PART ONE FINANCIAL STATEMENT DISCUSSION AND ANALYSIS

This page intentionally left blank.

GOVERNMENT OF YUKON

Consolidated Financial Statement Discussion and Analysis for the year ended March 31, 2021

Introduction

The Yukon Public Accounts is a key element of the Government of Yukon's ("the Government") commitment to transparency and accountability in financial reporting. The purpose of the Financial Statement Discussion and Analysis is to expand upon and further explain information contained in the Consolidated Financial Statements, which are presented in Part Two of the Yukon Public Accounts. This is intended to assist readers in their analysis of the Yukon's fiscal health. To do this effectively, this report presents a highlights summary, comparative financial information and analysis, and a summary of risks and mitigation. The Yukon Public Accounts, produced annually, provides clarity and transparency for Yukoners by comparing the financial results for the 2020–21 fiscal year against the 2020-21 Main Estimates (Budget) and against the previous year's financial results as published in the 2019-20 Public Accounts. The Government is responsible for the accuracy, objectivity and integrity of this information. Responsibility for the preparation of this discussion and analysis rests with the Office of the Comptroller.

2020-21 Highlight Summary

Financial Results					
(thousands of dollars)	2021		2020	Change from	
	Budget	Actual	Actual	Budget	2020 Actual
Revenues	1,573,068	1,653,849	1,475,935	80,781	177,914
Expenses ¹	1,553,474	1,611,441	1,478,577	57,967	132,864
Surplus / (Deficit)	19,594	42,408	(2,642)	22,814	45,050
Accumulated Surplus	1,876,596	1,893,210	1,852,971	16,614	40,239
Net Financial Assets	164,759	182,745	171,888	17,986	10,857

¹ Expenses shown net of Recovery of Prior Years' Expenses

The Government is reporting an annual surplus of \$42.4 million on a spending and revenue base of approximately \$1.6 billion. The \$22.8 million difference between the \$42.4 million surplus and the expected \$19.6 million surplus presented in the 2020-21 budget is due to higher revenues (\$80.8 million, or 5.1%), and higher than anticipated expenses (\$58 million, or 3.7%). Revenues were higher than budgeted largely due to higher than expected transfers from the Government of Canada and somewhat higher tax revenue, offset to a degree by lower than expected funding and service level agreements with other parties. Expenses were higher than budgeted, and the function with the largest increase compared to the 2020-21 budget was health and social services.

The surplus of \$42.4 million is \$45.0 million higher than the \$2.6 million deficit in 2019-20. Total revenues compared to the previous year increased by \$177.9 million (12.1%), while total expenses increased by \$132.9 million (9.0%). The increases in revenue were driven by a \$171.4 million increase in funding from the Government of Canada. Over a third (35.0%) of the increase in expenses was in the health and social services function.

The Government continues to be in a net financial asset position and net financial assets increased during 2020-21 to a balance of \$182.7 million at March 31, 2021 (\$171.9 million at March 31, 2020).

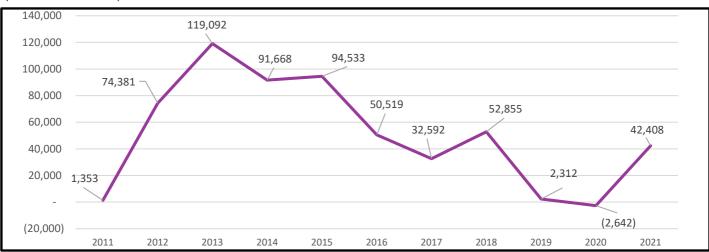

Highlights

Surplus (Deficit)

The surplus (deficit) represents the amount by which revenue exceeds expense (expense exceeds revenue) for the fiscal period.

Surplus (Deficit)

(thousands of dollars)

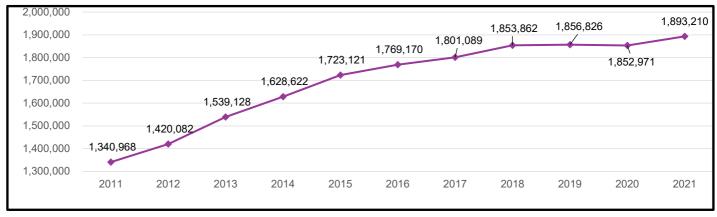

The surplus of \$42.4 million for the year was \$45.0 million higher than the previous year's deficit of \$2.6 million, and \$22.8 million higher than the budgeted surplus of \$19.6 million. A surplus is driven by two factors - revenues and expenses. Revenue is largely made up of the formula financing grant from the Government of Canada and tends to be stable over time. Expenses are a result of direct government spending and transfers to service territorial needs. Compared to 2019-20, the current year increase in surplus is largely due to significantly increased revenues in the form of transfers from the Government of Canada (many of which were COVID-19 related) offset to a degree by increased expenses, particularly in the health and social services function. Much of this expense increase was necessitated by the Government's response to pandemic needs, including health measures such as COVID-19 testing and the first weeks of vaccine rollout.

Accumulated Surplus

(thousands of dollars)

An accumulated surplus represents the government's reported net economic resources. An accumulated surplus indicates that a government has economic resources to provide future services.

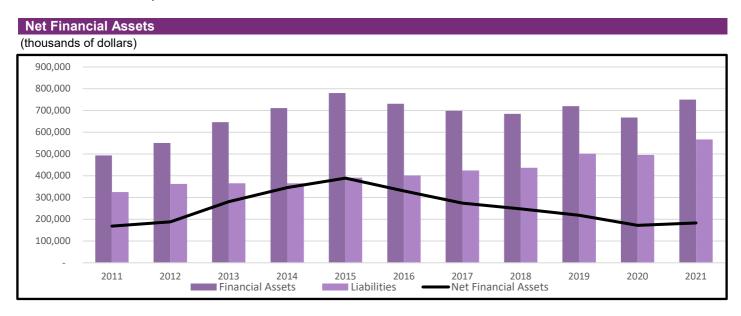

As of March 31, 2021, the Government is reporting an accumulated surplus of \$1.893 billion which is an increase of \$40.2 million from the previous year's accumulated surplus of \$1.853 billion. The increase in accumulated surplus during 2020-21 is due to the current year's annual surplus of \$42.4 million, offset by losses of \$2.2 million related to other comprehensive loss of government business enterprises.

Highlights

Accumulated Surplus consists of net financial assets and non-financial assets. Non-financial assets are predominately tangible capital assets. The strategy to invest in infrastructure has caused a shift in the composition of accumulated surplus; as over the past six years, net financial assets have declined or increased slower than the corresponding increase in the amount of tangible capital assets.

Net Financial Assets

Net financial assets represent the amount of financial resources that the Government has to finance future transactions.

The net financial assets (or the net debt) of the Government is calculated as:

- The financial assets consisting of cash and cash equivalents, temporary and portfolio investments, due from Government of Canada, accounts receivable, advances to government business enterprises, loans receivable, inventories for resale, retirement benefit assets, and investment in government business enterprises; offset by
- The liabilities consisting of due to Government of Canada, accounts payable and accrued liabilities, environmental liabilities, unearned revenues, post-employment benefits and compensated absences, retirement benefit liabilities, borrowings and liabilities for leased tangible capital assets.

The net financial assets reported as of March 31, 2021 is \$182.7 million. The year-over-year increase is primarily a result of the increase in cash and cash equivalents and due from Government of Canada outstripping the increase in liabilities, and represents the first increase after five years of declines.

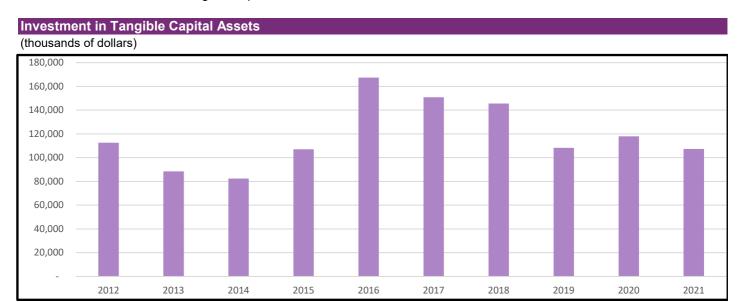

The table below provides more detailed information on the financial assets, liabilities, and the resulting net financial assets for each of the last ten years. While liabilities have increased steadily over the period, the financial assets have fluctuated, related primarily to the level of infrastructure spending.

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Financial Assets	550,613	646,624	711,245	780,119	731,248	698,324	684,562	720,000	667,475	749,698
Liabilities	362,245	365,512	365,556	391,031	401,239	424,272	436,931	501,550	495,587	566,953
Net Financial Assets	188,368	281,112	345,689	389,088	330,009	274,052	247,631	218,450	171,888	182,745

Highlights

Investment in Tangible Capital Assets

The Government invests in tangible capital assets.

In 2020-21, the Government recorded tangible capital asset additions of \$107.3 million for the acquisition and development of assets such as buildings and transportation infrastructure, IT assets, equipment and vehicles, compared to \$118.0 million in 2019-20. In 2020-21, \$10.6 million was expended on the completion of the new Francophone high school (the entire project was completed at a cost of \$34.1 million). Other multi-year projects completed in 2020-21 include: \$4.9 million to complete the \$8.3 million Heavy Baggage System at the Whitehorse airport; \$1.2 million to finish the \$8.1 million Carmacks' Grader Station; \$1.1 million to complete the F.H. Collins Track and Field project (total \$8.1 million); and \$1.4 million to complete the \$2.4 million Stewart Crossing Living Complex. Also in 2020-21, the Government's construction work on various roads and highways cost over \$26.5 million, while bridge work on the Alaska, Klondike, and Robert Campbell highways cost in excess of \$11.7 million.

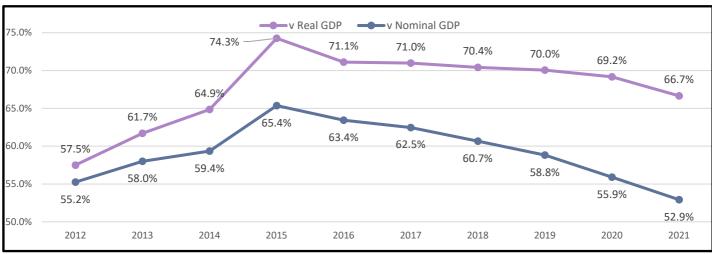

Assessment of Fiscal Health

Sustainability

Sustainability is a measure indicating the degree to which the Government can maintain its existing level of spending and meet its existing debt obligations.

Accumulated Surplus to the Territory's GDP

This graph compares the Government's accumulated surplus to the Yukon Territory's GDP as a percentage.

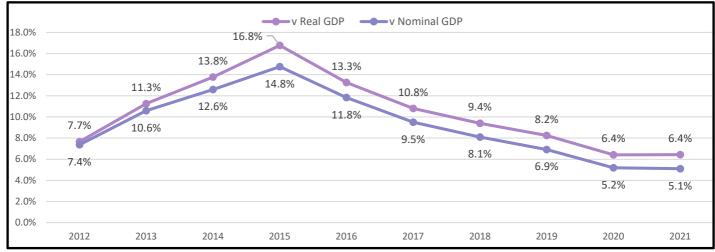

^{*} Forecasted GDP: Nominal - 2020-\$3,315 million; 2021-\$3,577 million / Real - 2021-\$2,840

The accumulated surplus measures the sum of all current and prior years' operating results. Gross Domestic Product (GDP) is a measure of the value of the goods and services produced during a year, indicating the size of the Territory's economy. This indicator provides a measure of whether the accumulated surplus is growing faster or slower than the economy.

This trend highlights that the accumulated surplus, while still growing, is declining in relation to the Territory's GDP.

Net Financial Assets to the Territory's GDP

This graph compares the Government's net financial assets to the Yukon Territory's GDP as a percentage.

^{*} Forecasted GDP: Nominal - 2020-\$3,315 million; 2021-\$3,577 million / Real - 2021-\$2,840

The net financial assets to GDP ratio indicates the financial demands placed on the economy by the Government's policies such as taxation. A low ratio indicates the Government has not placed excessive demands on the economy.

The downward trend implies there is room for the introduction of further revenue sources for the government without causing severe hardship in the economy.

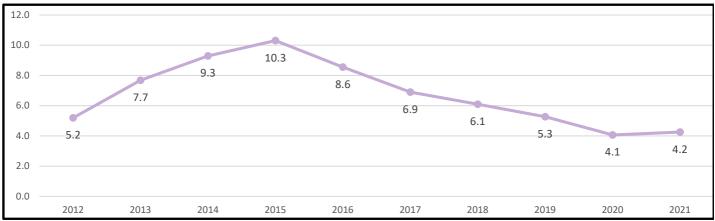

Assessment of Fiscal Health

Sustainability (continued)

Net Financial Assets per Capita

(thousands of dollars)

Net financial assets per capita represents the net financial assets applicable to each Yukon resident.

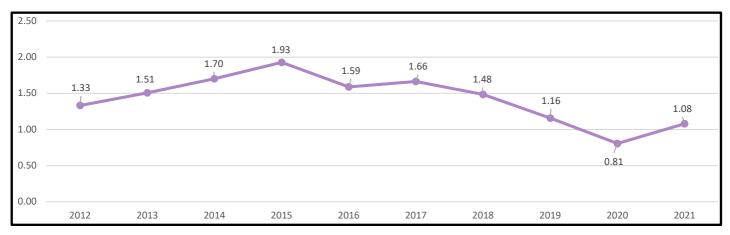

^{*} Forecast 2021 population data

This ratio indicates that the Government's financial resources per resident have increased in 2020-21 following a number of years of declines.

Liquidity Ratio - Current Assets to Total Debt

(dollars)

In this graph, current assets consists of cash and cash equivalents, temporary investments, due from Government of Canada and accounts receivable. The total debt is as defined in Note 17 to the Consolidated Financial Statements using the Yukon Borrowing Limits Regulations which includes debt of all entities of the government.

Liquidity ratio is intended to show the Government's ability to meet its financial obligations. A higher ratio is desirable as it shows that the Government has sufficient financial resources to discharge its long term obligations without having to use further financing. The 2020-21 ratio indicates that the Government had \$1.08 in current assets for each \$1.00 of total debt.

On March 31, 2021, as per Note 17 to the Consolidated Financial Statements; the government has total debt of \$235.2 million (2020 - \$228.4 million) which is 29.4% (2020 - 57.1%) of the limit allowed at that time. On September 20, 2020, the Government of Canada passed Order in Council #2020-0663 which raised the borrowing limit to \$800 million from the previous \$400 million.

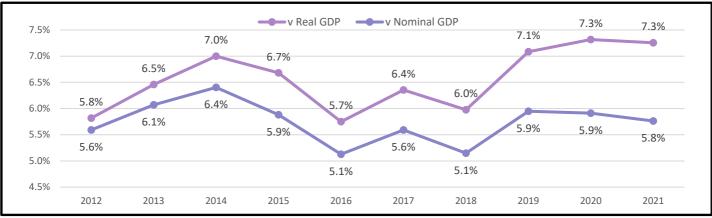

Assessment of Fiscal Health

Flexibility

Flexibility is a measure indicating the room that the Government has to maintain its services by increasing its demands on the economy through changes to fees or taxes.

Own-Source Revenue to the Territory's GDP

In this graph, own-source revenue refers to the Government's taxes and general revenue and is compared against the Yukon Territory's GDP.

^{*} Forecasted GDP: Nominal - 2020-\$3,315 million; 2021-\$3,577 million / Real - 2021-\$2,840

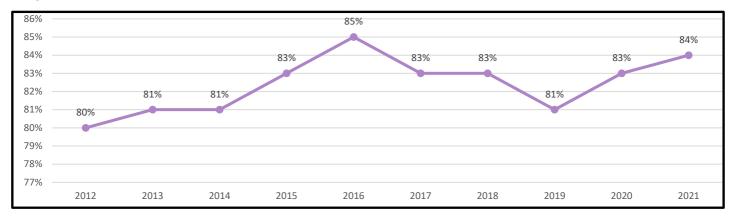

This ratio indicates to what extent the Government is taking economic resources out of the territory's economy through user fees or taxation. This ratio is relatively constant over time indicating that the Government has not changed its demands on the economy. The ratio is also relatively low compared to other Canadian jurisdictions and indicates that the Government has some flexibility in increasing taxes and other fees without causing a severe impact on the economy.

Vulnerability

Vulnerability is the extent to which the Government is exposed to a risk associated with revenue sources that are outside of its control.

Transfers from the Federal Government to Total Revenue

In this graph, transfers from the Government of Canada include the formula financing grant, other grants such as Canada health, Canada social and cannabis transfers and contributions and service agreements with the Government of Canada.

In 2020-21, the Government received 84% of its revenue from the Government of Canada which was within the range of 80% to 85% that has occurred over the past decade. This ratio is consistently high, indicating a reliance on the federal government to finance the Government's activities. While the Government has little control over these transfers which poses a risk, it also represents a relatively stable source of revenue from the Government of Canada, a senior level of government.

Indicators of Financial and Economic Conditions

Credit Ratings - September 2021*

Jurisdiction

Rating Agency Standard & Poor's

Yukon	AA
British Columbia	AAA(neg)
Alberta	A+(neg)
Saskatchewan	AA
Manitoba	A+
Ontario	A+
Quebec	AA-
New Brunswick	A+
Nova Scotia	AA-
Prince Edward Island	Α
Newfoundland & Labrador	A(neg)

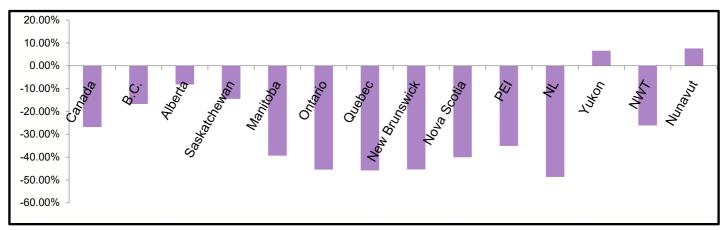

^{*}Provincial Ratings as per Government of Nova Scotia Public Accounts 2020-21

On July 29, 2021, Standard & Poor's Rating Services affirmed its 'AA' long-term issuer credit rating of Yukon Territory. In its S&P Global Ratings summary, the rating agency states its expectation that "the revenue and expenditure impacts stemming from the pandemic-related restrictions will be largely temporary" and that in the next two years, the Territory "will maintain a relatively stable fiscal performance." The rating agency also stated that the Yukon's "liquidity will remain substantial", "the debt burden will remain very low", and "debt policy remains prudent".

Canadian Jurisdictional Comparison of Net Financial Assets (Net Debt) to Gross Domestic Product (GDP)

The bar graph below shows a Canadian jurisdictional comparison of net financial assets (net debt) to GDP ratio. Yukon and Nunavut are the only jurisdictions that have a positive ratio. A positive ratio indicates net financial resources available to finance future operations and obligations. A negative ratio indicates that the government must rely on future revenues to discharge existing liabilities.

Federal/Provincial/Territorial Governments Net Financial Assets (Debt) to GDP ratio, Calendar Year 2019

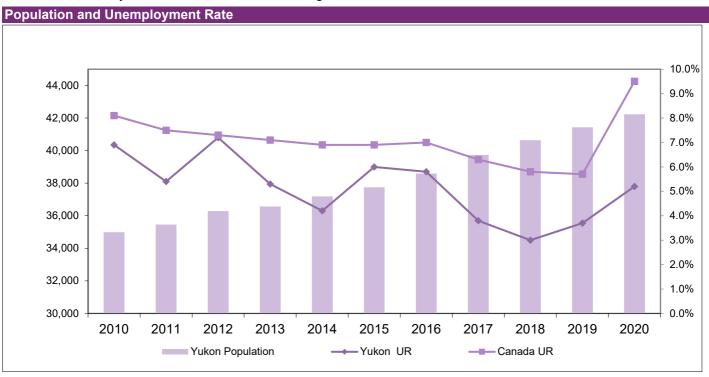

Statistics Canada. Table 379-0030 - Gross domestic product (GDP) at basic prices, by North American Industry Classification System (NAICS), provinces and territories, annual (dollars)

Indicators of Financial and Economic Conditions

Population and Unemployment rate (Calendar Year 2020)

With growth in 2020, Yukon's population has posted gains for 17 consecutive years. In 2020, total population exceeded 42,000 for the first time.

Yukon's unemployment rate (UR) averaged 5.2% in 2020 which was below the national average of 9.5%; both of which reflected the impact of COVID-19. As noted in the chart below, over the ten years in question, Yukon's unemployment rate has consistently been below the Canadian average.

Surplus (deficit) for the year

The Government's annual surplus or deficit resulting from its operations is dependent on various factors. Two of the most significant factors are:

- total revenues, of which the formula financing grant from the Government of Canada makes up the largest
- direct Government spending and operating transfers to individuals and other public organizations, such as municipalities.

The surplus of \$42.4 million for the year was an increase of \$45.0 million from the previous year's deficit of \$2.6 million and \$22.8 million higher than the budgeted surplus of \$19.6 million. Revenues increased by \$177.9 million from the previous year's actual and were \$80.8 million higher than budgeted. Expenses (net of prior years' expense recoveries) of \$1.611 billion for the year were higher than the initially budgeted amount of \$1.553 billion.

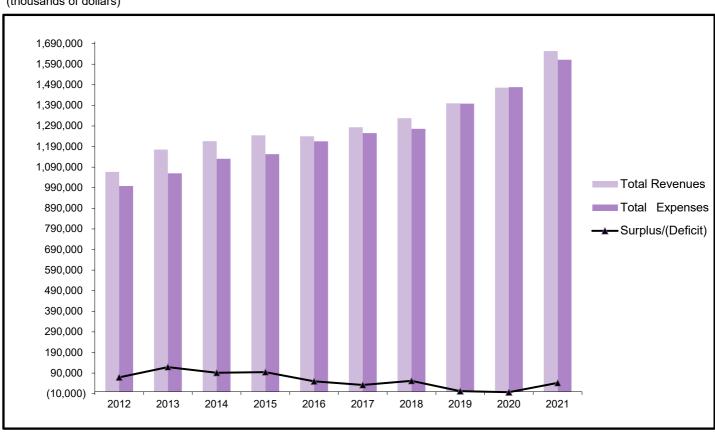

Major revenue variances between the current and prior year include a \$87.1 million (139.7%) increase in other grants (due mainly to COVID-19 funding), \$57.6 million (5.8%) increase in the formula financing grant and a \$26.8 million (16.2%) increase in contributions and service agreements revenues from the Government of Canada. Funding and service agreements with other parties decreased by \$16.2 million (33.0%) from the previous year.

Expenses increased year-over-year by \$132.4 million (8.9%) with expenditures for health and social services contributing \$46.6 million (35.2%) of the increase. Natural resources was the only sector not to have an increase in expenditures, while general government, community and transportation and business, tourism and culture had significant increases from prior year expenditures.

