data available at time of publication.

2 Individual Education Plan Counts

An Individual Education Plan (IEP) is a documented plan developed for a student with special education needs that describes individualized goals, adaptations, modifications and the services to be provided, including measures for tracking achievement.

Please note IEP counts are subject to a small degree of variability due to shifts in Department direction for who is eligible for an IEP during these years.

This IEP metric is very specific to the above described plan and does not include any other support plans or programs.

3 Absenteeism

Absent days are defined as school days missed by students enrolled at Yukon public schools for that school year. Partial days are estimated and appropriately summed into the count, as per the Yukon Education Student Attendance Policy (Appendix 'C' Aspen Yukon Daily Attendance Standards).

Absent days include all excused and unexcused absences, but does not include absences from school related activities.

Absent days do not include days recorded for Early Learning or K4 Programs or at the Individual Learning Centre.

Absent days are either summarized by Attendance school (for Average Absent Days) or by Student (for Student Distribution by Number of Absent Days)

Attendance school

Attendance school is defined as the school students take courses at. At the secondary level enrolment and attendance school can differ for certain courses. Average absent days are reported and counted at the attendance school.

Enrolment school

Enrolment school is defined as the school a student is enrolled at (as of May 31st or the student's last know school). The distribution of students by number of absent days is determined by students grouped by "Enrolment" school.

4 Kindergarten Evaluations

4.1 Boehm Test of Basic Concepts 2018-19

The Boehm Test of Basic Concepts Third Edition (Boehm-3) is a comprehensive assessment for Kindergarten students that contains 50 basic concepts.¹ The test can be used to identify students at risk for academic delays and to monitor progress. This test is administered twice a year: once in the fall, between October to November; and once in the spring, from April to May.

Form E is used for pre-testing in fall and form F is used for post-testing in spring. Scoring for both the fall and spring tests are equivalent. However, the classification scale differs between fall and spring.

Boehm Code	Boehm Observation	Boehm Form E (Fall)	Boehm Form F (Spring)
NC	No Concern	44 - 50	47 - 50
CI	Classroom Intervention	33 - 43	43 - 46
NI	Needs Investigation	1 - 32	1 - 42

Please note the increase in scale from fall to spring.

The classification for each student is determined using the appropriate form E/F scale.

All students are tested in fall and in spring.

Students who were not tested are marked as “Unknown” and are excluded from this report.

4.2 Early Years Evaluation – Teacher Assessment

The Early Years Evaluation – Teacher Assessment (EYE-TA) provides a systematic framework that teachers can use to structure their frequent observations and informal assessments. The skills assessed by the EYE-TA are instructionally relevant and are a snapshot of the students at that time. The EYE-TA assesses the following five aspects of early child development that are closely related to school preparedness and emergent literacy skills:

- **Awareness of Self and Environment** - a child's understanding of the world and his or her ability to make connections with home and community experiences.
- **Social Skills and Approaches to Learning** - a child's attentiveness during classroom activities and his or her ability to interact with peers while respecting the classroom rules.
- **Cognitive Skills** - a child's basic math and pre-reading skills and his or her ability to solve problems.
- **Language and Communication** - a child's understanding of spoken language and his or her ability to express thoughts and feelings.
- **Physical Development:**
 - Fine motor** - a child's ability to perform small movements that require hand-eye coordination.
 - Gross motor** - a child's ability to perform large movements that involve arms, legs, and body.

Please see website for more information.²

EYE-TA results are depicted using three tiers:

Tier 1	Can achieve the tasks in the developmental area
Tier 2	experiencing some difficulty
Tier 3	experiencing significant difficulty

Students who did not complete enough tasks in a developmental area are identified as “not complete”.

Depending on their Fall results, students may be re-tested in Spring. For comparative purposes those students not assessed in Spring had their Fall results used.

5 Foundation Skills Assessment

The Foundation Skills Assessment (FSA) is an annual Yukon-wide assessment of all Yukon students grade 4 and 7. It assesses how well students are progressing in foundation skills of Reading, Writing, and Numeracy. The assessment is typically administered in October or November.

FSA scoring is as follows:

Extending (previously named Exceeding): Students demonstrate a sophisticated understanding of the concepts and competencies relevant to the expected learning.

On Track (previously named Meeting): Students demonstrate a partial to complete understanding.

Emerging (previously named Not Yet Meeting): Students demonstrate an initial understanding of the concepts and competencies relevant to the expected learning.

Unknown: Students did not participate or were exempt.

7 Graduation Rate

Grade 12 Graduation Rate is the percentage of students who were active grade 12 fulltime / halftime in Dogwood and Adult graduation programs, enrolled at Yukon public schools, who successfully graduated. It does not include students on the School Completion (Evergreen Certificate) Program.

Dogwood Diploma

A Dogwood Diploma is British Columbia Ministry of Education's regular graduation certification awarded to students who successfully complete the provincial graduation requirements.

Data Source

Date Stamp

Oct 15th was the data date stamp for students in consideration.

Graduation / Completion programs include:

Graduation Programs

- Dogwood Graduation Program
- Dogwood Adult Graduation Program

Completion certificates

- Yukon Education Completion Certificate Program or Evergreen is provided to students on special programs or IEP where the Dogwood Graduation Program was not part of their education plan. It is reported separately from the Grade 12 Graduation Rate.
- *The Evergreen certificate metric in this report is an estimate from identifying students on special completion programs who are considered in grade 12 and have a completion status of affirmative.*

8 Six Year Completion Rate

Annual graduation rates are only one of many indicators of student success. Within Canada, there is no consistent method used among provinces and territories to determine graduation rates, though increasingly more jurisdictions (including Yukon) are moving toward using the six-year cohort method to calculate a completion rate.

For 2018–2019, the six-year cohort method counts all students who entered Grade 8 for the first time in 2013–2014 and calculates the completion rate based on those who received a graduation certificate or completion certificate within the six-year period. The completion rate also takes into account in-and-out-migrations. In-migrations are those students who come into the system during the six-year period who would have been in Grade 8 for the first time in 2013–2014. Out-migrations that are included in the calculation of the completion rate are students who may still be in the system but who have not graduated, students who have abandoned their education, dropped out or whose outcomes are unknown. Out-migrations not included in the completion rate are those students who are confirmed to have left the Yukon school system to complete their secondary school education outside Yukon.

Please note – the Six Year Completion Rate metric for 2018-19 is still under analysis and will be delivered as soon as it is completed.
