

WILDLIFE HABITAT OBSERVATION

The Government of Yukon is updating information on key wildlife habitats in Yukon, including mineral licks, raptor nests, sharp-tailed grouse leks, polar bear dens, and Dolly Varden and Bull Trout spawning areas.

If you observe any of these habitats, we would like to hear from you. The information you provide may be used for environmental assessment, land use planning, academic and other purposes in order to support wildlife management and conservation in Yukon.

Fill this form to the best of your ability. We recognize you may not be able to provide all of the types of information listed.

Observation date: YYYY/MM/DD

Observer information				
Observer name	Email		Phone	
Location				
General location description				
Latitude	Longitude	UTM zone	Easting	Northing
Coordinate source				
<input type="checkbox"/> GPS <input type="checkbox"/> NTS map (Scale 1: _____) <input type="checkbox"/> Google Earth <input type="checkbox"/> Other: _____				
Datum				
<input type="checkbox"/> WGS84 <input type="checkbox"/> NAD83 <input type="checkbox"/> NAD27 <input type="checkbox"/> Unknown <input type="checkbox"/> Other: _____				
Offset distance: _____m <input type="checkbox"/> Estimated <input type="checkbox"/> Measured				
Azimuth: _____° <input type="checkbox"/> Estimated <input type="checkbox"/> Measured