The chart below illustrates the trend between revenues and expenses over the last ten years. The amounts are taken directly from the respective year's Public Accounts, without reflecting restatements or other changes in accounting policies over the years presented.

Revenues and expenses

Carbon Price Rebate Program

The Parliament of Canada passed the *Greenhouse Gas Pollution Pricing Act* (Canada) in 2018. In response to this, the Yukon Legislature passed the *Yukon Government Carbon Price Rebate Act* (Yukon), which outlines how the government will rebate all amounts received from the Government of Canada for greenhouse gas pollution pricing. The intent of this Act is to ensure that all carbon levy funds received are treated as pass-through funding to Yukoners with no funds being retained by the Government and there being no impact on its surplus (deficit).

The Yukon Government Carbon Price Rebate Act (Yukon) created a restricted fund. The purposes of the Carbon Price Rebate Revolving Fund are the payment or crediting, on a revenue neutral basis and in accordance with this Act and the Income Tax Act, of amounts, on account of certain amounts that the Government receives from the Government of Canada under the federal Act. There are four main eligible groups: businesses, individuals, municipal governments and Yukon First Nation governments. During fiscal 2019-20, the first amounts were received from the Government of Canada and shortly thereafter rebates began to be distributed.

The following is a summary of each year's activity and the status of the revolving fund as of March 31, 2021.

Revolving Fund Balance			
(thousands of dollars)	Cumulative to		
	March 31, 2021	<u>2020-21</u>	<u>2019-20</u>

Total Liability	6,919		

Impact of COVID-19

While the global pandemic had a very limited effect on the Government's Consolidated Financial Statements for 2019-20, it had a significant and prolonged impact on both the revenue and expense pictures for the Government for 2020-21.

In terms of revenue, the impact of COVID-19 was primarily one of reduced income tax revenue, due to lower overall income for individuals and business, and reduced tourism-based revenue, such as fuel tax.

The Government was quick to respond to the effects of the global pandemic, mobilizing existing and new resources for health care and public health responses, emergency management and coordination, and economic relief measures for individuals and businesses. These relief measures, many of which involved supporting recoveries from the federal government, included:

- Paid Sick Leave Rebates
- Income Support for Essential Workers
- Rent Assist Program
- Yukon Business Relief Program
- Tourism Accommodation Sector Supplements
- Tourism Non-accommodation Sector Supplements
- Yukon Regional Relief Loan Program
- K-12 Financial Relief for Families
- Enhanced Yukon Mineral Exploration Program and Relief from Annual Mining Assessment
- Support to Aviation Companies
- Event Cancellation Funding
- Enhanced Tourism Marketing Cooperative Fund
- Enhanced arts and artists' funding
- Tourism and Culture Non-profits Fund
- WCB Premium Supports
- Support for Liquor Licences

Revenues

In 2020-21, the Government's total revenues increased compared to the previous year by \$177.9 million (12.1%) to \$1.654 billion (details provided in Schedule A to the Consolidated Financial Statements).

The Government receives the majority of its revenues from the Government of Canada through the formula financing grant, the Canada Health Transfer and the Canada Social Transfer. In 2020-21, the Government received \$1,055.0 million from the formula financing grant, an increase of \$57.6 million (5.8%) from the previous year. The Canada Health Transfer was \$47.0 million and the Canada Social Transfer was \$16.9 million. These transfers increased from the previous year by a total of \$3.9 million (6.7%). The Government received \$70.3 million in COVID-19 funding, as well as \$14.9 million of carbon levies, from the Government of Canada.

In addition the Government receives funding from the Government of Canada for purposes such as health and social programs and education, as well as funding for infrastructure development. Contributions and service agreements from Canada increased from the previous year by \$26.8 million (16.2%).

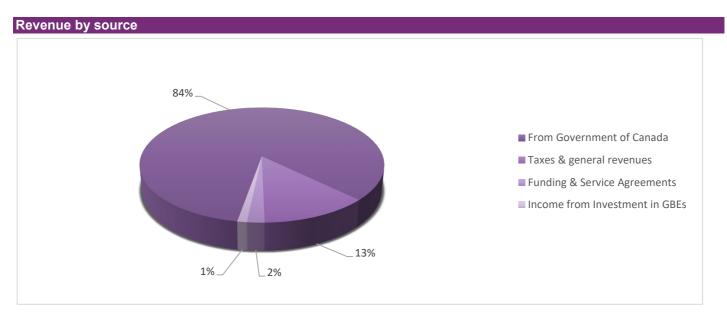

Taxes and general revenues include taxes on corporate income, personal income, tobacco, liquor, fuel, insurance premiums and property as well as licenses and fees such as motor vehicle licenses and business/professional fees. Taxes and general revenues increased from the previous year by \$10.1 million (5.2%) to \$206.1 million. This was largely due to a \$16.7 million increase in revenue from the sale of land and a \$6.4 million increase in licences, permits and fees offset by decreases in most of the other categories of taxes and general revenues.

Funding and service agreements with other parties decreased from the previous year by \$16.2 million (33.0%) to \$32.9 million.

The income from investment in government business enterprises reported as revenue in the financial statements represents the surpluses of government corporations that are categorized as government business enterprises ("GBE"). GBEs include the Yukon Liquor Corporation ("YLC") and the Yukon Development Corporation ("YDC"), which includes the Yukon Energy Corporation in its results. Income from YLC was \$8.2 million while the income from YDC was \$9.9 million.

Revenues were higher than budgeted by \$80.8 million. This was primarily due to higher revenues from the Government of Canada, taxes and general revenues and income from investment in GBEs offset by lower revenues from funding and service agreements with other parties.

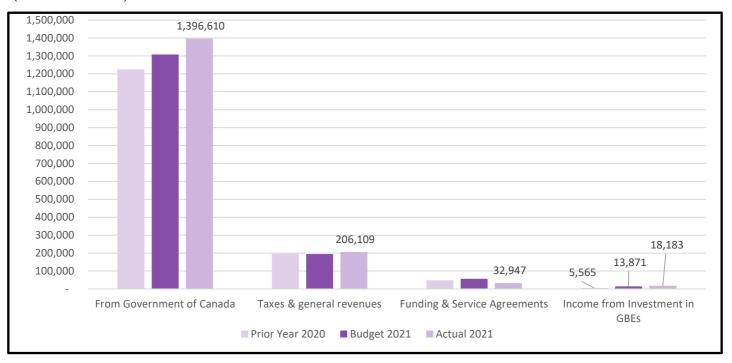

In 2020-21, the composition between different types of revenue remained consistent with previous years.

Revenues continued

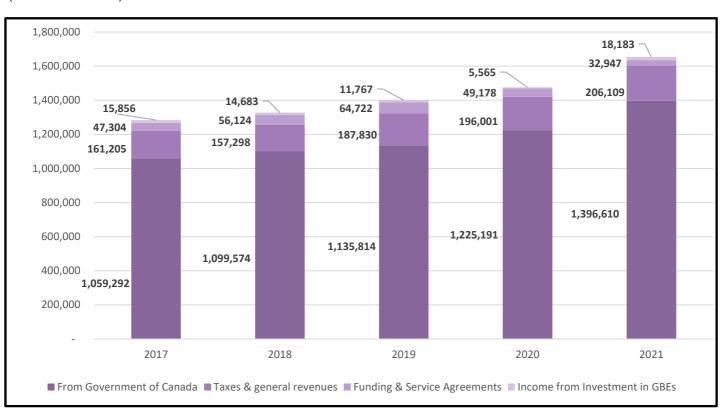

Revenue by source - comparison to budget and prior year

(thousands of dollars)

Revenue by source five year trend comparison

(thousands of dollars)

Expenses

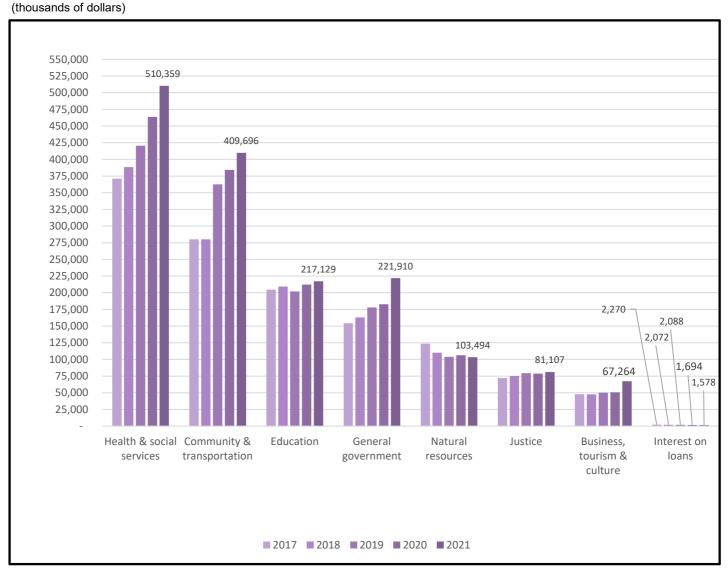

In 2020-21, the Government's expenses increased compared to the previous year by \$132.4 million (8.9%) to \$1.613 billion (details provided in Schedule B to the Consolidated Financial Statements).

All functions had 2020-21 expenses that exceeded the previous year's expenses except for natural resources. The largest increase was in the health and social services function, with an increase of \$46.6 million (10.0%), followed by a \$39.1 million (21.4%) increase in general government, a \$25.6 million (6.7%) increase in community and transportation and a \$16.6 million (32.8%) increase in business, tourism and culture while natural resources decreased by \$2.8 million (2.7%).

As for the type of expenses (as detailed in Note 21 to the Consolidated Financial Statements), the highest percentage was for wages and benefits (42.9%), followed by government transfer payments (22.2%), contract and special services (15.0%), materials, supplies and utilities (8.9%) and amortization expenses (5.0%).

In 2020-21, the ratio of expenses by function remained consistent with the previous year, with health and social services, community and transportation, and education comprising 70.5% of total expenses (71.6% in 2019-20).

Expense by function

Net Financial Assets and Accumulated Surplus

At March 31, 2021, the Government's financial assets exceeded its liabilities, resulting in net financial assets of \$182.7 million (\$171.9 million at March 31, 2020). This important indicator shows that the Government has financial assets on hand to finance future operations.

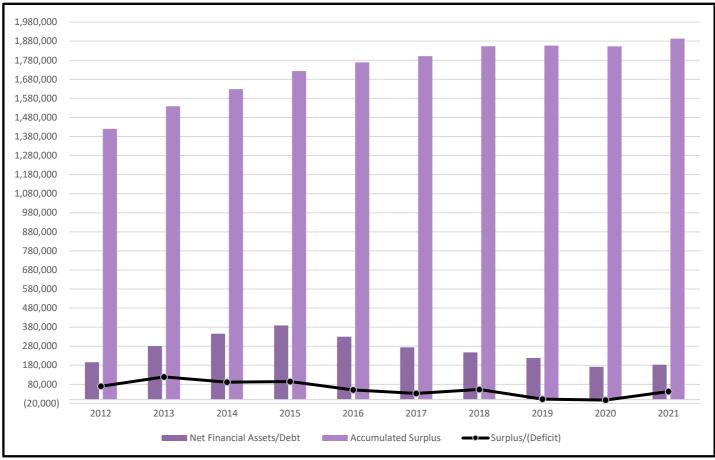

The Government's net financial assets increased by \$10.8 million in 2020-21. This increase was due to the increase of \$82.2 million in financial assets offset by the increase in liabilities of \$71.4 million. The increases in due from Government of Canada of \$58.4 million, cash and cash equivalents of \$22.4 million and loans receivable of \$17.5 million with the offsetting decrease of \$13.8 million in inventories for resale are the largest changes.

The Government's liabilities increase was largely due to the increase of \$36.8 million in accounts payable and accrued liabilities, \$12.5 million in due to Government of Canada and \$11.5 million in unearned revenues.

Accumulated surplus consists of net financial assets and non-financial assets such as tangible capital assets. The accumulated surplus of the Government at March 31, 2021 was \$1.893 billion (\$1.853 billion at March 31, 2020). The \$10.8 million increase in net financial assets and the \$29.4 million increase in non-financial assets result in the \$40.2 million increase in accumulated surplus.

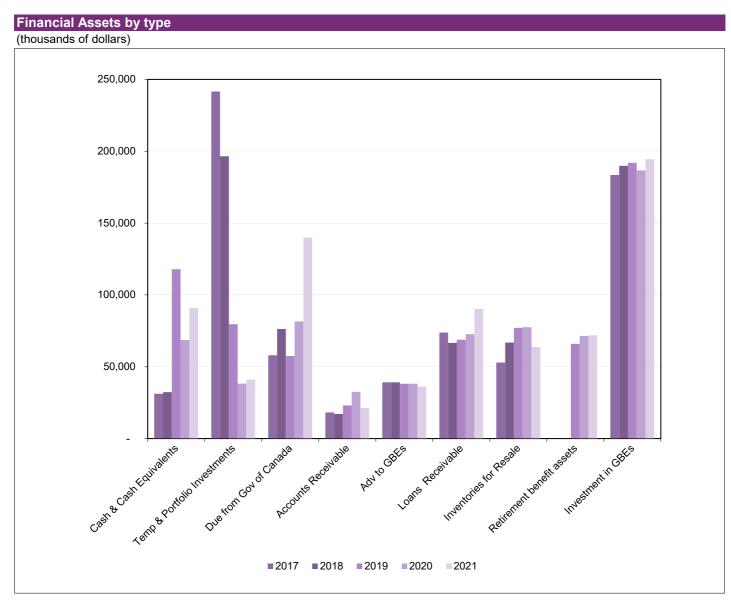

Net Financial Assets, Accumulated Surplus and Surplus (Deficit)

Financial Assets

Financial assets consist of assets available to discharge existing liabilities or to fund future activities. At March 31, 2021, the value of total financial assets was \$749.7 million, which is an increase of \$82.2 million from the previous year. Within financial assets, cash and cash equivalents increased by \$22.4 million from the previous year while due from the Government of Canada increased by \$58.4 million, accounts receivable decreased by \$11.4 million and loans receivable increased by \$17.5 million. In 2020-21, cash and cash equivalents and temporary investments accounted for \$92.6 million, or 12.4% of the total financial assets compared with 2019-20 when they accounted for \$69.8 million or 10.4%.

(Note: In 2018-19 the Government reclassified its retirement benefit plans to present Retirement benefit assets and Retirement benefit liabilities separately).

Financial Assets (continued)

Major categories of the Government's financial assets are described below.

Cash and cash equivalents

Cash and cash equivalents are bank balances, short-term investments that mature less than 90 days from the date of purchase and cash on hand.

At March 31, 2021, the Government held \$91.0 million in cash and cash equivalents, which is an increase of \$22.4 million from the previous year.

Temporary investments

Temporary investments include treasury bills, GICs, term deposits, and funds that include short-term debt securities of Canadian governments and corporate issuers with terms to maturity of 90 days or more but one year or less from the date of acquisition. At March 31, 2021, the Government held \$1.6 million in temporary investments compared to \$1.3 million the previous year.

Due from Government of Canada

At March 31, 2021, the Government had receivables from the Government of Canada in the amount of \$139.9 million, most of which were outstanding claims on cost-sharing agreements and projects delivered on behalf of the federal government. This was an increase of \$58.4 million from the prior year.

Accounts receivable

Accounts receivable decreased to \$21.2 million at March 31, 2021 from \$32.6 million at March 31, 2020.

Portfolio investments

Portfolio investments are investments that are expected to be realized or have terms to maturity of greater than one year from the date of acquisition. Portfolio investments include floating rate notes and funds that include bonds and equities. As at March 31, 2021, the Government held \$39.4 million in portfolio investments compared to \$37.0 million in the previous year.

As of March 31, 2021, \$34.6 million of the portfolio investments were specifically designated (\$32.9 million at March 31, 2020) in order to meet obligations under Part 3 (Supplemental Plan) of the *Legislative Assembly Retirement Allowances Act* (Yukon) as well as the "Severance allowance" section of the *Legislative Assembly Act* (Yukon).

Advances to government business enterprises

As of March 31, 2021, the Government has an outstanding balance of \$36.2 million (\$38.2 million at March 31, 2020) on advances made to the government business enterprises.

Loans receivable

The Government has loans receivable of \$90.2 million, of which \$37.6 million, or 41.6%, were Yukon Housing Corporation mortgages receivable, followed by \$36.0 million, or 39.9%, in land sale related loans receivable that are also administered by the Yukon Housing Corporation.

Inventories for resale

Inventories for resale totaled \$63.7 million as of March 31, 2021. This was a decrease of \$13.8 million (17.8%) from the previous year. The inventories largely consist of lots that were developed by the Government for sale to the public.

Retirement benefit assets

Retirement benefit assets totaling \$71.9 million at March 31, 2021 (\$71.4 million at March 31, 2020) are held in relation to the Government's obligations for future pension benefits for employees of Yukon University/College and Yukon Hospital Corporation and represent the market value of the investments less the liability of the benefits based on an actuarial valuation.

Financial Assets (continued)

Investment in government business enterprises

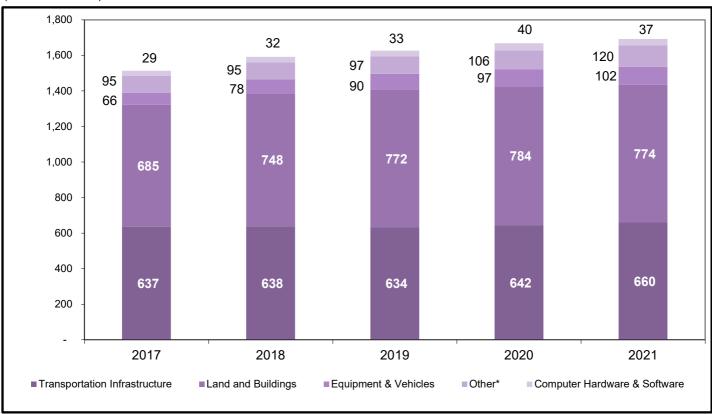

Investment in government business enterprises, which are self-sustainable government corporations, represent 100% of the equity of the Yukon Development Corporation ("YDC") and the Yukon Liquor Corporation ("YLC"). YDC had equity of \$191.9 million at March 31, 2021 (2020 - \$184.0 million), and YLC had equity of \$2.6 million at March 31, 2021 (2020 - \$2.7 million). The Yukon Energy Corporation, which supplies and sells power in the Yukon, is the wholly-owned subsidiary of YDC.

Non-financial Assets

Non-financial assets are assets that do not normally provide resources to discharge existing liabilities, but instead are normally used to deliver future government services or may be consumed in the normal course of operations. Non-financial assets include tangible capital assets, inventories of supplies, and prepaid expenses. Tangible capital assets are the largest category of non-financial assets.

Net Book Value of Tangible Capital Assets

(millions of dollars)

^{*}For additional detail see schedule C to the Consolidated Financial Statements

In 2020-21, the Government made the following investment in tangible capital assets:

Opening balance at April 1, 2020	\$ 1,668	million
Additions during the year	107	million
Less: Amortization and other adjustments	 (82)	million
Balance at March 31, 2021	\$ 1,693	million

The Government's \$107.3 million investment was largely spent on buildings, transportation infrastructure and equipment and vehicles.

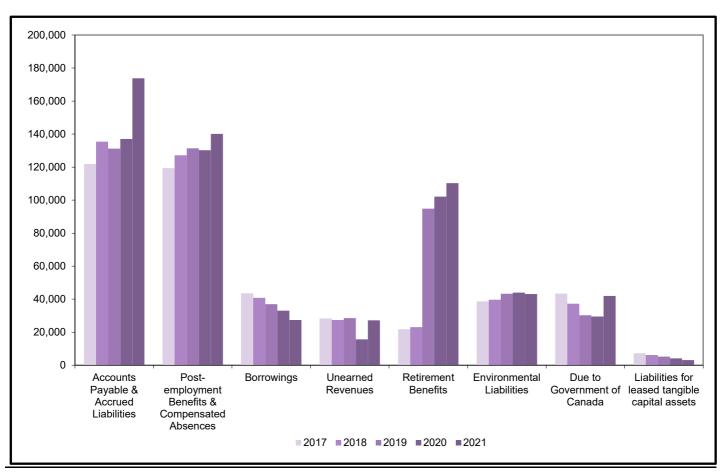

In accordance with the recommendations of the Public Sector Accounting Board of the Chartered Professional Accountants of Canada, the value of transferred Crown land is not reported as a tangible capital asset.

Liabilities

At March 31, 2021, the liabilities of the Government totaled \$566.9 million (\$495.6 million at March 31, 2020), which is equivalent to 75.6% of the financial assets of the Government. A five-year comparison of the Government's liabilities by category is illustrated below:

Liabilities

(thousands of dollars)

(Note: Prior year amounts are shown as reported in the respective year's Public Accounts. In 2018-19 the Government reclassified its retirement benefit plans to present Retirement benefit assets and Retirement benefit liabilities separately).

Major categories of the Government's liabilities are described as follows:

Due to Government of Canada

Amounts due to the Government of Canada at March 31, 2021 were \$41.9 million (\$29.5 million at March 31, 2020). These amounts consist primarily of funds due under various agreements for Income Taxes and Public Service Pension Plan contributions payable for the month of March 2021.

Accounts payable and accrued liabilities

Accounts payable and accrued liabilities are amounts that are generally paid within a year. The balance of \$173.8 million at March 31, 2021 is an increase of 26.9% from the previous year's balance of \$136.9 million.

Included in this total is the outstanding balance of the Carbon Price Rebate liability of \$6.9 million (2020 - \$2.8 million).

Liabilities (continued)

Environmental liabilities

At March 31, 2021, the Government has recorded \$43.1 million (\$43.9 million at March 31, 2020) as a liability for the estimated costs related to the remediation of contaminated sites for which the Government is responsible and can reasonably estimate the value. Of the liabilities, \$10.8 million (25.1%) is for highway maintenance camps and airports and \$11.9 million (27.6%) is for landfills that the Government is responsible for maintaining.

Unearned revenues

Unearned revenues of \$27.2 million reported as of March 31, 2021 (\$15.6 million at March 31, 2020) are mostly comprised of funding received from the Government of Canada that has not yet been expended in accordance with funding agreements.

Post-employment benefits and compensated absences

The Government's second largest liability, after accounts payable and accrued liabilities, is post-employment benefits and compensated absences. Post-employment benefits are provided to employees after employment but before retirement. These benefits consist of severance pay and a portion of sick leave and vacation leave that are paid out to employees at termination of employment. Compensated absences are benefits such as sick leave and vacation leave that are paid to employees during their employment. The Government uses actuaries to estimate its post-employment benefits and compensated absences liabilities. The post-employment benefits and compensated absences liabilities at March 31, 2021 were \$140.1 million (\$130.2 million at March 31, 2020).

