Eligible applicants: Owners of eligible personal residences located in the Yukon.

Businesses and organizations registered in the Yukon, Yukon municipalities and First Nation Governments can qualify for a similar rebate for installing qualifying electric vehicle chargers. To apply, you must use a different [form](#). Learn more at yukon.ca/good-energy.

The Government of Yukon and federal government entities, including crown corporations, are ineligible.

Eligible install locations: Personal residences are single detached homes, duplexes, triplexes or mobile homes. A maximum of 2 chargers per personal residence can qualify for a rebate over the lifetime of the program.

Eligibility: Products, projects and services must be installed in the Yukon. Receipts, invoices and the electrical inspection report must be dated within 1 year of submitting your rebate application. The date of the invoice is considered to be the date of the most recent payment on the invoice. Equipment must be new. Used products are not eligible for this rebate.

For personal residences, Level 2 electric vehicle chargers or supply equipment must:

- have a 208-240V power supply;
- have WiFi capability; and
- be certified by ULC, CSA or cETL.

Eligible expenses: The rebate is based on costs related to the installation for:

- equipment;
- labour;
- electrical upgrades (panel, wirings and new poles);
- construction; and
- contracting and professional expenses for installation and required upgrades to supporting infrastructure.

Dual-port chargers are considered one charger for calculating the rebate amount.

Inspections: If you make electrical upgrades or changes, you must get a final electrical inspection. A copy of the approved electrical inspection report completed by the Government of Yukon is required and must be included with this rebate application.

Receipts and invoices: Receipts and invoices must be legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Where applicable, supplied invoices must include the applicant's name given on this form. **Every invoice must have a zero balance owing or be noted as "paid in full" and initialed by the supplier.** Payment will be made to the individual or business identified on this application form.

It is the applicant's responsibility to ensure that any other parties that may have participated in the purchase or project are aware of this rebate application and approve of these terms.

Limits to program: The Good Energy program is renewed annually pending fiscal year budget allocation. **This program is effective from April 1 to March 31 of a fiscal year. The program expires on March 31 unless it is renewed.** Rebate offers are subject to program funding and revision and may change or end at any time. The Government of Yukon does not give rebates that are more than the product, project or service value.

Applications and payment: Receipts, invoices and any required documents must be dated within one year of the date application package is submitted to the Energy Branch. The Government of Yukon is not responsible for lost, late, misdirected, damaged, illegible, incomplete, or ineligible applications. Allow up to 12 weeks for payment. Payment may be done by direct deposit if you have been employed or under contract with the Government of Yukon.

Qualifying products: The Government of Yukon's Energy Branch relies on third-party standards to identify and validate energy efficient products, projects and services. In promoting these standards, the Energy Branch does not endorse any particular manufacturer, supplier, contractor or installer.

Personal information: Collection of this information is authorized by paragraph 15(c)(i) of the *Access to Information and Protection of Privacy Act* SY 2018, c.9 to determine whether you are eligible for a Good Energy rebate, issue payment, and provide you with updates to the Good Energy rebate program. For more information please contact the Manager – Energy Programs with the Energy Branch, Energy, Mines and Resources: 867-393-7063 or toll free: 1-800-661-0408 and ask to be transferred.

Disclaimer / no liability: The Government of Yukon Energy Branch's role is to incentivize the purchase of energy efficient products, projects and services. The Energy Branch is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. The Energy Branch does not guarantee energy saving results by approving an application. The Energy Branch is not responsible for claims by third parties about the Good Energy program, rebates and product eligibility.
