Have you applied before and been unsuccessful?		<input type="checkbox"/> Yes <input type="checkbox"/> No	

**Participant agreement (to be read and signed by the applicant)**

I understand that if I am accepted into the Conservation Action Team, I will be undertaking physical and educational challenges in the Yukon outdoors. I really want to be a part of this camp, and I agree to act **with respect** toward other team members, my instructors, the environment and myself.

The following are the main rules of the Conservation Action Team:

- 1) Instructors are responsible for program safety; their instructions are to be followed at all times.
- 2) Participants are not allowed to leave the group without permission from the instructors.
- 3) Swimming is permitted only in designated areas and only under the supervision of team leaders.
- 4) Personal flotation devices must be worn in all watercraft by individual participants.
- 5) No alcohol or non-prescription drugs allowed (including tobacco) and all prescription drugs must be reported to your Team leader.
- 6) Leave all personal electronic entertainment gizmos (i.e. videos games, cell phones, wide screen televisions) at home.

I agree to abide by the above rules, and any others that may be established by team leaders. I understand I can be sent home at my parents' expense for not cooperating fully or endangering myself or others. I will participate as much as I am able in all camp activities.

Collection of personal information is authorized under the *Wildlife Act* and *Access to Information and Protection of Privacy Act*, s.15(c)(i) for the purpose of determining eligibility to the Conservation Action Team Camp youth program. For more information please contact the Youth Programs Coordinator at 867-667-3041 or visit our office in the Environment Building at 10 Burns Rd., Whitehorse Yukon.

## Statement of interest

In this section, answer these questions (no more than 300 words):

1. Why do you want to be in the CAT program?
2. How will you contribute to making it a great experience for the group?

## Additional information

**Program preferred (check one). Program dates change yearly. Visit [Yukon.ca/CAT](http://Yukon.ca/CAT) for this year's dates.**

- Junior – June (currently Grades 6-7)      Second choice – if we are full for your choice of Junior camp  
 Junior – July (currently Grades 6-7)      are you able to participate in the other camp?     Yes     No
- Senior – August (currently Grades 8 -9)

**How did you hear about the Conservation Action Team?**

- Teacher       Newspaper       Radio       Friend  
 Poster       Yukon.ca website       Conservation officer       Classroom presentation  
 Other (specify) \_\_\_\_\_

Dear parent/guardian:

The Conservation Action Team summer program, run by the Yukon Department of Environment, combines outdoor adventure, environmental education and conservation related activities. Participants have fun while learning about stewardship and cooperation within a group camping experience. We will go to great lengths to help every child feel welcome and safe in our care. It is extremely important that it is your child's choice to be in this program. Our experience has shown that if a child does not want to participate their behaviours can lessen the enjoyment for others and may even cause safety issues.

While the Yukon Department of Environment takes all necessary and reasonable precautions to prevent accidents, it is important for parents to be informed about the Conservation Action Team and understand the potential risks involved. We urge you to read the information brochure outlining the program and the **Description: Activities, Responsibilities and Potential Risks** on the reverse of this page.

Parent permission	
Applicant name	Parent name
<p>I hereby give my consent to my child participating in the Conservation Action Team summer program run by the Yukon Department of Environment. I have read the Description: Activities, Responsibilities and Potential Risks on the reverse of this form, and by signing below, acknowledge the potential risks of the program.</p> <p>I have also listed below any medical constraints which may affect the full participation of my child in the Conservation Action Team program.</p>	
Signature of parent	Date YYYY/MM/DD
Parent email	Daytime phone number(s)
<p><b>Medical constraints</b> Are there any medical (mental/physical/emotional) reasons that your child might not be able to take part in all activities? List below. (Note: these will not necessarily prevent your child from participating in our CAT camps.) A medical form must be completed if your child is selected for the program.</p>	

## **Description: activities, responsibilities and potential risks**

The **Conservation Action Team (CAT)** provides youth going into Grades 7-10 with an opportunity to learn about the Yukon's environment while experiencing outdoor adventure and participating in conservation-related projects.

Group leaders are responsible for the safety and educational elements of the program. CAT leaders have considerable outdoor experience and have training in first aid and emergency response. These programs do involve travel through wilderness areas, remote from urban amenities and medical services. In case of serious accident, evacuation to a hospital may be delayed due to isolated conditions.

The CAT program uses land and water environments containing a number of potential hazards. Extremes of temperature and weather may be experienced. Mountain and forest travel may subject participants to possible rock falls, steep slopes and cliffs, and rough and broken terrain. The use of canoes, kayaks and small motor boats increase the chance of immersion and hypothermia. Students must use approved safety equipment and follow procedures outlined by instructors.

The program also incorporates activities related to the various uses of the environment, including hunting, trapping, fishing, mining, tourism, forestry, and agriculture. The traditional harvest and economic activities of Yukon First Nations people will be covered. Experiences related to these topics may include visits to fish camps, farms and mining operations.

Proper clothing and equipment are necessary to ensure safety and comfort. The department is providing some high quality outdoorwear and equipment to minimize risk. Students are responsible for proper use and maintenance of supplied equipment.

Conservation work may be one element of the Conservation Action Team program. Should this work entail the use of potentially hazardous tools, the Team participant will be trained in their use as needed.

Student cooperation is necessary for a safe and enjoyable program. Failure to comply with leaders' instructions may result in injury to the student or others. Team members who exhibit negative or uncooperative behaviour that may endanger themselves or others may be sent home at the parent/guardian's expense.

Possession and/or consumption of alcohol, illegal drugs or tobacco are strictly forbidden. Participants are required to disclose all physical and psychological ailments and medications prior to the commencement of program activities.

CONSERVATION ACTION TEAM  
**NOMINATION OF APPLICANT**

**Note to applicant:** This form must be filled out by an adult in your community who knows you and can tell us if you are suited to participation in the Conservation Action Team program. The person can be a teacher, First Nations official, a scout/guide leader, etc. This person must not be related to you. Make sure they have information about the program, and a copy of your statement of interest from page 3.

**Dear nominator:**

The Conservation Action Team (CAT) is an outdoor summer program for students going into Grades 7-10 (or equivalent level in home education). Team members will travel to different parts of the Yukon by motorized vehicles on land and water, by canoe and on foot. Activities will combine adventure (wilderness skills, canoe and backpacking trips), environmental education (reflecting a wide range of environmental values, from subsistence to mining), and conservation work.

The **Junior** program (Grades 7 and 8) is eight days in length and the **Senior** program (Grades 9 and 10) covers nine to twelve days. Participants must be able to meet the challenges of a physically demanding wilderness experience. They must also be prepared to be away from home and urban amenities for the duration of the camp. It is extremely important that the applicant is self motivated and *wants* to be in this program; negative attitudes and uncooperative behaviour can lessen the enjoyment and learning for others and may even present safety issues. Consider these things while filling out this form.

For the purposes of confidentiality, return the completed form in a separate sealed envelope. The applicant will include this with their completed forms.

Thanks for taking the time in support of this child and the fostering of stewardship! Call 867-667-3041 or 1-800-661-0408 ext. 3041 if you have questions. You can obtain more information at our web site: [Yukon.ca/CAT](http://Yukon.ca/CAT)