Retirement benefits liabilities

Retirement benefits liabilities totaled \$110.3 million at March 31, 2021 (\$102.1 million at March 31, 2020) and represent the Government's various pension plan liabilities and extended health benefit obligations, which are provided to retired employees. Pension plan liabilities are those for the Members of the Yukon Legislative Assembly, and Territorial Court judges.

Borrowings

The largest portion of the \$27.4 million reported as borrowings relates to the Yukon Hospital Corporation's demand term installment loans totaling \$26.3 million (\$29.8 million at March 31, 2019). The Yukon Hospital Corporation used the loans to finance the costs of the new staff residence/medical service building in Whitehorse, renovations to an extended care facility in Whitehorse, and new hospitals in Watson Lake and Dawson City. During 2020-21 the Yukon Hospital Corporation paid down these loans by \$3.5 million.

Mortgages and loans payable by the Yukon Housing Corporation (Housing) represent a further \$1.7 million (\$2.2 million at March 31, 2020) of the Government's long term debt. These debts are with the Canada Mortgage and Housing Corporation (CMHC) so are included as due to the Government of Canada amounts in the Consolidated Statement of Financial Position.

In Note 17 to the Consolidated Financial Statements, the Government's 'total debt' as defined in the *Yukon Act* (Canada) includes the Housing debt owed to CMHC along with the borrowings of the consolidated government business enterprises of YDC and YLC as well as capital lease obligations. When all relevant items are taken into account the total debt is \$235.2 million at March 31, 2021 (\$228.4 million at March 31, 2020).

The Government of Canada repealed OIC P.C. 2012-280 on September 20, 2020 and issued OIC P.C. 2020-0663 setting Yukon's borrowing limit at \$800 million pursuant to subsection 23(2) of the *Yukon Act* (Canada).

Risks and Mitigations

Government of Yukon's Operating Environment

The Government's financial results are subject to risks and uncertainties that arise from variables over which the Government has no control, or limited control. Some of these risks and uncertainties are:

- COVID-19 is continuing to elevate the level of uncertainty of, and risk to, the Yukon's revenues, expenses and overall fiscal position:
- Economic factors, including economic growth or decline, commodity prices, private sector investment decisions, inflation, population/demographics, and personal income;
- Revenue changes, especially taxation revenues, or changes in transfers expected from the federal government, causing the total actual revenue results to deviate from the budget estimates;
- Level of utilization of government services, particularly related to health care and social services;
- Unexpected health events, such as sudden or extreme outbreaks of disease;
- Natural disasters, such as wildfires, unusual weather patterns or events, or other events that may impede the safe delivery of goods and services;
- Malicious behaviour (i.e. Cybersecurity attacks) that could interrupt services, lead to loss of information or breach of privacy, and/or damage to equipment or facilities;
- Outcomes of litigation, legal settlements, arbitration and negotiations;
- Identification of environmental liabilities;
- Changes in pension liability due to external factors; and
- Changes in accounting standards.

While Yukon's revenues are mainly stable due to the level of federal transfers, the Government's fiscal health nevertheless relies on revenue from economic activity. As this activity can be volatile in an economy that is significantly tied to mining and exploration activities, the Government takes a cautious and prudent approach to revenue forecasting and fiscal planning. For example, while private sector economic forecasts are used in the Department of Finance economic projections, the Government's fiscal plan is traditionally built on assumptions that are below the private sector forecast. Commodity prices and mining exploration and development plans are closely monitored on a regular basis in order to estimate the impact on fiscal projections. With respect to federal transfers, the Government works closely with the federal government to ensure timeliness of information and fairness in funding levels, including with respect to infrastructure programs that affect the Government's capital planning.

On the expense side, the Department of Finance's Management Board Secretariat closely monitors the spending of Departments and the effect on the fiscal plan so that supplementary estimates can be tabled in the Legislature to address unanticipated spending or savings.

Another area being monitored is the completeness and accuracy of provisions for losses that are likely to occur as a result of obligations such as ongoing litigation and environmental remediation. These items could be estimated, expensed and reported as liabilities prematurely or either excessively or insufficiently.

Changes to Canadian accounting standards issued by the Public Sector Accounting Board can have an impact on the Government's budgets, estimates and actual results. The Office of the Comptroller reviews proposed changes and provides input towards the goal of having processes that reflect sound policy decision-making, transparency and accountability.

Risks and Mitigations

Emerging Issues

New Accounting Standards

The Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada (CPA) is the body responsible for maintaining the Public Sector Accounting Standards (PSAS) that all public sector organizations are required to follow. For further clarity, the Government of Yukon is legislated to follow these reporting standards as per *Yukon Act* (Canada) s33 and *Taxpayer Protection Act* (Yukon) s4(2).

As business practices evolve and modernize, so must accounting practices, hence PSAB is continuously reviewing and updating the PSAS. Below are a number of new or amended PSAS that the Government plans to adopt on their effective date.

PSAS 3280 - Asset Retirement Obligations (ARO) (effective April 1, 2022)

The concepts to be introduced in PSAS 3280 are similar to the ARO concepts introduced in private sector standards close to a decade ago. Namely, ARO recognizes that certain tangible capital assets will require costs to be incurred at the time the asset is retired either through sale, disposal or demolition. PSAS 3280 requires that these retirement costs be recognized at the time of purchasing the asset, or as soon as the costs can be estimated. These concepts are similar to those in PSAS 3270 Landfill Closure and Post-Closure Liabilities; actually, so similar that PSAS 3270 will be archived when PSAS 3280 is implemented. PSAS 3280 will apply to all tangible capital assets owned or controlled by the Government. Work is on-going to establish estimation and recording procedures and to quantify impact on financial position.

PSAS 3450 - Financial Instruments (effective April 1, 2022)

This PSAS establishes new guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives.

Currently, the Government expects negligible impact resulting from the adoption of this new standard.

PSAS 3041 - Portfolio Investments (effective April 1, 2022)

PSAS 3041 replaces existing PSAS 3040 with revised guidance on the accounting for, and presentation and disclosure of, portfolio investments.

Due to the nature of its portfolio investments, the Government expects nominal impact resulting from the adoption of this new standard.

PSAS 2601 - Foreign Currency Translation (effective April 1, 2022)

PSAS 2601 replaces existing PSAS 2600 with revised guidance on the recognition, presentation and disclosure of transactions that are denominated in a foreign currency.

Due to the low volume of foreign currency transactions, the Government expects negligible impact resulting from the adoption of this new standard.

PSAS 1201 - Financial Statement Presentation (effective April 1, 2022)

PSAS 1201 replaces existing PSAS 1200 with revised general reporting principles and standards of presentation and disclosure in government financial statements. These changes are required to incorporate the changes stemming from the new PSAS 3450, PSAS 3041 and PSAS 2601.

Again, the Government expects negligible impact resulting from the adoption of this new standard.

PSAS 3400 - Revenue (effective April 1, 2023)

This new PSAS establishes new guidance on the recognition, measurement, presentation and disclosure of revenue

The Government is assessing the potential impact resulting from the adoption of this new standard.

PSAS 3160 - Public Private Partnerships (effective April 1, 2023)

This new PSAS establishes new guidance on the recognition, measurement and disclosure of public private partnership arrangements.

The Government is reviewing if there will be any impact resulting from the adoption of this new standard.

Risks and Mitigations

Emerging Issues (continued)

RCMP Collective Agreement

In the summer of 2021, the Royal Canadian Mounted Police (RCMP) ratified a collective agreement with their non-commissioned members as the previous wage contract expired March 31, 2016. The wage settlement is expected to include significant increases to the wages of front-line constables. The Government contracts the RCMP to deliver police services and expects to be impacted by this settlement. The Government is monitoring the process and awaits notification of its exposure to any increases in its contract costs.

PART TWO AUDITED CONSOLIDATED FINANCIAL STATEMENTS

This page intentionally left blank.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The preparation of the consolidated financial statements of the Government of Yukon is the responsibility of management of the Department of Finance.

The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards. Where standards permit alternative accounting methods, management has chosen those that are most appropriate. Where required, management's best estimates and judgement have been applied in the preparation of these statements.

The Government fulfills its accounting and reporting responsibilities, through the Department of Finance, by maintaining systems of financial management and control designed to provide timely and reliable information to users, to properly safeguard assets, and to ensure all financial transactions are in accordance with the *Yukon Act* (Canada), and the *Financial Administration Act* (Yukon) and regulations.

The Auditor General of Canada performs an annual audit on the consolidated financial statements in order to express an opinion as to whether the consolidated financial statements present fairly, in all material respects, the financial position of the Government, the results of its operations, the change in its net financial assets and its cash flows for the year, in accordance with Canadian public sector accounting standards. During the course of the audit, she also examines transactions that came to her notice, to ensure they are, in all material respects, in accordance with the statutory powers of the Government and those organizations included in the consolidation.

Annually, the consolidated financial statements are tabled in the Legislative Assembly as part of the Public Accounts, and are referred to the Public Accounts Committee.

D. Scott Thompson

Deputy Minister of Finance

INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of Yukon

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of the Government of Yukon and its controlled entities (the Group), which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of operations and accumulated surplus, consolidated statement of change in net financial assets and consolidated statement of cash flow for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2021, and the consolidated results of its operations, consolidated changes in its net financial assets, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in Parts One and Two of the 2020–21 Yukon Public Accounts, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless an intention exists to liquidate the Group or to cease operations, or there is no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the consolidated
 financial statements. We are responsible for the direction, supervision, and performance
 of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the consolidated financial statements, we have audited transactions of the Government of Yukon and its controlled entities coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Yukon Act*, the *Financial Administration Act* of Yukon and regulations, and the specific operating authorities disclosed in Note 2(a) to the consolidated financial statements.

In our opinion, the transactions of the Government of Yukon and its controlled entities that came to our notice during the audit of the consolidated financial statements have complied, in all material respects, with the specified authorities referred to above.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Government of Yukon and its controlled entities' compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Government of Yukon and its controlled entities to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compllance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the consolidated financial statements are in compliance with the specified authorities referred to above.

Karen Hogan, FCPA, FCA Auditor General of Canada

The accompanying notes and schedules are an integral part of these consolidated financial statements.

Notes to Consolidated Financial Statements March 31, 2021

1. Authority and operations

(a) Authority

The Government of Yukon ("the Government") operates under the authority of the *Yukon Act* (Canada). All disbursements for operations and loans are authorized by the Yukon Legislative Assembly.

(b) Budget

The Budget figures are based on the Consolidated Budget of the Government Reporting Entity as published in the Government's Operation & Maintenance and Capital Estimates 2020-21 as approved in the Legislative Assembly in March 2020. Adjustments include estimated lapses and unallocated budget estimates.

(c) Investments

The Financial Administration Act (Yukon) allows the Government to invest money from the consolidated revenue fund in the following investments:

- securities that are obligations of, or guaranteed by, the Government of Canada or a province;
- fixed deposits, notes, certificates and other short-term paper of, or guaranteed by, a bank including swapped deposit transactions in the currency of the United States of America;
- commercial paper issued by a company incorporated under the laws of the Government of Canada or a province, the securities of which are rated in the highest rating category by at least two recognized security rating institutions.

2. Significant accounting policies

These consolidated financial statements are prepared in accordance with Canadian public sector accounting standards as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

(a) Reporting entity and method of consolidation

The consolidated financial statements include the accounts of all government sector entities and government not-for-profit organizations.

Government sector entities include departments and government-controlled corporations. Government not-for-profit organizations comprise government-controlled education and health institutions.

The accounts of government sector entities and not-for-profit organizations, except for those that are classified as government business enterprises, are consolidated using the full consolidation method. With the full consolidation method, revenue and expense transactions, capital, investing and financing transactions, and related assets and liability accounts between consolidated entities have been eliminated.

Notes to Consolidated Financial Statements March 31, 2021

The accounts of government business enterprises are consolidated using the modified equity method. Under the modified equity method of consolidation, the accounting policies of consolidated entities are not adjusted to conform with those of the government organizations that are consolidated using the full consolidation method. Inter-entity revenue and expense transactions and related asset and liability balances are not eliminated.

On February 6, 2020, the *Yukon University Act* was proclaimed into force and the *Yukon College Act* was repealed, and Yukon College changed its name to Yukon University. Beginning with the fiscal period ending March 31, 2021 Yukon University has changed its year end date to March 31.

All accounts of the government reporting entity are consolidated using the financial information for the year ended March 31. As for the organizations that use a fiscal year-end other than March 31, namely the Yukon Development Corporation, the Government uses their unaudited interim financial statements as at March 31.

Trusts administered by the Government on behalf of other parties (Note 22) are excluded from the government reporting entity.

The organizations comprising the government reporting entity, categorized by the consolidation method, and their specific operating authority are as follows:

Full consolidation:

Authority for operations:

Government of Yukon departments Yukon University, formerly Yukon College Yukon Hospital Corporation Yukon Housing Corporation

Yukon University Act, formerly Yukon College Act Hospital Act Housing Corporation Act

Financial Administration Act

Modified equity:

Yukon Development Corporation Yukon Liquor Corporation

Yukon Development Corporation Act Liquor Act Cannabis Control and Regulation Act

(b) Basis of accounting

Revenues

Revenues are recorded on an accrual basis.

Grants from the Government of Canada are recognized as revenues when entitlement for the transfer occurs. The Government receives a Formula Financing grant and the Canada health and the Canada social transfers from the Government of Canada in accordance with the *Federal-Provincial Fiscal Arrangements Act* (Canada) which expires on March 31, 2024. The Formula Financing grant is principle-based and the Canada health transfer and the Canada social transfer are simple equal cash per capita grants. Adjustments for health and social transfers are made in the year they are known.

Government transfers are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as unearned revenue when transfer stipulations give rise to a liability. Transfer revenues are recognized as the stipulation liabilities are settled.

Notes to Consolidated Financial Statements March 31, 2021

Income taxes, levied under the *Income Tax Act* (Yukon), are collected by the Government of Canada on behalf of the Government under a tax collection agreement and are remitted to the Government monthly. The remittances are based on the Government of Canada's Department of Finance's best estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are final. The Government recognizes income tax revenues based on the estimates made by the Government of Canada, adjusted for known factors. Any adjustments upon finalization are reflected in the accounts in the year they are identified. Tax concessions are accrued on the same basis as the associated tax revenues and reduce gross taxation revenue.

Fuel and tobacco taxes are levied under the authority of the *Fuel Oil Tax Act* (Yukon) and the *Tobacco Tax Act* (Yukon). Revenues are recognized based on the statements received from collectors and estimates. Adjustments from reassessments are recorded in revenue in the year they are identified.

Proceeds from funding and service agreements with other parties are recognized as revenue as they are determined to be earned based on the terms and conditions of the agreements and in compliance with relevant accounting standards. These determinations occur on an agreement by agreement basis due to the diverse nature of each individual agreement.

Expenses

Expenses are recorded on an accrual basis. Transfer payments are recorded as expenses when authorized and recipients have met eligibility criteria.

Recovery of prior years' expenses includes reversal of amounts accrued in prior years which are in excess of actual expenses. These amounts cannot be used to increase the amount appropriated for the current year.

Assets

Financial assets

Cash and cash equivalents include cash on hand, balances with banks, and short-term investments that have terms to maturity of less than 90 days from the dates of acquisition.

Temporary investments include treasury bills, GICs, term deposits, and funds that include short-term debt securities of Canadian governments and corporate issuers with terms to maturity of 90 days or more but one year or less from the date of acquisition. When the market value of temporary investments has declined below the carrying value, they are carried at market value.

Portfolio investments are accounted for by the cost method and include funds that include bonds and equities. These investments are expected to be realized or have terms to maturity greater than one year from the date of acquisition. When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss.

Notes to Consolidated Financial Statements March 31, 2021

Loans receivable are stated at the lower of principal amounts and net recoverable value. Valuation allowances, which are recorded to reduce loans receivable to their net recoverable amount, are based on historical experience, current conditions and all circumstances known at the date of the preparation of the financial statements. The loan receivable is reduced by the amount of a loss when the amount is known with sufficient precision, and there is no realistic prospect of recovery. Interest revenue is recognized on an accrual basis until such time that the collectability of either principal or interest is not reasonably assured. Loans with significant concessionary terms are reviewed annually. Concessionary loans are recorded at the discounted value of the loan after the grant portion has been expensed.

Inventories for resale include land that has been developed by the Government and supplies held for eventual sale. Land is comprised of the costs of acquiring, planning and developing lots. The lots are valued at cost, except, when there has been a loss in value that is other than a temporary decline, in which case the lots are written down to net recoverable value to recognize the loss. Supplies held for sale are recorded at the lower of cost and net realizable value.

Non-financial assets

The costs of acquiring land, buildings, equipment and other capital property are capitalized as tangible capital assets and are amortized to expense over the estimated useful lives of the assets.

Inventories of supplies consist primarily of fuel and lubricants, repair parts, stationery and office supplies, highway materials that are tracked through revolving funds and medical supplies of the Yukon Hospital Corporation. Inventories are valued at the lower of cost and replacement value. These assets are not held for sale and are intended to be used in providing government services. Other materials and supplies are expensed at the time of acquisition.

Liabilities

Liabilities include financial claims payable by the Government and unearned revenues.

Unearned revenues are cash received for which goods and services have not been provided by year-end, and are primarily comprised of motor vehicle licence fees for the following fiscal years and transfer payments from the Government of Canada, which have associated stipulations that gave rise to a liability as of year-end.

Liabilities for leased tangible capital assets are recorded with a corresponding asset at the lower of the present value of the minimum lease payments, excluding the portion relating to executory costs, and the fair value of the asset. The present value is based on the Government's borrowing rate, over a similar term length as the related lease terms, at the time the obligation is incurred.

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is considered likely to occur and is quantifiable, an estimated liability is accrued. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed.

Notes to Consolidated Financial Statements March 31, 2021

(c) Tangible capital assets

Tangible capital assets are buildings, roads, equipment, and other items, whose useful life extends beyond the fiscal year and are intended to be used on an ongoing basis for delivering services. These assets are recorded at cost, or fair value if donated. For certain tangible capital assets that have previously been transferred from the Government of Canada or where the original costs are not readily available, estimated costs have been extrapolated back in time in a systematic and rational manner to approximate the appropriate transfer value of the assets at the time of transfer. Interest costs on loans that are directly attributable to the acquisition of tangible capital assets are capitalized.

The value of works of art, historical treasures, all intangibles, and items inherited by right of the Crown, such as Crown lands, forests, water, and mineral resources are not recorded as tangible capital assets. Historical treasures and works of art are expensed when they are acquired.

Tangible capital assets that are held and available for use by the Government are generally amortized on a straight-line basis over their estimated useful life of the asset as follows:

Asset category	Estimated useful life
Land	N/A
Buildings	
Buildings	40 - 50 years
Leasehold improvements	Shorter of the lease term or useful economic life
Equipment and vehicles	
Heavy equipment	7 - 30 years
Operating equipment	5 - 25 years
Vehicles	6 - 20 years
Computer hardware and software	
Computer hardware	5 years
Computer software	Expected usage of the
	system before overhaul
Transportation infrastructure	
Forestry access roads	10 years
Highways	up to 75 years
Pavement/surfaces	up to 75 years
Bridges	up to 75 years
Airport runways	up to 75 years
Other	
Portable classrooms/housing trailers	25 years
Land improvements and fixtures	up to 50 years
Sewage and water systems	up to 50 years
Mobile radio system infrastructure	15 years

Tangible capital assets under construction or development are reported as work-in-progress with no amortization until the asset is placed in service.

Notes to Consolidated Financial Statements March 31, 2021

(d) Post-employment benefits and compensated absences

Post-employment benefits are expected to be provided after employment but before retirement to employees. These benefits include severance benefits, accumulated sick and vacation leave benefits that are paid in cash when employment is terminated. Compensated absences are benefits such as sick leave and vacation leave that are paid to employees during their employment. The Government recognizes the obligation for these benefits as a liability and uses actuaries to estimate the amount of the obligation based on the projected benefit method prorated on service. Expenses related to post-employment benefits and compensated absences are recognized in the period in which the employee's service is rendered and the benefits are earned. The accrued benefit liability for these benefits is calculated as the accrued benefit obligation adjusted by unamortized actuarial gains or losses.

(e) Retirement benefits

The Government's employees participate in the Public Service Pension Plan administered by the Government of Canada. The Government's contributions are expensed during the year in which the services are rendered and represent its total pension obligation. The Government is not currently required to make contributions with respect to any actuarial deficiencies of the pension plan.

Other retirement benefits for Government employees include extended health care for retired employees who choose to participate in the plan and a life insurance plan for retirees who meet certain criteria. They are both non-pension defined benefit plans. Liabilities for these benefits are triennially valued on an actuarial basis using the projected benefit method prorated on service, with an actuarial valuation for accounting purposes updated annually. Non-pension retirement benefit expenses for these plans are recognized as the member renders service. Actuarial gains and losses are amortized on a straight-line basis over the estimated average remaining service lives of the participants. Both extended health care and life insurance retirement benefits are not funded and thus have no plan assets, resulting in a plan deficit equal to the accrued benefit obligation.

Retirement benefits to Members of the Legislative Assembly, territorial court judges, and the employees of Yukon University/College and the Yukon Hospital Corporation are defined benefit plans and are valued on an actuarial basis. Actuarial valuations of these benefits are performed triennially using the projected benefit method prorated on service, with an actuarial valuation for accounting purposes updated annually. Pension expenses for these plans are recognized as the member renders services. Actuarial gains and losses are amortized on a straight-line basis over the estimated average remaining service lives of the participants. The accrued benefit liability for these plans is calculated as the accrued benefit obligation less plan assets, if any, adjusted by unamortized actuarial gains or losses. Plan assets are valued at the fair market value.

(f) Environmental liabilities

Contaminated sites and other environmental liabilities, which include Type II sites, are accrued, net of recoveries, and an expense recorded based on management's best estimates when the contamination occurs, when the Government becomes aware of the contamination and when the Government is obligated to incur such costs. If the likelihood of the Government's obligation to incur these costs is not determinable, the contingency is disclosed in the notes to the financial statements.

Landfill liabilities are recognized on a net present value basis for the total estimated expenditures for closure and post-closure care as the landfill site's capacity is used.

Notes to Consolidated Financial Statements March 31, 2021

(g) Measurement uncertainty

The preparation of financial statements in accordance with Canadian public sector accounting standards requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant although, at the time of preparation of these financial statements, the Government believes the estimates and assumptions to be reasonable. Certain estimates used in these financial statements may be subject to increased measurement uncertainty due to the COVID-19 pandemic (Note 29). The amount of variability cannot be reasonably determined at this time.

