

# INDEPENDENT POWER PRODUCTION PROJECT PRE-APPLICATION

## Applicant information

Organization name

Primary contact

Primary address (Written notifications will be delivered to this address.)

**Doing business as** (Identify if you are a society, a body corporate, a Yukon First Nation, development corporation, partnership, or limited partnership, including your business or society number if applicable.)

**Applicant background** (Describe the experience of your organization, including the experience of team members, in deploying renewable projects of this type.)

**Conflict of interest** (Declare whether or not any member of the project team, or anyone involved in the project is a Government of Yukon public servant or a board member or employee of an organization involved in the public utility sector (Yukon Development Corporation, Yukon Energy Corporation, ATCO Electric Yukon).)

**Project description summary** (Include reference to geographic locations, relevant coordinates, resource type (wind/solar/biomass/geothermal), nameplate generating capacity, distance to transmission lines, and any other relevant information.)

**Status of project** (Describe work completed to date in support of project deployment, including any economic or technical feasibility assessments, community consultation, detailed engineering, the procurement of land, environmental assessment approvals, water licenses or other regulatory approvals, and/or community consultation.)

Include any relevant materials, such as completed feasibility studies, approvals, or other documentation necessary to support the project description or status provided above.

## Terms and conditions

We recommend that you meet with the Government of Yukon's Energy Branch to discuss your independent power production project and ensure you understand the application process.

To begin the process, you must complete this pre-application form and submit it to the Energy Branch. The Energy Branch must pre-approve any proposed independent power production project before they can proceed.

Complete this form and submit it to the Energy Branch.

**Note:** Should you require more space, please provide your information on additional sheets of paper and attach to this form.

**Personal information:** Collection of this information is authorized by paragraph 15(c)(i) of the *Access to Information and Protection of Privacy Act* SY 2018, c.9 to initiate the review process to determine your eligibility and project's suitability to connect a renewable energy facility to Yukon's electrical grid. For more information please contact the Director of the Energy Branch, Energy, Mines and Resources: 867-393-7063 or toll free: 1-800-661-0408 and ask to be transferred.
