Terms and conditions

Definitions:

Base trim – the entry level, most basic version of a particular vehicle model.

BEV – Battery electric vehicle. Must be powered exclusively by a battery and electric motor with no back-up internal combustion engine.

Electric cargo bicycle – Has an extended frame designed to carry goods or people.

km/h – kilometre per hour

kWh – kilowatt-hour

MSRP – Manufacturer Suggested Retail Price

PHEV – Plug-in Hybrid Electric Vehicle is powered by a battery and electric motor with a back-up internal combustion engine.

Trim – the different versions of a particular vehicle model.

W - Watt

ZEV – Zero Emission Vehicle. ZEVs have the potential to operate without producing direct tailpipe emissions. Vehicle models may still have a conventional internal combustion engine, but must also be able to operate without it.

Eligible applicants: Businesses and organizations registered in the Yukon; Yukon municipalities; First Nation governments; and Yukon residents. The Government of Yukon and federal government entities, including crown corporations, are ineligible. Yukon residency is proven by providing a copy of a Yukon driver's license or one eligible document from the Government of Yukon's [residency document list](#). Applicants applying for a rebate after purchase must show proof of Yukon residency at the time the rebate application is submitted to the Energy Branch. Dealerships may only offer point of sale rebates to those who have Yukon residency at the time of purchase.

Eligibility: ZEVs, electric motorcycles, zero emission snowmobiles, electric bicycles and electric cargo bicycles must be purchased new and for use in the Yukon. Used electric motorcycles, zero-emission snowmobiles, electric bicycles and electric cargo bicycles are not eligible. Used ZEVs are only eligible for a shipping rebate. Receipts and invoices must be dated within 1 year of submitting your rebate application. If applicant has a lease, the rebate will be pro-rated on the length of the lease. The applicant can qualify for the full rebate if the lease is 3 years or more. **Note:** New ZEVs purchased out of the Yukon territory that received a rebate from another province, territory or jurisdiction are not eligible for this rebate. Applicants can apply to receive a rebate under the Government of Canada's iZEV program for purchasing eligible ZEVs.

Quantity: For all Good Energy transportation rebates, businesses and organizations registered in the Yukon, municipalities, and First Nations governments may purchase up to 10 qualifying vehicles per rebate per calendar year. Yukon residents may purchase two qualifying vehicles per rebate over the lifespan of the program.

New zero-emission vehicles must:

- Be operated by a:
 - battery-electric motor;
 - hydrogen fuel-cell motor;
 - plug-in hybrid electric motor with an all-electric range of 50 kilometres or greater; or
 - plug-in hybrid electric motor with an all-electric range of less than 50 kilometres. **Note:** Plug-in hybrid electric vehicles are powered by a battery and electric motor with a back-up internal combustion engine.
- Have a MSRP for the base trim of that particular model that is below \$60,000 (excluding optional equipment, federal air conditioner excise tax, freight, accessories, and other fees). Higher priced versions of the same vehicle model are eligible, provided the MSRP of the base vehicle model is below the threshold;
- Have a new vehicle information statement (NVIS); and
- If purchased out of territory, the vehicle must be registered in the Yukon.

Not eligible are: Conventional hybrid vehicles that do not plug-in.

Used zero-emission vehicles must be:

- Operated by: a battery-electric motor; a hydrogen fuel cell motor; or plug-in hybrid electric technology. **Note:** Plug-in hybrid electric vehicles are powered by a battery and electric motor with a back-up internal combustion engine.
- Previously registered in a jurisdiction other than the Yukon;
- Shipped into the Yukon Territory; and
- Vehicle is registered in the Yukon.

A used ZEV can only receive a shipping rebate once. A ZEV cannot be eligible for both the used ZEV shipping rebate and the new ZEV rebate.

Not eligible are: Conventional hybrid vehicles that do not plug-in.

Electric motorcycles must:

- Be powered exclusively by an electric motor and battery;
- Require a Yukon driver's license to operate (any class);
- Have two or three wheels;
- Be registered in the Yukon; and
- Meet all requirements under the Yukon's *Motor Vehicles Act*.

Qualifying electric motorcycles include both high speed and limited speed motorcycles as defined by the *Motor Vehicles Act*.

Zero-emission snowmobiles must:

- Be powered by an eligible zero-emission technology such as battery-electric or hydrogen fuel cell;
- Produces no direct tailpipe emissions; and
- Meet all requirements under the Yukon's *Motor Vehicles Act*.

Electric bicycles and electric cargo bicycles must have:

- A maximum motor power output rating of 500W or less;
- Pedal-assist or throttle-assist;
- A maximum speed of 32 km/h; and
- Meet all requirements under the Yukon's *Motor Vehicles Act*.
- A cargo bicycle must have an extended frame designed to carry additional people or cargo.
- Electric-bicycles can be purchased in the Yukon or online.

Full suspension electric bicycles designed exclusively for mountain biking qualify for this rebate.

Not eligible are:

- Electric conversion kits;
- Electric motorbikes without pedals;
- Bicycles purchased on crowd-funding campaign websites, such as Kickstarter, or Indiegogo.

The rebate for electric bicycles, electric cargo bicycles, and electric motorcycles is calculated and based on the cost of vehicle only and excludes the costs for accessories, shipping, assembly, etc.

If bicycle is purchased outside of the Yukon, applicant must show proof that product was shipped and delivered to the Yukon (e.g. delivery slip or shipping receipt).

Receipts and invoices: Receipts and invoices must be legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Where applicable, supplied invoices must include the applicant's name on this form. **Every invoice must have a zero balance owing or be noted as "paid in full" and initialed by the supplier.** Payment will be made to the individual or business identified on this application form. It is the applicant's responsibility to ensure that any other parties that may have participated in the purchase or project are aware of this rebate application and approve of these terms.

Limits to program: The Good Energy program is renewed annually pending fiscal year budget allocation. **This program is effective from April 1 to March 31 of a fiscal year. The program expires on March 31 unless it is renewed.** Rebate offers are subject to program funding and revision and may change or end at any time. The Government of Yukon does not give rebates that are more than the product, project or service value.

Applications and payment: Receipts, invoices and any required documents must be dated within one year of the date application package is submitted to the Energy Branch. The Government of Yukon is not responsible for lost, late, misdirected, damaged, illegible, incomplete, or ineligible applications. Allow up to 12 weeks for payment. Payment may be done by direct deposit if you have been employed or under contract with the Government of

Yukon.

Qualifying products: The Government of Yukon's Energy Branch relies on third-party standards to identify and validate energy efficient products, projects and services. In promoting these standards, the Energy Branch does not endorse any particular manufacturer, supplier, contractor or installer.

Personal information: Collection of this information is authorized by paragraph 15(c)(i) of the *Access to Information and Protection of Privacy Act* SY 2018, c.9 to determine whether you are eligible for a Good Energy rebate, issue payment, and provide you with updates to the Good Energy rebate program. For more information please contact the Manager – Energy Programs with the Energy Branch, Energy, Mines and Resources: 867-393-7063 or toll free: 1-800-661-0408 and ask to be transferred.

Disclaimer / no liability: The Government of Yukon Energy Branch's role is to incentivize the purchase of energy efficient products, projects and services. The Energy Branch is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. The Energy Branch does not guarantee energy saving results by approving an application. The Energy Branch is not responsible for claims by third parties about the Good Energy program, rebates and product eligibility.