Some of the more significant management estimates relate to post-employment and retirement benefits, environmental liabilities, amortization of tangible capital assets, corporate and personal income tax revenue and contingencies.

The provision for environmental liabilities is subject to a high degree of measurement uncertainty because the existence and extent of contamination, the responsibility for, and the timing and cost of remediation cannot be reliably estimated in all circumstances. The degree of measurement uncertainty resulting from the estimation of the provision cannot be reasonably determined.

3. Cash and cash equivalents

	2021	2020
	(thousa	inds of dollars)
Bank balances Short-term investments Cash on hand	\$ 82,893 8,049 70	\$ 60,530 7,977 70

		(thousands	of dollars)	
Marketable securities	\$ 39,360	\$ 39,404	\$ 33,816	\$ 37,006

Marketable securities include investments held by Yukon University/College as well as designated investments (Note 8) set aside within the Consolidated Revenue Fund for use in meeting certain post-employment and retirement benefit obligations for Members of the Legislative Assembly. The investments are managed by a third party. During the year, following a review of the third party management, the securities transitioned to a new third party manager.

8. **Designated assets**

The Government has designated a portion of its assets for the purpose of meeting the obligations under Part 3 (Supplemental Plan) of the *Legislative Assembly Retirement Allowances Act* (Yukon) as well as the "Severance allowance" section of the *Legislative Assembly Act* (Yukon).

Designated assets are included in cash and cash equivalents, temporary investments and portfolio investments as follows:

	20	021	2020		
	(thousands of dollars)				
Cash and cash equivalents	\$	4	\$	50	
Temporary investments (market value \$800,000; 2020 – \$1,264,000)		800		1,261

11. Investment in government business enterprises

(a) Summary financial statements

Summary financial statements of the government entities accounted for by the modified equity method are provided below. The Yukon Liquor Corporation has a fiscal year-end of March 31. The Yukon Development Corporation has a fiscal year-end of December 31 but the Government uses their unaudited interim financial statements for the consolidation. The summary financial statements are prepared in accordance with International Financial Reporting Standards.

(c) Advance receivable

Yukon Development Corporation

The Government entered into loan agreements with the Yukon Development Corporation ("YDC") and advanced a total of \$39,200,000 in order to assist in the development of the Whitehorse diesel – natural gas conversion project, which was completed by the Yukon Energy Corporation, YDC's wholly owned subsidiary. The loan term that commenced on April 1, 2016 ended on March 31, 2018. The per annum interest rate was set based on the one-year CDOR plus 30 basis points in effect on April 1 each year. The rate of interest on the loans was 1.514%. The Government and YDC entered into a new loan agreement

Notes to Consolidated Financial Statements March 31, 2021

effective March 30, 2018. The initial term of the loan is to March 31, 2023 and pursuant to the agreement, the loan may be extended for two additional five year terms upon mutual consent of the parties. The per annum interest rate will be set based on one-year CDOR plus 40 basis points in effect on April 1 each year. The rate of interest effective March 30, 2021 is 0.81% (2020 – 1.61%). The new loan agreement requires principal repayments of \$1 million on March 31 each year and full repayment of any principal outstanding at the end of each loan term if the loan is not extended. The payment due March 31, 2020 from YDC was received in May 2020 and the payment due March 31, 2021 was received in March 2021.

(d) Commitments

Yukon Development Corporation

In June 2010, the Yukon Development Corporation ("YDC") issued 30-year bonds in the amount of \$100 million at a fixed coupon rate of 5.0% per annum in part to finance the grant from the Yukon Development Corporation Fund and ratepayers' future contributions towards the construction of the Mayo B hydro enhancement and the Carmacks-Stewart transmission phase II projects. In the Memorandum of Understanding ("the MOU") between the Government and YDC dated March 10, 2011, the Government agreed to provide YDC with financial assistance to a maximum of \$2,625,000 annually from April 1, 2011, to March 31, 2042, based on a prescribed formula where, depending on the annual financial results of YDC, the Government funding will be reduced or eliminated. In 2020/2021, the Government paid \$2,625,000 (2020 – \$2,625,000) to YDC based on the MOU.

The Government authorized the continuation of the Interim Electrical Rebate program to March 31, 2022. This rebate program provides subsidies to non-government residential customers. It was initially implemented in 2009 as an interim replacement of the Rate Stabilization Fund. During the fiscal year 2020/2021, the Government provided \$3,429,000 (2020 – \$3,375,000) to YDC for this purpose. The Government is committed to fund up to \$3,500,000 in the fiscal year 2021/2022.

As at March 31, 2021, the Yukon Energy Corporation ("YEC"), the wholly-owned subsidiary of YDC, had contractual obligations for future purchases of products or services in the amount of \$31,850,000 (2020 – \$28,900,000).

The Yukon Water Board had issued a water use license for the Aishihik Lake facility that was valid until December 31, 2019. In addition to maintaining a minimum and maximum water level, the license commits YEC to meet a number of future requirements including annual fish monitoring programs.

Due to outstanding issues with affected stakeholders, YEC was unable to secure a long-term renewal of the license prior to expiry. During 2019, a two-month extension was granted, and then, in order to ensure continued generation of electricity from the Aishihik Lake facility, YEC applied for and received a three-year renewal of the existing license. The renewal is effective from March 1, 2020 to December 31, 2022. There are additional monitoring and potential operational adjustments, which will be charged to the fiscal year in which they occur. YEC continues to work with affected parties with the objective of securing a longer term license agreement prior to the expiry of the renewal.

Fish monitoring programs are also required under an authorization provided by the Federal Government, Department of Fisheries and Oceans. The costs of meeting these requirements will be accounted for as water license costs in the year they are paid.

Notes to Consolidated Financial Statements March 31, 2021

Yukon Liquor Corporation

In the normal course of operations, the Yukon Liquor Corporation enters into multi-year arrangements for the provision of freight and other goods and services. The total commitments as at March 31, 2021 for future years are \$2,569,000 (2020 – \$3,285,000).

(e) Contingencies

Yukon Development Corporation

At March 31, 2016, the Yukon Energy Corporation ("YEC"), Yukon Development Corporation's wholly owned subsidiary, had a claim from a contractor in the amount of \$4,000,000 plus interest and legal costs. During 2017, the Yukon Supreme Court issued an award in favour of the contractor. YEC successfully appealed the award in 2018. A re-trial was held in April 2020 with the decision of the judge being received in February 2021. The trial resulted in a net award in favour of YEC in the amount of \$433,000. Legal costs and interest are still to be adjudicated. The outcome of the adjudication is not determinable at this time and no estimate of a settlement has been recognized in the financial statements.

YEC has not recognized a provision for asset retirement obligations for the closure and restoration obligations for certain generation, transmission and distribution assets. YEC anticipates maintaining and operating these assets for an indefinite period, making the dates of retirement of the assets indeterminate. The significant uncertainties around the timing of any potential future cash outflows are such that a reasonable estimate of the liability is not possible at this time. A provision will be recognized when the timing of the retirement of these assets can be reasonably estimated.

(f) Regulatory Deferral Accounts

Yukon Development Corporation

Regulatory deferral accounts in YDC's financial statements are accounted for differently than they would be in the absence of rate regulation. Where regulatory decisions dictate, YDC defers certain expenses or revenues as regulatory deferral account debit balances or regulatory deferral account credit balances and recognizes them in the net movement in regulatory deferral account balances as it collects or refunds amounts through future customer rates. Any adjustments to these regulatory deferral accounts are recognized in the net movement in regulatory deferral account balances in the period that the Yukon Utilities Board ("YUB") renders a subsequent decision. All amounts maintained as regulatory deferral account debit balances and regulatory deferral account credit balances are expected to be recovered or settled and are assessed on an annual basis by comparing the rates approved by the YUB to the current balances.

The net movement in regulatory deferral account balances is included in income from investment in government business enterprises in the Government's consolidated statement of operations and accumulated surplus.

Notes to Consolidated Financial Statements March 31, 2021

12. Accounts payable and accrued liabilities

		2021		2020	
		ırs)			
Accounts payable	\$	76,407	\$	67,955	
Accrued liabilities		69,601		55,137

Due to government business enterprises (Note 11(b))		17,668		1,614	
Other		505	-	1,112	
	\$	173,811	\$	136,994	

13. Environmental liabilities

(a) Contaminated sites and other environmental liabilities

The Government has recorded environmental liabilities of \$26,447,000 (2020 – \$27,278,000). These liabilities consist of estimated costs related to the remediation of contaminated sites as well as estimated costs associated with other liabilities related to these sites. The liabilities are determined on a site-by-site basis and are based on preliminary environmental assessments or estimation for those sites where an assessment has not been conducted. The amount recorded is based on management's best estimates utilizing the information available at the financial statement date. The amount of liabilities becomes determinable over a continuum of events and activities as information becomes available. As a result, the actual amount of liabilities to remediate these sites could vary significantly.

As at March 31, 2021, the Government was aware of 99 sites (2020 – 99 sites) where the Government is obligated or is likely obligated to incur such costs. During the year remediation work was undertaken at 11 sites, including the Marwell Tar Pit.

One of the 99 sites, Marwell Tar Pit, has been formally designated as contaminated under the *Environment Act* (Yukon) and the *Contaminated Sites Regulation*. The Government is not a "responsible party" as defined by the *Environment Act* (Yukon) and determined by the *Contaminated Sites Regulation*. The Government of Canada was the landowner when the contamination occurred. In September 2010, the Government and the Government of Canada entered into an agreement to remediate the site over 11 years with a total estimated cost of \$6,800,000, of which the Government is to fund 30% or \$2,040,000 and the Government of Canada \$4,760,000. As at March 31, 2021, \$106,000 (2020 – \$250,000) was recorded as the remaining liability for this site, and is part of the \$26,447,000 noted above.

A site known as Wellgreen ceased operations in the 1970's. The Government of Canada approved the tailings dam and resulting pond built at that time as meeting required specifications; however, concerns regarding the level of water in the pond are known. Initial assessment confirmed that further remediation of the site is required and \$4,803,000 (2020 - \$5,000,000) has been recognized in Environmental Liabilities for Contaminated Sites to reflect the Government's expected responsibility. Negotiations with the previous owner and the Government of Canada will be required to establish final levels of responsibility and liability.

Notes to Consolidated Financial Statements March 31, 2021

(b) Landfill sites

There are 28 active, decommissioned or abandoned landfill sites that are outside incorporated communities and, therefore, are the responsibility of the Government. The Government is the sole operator of the active landfills. 23 of these sites are subject to the *Environment Act* (Yukon) – *Solid Waste Regulations* which includes requirements for closure and abandonment of a dump. The remaining 5 sites are old abandoned dumps which are not subject to the *Solid Waste Regulations*.

A liability is recognized as the landfill site's capacity is used with usage measured on a volumetric basis. As at March 31, 2021, the net present value of total expenditures for closure and post-closure care is estimated to be \$14,057,000 (2020 – \$14,057,000) and a liability in the amount of \$11,854,000 (2020 – \$11,854,000) has been recorded for these sites. The amount remaining to be recognized in the future is \$2,203,000 (2020 – \$2,203,000). No assets are designated for settling these liabilities.

In calculation of the above liability, the remaining landfill life was estimated to be from 0 to 50 years. Solid waste permits issued under the *Solid Waste Regulations* specify 25 years of post-closure monitoring; therefore, 25 years is used as an estimated length of time needed for post-closure care. A discount rate of 2.58% (2020 - 2.58%) was used for the net present value calculation for active and closed landfill sites.

(c) Type II sites

Pursuant to the Devolution Transfer Agreement ("DTA"), the Government of Canada retained responsibility for the clean-up of waste sites that were identified on lands transferred effective April 1, 2003. The Government of Canada also accepted financial responsibility for the remediation of impacts attributable to activities that took place prior to April 2003 on the mine sites identified as Type II sites, which have been abandoned by their owner/operator. Except for the Ketza River site discussed below, the Government is not aware of any financial obligations on its part in relation to these mine sites.

On April 10, 2015 Veris Gold Corporation abandoned the Ketza River mine site ("the site"). The site is identified as a Type II mine site in the DTA between the Government and the Government of Canada. The Government has provided notice to the Government of Canada pursuant to the DTA that the site has been abandoned by its owner/operator. Once a Type II site becomes abandoned the DTA requires that an Independent Assessor assess the condition of the site and develop a remediation plan. The Government is responsible for the cost of this assessment. Under the DTA, the Government of Canada accepted financial responsibility for the remediation of impacts attributable to activities that were permitted by the Government of Canada. The Government will be financially responsible for remediation of impacts of activities it permitted after devolution. The Government's costs, if any, may be offset by the security bond it holds. The financial obligations related to the assessment required under the DTA are estimated to be \$4,802,000 (2020 - \$4,857,000) and remediation costs, if any, which are the Government's responsibility, are currently undeterminable. No assets are designated for settling these liabilities.

Notes to Consolidated Financial Statements March 31, 2021

The following table presents the total estimated amounts of these liabilities as at March 31, 2021.

	2021			2020
	Number of sites	E	stimated Liability	Number Estimated of sites Liability
			(thousa	sands of dollars)
Liabilities for contaminated sites ¹				
Highway maintenance camps and airports	36	\$	10,835	36 \$ 10,913
Other storage tanks and buildings	52		8,653	52 9,215
Marwell Tar Pit	1		106	1 250
Wellgreen	1		4,803	1 5,000
Other	9		2,050	9 1,900
	99		26,447	99 27,278
Landfill sites	28		11,854	28 11,854
Type II sites	1		4,802	1 4,857
	128	\$	43,103	128 \$ 43,989

¹ Contamination primarily includes petroleum hydrocarbons, salts and/or occasionally metals.

14. <u>Unearned revenues</u>

	2021	2020
	(thousand	ds of dollars)
Liability portion of government transfers Motor vehicle fees for future years Other	\$ 17,735 2,554 6,887	\$ 10,791 2,091 2,746
	\$ 27,176	\$ 15,628

The liability portion of government transfers represents transfer payments from the Government of Canada, which have funding stipulations that gave rise to a liability as of year-end.

Notes to Consolidated Financial Statements March 31, 2021

15. Post-employment benefits and compensated absences

(a) The Government of Yukon and Yukon Housing Corporation

Employees of the Government of Yukon and the Yukon Housing Corporation receive severance benefits that are paid on termination of service or upon retirement based on the number of years worked, the level of the pay at the time of termination or retirement and the category of employment. In addition, if an employee has at least five years of continuous service, a cash-in of sick leave will be paid. The cash-in amount is calculated as 1/3 of unused sick leave credits to a maximum of 60 days multiplied by the daily pay rate at termination or retirement.

The Government and the Yukon Housing Corporation have conducted actuarial valuations of post-employment benefits as at January 31, 2020. March 31, 2021 amounts are based on an extrapolation of the January 31, 2020 amounts. These post-employment benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation.

The Government and the Yukon Housing Corporation also account for compensated absences liabilities in accordance with Canadian public sector accounting standards. Compensated absences include special leave benefits and educational leave benefits.

Effective December 31, 2019 all current resignation and retirement severance accruals have been frozen for employees classified as Deputy Ministers and Managers. All employees in this group are eligible to receive severance payouts based on service accrued prior to December 31, 2019. The plan amendment resulted in a gain to the plan of \$5,435,000. As there were no offsetting net unamortized actuarial losses, the full gain was recognized in net benefit cost for the year ended March 31, 2020.

Effective June 30, 2018 all current and retirement severance accruals were frozen for certain employees of the Government. All employees in this group are entitled to receive severance payouts based on service accrued prior to June 30, 2018.

Members of the Yukon Legislative Assembly receive a severance benefit in accordance with the *Legislative Assembly Retirement Allowance Act*, 2007 (Yukon). The accrued benefit obligation is calculated actuarially using the projected benefit method prorated on service. The accrued benefit liability at March 31, 2021 is based on an extrapolation of an actuarial valuation that was performed as at March 31, 2020. The Government has designated a portion of its assets for the purpose of meeting this obligation (Note 8).

Notes to Consolidated Financial Statements March 31, 2021

(b) Yukon University/College

Yukon University/College's cost of benefit plans, other than pensions, including severance benefits, sick leave and managers' accrued leave, payable upon termination of employment, death or retirement, is actuarially determined using the projected accrued benefit method prorated on employment services. These post-employment benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation. The actuarial valuation of the accrued benefit liability was performed as at June 30, 2019. March 31, 2021 amounts are based on an extrapolation of the June 30, 2019 amounts.

Yukon University/College accrues vacation leave and other compensated absences for employees as earned.

(c) Yukon Hospital Corporation

Employees of the Yukon Hospital Corporation are entitled to specified severance, special leave and sick leave benefits as provided for under union contracts and conditions of employment. There are no segregated assets for these post-employment benefits.

The Yukon Hospital Corporation accrues vacation leave as earned. This liability is included in accounts payable and accrued liabilities.

The accrued liabilities for the above benefits as of March 31, 2021 were as follows:

		2021		2020	
	(thousands of do			lollars)	
Post-employment benefits and compensated absences liability					
Government of Yukon employees	\$	124,108	\$	116,497	
Yukon University/College		10,030		8,264	
Yukon Hospital Corporation		2,945		2,502	
Yukon Housing Corporation		2,173		2,242	
Members of Yukon Legislative Assembly		891		690	
(Schedule D)	\$	140,147	\$	130,195	

16. Retirement benefits

(a) Public Service Pension Plan

The Government's employees participate in the Public Service Pension Plan administered by the Government of Canada. In this plan, employees accumulate pension benefits up to a maximum period of 35 years at 2% per year of pensionable service based on the average of their five consecutive years of highest paid services. In December 2012, the Government of Canada passed legislation to create a new group of plan members for the employees who join the plan on or after January 1, 2013. This group of plan members is eligible to retire with an unreduced public service pension benefit at age 65 with at least two years of pensionable service (or at age 60 with at least 30 years of service) while the old group of members is eligible to retire with an unreduced public service pension benefit at age 60 with at least two years of pensionable service (or at age 55 with at least 30 years of service). Since January 1, 2013, there are two groups paying different rates of contributions to the plan.

Notes to Consolidated Financial Statements March 31, 2021

In the calendar year 2020, the Government contributed \$1.01 for every dollar contributed by the old group of plan members and \$1.00 for the new group of plan members. For the portion of the employee's salary above \$173,000, the Government contributed \$3.80 for every dollar contributed by both groups of plan members.

In the calendar year 2021, the Government contributes \$1.01 for every dollar contributed by the old group of plan members and \$1.00 for the new group of plan members. For the portion of the employee's salary above \$181,600 the Government contributes \$3.59 for every dollar contributed by both groups of plan members.

The Government's contributions to the Public Service Pension Plan during the year and recorded as expenses were \$41,002,000 (2020 – \$38,752,000).

(b) Legislative Assembly Retirement Allowances Plan

The Legislative Assembly Retirement Allowances Plan is a contributory defined benefit pension plan. These benefits are based on service and earnings. The Members' Services Board of the Legislative Assembly is responsible, pursuant to the *Legislative Assembly Retirement Allowances Act* (Yukon), for the administration of the Plan.

The funds are held by an investment manager in two different accounts. The first account holds the assets of the trust fund for the registered pension plan established pursuant to Parts 1 and 2 of the Legislative Assembly Retirement Allowances Act. The second account holds the assets of the Government, from which benefits under Part 3 of the Legislative Assembly Retirement Allowances Act are paid (Note 8). It is the Government's policy to fully fund Parts 1 and 2 of this pension plan.

During the year, the investment management has transitioned to a new investment manager.

The Legislative Assembly Retirement Allowances Act stipulates that actuarial valuations for funding purposes must be performed at least triennially. An actuarial valuation is based on a number of assumptions about future events, such as inflation rates, interest rates, salary increases and member turnover and mortality. The assumptions used in a valuation for funding purposes are based on the actuary's best estimates with margins for conservatism. The last actuarial valuation for funding purposes was performed as of March 31, 2020. The accrued benefit obligation as at March 31, 2021 is based on an actuarial valuation performed for accounting purposes using the membership data as of March 31, 2020.

(c) Territorial Court Judiciary Pension Plan

The Territorial Court Judiciary Pension Plan is a defined benefit pension plan, which is comprised of a judiciary registered pension plan, a judiciary retirement compensation arrangement and a supplementary judiciary pension plan. In addition to pension payments, these plans also contain a provision for payment of lump sum death and severance allowances. The Plan is administered by the Public Service Commissioner in the meaning assigned by the *Public Service Act* (Yukon).

Notes to Consolidated Financial Statements March 31, 2021

Pursuant to the *Territorial Court Judiciary Pension Plan Act* (Yukon), the pension fund assets for the judiciary registered pension plan and the judiciary retirement compensation arrangement are held separate and distinct from the Government's operations, and are managed by an investment manager. The *Territorial Court Judiciary Pension Plan Act* stipulates that no contributions are to be made to the supplementary judiciary pension plan, and no fund is to be maintained for this plan.

Actuarial valuations for the Territorial Court Judiciary Pension Plan for accounting and funding purposes were conducted using the membership data as at March 31, 2020.

(d) Yukon University/College Employees' Pension Plan

The Yukon University/College ("the University") Employees' Pension Plan is a contributory defined benefit pension plan. The University's pension plan provides mandatory pension benefits for all full-time employees and optional benefits for part-time employees after 24 months of continuous service. The University's pension plan provides for defined retirement benefits based on an employee's years of service and average final earnings, in accordance with the *Pension Benefits Standards Act, 1985* (Canada). The University has contracted with external organizations to provide the services of trustee, administration, consulting and investment manager for the pension plan. The pension plan assets are held by a trustee and separate financial statements are prepared for the pension plan.

An actuarial valuation for accounting purposes was performed as at March 31, 2021 following Canadian public sector accounting standards. An actuarial valuation for funding purposes was performed as at June 30, 2020, which established Yukon University/College's required contributions as 100.4% (June 30, 2019 – 94.3%) of employee contributions.

The actuarial valuation for funding purposes as at June 30, 2020 indicates the University had an actuarial surplus of 16,006,000 (June 30, 2019 - 19,587,000) at the measurement date on a going-concern basis and a deficit of 21,014,000 (June 30, 2019 - 1,296,000) if valued on the basis that the pension plan was to be terminated/wound up as at June 30, 2020. The solvency ratio of the plan was 20,2000 (20,000) at June 20,2000.

For any unfunded pension liability, the University has obtained a letter of credit in lieu of making solvency payments. The amount of the letter of credit is equal to the amount of solvency payments required as determined by the actuary. The Government has issued letters to a bank guaranteeing that, should there be a requirement to draw upon the letters of credit required by Yukon University/College to address its solvency deficit in its pension plan, the Government will provide the necessary financial support to address any resulting debt, interest and costs that may be required under the federal pension legislation. This guarantee remains in effect until December 31, 2021. The maximum amount of letters of credit to which this guarantee applies will be \$21,357,000 (2020 – \$20,739,000).

(e) Yukon Hospital Corporation Employees' Pension Plan

The Yukon Hospital Corporation ("the Corporation") Employees' Pension Plan is a contributory defined benefit pension plan, which provides defined retirement benefits based on the length of service and final average earnings of an employee, and is administered by the Corporation's Board of Trustees. A separate pension fund is maintained to hold plan assets. The Corporation has contracted with external organizations to provide trustee and investment management services for the fund.

Notes to Consolidated Financial Statements March 31, 2021

An actuarial valuation for funding purposes was performed at December 31, 2020, which established the Corporation's required contribution as 113% (2019 - 112%) of employee contributions. This valuation reported that, as at December 31, 2020, the pension plan had a surplus of \$45,866,000 (2019 - \$36,997,000) on a going concern basis, and a deficit of \$43,308,000 (2019 - \$31,970,000) if valued on the basis that the pension plan was to be terminated/wound up. The solvency ratio of the plan at December 31, 2020 is 82% (84% at December 31, 2019).

In accordance with the *Pension Benefits Standards Act, 1985* (Canada), the Corporation is required to make special payments to eliminate the solvency shortfall. The payments have been actuarially determined as \$6,904,000 over the 2021 calendar year (2020 - \$4,940,000). The Corporation is permitted to cover up to a specified maximum of 15% of the solvency liability with a conforming letter of credit. During the fiscal year, the Corporation entered into letters of credit totaling \$26,907,000 (2020 – \$26,508,000) related to solvency deficiency payments. The Government has issued letters to a bank guaranteeing that, should there be a requirement to draw upon the letters of credit required by the Corporation to address its solvency deficit in its pension plan, the Government will provide the necessary financial support to address any resulting debt, interest and costs that may be required under the federal pension legislation. This guarantee was in effect from June 30, 2020 to June 30, 2021 and the maximum amount of letters of credit to which this guarantee applied was \$26,508,000 (2020 - \$26,508,000). In June 2021, this guarantee was renewed to a maximum of \$35,464,000 for the June 30, 2021 to June 30, 2022 period. There is an overlap between the letters of credit time periods and the fiscal years.

An actuarial valuation for accounting purposes was performed as at March 31, 2021 following Canadian public sector accounting standards.

(f) Extended health care and life insurance retirement benefits

The Government provides optional extended health care benefits to retired employees as well as life insurance coverage to eligible retirees. They are both non-pension defined benefit plans. The extended health care plan is self-insured. The accrued benefit obligation as at March 31, 2021 is based on an extrapolation of an actuarial valuation conducted as at January 31, 2020. Extended health care and life insurance retirement benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation.

Effective for all employees retiring after January 1, 2019 the cost sharing arrangement for extended health benefits was revised. Existing retirees and those retiring prior to January 1, 2019 are not impacted by the change.

Effective April 1, 2020, the eligibility for post-retirement life insurance was amended through changes to Section M, the terms and conditions of employment for managers. Managers appointed to MG3 or higher positions prior to April 1, 2020 retain their eligibility for post-retirement life insurance on retirement. Management employees newly appointed at the MG3 level or higher as of April 1, 2020 will not be eligible for post-retirement life insurance.

Notes to Consolidated Financial Statements March 31, 2021

The accrued benefit liability/asset for the above retirement benefits as of March 31, 2021 was as follows:

		2021		2020
	(thousands of dolla			irs)

Notes to Consolidated Financial Statements March 31, 2021

Borrowing Limit

The Yukon Borrowing Limits Regulations prescribe what constitutes borrowing, the entities whose borrowing must be taken into account, and the manner in which the value of a borrowing is determined.

An Order in Council (P.C. 2012-280) came into force on March 8, 2013. These regulations pursuant to subsection 23(2) of the *Yukon Act* (Canada) provided authority to the Government and its entities to borrow in aggregate to a maximum of \$400 million.

On September 20, 2020, the Government of Canada repealed, pursuant to subsection 23(4) of the *Yukon Act* (Canada), Order in Council (P.C. 2012-280) and issued Order in Council (P.C. 2020-0663), setting the maximum amount of the aggregate of all borrowing at \$800 million.

	2021	2020
	(thousands	of dollars)
Authorized borrowing limit	\$ 800,000	\$ 400,000
Loans of money by government reporting entity:

Credit facilities used	33,314	23,807
Capital lease obligation	3,096	4,144
Total debt	235,230	228,435
Available borrowing capacity	\$ 564,770	\$ 171,565

Notes to Consolidated Financial Statements March 31, 2021

18. Liabilities for leased tangible capital assets

	2021 2 (thousands of dollars)			2020 s)
Building lease obligation payable monthly until the year 2023, with imputed interest rate of 3.7%.	\$	1,348	\$	1,970
Building lease obligation payable monthly until the year 2025, with imputed interest rate of 3.7%.		1,062		1,285
Building lease obligation payable monthly until the year 2025, with imputed interest rate of 3.3%.		686		889
	\$	3,096	\$	4,144

Interest expense related to liabilities for leased tangible capital assets for the year was 174,000 (2020 – 196,000) at an imputed average interest rate of 3.6% (2020 – 3.1%).

The following is a schedule of future minimum lease payments under the liabilities for leased tangible capital assets:

	(thousands of dollars)
2022 2023 2024 2025	\$ 1,863 1,873 725 536
Total minimum lease payments	4,997
Less: amount representing executory costs amount representing rental of land amount representing interest	(1,262) (509) (130) \$ 3,096

Notes to Consolidated Financial Statements March 31, 2021

19. Financial instruments

The balances in cash and cash equivalents, due to/from Government of Canada with the exception of amounts due to CMHC (Note 17), accounts receivable, advances to government business enterprises, and accounts payable and accrued liabilities have fair values that approximate their carrying amount due to their short term to maturity.

The fair value and the methods of calculation and assumptions used for the Government's other financial instruments are detailed below:

	202	1	2020	
	Fair Value	Carrying Value	Fair Value	Carrying Value
		(thousands	of dollars)	
Temporary investments	\$ 1,619	\$ 1,619	\$ 1,264	\$ 1,261
Portfolio investments Marketable securities	\$ 39,360	\$ 39,404	\$ 33,816	\$ 37,006
Loans receivable				
Mortgages receivable, net of valuation allowance Other loans receivable,	\$ 38,931	\$ 37,556	\$ 39,606	\$ 39,772
net of valuation allowance	52,664	52,661	33,089	32,896
	\$ 91,595	\$ 90,217	\$ 72,695	\$ 72,668
Borrowings				
Demand term installment loan Mortgages payable Loans payable Other	\$ 29,411 825 1,651 85	\$ 26,271 1,089 1,620 85	\$ 34,178 1,184 1,751 102	\$ 29,810 1,462 1,715 85
	\$ 31,972	\$ 29,065	\$ 37,215	\$ 33,072

An active and established market exists for the temporary and portfolio investments. Consequently, the estimated fair value is calculated using observed market data.

Since the above valuation is based on market information available at March 31, 2021, the fair value of the investments may change materially in future periods as a result of fluctuations in the market. However, these changes are not expected to result in a significant impact on the Government's future operations.

Notes to Consolidated Financial Statements March 31, 2021

The estimated fair values of loans receivable were determined using the present value of future cash flows discounted at the March 31, 2021 average market rate for mortgages and loans with similar maturities. Until settled, the fair value of loans receivable will fluctuate based on changes in interest rates. The Government believes the carrying amount of loans receivable will be fully recovered.

The estimated fair value for borrowings is calculated by discounting the expected future cash flows at year-end market interest rates for equivalent terms to maturity.

20. Tangible capital assets

	2021	2020
	Net Book	Net Book
	Value	Value
	(thousan	ds of dollars)
Land	\$ 19,575	\$ 19,575
Buildings	755,184	764,043
Equipment and vehicles	102,565	96,582
Computer hardware and software	46,450	39,556
Transportation infrastructure	659,758	642,427
Land improvements and fixtures	46,504	42,405
Sewage and water systems	48,800	50,278
Other	14,181	13,513
(Schedule C)	\$ 1,693,017	\$ 1,668,379

Leased tangible capital assets are reported as part of the respective asset category. These leased assets are amortized on a straight-line basis over the lease term or estimated economic life. The amortization expense for the year was \$991,000 (2020 – \$1,038,000). The cost and accumulated amortization of leased capital assets that are included in the schedule of tangible capital assets are as follows:

	202		2020	
		(thousands	of dollar	rs)
Buildings (cost) Operating equipment (cost)	\$	9,907 141	\$	9,907 141
	,	10,048		10,048
Less accumulated amortization	((7,415)		(6,424)
	\$	2,633	\$	3,624

Notes to Consolidated Financial Statements March 31, 2021

21. Expenses by object

	2021			2020

Other		11,374		7,202	
	\$	1,612,537	\$	1,480,129	

22. Trusts under administration

The Government administers trust accounts on behalf of third parties which are not included in the Government's assets.

The largest such trust account, the Compensation Fund (Yukon) has a fiscal year-end of December 31. Details of the assets of the Compensation Fund (Yukon), principally investments, are available from its financial statements, which are reproduced in Section III of the Public Accounts of the Government. At March 31, 2021, the remaining trust account balances were held in bank accounts or invested in term deposits and GICs.

Investments of the Compensation Fund (Yukon) are valued at fair value. Investments of the remainder of the trust accounts are valued at the lower of cost and market. Any other assets held under administration such as property, securities and valuables are reflected in trust accounts only upon conversion to cash. The following is a summary of the trusts under administration as at March 31, 2021, except for the Compensation Fund (Yukon) which is at December 31, 2020.

	2021 20		2020

commitments	2045	37,812	9,528	47,340	
		\$254,926	\$394,588	\$649,514	

25. **Overexpenditure**

Overexpenditure of a vote contravenes subsection 17(2) of the Financial Administration Act (Yukon) which specifies that "a vote does not authorize any payment to be made in excess of the amount specified in the vote". During the year, no (2020 - two) departments exceeded their votes with a total of (2020 - 57,612,000).

The *Appropriation Acts* (Yukon) state that the Government is not to expend grant payments except in accordance with the Act. During the year, two (2020 – one) departments exceeded the authorized amounts as follows:

	(thousands of dollars)
Health and Social Services	,
- COVID CERB Exemption	\$ 1,103
- Yukon seniors' income supplement	39
- Social Assistance - Whitehorse	9
Finance	
- Workers' compensation supplementary benefits	\$ 34

Notes to Consolidated Financial Statements March 31, 2021

26. Guarantees

The Government has guaranteed repayment of loans payable by the Yukon Energy Corporation, the wholly-owned subsidiary of the Yukon Development Corporation, of \$nil (2020 – \$23,807,000).

At March 31, 2021, the Yukon Development Corporation had long-term debt of \$203,000,000 (2020 – \$203,000,000) (Note 11(a)) and a credit facility of up to \$43,500,000. While the Government has not issued guarantees for these instruments, as the Yukon Development Corporation is an agent of the Government, lenders may have recourse to the Government. Except for the amounts committed as described in note 11(d), it is expected that no significant costs will be incurred by the Government with respect to any guarantees and debts.

27. Land claims

Between February 1995 and March 31, 2021, eleven Yukon First Nation Final and Self-government Agreements came into effect. The Government of Canada's negotiating mandate expired prior to the completion of the remaining three Yukon agreements. Settlements for these outstanding claims would not result in a general liability to the Government as they are to be funded by the Government of Canada. The Government would, however, be responsible for any financial obligations it might agree to during the negotiations.

The bilateral funding agreement with the Government of Canada that had been in place since June 24, 1993 and which provided funding towards the Government's additional implementation costs expired on March 31, 2009. However, there are no additional costs for the Government as all of the existing funding commitments are captured elsewhere, either through a specific funding agreement with the Government of Canada or as a component of the base funding received by the Government. The specific implementation costs include Board and Council funding arising from the various Final Agreement Implementation Plans and other negotiated funding amounts.

28. Contingencies

In the normal course of operations, the Government is subject to legal claims. These claims include items with pleading amounts and items where an amount is not specified. At March 31, 2021, the amounts claimed, excluding the claims from Northern Cross (Yukon) Ltd., which are described below, is \$5,793,000 (2020 – \$6,538,000). No provision for these claims has been made as it is unlikely or undeterminable that a liability has been incurred at the date of the financial statements.

On April 4, 2017, Northern Cross (Yukon) Ltd. ("Northern Cross") filed a Statement of Claim in the Supreme Court of Yukon against the Government and the Minister of Energy, Mines and Resources. Northern Cross identified a number of causes of action although all of these are based upon its allegation that due to the moratorium on hydraulic fracturing Northern Cross' exploration rights in the Eagle Plains area have been adversely affected. The claim seeks up to \$2.26 billion which is comprised of \$395 million for refund of work deposits, application fees, rental amounts, sunk costs and interest and \$1.86 billion in damages for loss of opportunity of 8.6 billion barrels of oil, at fair market value, identified as being in the area through a resource evaluation. On April 12, 2017, Northern Cross changed its name to Chance Oil and Gas Limited. No provision for this claim has been made as it is undeterminable that a liability exists at the date of the financial statements.

Notes to Consolidated Financial Statements March 31, 2021

The Government established a Risk Management Revolving Fund in December 2004, with a limit of \$5,000,000, which is to be used for providing limited insurance and risk management services to Government departments. Expenses relating to some of the property and liability losses incurred by the Government are to be paid out of this fund. The Government has legal liability and property insurance with a \$2,000,000 deductible. In 2020/2021, the Government paid \$253,000 (2020 – \$299,000) for liability claims such as bodily injury, property damage and automobile liability. The Government had unpaid claims against the fund in the amount of \$1,660,000 as at March 31, 2021 (2020 – \$1,521,000). This amount is reported as part of the Government's accrued liabilities. The fund balance at March 31, 2021 was \$5,000,000 (2020 – \$5,000,000).

In addition to the environmental liabilities discussed in Note 13, there may be other instances of contamination that have not yet been identified for which the Government may be obligated to incur remediation costs. No liability has been recognized for these instances of contamination as the future costs of remediation and the Government's obligation to incur these costs are undeterminable at the date of the financial statements.

Yukon Zinc Corporation ("Yukon Zinc"), as the owner of the Wolverine Mine, is responsible for the future reclamation and closure of the mine site. Pursuant to the Quartz Mining Act (Yukon), Yukon Zinc was required to provide a total of \$35,549,000 as financial security. That amount was determined when the Government commissioned a costing review exercise for the Yukon Zinc Wolverine Mine Reclamation and Closure Plan, the report was received December 12, 2017. The objective of this costing review was to confirm the activities and associated costs required during temporary and permanent closure, in accordance with Wolverine Mine's operating licenses and other regulatory requirements. Yukon Zinc has only provided \$10,589,000 as security to date. The Government has unsuccessfully attempted to collect the outstanding financial security from Yukon Zinc.

On September 16, 2019, the Yukon Supreme Court ordered Yukon Zinc be put into receivership. Beginning in the 2019-20 fiscal year, the Government has carried out necessary care and maintenance work, including contaminated water treatment, on behalf of Yukon Zinc, expending all of the \$10,589,000 accessible to it from the financial security. On May 26, 2020, the Yukon Supreme Court ruled that the Government's claim to additional monies from the assets of Yukon Zinc ranks in priority above any other claim, right, charge or security against the Wolverine Mine. This ruling was appealed by Yukon Zinc and another creditor hence the liquidation of Yukon Zinc's assets including the mine site is currently on hold subject to ongoing litigation. The court appointed receiver is attempting to find a buyer for the mine. In the event that the Wolverine Mine ultimately becomes abandoned, the Government will likely be required to assume the remediation responsibility of the site as the mining activities at the Wolverine Mine occurred post-devolution. While there is a reliable estimate of future remediation costs in relation to the Wolverine Mine, the outcome of the receivership process is not determinable at the date of the financial statement preparation; hence, no liability has been recognized.

Notes to Consolidated Financial Statements March 31, 2021

29. Subsequent events

The outbreak of COVID-19 in early 2020 caused global disruption and economic slowdown. In response to the pandemic, the Government, with support from the Government of Canada, implemented various initiatives and programs to assist individuals, businesses, and industries. Significant government supports include public health measures, aviation supports, tourism relief recovery and other economic relief and financial support programs. In summer 2021, the Territory experienced a serious outbreak that demonstrated that the impacts of COVID-19 are ongoing. At this time, it is not possible to reliably estimate the length and severity of the pandemic and its economic impacts. The Government is continuing to monitor and assess the impacts; a number of supports noted above have already been extended into 2022.

30. Comparative figures

Certain comparative figures for 2020 have been reclassified to conform with the 2021 presentation.

Notes to Non-Consolidated Financial Statements March 31, 2021

1. Authority and operations

(a) Authority

The Government of Yukon ("the Government") operates under the authority of the *Yukon Act* (Canada). All disbursements for operations and loans are authorized by the Yukon Legislative Assembly.

(b) Main Estimates

The Main Estimates comparative figures are from the Main Estimates approved in the Legislative Assembly in March 2020. These figures do not reflect changes arising from the Supplementary Estimates approved later in the year by the Yukon Legislative Assembly. Adjustments include estimated lapses and unallocated budget estimates.

(c) Investments

The *Financial Administration Act* (Yukon) allows the Government to invest money from the consolidated revenue fund in the following investments:

- securities that are obligations of, or guaranteed by, the Government of Canada or a province;
- fixed deposits, notes, certificates and other short-term paper of, or guaranteed by, a bank including swapped deposit transactions in the currency of the United States of America;
- commercial paper issued by a company incorporated under the laws of the Government of Canada or a province, the securities of which are rated in the highest rating category by at least two recognized security rating institutions.

The duration of the securities held depends on cash projections but usually averages under a year in length.

2. Significant accounting policies

(a) Financial statements

These financial statements are prepared on a non-consolidated basis for the purpose of determining the financial position and annual results of the Government of Yukon departments. The *Taxpayer Protection Act* (Yukon) requires that the accounting policies of the Government, which are used to prepare its non-consolidated financial statements, must conform to the recommendations of the Public Sector Accounting Board of the Chartered Professional Accountants of Canada, except with respect to consolidation.

The Government also prepares a set of consolidated financial statements in accordance with Canadian public sector accounting standards as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

Notes to Non-Consolidated Financial Statements March 31, 2021

(b) Basis of accounting

Revenues

Revenues are recorded on an accrual basis.

Grants from the Government of Canada are recognized as revenues when entitlement for the transfer occurs. The Government receives a Formula Financing grant and the Canada health and the Canada social transfers from the Government of Canada in accordance with the *Federal-Provincial Fiscal Arrangements Act* (Canada) which expires on March 31, 2024. The Formula Financing grant is principle-based and the Canada health transfer and the Canada social transfer are simple equal cash per capita grants. Adjustments for health and social transfers are made in the year they are known.

Government transfers are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as unearned revenue when transfer stipulations give rise to a liability. Transfer revenues are recognized as the stipulation liabilities are settled.

Income taxes, levied under the *Income Tax Act* (Yukon), are collected by the Government of Canada on behalf of the Government under a tax collection agreement and are remitted to the Government monthly. The remittances are based on the Government of Canada's Department of Finance's best estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are final. The Government recognizes income tax revenues based on the estimates made by the Government of Canada, adjusted for known factors. Any adjustments upon finalization are reflected in the accounts in the year they are identified. Tax concessions are accrued on the same basis as the associated tax revenues and reduce gross taxation revenue.

Fuel and tobacco taxes are levied under the authority of the *Fuel Oil Tax Act* (Yukon) and the *Tobacco Tax Act* (Yukon). Revenues are recognized based on the statements received from collectors and estimates. Adjustments from reassessments are recorded in revenue in the year they are identified.

Proceeds from funding and service agreements with other parties are recognized as revenue as they are determined to be earned based on the terms and conditions of the agreements and in compliance with relevant accounting standards. These determinations occur on an agreement by agreement basis due to the diverse nature of each individual agreement.

Expenses

Expenses are recorded on an accrual basis. Transfer payments are recorded as expenses when authorized and recipients have met eligibility criteria.

Recovery of prior years' expenses includes reversal of amounts accrued in prior years which are in excess of actual expenses. These amounts cannot be used to increase the amount appropriated for the current year.

Notes to Non-Consolidated Financial Statements March 31, 2021

Assets

Financial assets

Cash and cash equivalents include cash on hand, balances with banks, and short-term investments that have terms to maturity of less than 90 days from the dates of acquisition.

Temporary investments include treasury bills, GICs, term deposits and funds that include short-term debt securities of Canadian governments and corporate issuers with terms to maturity of 90 days or more but one year or less from the date of acquisition. When the market value of temporary investments has declined below the carrying value, they are carried at market value.

Portfolio investments are accounted for by the cost method and include funds that include bonds and equities. These investments are expected to be realized or have terms to maturity greater than one year from the date of acquisition. When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss.

Loans receivable are stated at the lower of principal amounts and net recoverable value. Valuation allowances, which are recorded to reduce loans receivable to their net recoverable amount, are based on historical experience, current conditions and all circumstances known at the date of the preparation of the financial statements. The loan receivable is reduced by the amount of a loss when the amount is known with sufficient precision, and there is no realistic prospect of recovery. Interest revenue is recognized on an accrual basis until such time that the collectability of either principal or interest is not reasonably assured.

Land inventory is comprised of the costs of acquiring, planning and developing lots. The lots are valued at cost, except, when there has been a loss in value that is other than a temporary decline, in which case the lots are written down to net recoverable value to recognize the loss.

Non-financial assets

The costs of acquiring land, buildings, equipment and other capital property are capitalized as tangible capital assets and are amortized to expense over the estimated useful lives of the assets.

Inventories of supplies consist primarily of fuel and lubricants, repair parts, stationery and office supplies, and highway materials that are tracked through revolving funds. Inventories are valued at the lower of cost and replacement value. These assets are not held for sale and are intended to be used in providing government services. Other materials and supplies are expensed at the time of acquisition.

Liabilities

Liabilities include financial claims payable by the Government and unearned revenues.

Unearned revenues are cash received for which goods and services have not been provided by year-end, and are primarily comprised of motor vehicle licence fees for the following fiscal years and transfer payments from the Government of Canada, which have associated stipulations that gave rise to a liability as of year-end.

Liabilities for leased tangible capital assets are recorded with a corresponding asset at the lower of the present value of the minimum lease payments, excluding the portion relating to executory costs, and the fair value of the asset. The present value is based on the Government's borrowing rate, over a similar term length as the related lease terms, at the time the obligation is incurred.

Notes to Non-Consolidated Financial Statements March 31, 2021

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is considered likely to occur and is quantifiable, an estimated liability is accrued. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed.

(c) Tangible capital assets

Tangible capital assets are buildings, roads, equipment, and other items, whose useful life extends beyond the fiscal year and are intended to be used on an ongoing basis for delivering services. These assets are recorded at cost, or fair value if donated. For certain tangible capital assets that have previously been transferred from the Government of Canada or where the original costs are not readily available, estimated costs have been extrapolated back in time in a systematic and rational manner to approximate the appropriate transfer value of the assets at the time of transfer.

The value of works of art, historical treasures, all intangibles and items inherited by right of the Crown, such as Crown lands, forests, water, and mineral resources are not recorded as tangible capital assets. Historical treasures and works of art are expensed when they are acquired.

Tangible capital assets that are held and available for use by the Government are reported based on the following capitalization thresholds and are generally amortized on a straight-line basis over their estimated useful life of the asset as follows:

Asset category	<u>Th</u>	<u>reshold</u>	Estimated useful life
Land		Nil	N/A
Buildings	Φ	50,000	40 50
Buildings	\$ \$	50,000	40 - 50 years Shorter of the lease term
Leasehold Improvements	Ф	50,000	or useful economic life
Equipment and vehicles			
Heavy equipment	\$	10,000	7 - 30 years
Operating equipment	\$ \$ \$	10,000	5 - 25 years
Vehicles	\$	10,000	6 - 20 years
Computer hardware and software			
Computer hardware	\$	10,000	5 years
Computer software	\$ \$	100,000	Expected usage of the
·			system before overhaul
Transportation infrastructure			
Forestry access roads	\$	50,000	10 years
Highways	\$	250,000	up to 75 years
Pavement/surfaces	\$ \$ \$	250,000	up to 75 years
Bridges	\$	250,000	up to 75 years
Airport runways	\$	50,000	up to 75 years
Other			
Portable classroom/housing trailers	\$	50,000	25 years
Land improvements and fixtures	\$	50,000	up to 50 years
Sewage and water systems	\$ \$ \$	50,000	up to 50 years
Mobile radio system infrastructure	\$	100,000	15 years
-			•

Tangible capital assets under construction or development are reported as work-in-progress with no amortization until the asset is placed in service.

Notes to Non-Consolidated Financial Statements March 31, 2021

(d) Post-employment benefits and compensated absences

Post-employment benefits are expected to be provided after employment but before retirement to employees. These benefits include severance benefits, accumulated sick and vacation leave benefits that are paid in cash when employment is terminated. Compensated absences are benefits such as sick leave and vacation leave that are paid to employees during their employment. The Government recognizes the obligation for these benefits as a liability and uses actuaries to estimate the amount of the obligation based on the projected benefit method prorated on service. Expenses related to post-employment benefits and compensated absences are recognized in the period in which the employee's service is rendered and the benefits are earned. The accrued benefit liability for these plans is calculated as the accrued benefit obligation adjusted by unamortized actuarial gains or losses.

(e) Retirement benefits

The Government's employees participate in the Public Service Pension Plan administered by the Government of Canada. The Government's contributions are expensed during the year in which the services are rendered and represent its total pension obligation. The Government is not currently required to make contributions with respect to any actuarial deficiencies of the pension plan.

Other retirement benefits for Government employees include extended health care for retired employees who choose to participate in the plan and a life insurance plan for retirees who meet certain criteria. They are both non-pension defined benefit plans. Liabilities for these benefits are triennially valued on an actuarial basis using the projected benefit method prorated on service, with an actuarial valuation for accounting purposes updated annually. Non-pension retirement benefit expenses for these plans are recognized as the member renders service. Actuarial gains and losses are amortized on straight-line basis over the estimated average remaining service lives of the participants. Both extended health care and life insurance retirement benefits are not funded and thus have no plan assets, resulting in a plan deficit equal to the accrued benefit obligation.

Retirement benefits to Members of the Legislative Assembly and territorial court judges are defined benefit plans and are valued on an actuarial basis. Actuarial valuations of these benefits are performed triennially using the projected benefit method prorated on service, with an actuarial valuation for accounting purposes updated annually. Pension expenses for these two plans are recognized as the member renders services. Actuarial gains and losses are amortized on a straight-line basis over the estimated average remaining service lives of the participants. The accrued benefit liability for these plans is calculated as the accrued benefit obligation less plan assets, if any, adjusted by unamortized actuarial gains or losses. Plan assets are valued at the fair market value.

(f) Environmental liabilities

Contaminated sites and other environmental liabilities, which include Type II sites, are accrued, net of recoveries, and an expense recorded based on management's best estimates when the contamination occurs, when the Government becomes aware of the contamination and when the Government is obligated to incur such costs. If the likelihood of the Government's obligation to incur these costs is not determinable, the contingency is disclosed in the notes to the financial statements.

Landfill liabilities are recognized on a net present value basis for the total estimated expenditures for closure and post-closure care as the landfill site's capacity is used.

Notes to Non-Consolidated Financial Statements March 31, 2021

(g) Measurement uncertainty

The preparation of financial statements in accordance with Canadian public sector accounting standards requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant although, at the time of preparation of these statements, the Government believes the estimates and assumptions to be reasonable. Certain estimates used in these financial statements may be subject to increased measurement uncertainty due to the COVID-19 pandemic (Note 29). The amount of variability cannot be reasonably determined at this time

Some of the more significant management estimates relate to post-employment and retirement benefits, environmental liabilities, amortization of tangible capital assets, corporate and personal income tax revenue and contingencies.

The provision for environmental liabilities is subject to a high degree of measurement uncertainty because the existence and extent of contamination, the responsibility for, and the timing and cost of remediation cannot be reliably estimated in all circumstances. The degree of measurement uncertainty resulting from the estimation of the provision cannot be reasonably determined.

3. Cash and cash equivalents

	(thousands of	2020 s)
Bank balances Cash on hand	\$ 63,822 64	\$ 51,053 67
	\$ 63,886	\$ 51,120

4. **Temporary investments**

	202	2021		2020		
	Market Value	Carrying Value	Market Value	Carrying Value		
		(thousands of dollars)				
Floating rate notes Treasury bills Other	\$ - - 800	\$ - - 800	\$ 648 419 197	\$ 648 417 196		
	\$ 800	\$ 800	\$ 1,264	\$ 1,261		

The temporary investments had a weighted average effective yield during 2021 of 1.54% (2020 - 1.54%) per annum.

Notes to Non-Consolidated Financial Statements March 31, 2021

5. **Due from/to Government of Canada**

	 2021		2020
	(thousands of dollars)		
Due from Government of Canada Cost-sharing agreements and projects delivered on behalf of the Government of Canada Income tax Other	\$ 126,815 4,492 3	\$	79,592 1,181 3
	\$ 131,310	\$	80,776

	Market Value	Carrying Value	Market Value	Carrying Value	
	(thousands of dollars)				
Marketable securities	\$ 34,545	\$ 34,589	\$ 29,758	\$ 32,948	

Marketable securities are designated investments (Note 8) set aside within the Consolidated Revenue Fund for use in meeting certain post-employment and retirement benefit obligations for Members of the Legislative Assembly. The investments are managed by a third party manager. During the year, following a review of the third party management, the securities transitioned to a new third party manager.

8. **Designated assets**

The Government has designated a portion of its assets for the purpose of meeting the obligations under Part 3 (Supplemental Plan) of the *Legislative Assembly Retirement Allowances Act* (Yukon) as well as the "Severance allowance" section of the *Legislative Assembly Act* (Yukon).

Designated assets are included in cash and cash equivalents, temporary investments and portfolio investments as follows:

		2021		2020	
	(thousands of doll			llars)	
Cash and cash equivalents	\$	4	\$	50	
Temporary investments (market value \$800,000; 2020 – \$1,264,000) Portfolio investments – marketable securities (market value \$34,545,000; 2020 - \$29,758,000)		800		1,261	
		34,589		32,948	
	\$	35,393	\$	34,259	

Notes to Non-Consolidated Financial Statements March 31, 2021

9. Advances to Territorial corporations

		2021 (thousands	2020 dollars)	
Yukon Development Corporation Infrastructure loan Yukon Housing Corporation Working capital advances	\$	36,200 48,491	\$ 38,200 41,235	
	<u>\$</u>	84,691	\$ 79,435	

The Government entered into loan agreements with the Yukon Development Corporation ("YDC") and advanced a total of \$39,200,000 in order to assist in the development of the Whitehorse diesel – natural gas conversion project, which was completed by the Yukon Energy Corporation, YDC's wholly owned subsidiary. The original loan term that commenced on April 1, 2016 ended on March 31, 2018. The Government and YDC entered into a new loan agreement effective March 30, 2018. The initial term of the loan is to March 31, 2023 and pursuant to the agreement, the loan may be extended for two additional five year terms upon mutual consent of the parties. The per annum interest rate will be set based on one-year CDOR plus 40 basis points in effect on April 1 each year. The rate of interest effective on March 31, 2021 is 0.81% (2020 - 1.61%). The new loan agreement requires principal repayments of \$1 million on March 31 each year and full repayment of any principal outstanding at the end of each loan term if the loan is not extended. The payment due March 31, 2020 from YDC was received in May 2020 and the payment due March 31, 2021 from YDC was received in March 2021.

The working capital advances to the Yukon Housing Corporation are interest free and have various repayment terms.

Notes to Non-Consolidated Financial Statements March 31, 2021

Due to Territorial corporations	33,842	8,761
	\$ 164,137	\$ 122,243

The accrued liabilities include the Yukon Government Carbon Price Rebate liability which represents the net of the dollar amounts received from the Government of Canada less the dollar amounts disbursed to the eligible groups as of March 31. The balance of the liability at March 31, 2021 is \$6,919,720 (2020 - \$2,783,079).

13. **Environmental liabilities**

(a) Contaminated sites and other environmental liabilities

The Government has recorded environmental liabilities of \$26,231,000 (2020 - \$27,063,000). These liabilities consist of estimated costs related to the remediation of contaminated sites as well as estimated costs associated with other liabilities related to these sites. The liabilities are determined on a site-by-site basis and are based on preliminary environmental assessments or estimation for those sites where an assessment has not been conducted. The amount recorded is based on management's best estimates utilizing the information available at the financial statement date. The amount of liabilities becomes determinable over a continuum of events and activities as information becomes available. As a result, the actual amount of liabilities to remediate these sites could vary significantly. No assets are designated for settling these liabilities.

As at March 31, 2021, the Government was aware of 95 sites (2020 – 95 sites) where the Government is obligated or is likely obligated to incur such costs. Phase I Environmental Site Assessments (ESA) have been undertaken on 90 of the 95 sites. During the year, remediation work was undertaken at 11 sites, including the Marwell Tar Pit.

One of the 95 sites, Marwell Tar Pit, has been formally designated as contaminated under the *Environment Act* (Yukon) and the *Contaminated Sites Regulation*. The Government is not a "responsible party" as

Notes to Non-Consolidated Financial Statements March 31, 2021

defined by the *Environment Act* (Yukon) and determined by the *Contaminated Sites Regulation*. The Government of Canada was the landowner when the contamination occurred. In September 2010, the Government and the Government of Canada entered into an agreement to remediate the site over 11 years with a total estimated cost of \$6,800,000, of which the Government is to fund 30% or \$2,040,000 and the Government of Canada \$4,760,000. As at March 31, 2021, \$106,000 (2020 - \$250,000) was recorded as a liability for this site, which is part of the \$26,231,000 noted above.

A site known as Wellgreen ceased operations in the 1970's. The Government of Canada approved the tailings dam and resulting pond built at that time as meeting required specifications; however, concerns regarding the level of water in the pond are known. Initial assessment confirmed that further remediation of the site is required and \$4,803,000 (2020 - \$5,000,000) has been included in Environmental Liabilities for Contaminated Sites to reflect the Government's expected responsibility. Negotiations with the previous owner and the Government of Canada will be required to establish final levels of responsibility and liability.

(b) Landfill sites

There are 28 active, decommissioned or abandoned landfill sites that are outside incorporated communities and, therefore, are the responsibility of the Government. The Government is the sole operator of the active landfills. 23 of these sites are subject to the *Environment Act* (Yukon) – *Solid Waste Regulations* which includes requirements for closure and abandonment of a dump. The remaining 5 sites are old abandoned dumps which are not subject to the *Solid Waste Regulations*.

A liability is recognized as the landfill site's capacity is used with usage measured on a volumetric basis. As at March 31, 2021, the net present value of total expenditures for closure and post-closure care is estimated to be \$14,057,000 (2020 - \$14,057,000) and a liability in the amount of \$11,854,000 (2020 - \$11,854,000) has been recorded for these sites. The amount remaining to be recognized in the future is \$2,203,000 (2020 - \$2,203,000). No assets are designated for settling these liabilities.

In calculation of the above liability, the remaining landfill life was estimated to be from 0 to 50 years. Solid waste permits issued under the *Solid Waste Regulations* specify 25 years of post-closure monitoring; therefore, 25 years is used as an estimated length of time needed for post-closure care. A discount rate of 2.58% (2020 - 2.58%) was used for the net present value calculation for active and closed landfill sites.

(c) Type II sites

Pursuant to the Devolution Transfer Agreement, the Government of Canada retained responsibility for the clean-up of waste sites that were identified on lands transferred effective April 1, 2003. The Government of Canada also accepted financial responsibility for the remediation of impacts attributable to activities that took place prior to April 2003 on the mine sites identified as Type II sites, which have been abandoned by their owner/operator. Except for the Ketza River site discussed below, the Government is not aware of any financial obligations on its part in relation to these mine sites.

On April 10, 2015 Veris Gold Corporation abandoned the Ketza River mine site ("the site"). The site is identified as a Type II mine site in the Devolution Transfer Agreement ("DTA") between the Government and the Government of Canada. The Government has provided notice to the Government of Canada pursuant to the DTA that the site has been abandoned by its owner/operator. Once a Type II site becomes abandoned the DTA requires that an Independent Assessor assess the condition of the site and develop a remediation plan. The Government is responsible for the cost of this assessment. Under the DTA, the Government of Canada accepted financial responsibility for the remediation of impacts attributable to activities that were permitted by the Government of Canada. The Government will be financially responsible for remediation of impacts of activities it permitted after devolution. The Government's costs, if any, may be offset by the security bond it holds. The financial obligations related to the assessment required under the DTA are estimated to be \$4,802,000 (2020 - \$4,857,000) and remediation costs, if any,

Notes to Non-Consolidated Financial Statements March 31, 2021

which are the Government's responsibility, are currently undeterminable. No assets are designated for settling these liabilities.

The following table presents the total estimated amounts of these liabilities as at March 31, 2021.

	2021		2021		2020	
	Number	E	Estimated	Number		timated
	of sites		Liability	of sites	L	iability
			(thousa	ands of dollars)		
Liabilities for contaminated sites ¹						
Highway maintenance camps and airports	36	\$	10,835	36	\$	10,913
Other storage tanks and buildings	48		8,437	48		9,000
Marwell Tar Pit	1		106	1		250
Wellgreen	1		4,803	1		5,000
Other	9		2,050	9		1,900
	95		26,231	95		27,063
Landfill sites	28		11,854	28		11,854
Type II sites	1		4,802	1		4,857
	124	\$	42,887	124	\$	43,774

¹ Contamination primarily includes petroleum hydrocarbons, salts and/or occasionally metals.

14. <u>Unearned revenues</u>

	2021	2020
	(thousand	s of dollars)
Liability portion of government transfers Motor vehicle fees for future years Other	\$ 10,447 2,554 847	\$ 6,627 2,091 1,455
	\$ 13,848	\$ 10,173

The liability portion of government transfers represents transfer payments from the Government of Canada, which have funding stipulations that gave rise to a liability as of year-end.

Notes to Non-Consolidated Financial Statements March 31, 2021

Accrued benefit obligation	126,109	114,795		
Unamortized net actuarial gain /(loss)	(3,260)	397		
Post-employment benefits accrued liability	122,849	115,192		
Compensated absences	2,150	1,995		
	\$ 124,999	\$ 117,187		

Severance benefits are paid on termination of service or upon retirement. The above amounts are comprised of severance benefits for Government employees and for the Members of the Legislative Assembly.

(a) Yukon Government employees

Severance benefits are paid to Government employees based on the type of termination, e.g. resignation versus retirement, the rate of the pay, and the number of years of continuous employment.

If an employee has at least five years of continuous service, a cash-in of sick leave will be paid on termination of service or upon retirement. The cash-in amount is calculated as 1/3 of unused sick leave credits to a maximum of 60 days multiplied by the daily pay rate at termination or retirement.

The accrued benefit obligation at March 31, 2021 is based on an actuarial valuation conducted as at June 23, 2021. In projecting the accrued obligation for these benefits as at March 31, 2021, the Government assumed a discount rate of 3.2% and general salary increases of 2.0% per annum. The net actuarial loss is amortized over the expected average remaining service life of the active employees of 12.5 years.

Expenses related to post-employment benefits for the year ended March 31, 2021 were \$16,950,000 (2020 - \$10,967,000). Benefits paid by the Government from the post-employment benefits liability during the year amounted to \$9,494,000 (2020 - \$13,073,000). Post-employment benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation.

The Government also accounts for compensated absences liabilities in accordance with Canadian public sector accounting standards. Compensated absences include special leave benefits and educational leave benefits.

Notes to Non-Consolidated Financial Statements March 31, 2021

Effective December 31, 2019 all current resignation and retirement severance accruals have been frozen for employees classified as Deputy Ministers and Managers. All employees are eligible to receive severance payouts based on service accrued prior to December 31, 2019. The plan amendment resulted in a gain to the plan of \$5,435,000. As the plan was deemed to be in surplus, this gain reduced current year's expenses. The accounting standards prescribe that the cost of plan amendments related to prior employee service is accounted for as an expense in the period of the amendment. The exception is where unamortized gains or losses exist, whereby the unamortized gains or losses are immediately recognized to the maximum of the prior period service cost.

Effective June 30, 2018 all current and retirement severance accruals were frozen for certain employees of the government. All employees in this group are entitled to receive severance payouts based on service accrued prior to June 30, 2018.

(b) Members of the Legislative Assembly

The *Legislative Assembly Act* (Yukon) provides a severance allowance to members of the Legislative Assembly based on the aggregate of the indemnity and salary received by the member during the preceding year and the number of the years served by the member. At March 31, 2021, the severance benefit obligation for this benefit was \$891,000 (2020 - \$690,000). The book value of the assets designated by the Government to meet this obligation was \$797,000 at March 31, 2021 (2020 - \$660,000) (Note 8). The accrued benefit liability at March 31, 2021 is based on an extrapolation of an actuarial valuation that was performed as at March 31, 2017.

16. Retirement benefits

(a) Public Service Pension Plan

The Government's employees participate in the Public Service Pension Plan administered by the Government of Canada. In this plan, employees accumulate pension benefits up to a maximum period of 35 years at 2% per year of pensionable service based on the average of their five consecutive years of highest paid services. In December 2012, the Government of Canada passed legislation to create a new group of plan members for the employees who join the plan on or after January 1, 2013. This group of plan members is eligible to retire with an unreduced public service pension benefit at age 65 with at least two years of pensionable service (or at age 60 with at least 30 years of service) while the old group of members is eligible to retire with an unreduced public service pension benefit at age 60 with at least two years of pensionable service (or at age 55 with at least 30 years of service).

Since the above changes, there are two groups paying different rates of contributions to the plan. The Government contributes \$1.01 for every dollar contributed by the old group of plan members and \$1.00 for the new group of plan members.

In the calendar year 2021, for the portion of the employee's salary above \$181,600, the Government contributes \$3.59 for every dollar contributed by both groups of plan members. In the calendar year 2020, for the portion of the employee's salary above \$173,000 the Government contributed \$3.80 for every dollar contributed by both groups of plan members.

The Government's contributions to the Public Service Pension Plan during the year and recorded as expenses were \$40,423,000 (2020 - \$38,183,000).

Notes to Non-Consolidated Financial Statements March 31, 2021

(b) Legislative Assembly Retirement Allowances Plan

The Legislative Assembly Retirement Allowances Plan is a contributory defined benefit pension plan. These benefits are based on service and earnings. The Members' Services Board of the Legislative Assembly is responsible, pursuant to the *Legislative Assembly Retirement Allowances Act* (Yukon), for the administration of the Plan.

The funds are held by an investment manager in two different accounts. The first account holds the assets of the trust fund for the registered pension plan established pursuant to Parts 1 and 2 of the *Legislative Assembly Retirement Allowances Act*. The second account holds the assets of the Government, from which benefits under Part 3 of the *Legislative Assembly Retirement Allowances Act* are paid (Note 8). It is the Government's policy to fully fund Parts 1 and 2 of this pension plan.

During the year, the investment management has transitioned to a new investment manager.

The Legislative Assembly Retirement Allowances Act stipulates that actuarial valuations for funding purposes must be performed at least triennially. An actuarial valuation is based on a number of assumptions about future events, such as inflation rates, interest rates, salary increases and member turnover and mortality. The assumptions used in a valuation for funding purposes are based on the actuary's best estimates with margins for conservatism. The last actuarial valuation for funding purposes as of March 31, 2020 was performed September 17, 2020. The accrued benefit obligation as at March 31, 2021 is based on an actuarial valuation performed for accounting purposes using the membership data as of March 31, 2020.

(c) Territorial Court Judiciary Pension Plan

The Territorial Court Judiciary Pension Plan is a defined benefit pension plan, which is comprised of a judiciary registered pension plan, a judiciary retirement compensation arrangement and a supplementary judiciary pension plan. In addition to pension payments, these plans also contain a provision for payment of lump sum death and severance allowances. The Plan is administered by the Public Service Commissioner in the meaning assigned by the *Public Service Act* (Yukon).

Pursuant to the *Territorial Court Judiciary Pension Plan Act* (Yukon), the pension fund assets for the judiciary registered pension plan and the judiciary retirement compensation arrangement are held separate and distinct from the Government's operations, and are managed by an investment manager. The *Territorial Court Judiciary Pension Plan Act* stipulates that no contributions are to be made to the supplementary judiciary pension plan, and no fund is to be maintained for this plan.

Actuarial valuations for the Territorial Court Judiciary Pension Plan for accounting and funding purposes were conducted using the membership data as at March 31, 2020.

(d) Extended health care and life insurance retirement benefits

The Government provides optional extended health care benefits to retired employees as well as life insurance coverage to eligible retirees. They are both non-pension defined benefit plans. The extended health care plan is self-insured. The accrued benefit obligation at March 31, 2021 is based on an extrapolation of an actuarial valuation conducted as at January 31, 2020. Extended health care and life insurance retirement benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation.

Notes to Non-Consolidated Financial Statements March 31, 2021

Effective for all employees retiring after January 1, 2019 the cost sharing arrangement for extended health benefits was revised. Existing retirees and those retiring prior to January 1, 2019 were not impacted by the change.

Effective April 1, 2020, the eligibility for post-retirement life insurance was amended through changes to Section M, the terms and conditions of employment for managers. Managers appointed to MG3 or higher positions prior to April 1, 2020 retain their eligibility for post-retirement life insurance on retirement. Management employees newly appointed at the MG3 level or higher as of April 1, 2020 will not be eligible for post-retirement life insurance.

The accrued benefit liability for the above retirement benefits as of March 31, 2021 was as follows:

	2021	2020
	(thousand	ds of dollars)
Accrued benefit liability		
Extended health care retirement benefit	\$ 69,608	\$ 64,307
Legislative Assembly Retirement Allowances Plan	28,726	27,030
Territorial Court Judiciary Pension Plan	8,499	7,531
Life insurance retirement benefit	3,465	3,204
(Schedule D)	\$ 110,298	\$ 102,072

17. <u>Liabilities for leased tangible capital assets</u>

	2	2021 (thousands o	of dollar	2020 s)
Building lease obligation payable monthly until the year 2023, with imputed interest rate of 3.7%.	\$	1,348	\$	1,970
Building lease obligation payable monthly until the year 2025, with imputed interest rate of 3.7%.		1,062		1,285
Building lease obligation payable monthly until the year 2025, with imputed interest rate of 3.3%.		686		889
	\$	3,096	\$	4,144

Interest expense related to liabilities for leased tangible capital assets for the year was 174,000 (2020 - 196,000) at an imputed average interest rate of 3.6 % (2020 - 3.1%).

Notes to Non-Consolidated Financial Statements March 31, 2021

The following is a schedule of future minimum lease payments under the liabilities for leased tangible capital assets:

	(thousands of dollars)
2022 2023 2024 2025	\$ 1,863 1,873 725 <u>536</u>
Total minimum lease payments	4,997
Less: amount representing executory costs amount representing rental of land amount representing interest	(1,262) (509) (130)
	\$ 3,096

18. Financial instruments

The balances in cash and cash equivalents, due to/from Government of Canada, accounts receivable, advances to Territorial corporations and accounts payable and accrued liabilities have fair values that approximate their carrying amount due to their short term to maturity.

The fair value and the methods of calculation and assumptions used for the Government's other financial instruments are detailed below:

		2021		2020	
•	Fair Value		rrying alue	Fair Value	Carrying Value
•			(thousands of dol		
Temporary investments Portfolio investments	\$ 80	0 \$	800	\$ 1,264	\$ 1,261
Marketable securities	34,54	5 :	34,589	29,758	32,948
Loans receivable	55,72	7 :	55,727	36,479	36,479

An active and established market exists for the temporary and portfolio investments. Consequently, the estimated fair value is calculated using observed market data.

Since the above valuation is based on market information available at March 31, 2021, the fair value of the investments may change materially in future periods as a result of fluctuations in the market. However, these changes are not expected to result in a significant impact on the Government's future operations.

The carrying value, at the lower of cost or net recoverable value, is estimated to be the fair value of loans receivable due to the nature of these loans. The carrying value of these loans receivable should not be seen as the realizable value on immediate settlement of the loans due to the uncertainty associated with such a settlement.

Notes to Non-Consolidated Financial Statements March 31, 2021

19. Tangible capital assets

	2021 Net Book Value (thousand	2020 Net Book Value ds of dollars)
Land Buildings Equipment and vehicles Computer hardware and software Transportation infrastructure Land improvements and fixtures Sewage and water systems Other	\$ 13,010 524,995 85,874 36,212 659,758 45,583 48,800 14,181	\$ 13,010 533,892 80,360 34,072 642,427 42,405 50,278 12,548
(Schedule C)	\$1,428,413	\$ 1,408,992

Leased tangible capital assets are reported as part of the respective asset category. These leased assets are amortized on a straight-line basis over the lease term or estimated economic life. The amortization expense for the year was \$991,000 (2020 - \$1,038,000). The cost and accumulated amortization of leased capital assets that are included in the schedule of tangible capital assets are as follows:

	 2021 (thousands	of dolla	2020 rs)
Buildings (cost) Operating equipment (cost)	\$ 9,907 141	\$	9,907 141
	10,048		10,048
Less accumulated amortization	 (7,415)		(6,424)
	\$ 2,633	\$	3,624

No interest was capitalized during the year.

Notes to Non-Consolidated Financial Statements March 31, 2021

20. Expenses by object

	2021 (thousands	of dolla	2020 ars)
Personnel	\$ 593,497	\$	559,252
Government transfers	497,673		394,791

Communication and transportation	32,386		42,976
Other	 3,399		1,113
	\$ 1,591,382	\$	1,450,344

21. Trusts under administration

The Government administers trust accounts on behalf of third parties, which are not included in the Government's assets.

The largest such trust account, the Compensation Fund (Yukon), has a fiscal year-end of December 31. Details of the assets of the Compensation Fund (Yukon), principally investments, are available from its financial statements, which are reproduced in Section III of the Public Accounts of the Government. At March 31, 2021, the remaining trust account balances were held in bank accounts or invested in term deposits and GICs.

Investments of the Compensation Fund (Yukon) are valued at fair value. Investments of the remainder of the trust accounts are valued at the lower of cost and market. Any other assets held under administration such as property, securities and valuables are reflected in trust accounts only upon conversion to cash. The following is a summary of the trusts under administration as at March 31, 2021, except for the Compensation Fund (Yukon) which is at December 31, 2020.

	2021			2020
		(thousand	ls of dolla	ars)

		\$ 316,810	\$ 395,154	\$ 711,964

24. Commitments

In June 2010, the Yukon Development Corporation ("YDC") issued 30-year bonds in the amount of \$100 million at a fixed coupon rate of 5.0% per annum in part to finance the grant from the Yukon Development Corporation Fund and ratepayers' future contributions towards the construction of the Mayo B hydro enhancement and the Carmacks-Stewart transmission phase II projects. In the Memorandum of Understanding ("the MOU") between the Government and YDC dated March 10, 2011, the Government agreed to provide YDC with financial assistance to a maximum of \$2,625,000 annually from April 1, 2011, to March 31, 2042, based on a prescribed formula where, depending on the annual financial results of YDC, the Government funding will be reduced or eliminated. In 2020/2021, the Government paid \$2,625,000 (2020 - \$2,625,000) to YDC based on the MOU.

Notes to Non-Consolidated Financial Statements March 31, 2021

25. Overexpenditure

Overexpenditure of a vote contravenes subsection 17(2) of the *Financial Administration Act* (Yukon) which specifies that "a vote does not authorize any payment to be made in excess of the amount specified in the vote". During the year, no (2020 – two) departments exceeded their votes with a total overexpenditure of \$0 (2020 - \$7,612,000).

The *Appropriation Acts* (Yukon) state that the Government is not to expend grant payments except in accordance with the Act. During the year, two (2020 – one) departments exceeded the authorized amounts as follows:

	(thousands of dollars)
Health and Social Services	
- COVID CERB Exemption	\$ 1,103
 Yukon seniors' income supplement 	39
- Social Assistance - Whitehorse	9
Finance	
 Workers' compensation supplementary benefits 	\$ 34

26. Guarantees

The Government has guaranteed repayment of loans payable by the Yukon Housing Corporation of \$1,700,000 (2020 - \$2,200,000) and debts of the Yukon Energy Corporation, the wholly-owned subsidiary of the Yukon Development Corporation, of \$nil (2020 - \$23,807,000). In addition, the Government has guaranteed an operating demand overdraft facility to the Yukon Housing Corporation of up to \$11,000,000. At March 31, 2021, the Yukon Development Corporation had long-term debt of \$203,000,000 (2020 - \$203,000,000) and a credit facility of up to \$43,500,000. While the Government has not issued guarantees for these instruments, as the Yukon Development Corporation is an agent of the Government, lenders may have recourse to the Government.

In December 2019, the Government issued a letter of credit providing guarantee to the bank in relation to the Yukon University Employee's Pension Plan's solvency deficit. This guarantee is to remain in effect from December 30, 2019 to June 30, 2021. The maximum amount of letters of credit to which the guarantee applies will be \$20,739,000 (2020 - \$20,739,000).

In June 2019, the Government issued a letter of credit providing guarantee to the bank in relation to the Yukon Hospital Employee's Pension Plan's solvency deficit. This guarantee was to remain in effect from June 30, 2019 to June 30, 2020. The maximum amount of letters of credit to which the guarantee applied was \$26,508,000 (2020 - \$26,508,000).

In July 2020, the Government issued a letter of credit providing guarantee to the bank in relation to the Yukon Hospital Employee's Pension Plan's solvency deficit. This guarantee is to remain in effect from June 30, 2020 to June 30, 2021. The maximum amount of letters of credit to which the guarantee applies will be \$26,508,000 (2020 - \$26,508,000).

It is expected that no significant costs will be incurred by the Government with respect to these guarantees and debts.

Notes to Non-Consolidated Financial Statements March 31, 2021

In November 2019, the Government and Yukon Hospital Corporation entered into a Pension Solvency Loan Agreement. The Government has loaned the Yukon Hospital Corporation \$3,063,000 for a payment to be made to their Pension Plan. The loan bears interest at the prime rate charged by the Government of Yukon's banker with interest calculated semi-annually. The annual interest rate for 2021 is 3.95%. The initial term of the loan will be 15 years, due on December 11, 2034, with either party having the ability to terminate the loan with notice.

27. Land claims

Between February 1995 and March 31, 2021, eleven Yukon First Nation Final and Self-government Agreements came into effect. The Government of Canada's negotiating mandate expired prior to the completion of the remaining three Yukon agreements. Settlements for these outstanding claims would not result in a general liability to the Government as they are to be funded by the Government of Canada. The Government would, however, be responsible for any financial obligations it might agree to during the negotiations.

The bilateral funding agreement with the Government of Canada that had been in place since June 24, 1993 and which provided funding towards the Government's additional implementation costs expired on March 31, 2009. However, there are no additional costs for the Government as all of the existing funding commitments are captured elsewhere, either through a specific funding agreement with the Government of Canada or as a component of the base funding received by the Government. The specific implementation costs include Board and Council funding arising from the various Final Agreement Implementation Plans and other negotiated funding amounts.

28. Contingencies

In the normal course of operations, the Government is subject to legal claims. These claims include items with pleading amounts and items where an amount is not specified. At March 31, 2021 the amounts claimed, excluding the claims from Northern Cross (Yukon) Ltd., which are described below, is \$5,793,000 (2020 - \$6,538,000). No provision for these claims has been made as it is unlikely or undeterminable that a liability has been incurred at the date of the financial statements.

On April 4, 2017, Northern Cross (Yukon) Ltd. ("Northern Cross") filed a Statement of Claim in the Supreme Court of Yukon against the Government of Yukon and the Minister of Energy, Mines and Resources. Northern Cross identified a number of causes of action although all of these are based upon its allegation that due to the moratorium on hydraulic fracturing Northern Cross' exploration rights in the Eagle Plains area have been adversely affected. The claim seeks up to \$2.26 billion which is comprised of \$395 million for refund of work deposits, application fees, rental amounts, sunk costs and interest and \$1.86 billion in damages for loss of opportunity of 8.6 billion barrels of oil, at fair market value, identified as being in the area through a resource evaluation. On April 12, 2017, Northern Cross changed its name to Chance Oil and Gas Limited. No provision for this claim has been made as it is undeterminable that a liability has been incurred at the date of the financial statements.

The Government established a Risk Management Revolving Fund in December 2004, with a limit of \$5,000,000, which is to be used for providing limited insurance and risk management services to Government departments. Expenses relating to some of the property and liability losses incurred by the Government are to be paid out of this fund. The Government has legal liability and property insurance with a \$2,000,000 deductible. In 2021, the Government paid \$253,000 (2020 – \$299,000) for liability claims such as bodily injury, property damage and automobile liability. The Government had unpaid claims against the fund in the amount of \$1,660,000 as at March 31, 2021 (2020 – \$1,521,000). This

Notes to Non-Consolidated Financial Statements March 31, 2021

amount is reported as part of the Government's accrued liabilities. The fund balance at March 31, 2021 was \$5,000,000 (2020 – \$5,000,000).

In addition to the environmental liabilities discussed in Note 13, there may be other instances of contamination for which the Government may be obligated to incur remediation costs. No liability has been recognized for these instances of contamination as the future costs of remediation and the Government's obligation to incur these costs are undeterminable at the date of the financial statements.

Yukon Zinc Corporation ("Yukon Zinc"), as the owner of the Wolverine Mine, is responsible for the future reclamation and closure of the mine site. Pursuant to the *Quartz Mining Act* (Yukon), Yukon Zinc was required to provide a total of \$35,549,000 as financial security. That amount was determined when the Government commissioned a costing review exercise for the Yukon Zinc Wolverine Mine Reclamation and Closure Plan, the report was received December 12, 2017. The objective of this costing review was to confirm the activities and associated costs required during temporary and permanent closure, in accordance with Wolverine Mine's operating licenses and other regulatory requirements. Yukon Zinc has only provided \$10,589,000 as security to date. The Government has unsuccessfully attempted to collect the outstanding financial security from Yukon Zinc.

On September 16, 2019, the Yukon Supreme Court ordered Yukon Zinc be put into receivership. Beginning in the 2019-20 fiscal year, the Government has carried out necessary care and maintenance work, including contaminated water treatment, on behalf of Yukon Zinc, expending all of the \$10,589,000 accessible to it from the financial security. On 26 May 2020, the Yukon Supreme Court ruled that the Government's claim to additional monies from the assets of Yukon Zinc ranks in priority above any other claim, right, charge or security against the Wolverine Mine. This ruling was appealed by Yukon Zinc and another creditor hence the liquidation of Yukon Zinc's assets including the mine site is currently on hold subject to ongoing litigation. The court appointed receiver is attempting to find a buyer for the mine. In the event that the Wolverine Mine ultimately becomes abandoned, the Government will likely be required to assume the remediation responsibility of the site as the mining activities at the Wolverine Mine occurred post-devolution. While there is a reliable estimate of future remediation costs in relation to the Wolverine Mine, the outcome of the receivership process is not determinable at the date of the financial statement preparation; hence, no liability has been recognized.

Notes to Non-Consolidated Financial Statements March 31, 2021

29. Subsequent events

The outbreak of COVID-19 in early 2020 caused global disruption and economic slowdown. In response to the pandemic, the Government, with support from the Government of Canada, implemented various initiatives and programs to assist individuals, businesses, and industries. Significant government supports include public health measures, aviation supports, tourism relief recovery and other economic relief and financial support programs. In summer 2021, the Territory experienced a serious outbreak that demonstrated that the impacts of COVID-19 are ongoing. At this time, it is not possible to reliably estimate the length and severity of the pandemic and its economic impacts. The Government of Yukon is continuing to monitor and assess the impacts; a number of supports noted above have already been extended into 2022.

30. Comparative figures

Certain comparative figures for 2020 have been reclassified to conform with the 2021 presentation.

YUKON UNIVERSITY FINANCIAL STATEMENTS

June 30, 2020

(audited)

This page intentionally left blank.

YUKON UNIVERSITY Management Responsibility

The consolidated financial statements are the responsibility of management and the Board of Governors of the University. The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards with Section 4200 series for government not-for-profit organizations. The consolidated financial statements include estimates based on the experience and judgment of management.

Management is responsible for maintaining the books of account, financial and management controls, and information systems, together with management practices designed to provide reasonable assurance that reliable and accurate financial information is available on a timely basis, that assets are safeguarded and controlled, that resources are managed economically and efficiently in the attainment of University objectives and that operations are carried out effectively.

Management is also responsible for designing systems and practices to provide reasonable assurance that transactions are in accordance with the *Yukon University Act*, bylaws and policies of the University.

The Board of Governors is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control. The Board meets on a periodic basis with management and the external auditor to review the scope and results of the annual audit, and to review the consolidated financial statements and related financial reporting matters. The Board of Governors has reviewed and approved the consolidated financial statements.

These consolidated financial statements have been independently audited by the University's auditor, the Auditor General of Canada, and her report is included herein.

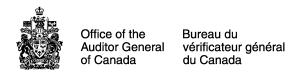

Dr. Maggie Matear Interim President

Maggie Mateau

Sheila Ananthan, CPA, CGA

Director, Finance and Administrative Services

March 19, 2021

INDEPENDENT AUDITOR'S REPORT

To the Board of Governors of Yukon University

Opinion

We have audited the consolidated financial statements of Yukon University and its controlled entity (the Group), which comprise the consolidated statement of financial position as at 30 June 2020, and the consolidated statement of operations, consolidated statement of changes in net assets, consolidated statement of remeasurement gains and losses, and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 30 June 2020, and the consolidated results of its operations, its consolidated remeasurement gains and losses, and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the *Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty
 exists related to events or conditions that may cast significant doubt on the Group's
 ability to continue as a going concern. If we conclude that a material uncertainty exists,

we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the consolidated
 financial statements. We are responsible for the direction, supervision, and performance
 of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

David Irving, CPA, CA

NOTE 1 - PURPOSE

- a) The Yukon University Act was proclaimed into force effective February 6, 2020 replacing the Yukon College Act. Under the Yukon University Act, Yukon College, incorporated under the Yukon College Act, continues as a corporation under the name Yukon University. Yukon University (the University) is a post-secondary educational institution. The University is a not-for-profit organization and is a registered charity under the Income Tax Act and is therefore exempt from tax. A significant portion of its funding is provided by the Government of Yukon. The purpose of the University is to offer a balance of educational programs. Programs include baccalaureate, masters and doctoral degree programs, certificate and diploma programs, and continuing and adult basic education. The University also undertakes and maintains research, scholarly activities and other learning and training activities for these purposes.
- b) The Yukon University Foundation (the Foundation) is incorporated as a not-for-profit organization under the *Canada Not-For-Profit Corporations Act*. The Foundation is a registered charity under the *Income Tax Act* and is therefore exempt from tax. The Foundation was established:
- to fund, facilitate, promote and carry out activities which are consistent with the objectives of the University and to provide support for its educational facilities, educational programs and education services;
- to fund the provision of bursaries, scholarships and prizes granted by the University for any purpose for students in attendance at facilities owned and/or operated by the University;
- to receive bequests, legacies, donations, gifts, funds and property from all sources and to hold and invest such funds and property and to administer and distribute such funds and property for the purposes of the Foundation; and
- to do all such other things as are incidental and ancillary to the attainment of the foregoing purposes and the exercise of the power of the Foundation.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

a) Basis of presentation

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. The University has elected to apply the Section 4200 series for government-not-for-profit organizations.

b) Basis of consolidation

The consolidated financial statements include the accounts of the University and its controlled entity, the Foundation. All inter-entity transactions and balances have been eliminated on consolidation.

The University controls the Foundation as the Board of Governors of the University have the ability to be appointed as the majority of the members of the Board of Directors of the Foundation. The President of the University is the only board member in common for the Foundation and the University. The President is an ex-officio member of the Board of Directors of the Foundation and a non-voting member of the Board of Governors of the University. The Foundation operates out of the University's main campus building with the assistance of University employees in the advancement office.

c) Financial instruments

The financial instruments of the University include cash, accounts receivable, restricted cash and cash equivalents, restricted investments, accounts payable and accrued liabilities, employee accrued liabilities and loan payable.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

All of the University's financial instruments are assigned to the cost or amortized cost measurement category, except for restricted investments which are assigned to the fair value measurement category.

Fair value classification

This includes equity instruments that are quoted in an active market. They are initially recognized at fair value and subsequently carried at fair value. Unrealized changes in fair value are recognized in the Consolidated Statement of Remeasurement Gains and Losses until they are realized, and are then transferred to the Consolidated Statement of Operations. Changes in fair value of restricted investments are recorded as deferred contributions. When the changes are realized, they remain deferred until the restriction on use is fulfilled, and at that time the amount is transferred to the Consolidated Statement of Operations. Transaction costs are expensed as incurred.

Where a decline in fair value is determined to be other than temporary, the amount of the loss is removed from accumulated remeasurement gains and losses and recognized in the Consolidated Statement of Operations.

The University classifies, for financial reporting purposes, fair value measurements using a fair value hierarchy made up of three levels, according to the inputs used in making the measurements.

Level 1: This level includes assets and liabilities measured at fair value based on unadjusted quoted prices for identical assets and liabilities in an active market that the University can access at the measurement date.

Level 2: This category includes measurements that use, either directly or indirectly, observable inputs other than quoted prices included in level 1.

Level 3: The measurements in this category depend upon inputs that are less observable, not available or for which observable inputs do not justify most of the instruments' fair value.

Amortized cost classification

These financial instruments are initially recognized at cost and subsequently carried at amortized cost using the effective interest rate method, less any impairment losses on financial assets. Transaction costs are added to the cost of the instrument.

Writedowns are recognized when the amount of the loss is known with sufficient precision, and there is no realistic prospect of recovery. Financial assets are written down to net recoverable value with the writedown recognized in the Consolidated Statement of Operations. Accounts receivable are recorded at cost less valuation allowances. Valuation allowances are calculated by examining amounts overdue 90 days or more to estimate amounts deemed to be uncollectible.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Capital assets

Capital assets are recorded at cost less accumulated amortization. Contributed capital assets are recorded at fair value at the time of contribution.

When conditions indicate that an asset no longer contributes to the University's ability to provide its services, the carrying value of the capital asset is reduced to reflect the decline in the asset's value.

Construction in progress costs are capitalized as incurred. These amounts are transferred to various categories of capital assets and are amortized on a basis consistent with similar assets, once the assets are placed in service.

Capital assets are amortized on a straight-line basis over their estimated useful lives, which are estimated as follows:

	<u>Useful life (years)</u>
Leasehold improvements	20
Equipment general	10
Equipment electronic data processing (EDP)	3
Mobile trailers	20
Furniture and fixtures	10
Vehicles	5

The Works of art are capitalized at cost and no amortization is recorded.

e) Inventories

Inventories consist of items for resale in the bookstore and food service operations and are valued at the lower of cost and net realizable value. Cost is determined on a first-in first-out basis.

f) Contributed services

The University benefits from services provided by volunteers in assisting the institution in carrying out its activities. The fair value of these services is not reliably estimable and accordingly is not recognized in the consolidated financial statements.

g) Employee future benefits

Pension benefits

Yukon University Employees' Pension Plan (pension plan) is a contributory defined benefit pension plan. The pension plan provides mandatory pension benefits for all full-time employees and optional benefits for part-time employees of the University after 24 months of continuous service. The University's pension plan provides for defined retirement benefits based on an employee's years of service and average final earnings, in accordance with the federal *Pension Benefits Standards Act*, and is indexed in accordance with the change in Consumer Price Index for 12 months ending September 30th. In general, pension benefits are based on 2% of the best five years of continuous service minus any adjustments required by the Canada Pension Plan. Plan members can accumulate up to 35 years of continuous service. The University has contracted with external organizations to provide the services of trustee, administration, consulting and investment management for the pension plan. The pension plan assets are held by a trustee and separate financial statements are prepared for the pension plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued

g) Employee future benefits (continued)

The University accrues its obligations under the pension plan and the related costs, net of plan assets.

The cost of pension benefits earned by employees is actuarially determined using the projected benefit method prorated on service and management's best estimate of expected plan investment performance, inflation rates, salary escalation, and retirement ages of employees.

Past service costs from plan amendments are accounted for in the period of the plan amendments.

Actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service life of the related employee group.

Other non-pension benefits

The cost of the benefit plan, other than pension, including severance benefits, non-vesting but accumulating sick leave and special leave and managers' accrued leave, payable upon termination of employment, death or retirement, is actuarially determined using the projected accrued benefit method prorated on employment services using management's best estimate of inflation rates, salary escalation, and retirement ages of employees, and is recognized over the period in which the benefits are earned (i.e. the period the employee renders service to the University). Actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service life of the related employee group. The University accrues other vacation and leave benefits for employees as earned based on their respective terms of employment.

h) Revenue recognition

The University follows the deferral method of accounting for contributions. Restricted contributions are deferred and recognized as revenue on the same basis and in the same periods as expenses under the terms of the restrictions. Contributions restricted for the purchase of capital assets are deferred and amortized into revenue at a rate corresponding with the amortization rate for the related capital assets.

Unrestricted contributions, such as operating grants, are recognized as revenue when received or receivable, if the amount to be received can be reasonably estimated and collection is reasonably assured.

Endowment contributions are recognized as direct increases in endowment net assets. Interest earned on endowment contributions where a portion of the interest cannot be spent is added to the endowment principal. Interest earned on endowment contributions where the investment income can be spent is deferred until the interest is spent for the specified purposes.

Sales, rentals and services, miscellaneous income, and tuition are reported as revenue at the time the services are substantially provided or the products are delivered. Tuition fees received in advance of courses being delivered are deferred and recognized as revenue when the courses are delivered.

The University provides education, rentals, research and services to private companies, federal and territorial government departments, agencies and corporations through contractual arrangements. Payments received under these contracts for which the development and delivery of courses and projects are not completed are recorded as deferred revenue until completion in accordance with the terms of the agreements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Allocation of expenses

The University allocates the majority of its expenses by function. General administration expenses are not allocated to other functions but are disclosed separately. Fundraising expenses incurred during the year are included in general administration expenses.

i) Internally restricted net assets

Net assets invested in capital assets represents the amount the University has spent on capital assets using its own funding sources. Net assets internally restricted for pension represents the amounts restricted in order to meet future pension obligations.

k) Related party transactions

The University is related to all Government of Yukon departments, corporations, agencies and the University's key management personnel. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the University. Significant transactions with related parties and balances at year-end are disclosed separately in the consolidated financial statements and notes thereto.

Inter-entity transactions are transactions between commonly controlled entities. Inter-entity transactions are recorded on a gross basis and are measured at the carrying amount, except for when inter-entity transactions are undertaken on similar terms and conditions to those adopted if the entities were dealing at arm's length, or where costs provided are recovered, they are measured at the exchange amount.

Related party transactions other than inter-entity transactions are recorded at the exchange amount.

The University receives certain services provided by the Government of Yukon without charge. The majority of the services received without charge represent costs associated with facilities provided by the Government of Yukon at a reduced, or no, charge. These services are recognized as expenses with an offsetting credit to revenues in order to reflect the full cost of the University's operations in its consolidated financial statements. These services are recorded at amounts based on the Government of Yukon's amortization expense (for the main campus), and on fair value for the rental of other facilities.

1) Use of estimates

The preparation of financial statements in accordance with Canadian public sector accounting standards applicable for government not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses for the year. Significant areas requiring the use of management estimates relate to the determination of the accrued pension benefit asset and the liabilities for other employee future benefits, and the estimated useful lives of capital assets. Actual results could differ significantly from those estimated. Estimates are reviewed annually and as adjustments become necessary, they are recorded in the consolidated financial statements in the period which they become known.

m) Contingent liabilities

Contingent liabilities may arise from time to time in the normal course of operations. Liabilities on any litigation are recognized in the consolidated financial statements when it is likely that a future event will confirm that a liability has been incurred at the date of the consolidated financial statements and the amount can be reasonably estimated. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingent liability is disclosed in the notes to the consolidated financial statements and no liability is accrued.

NOTE 3 - RESTATEMENT

a) Restricted cash and cash equivalents and Restricted investments

The University reported, as at June 30, 2019, Restricted cash of \$4,318,358. This amount also included Restricted investments, and based on the nature and significance of these amounts, these two items should have been presented as separate line items in the Consolidated Statement of Financial Position. The impact is a decrease as at June 30, 2019 of \$3,762,750 of Restricted cash and cash equivalents and increase of \$3,762,750 of Restricted investments. The comparative figures for Restricted cash and cash equivalents and Restricted investments have been restated in the Consolidated Statement of Financial Position and the Consolidated Statement of Cash Flows.

The University has included a Consolidated Statement of Remeasurement Gains and Losses and reported remeasurement losses on a retroactive basis for internal consistency with the restatements of Restricted cash and cash equivalents and Restricted investments. The key impacts are a decrease in expenses for the year ended June 30, 2019 of \$128,594, and an increase of \$128,594 in Unrestricted and in Accumulated remeasurement losses within net assets as at June 30, 2019. The comparative figures have been restated in the Consolidated Statement of Financial Position, Consolidated Statement of Operations, Consolidated Statement of Changes in Net Assets, Consolidated Statement of Remeasurement Gains and Losses, and the Consolidated Statement of Cash Flows.

The University has added disclosure regarding financial instrument fair value classification (note 2c), other price risk (note 4) and restricted investments (note 7).

b) Net assets

During 2020, the University decided that the 2020 presentation of Invested in capital assets (renamed from Capital) provides better information. Furthermore, the amount reported as Capital as at June 30, 2019 did not align with the University's accounting policy, although, the University had been reporting Capital on a consistent basis. The revised figure represents the amount the University has spent on capital assets less the funds contributed by third parties. The impact at June 30, 2019 is a decrease of \$5,933,101 in Invested in capital (previously called Capital) and an offsetting increase in Unrestricted within net assets. The comparative figures for Invested in capital (previously called Capital) and for Unrestricted within net assets have been restated in the Consolidated Statement of Financial Position and the Consolidated Statement of Changes in Net Assets.

c) Deferred revenue, deferred contributions and related revenues

The University reported, as at June 30, 2019, Deferred contributions of \$3,950,461. This amount was, however, comprised of Deferred revenue from exchange transactions of \$1,294,183 and of Deferred contributions from non-exchange transactions of \$2,656,278. Based on the distinct nature of these transactions, as well as the significance of the related amounts, these two items should have been presented as separate line items in the Consolidated Statement of Financial Position. The comparative figures as at June 30, 2019 for Deferred revenue and Deferred contributions have been restated.

The University reported, for the year ended June 30, 2019, Government of Yukon contributions of \$26,618,839 and Contracts revenue of \$16,540,056. However, based on the nature and counterparty of these transactions, these revenues should have been presented as Government of Yukon contributions of \$35,299,711, Other contributions of \$6,266,009 and Contracts of \$1,593,175. The comparative figures for the year ended June 30, 2019 Government of Yukon contributions, Other contributions and Contracts have been restated.

NOTE 3 - RESTATEMENT (continued)

d) The restatement of the comparative figures is summarized in the table below:

	<u> 2019</u>		<u> 2019</u>

NOTE 4 - FINANCIAL RISK MANAGEMENT

The University's financial instruments are exposed to the following risks: interest rate risk, foreign exchange risk, credit risk, liquidity risk and other price risk. The University manages these risk exposures on an ongoing basis. The University is not party to any financial derivatives.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The University is exposed to interest rate risk on its fixed interest rate for financial instruments, which subject the University to a fair value risk. Investments are monitored by the Board of Governors and managed by investment managers, subject to asset mix and performance benchmarks contained in the investment policies. The investment managers report on a regular basis to the Board of Governors.

Foreign exchange risk

Foreign exchange risk is the risk that the value of financial assets and liabilities denominated in foreign currencies will fluctuate due to changes in their respective exchange rates. The University is not exposed to any significant foreign exchange risk because instruments held in foreign currency are not considered significant.

Credit risk

Credit risk arises from the possibility that the issuer of a financial instrument fails to meet its obligation. The carrying amount of cash, accounts receivable, restricted cash and cash equivalents and restricted investment represents the maximum credit exposure. The credit risk associated with these instruments is considered to be minimal due to the nature of the instruments and the fact that the majority of the accounts receivable are due from the federal, territorial, first nation and municipal governments.

Information regarding the University's accounts receivable is as follows:

	<u> 2020</u>	<u> 2019</u>
Carrying value	\$ 8,692,908	\$ 3,057,205
Allowance for doubtful accounts	\$ 55,230	\$ 18,279
Accounts receivable % less than 30 days	89%	79%
Accounts receivable % over 90 days	4%	8%

Liquidity risk

Liquidity risk is the risk that the University will not be able to meet its financial obligations as they become due.

The University manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing and financing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the University's reputation. As at June 30, 2020 and 2019, substantially all of the University's accounts payable and accrued liabilities is due within 6 months of year-end.

NOTE 4 - FINANCIAL RISK MANAGEMENT (continued)

Other price risk

Other price risk is the risk that changes in financial or market conditions impair the value of the University's assets, or that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The University's investments are managed by investment managers in accordance with the University's investment Governance Policy. The University is not involved in any hedging relationships through its operations and does not hold or use any derivative financial instruments for trading purposes. Other price risk is not considered significant.

NOTE 5 - CASH

The University has, if needed, an operating demand line of credit with its banker that allows the University to borrow up to \$500,000 at bank prime. The credit line was unused at both June 30, 2020 and June 30, 2019. The University's credit facility interest rates are subject to fluctuations in the prime rate.

NOTE 6 - RESTRICTED CASH AND CASH EQUIVALENTS

Restricted cash and cash equivalents consists of guaranteed investment certificates of \$162,277 (2019 - \$504,332) and cash of \$478,206 (2019 - \$51,276).

An amount of \$479,023 (2019 - \$504,332 (Restated - note 3)) is externally restricted for certain endowment and deferred contributions. An amount of \$161,460 (2019 - \$51,276) is internally restricted for prepaid employee leave.

NOTE 7 - RESTRICTED INVESTMENTS

Investments were comprised of the following:

	Level	Percentage	<u>2020</u>	<u>2019</u> (Restated - note 3)
Equity securities Debt securities Cash and cash	1 1 1	62.4% 35.1% 2.5%	\$ 2,503,499 1,407,219 100,359	\$ 2,271,895 1,399,197 91,658
equivalents Total		<u>100%</u>	\$ 4,011,077	\$ 3,762,750

Restricted investments are externally restricted.

NOTE 8 - EMPLOYEE FUTURE BENEFITS

a) Pension benefits

Yukon College Employees' Pension Plan is a defined-benefit pension plan, which requires the employer and the employee to make annual contributions to an employee's retirement account. Plan administrators hire an actuary to calculate the future benefits that the plan must pay an employee and the amount that the employer and employee must contribute to provide those benefits. During the year, the pension benefits paid by the pension plan were \$3,590,600 (2019 - \$3,722,300) and the employer and employee contributions to the pension plan were \$1,863,400 (2019 - \$2,084,200) and \$1,994,000 (2019 - \$2,060,300), respectively.

The pension plan has two groups of members. Group 1 is for members with a start date prior to July 1, 2013. Group 2 is for members with a start date on or after July 1, 2013. The age at which a member can retire without a reduced pension is age 60 for Group 1 and age 65 for Group 2. During the fiscal year, Group 1 members were required to contribute to the plan at a rate of 10.72% (2019 – 10.72%) on annual earnings up to the Yearly Maximum Pensionable Earnings (YMPE) plus 13.12% (2019 – 13.12%) on annual earnings in excess of the YMPE. Group 2 members were required to contribute to the plan at a rate of 9.43% (2019 – 9.43%) on annual earnings up to the YMPE plus 11.21% (2019 – 11.21%) on annual earnings in excess of the YMPE.

Assets in the pension plan are based on fair values as reported by the custodian of the funds as at June 30, 2020. No adjustment is made for contributions/payments in transit at that date.

An actuarial valuation for accounting purposes was performed as of June 30, 2020 using the projected benefits method prorated on services. Pension benefit estimates for the year ending June 30, 2020 were made as part of the June 30, 2020 valuation.

NOTE 8 - EMPLOYEE FUTURE BENEFITS (continued)

a) Pension benefits (continued)

The actuarial valuation was based on a number of assumptions about future events, such as inflation rates, interest rates, wage and salary increases and employee turnover and mortality. The assumptions used reflect management's best estimates of these future events. Key assumptions are summarized below:

	<u> 2020</u>	<u> 2019</u>
Weighted-average assumptions for benefit costs		
Discount rate	5.25 %	5.40 %
Expected long-term rate of return on plan assets	5.25 %	
Rate of compensation increase	3.40 %	4.00 %
Inflation rate	2.00 %	2.20 %
Expected average remaining service life	10 years	10 years
Weighted-average assumptions of accrued benefit obligation		
Discount rate	5.25 %	5.50 %
Rate of compensation increase	3.40 %	3.50 %
Inflation rate	2.00 %	2.10 %
	<u>2020</u>	<u>2019</u>
Change in accrued benefit obligation:		
Accrued benefit obligation - beginning of year	\$ 87,143,800	\$ 89,528,700
Current service cost	2,095,100	2,405,300
Interest cost	4,800,300	4,849,000
Employee contributions	1,994,000	2,060,300
Benefits paid	(3,590,600)	(3,722,300)
Admin expenses	(230,000)	(210,000)
Actuarial losses (gains)	946,400	(7,767,200)
Accrued benefit obligation - end of year	\$ 93,159,000	\$ 87,143,800
	<u> 2020</u>	<u> 2019</u>
Change in plan assets:		
Fair value of plan assets - beginning of year	\$ 112,401,800	\$ 108,098,500
Actual return on plan assets	1,386,700	4,091,100
Employer contributions	1,863,400	2,084,200
Employee contributions	1,994,000	2,060,300
Benefits paid	(3,590,600)	(3,722,300)
Admin expenses	(230,000)	(210,000)
Fair value of plan assets - end of year	\$ 113,825,300	\$ 112,401,800
	<u>2020</u>	<u>2019</u>
Reconciliation of accrued pension benefit asset:		
Accrued benefit obligation - end of year	\$ (93,159,000)	\$ (87,143,800)
Fair value of plan assets	113,825,300	112,401,800
Pension benefit surplus	20,666,300	25,258,000
Unamortized net actuarial gains	(778,100)	(6,982,200)
Accrued pension benefit asset	\$ 19,888,200	\$ 18,275,800

NOTE 8 - EMPLOYEE FUTURE BENEFITS (continued)

a) Pension benefits (continued)

	<u> 2020</u>	<u> 2019</u>
Elements of defined pension plan benefit costs recognized in the year:		
Current service cost, net of employee contributions	\$ 2,095,100	\$ 2,405,300
Interest cost on benefit obligation	4,800,300	4,849,000
Expected return on plan assets	(6,183,100)	(5,843,000)
Amortization of actuarial (gains) losses	(461,300)	140,200
Net periodic pension cost recognized	\$ 251,000	\$ 1,551,500
Based on fair value of plan assets held as at June 30, the assets		
were composed of:	<u> 2020</u>	<u> 2019</u>
Equity securities	56%	55%
Debt securities	42%	42%
Other	<u>2%</u>	3%
Total	<u>100</u> %	<u>100</u> %

The net periodic pension cost of \$251,000 (2019 - \$1,551,500) is recognized in salaries, wages and benefits in note 17 and allocated to expenses by function on the Consolidated Statement of Operations in a manner consistent with the employee allocation to those functions.

Actuarial valuation for funding purposes

An actuarial valuation for funding purposes was performed as of June 30, 2020 which identified the University's required current service contributions as 100.4% (2019 - 94.3%) of employee contributions. Under economic and demographic assumptions used in these calculations, this level of University contributions together with the employee contributions is sufficient to fund the current service costs of the pension plan benefits.

The actuarial valuation for funding purposes as at June 30, 2020 for the University had an actual surplus of \$16,005,500 (June 30, 2019 - \$19,586,500) at the measurement date on a going-concern basis and a deficit of \$21,013,500 (June 30, 2019 - \$11,295,600) if valued on the basis that the pension plan was terminated/wound up as at June 30, 2020.

The solvency ratio of the pension plan was 86.3% at June 30,2020 (2019 - 92.0%). The Government of Yukon provided pension funding to the University during the year as described in note 18. All required contributions to the pension plan have been made.

The *Pension Benefits Standards Act* permits that in lieu of making special solvency payments, letters of credit can be obtained to reduce the solvency deficiency. In May 2011, for the solvency deficiency, the University acquired a letter of credit for the pension plan. The face value of the letter of credit was increased by \$120,450 per month for the period July 1, 2019 to March 31, 2020. On April 15, 2020 the Federal Government adopted a regulation to provide temporary, short-term solvency funding relief for sponsors of federally regulated defined benefit pension plans and, as a result, no increases to the face value of the letter of credit were required for the period April 1, 2020 to December 30, 2020. The University chose to adopt this moratorium. The face value of the letter of credit as at June 30, 2020 was \$18,932,500. In January 2021 the University renewed the letter of credit to December 31, 2021 for face value of \$21,357,297. The letter of credit is guaranteed by the Government of Yukon.

NOTE 8 - EMPLOYEE FUTURE BENEFITS (continued)

The Government of Yukon has issued letters to a bank guaranteeing that, should there be a requirement to draw upon the letter of credit required by the University to address its solvency deficit in its pension plan, the Government of Yukon will be provided the necessary support to address any resulting debt, interest and costs that made be required under the federal pension legislation. In January 2021, the guarantee remained in effect to December 31, 2021.

b) Other non-pension employee future benefits

The non-pension benefit plan is not funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation. The benefits include severance, non-vesting but accumulating sick leave, special leave and other outstanding leave entitlements and will be paid from future sources of revenue. The actuarial valuation of the accrued benefit liability as at June 30, 2020 as estimated on the June 30, 2019 actuarial valuation is:

	<u> 2020</u>	<u> 2019</u>
Accrued benefit obligation, end of year	\$ 6,355,200	\$ 5,952,000
Unamortized actuarial gain	 282,200	282,800
Actuarially determined other employee future benefits, end of year	6,637,400	6,234,800
Less: Current portion included in vacation leave and employee		
future benefits	 (680,000)	 (680,000)
Long-term portion other employee future benefits, end of year	\$ 5,957,400	\$ 5,554,800

The annual benefit plan cost and change in accrued benefit liability are as follows:

	<u> 2020</u>	<u> 2019</u>
Accrued benefit liability, beginning of year	\$ 6,234,800	\$ 5,842,100
Add: Annual benefit plan cost:		
Current service cost	903,400	851,000
Interest on accrued benefit obligation	179,200	181,900
Amortization of net actuarial loss	 	 39,800
Total annual benefit plan cost	 1,082,600	 1,072,700
Less: Benefits paid by the University	 (680,000)	 (680,000)
Actuarially determined other employee future benefits, end of year	6,637,400	 6,234,800
Less: Current portion included in vacation leave and employee		
future benefits	 (680,000)	 (680,000)
Long-term portion other employee future benefits, end of year	\$ 5,957,400	\$ 5,554,800

NOTE 8 - EMPLOYEE FUTURE BENEFITS (continued)

The significant actuarial assumptions adopted in measuring the University's accrued benefit obligation are as follows:

	<u>2020</u>	<u> 2019</u>
Weighted average assumptions for benefit costs:		
Discount rate	2.75%	2.75%
Rate of compensation increase		
for 10 years	2.75%	2.75%
thereafter	3.25%	3.25%
Expected average remaining service life	11 years	11 years
Weighted average assumptions for accrued benefit obligation:		
Discount rate	2.75%	2.75%
Rate of compensation increase		
for 10 years	2.75%	2.75%
thereafter	3.25%	3.25%
Expected average remaining service life	11 years	11 years

Long service leave liability	139,811	139,836
Compensatory pay liability	 28,691	 11,031
	\$ 2,911,873	\$ 2,709,236

NOTE 14 - LOAN PAYABLE

The University, has entered into an agreement with a donor for a non-interest bearing loan that is invested as deemed appropriate by the University. Income from the loan will be used to establish and grow a research endowment. The principal will remain invested until it has been gifted to the University at which time it will be added to the research endowment and managed under the terms of the endowment agreement. While the loan is repayable within 90 days on demand, the loan will be in place for a minimum of five years but may be converted to a gift at any time by the donor.

NOTE 15 - DEFERRED CAPITAL CONTRIBUTIONS

The changes in the deferred capital contributions balance for the year are as follows:

	<u> 2020</u>		<u> 2019</u>
Balance, beginning of year	\$ 5,933,101	\$	6,459,443
Restricted government contributions	-		(39,999)
Amount amortized to revenue	(447,384)		(486,343)
Balance, end of year	\$ 5,485,717	\$_	5,933,101
NOTE 16 - EXTERNALLY RESTRICTED FOR ENDOWMENTS			
	<i>2020</i>		<i>2019</i>

Books and subscriptions	102,998		68,286
Postage and freight	 99,094		44,413
	\$ 47,160,570	\$	50,606,384

Fundraising expenses totaling \$324,478 (2019 - \$364,082) are included in salaries, wages and benefits, contract services, material and supplies, and promotion, events and advertising.

Services received without charge included in above:

	<u> 2020</u>	<u> 2019</u>
Rental of facilities and equipment	\$ 2,938,143	\$ 2,744,793
Utilities and communications	 1,940,932	 1,721,538
	\$ 4,879,075	\$ 4,466,331

To conform with 2020 presentation, an amount of \$1,979,975 has been reclassified from Contract services to Rental of facilities and equipment and an amount of \$575,284 has been reclassified from Employee leave and termination benefits to Salaries, wages and benefits in the 2019 comparative figures. In addition, the reclassification of Employee leave and termination benefits to Salaries, wages and benefits affected classification on the Consolidated Statement of Operations whereas \$575,284 has been reclassified to Direct instruction in the 2019 comparative figures.

NOTE 18 - GOVERNMENT OF YUKON CONTRIBUTIONS

	<u> 2020</u>		<u> 2019</u>
		(Rest	ated - note 3)
Operating contributions	\$ 21,965,258	\$	22,030,760
Contributions other	8,279,438		8,680,872
Services received without charge (note 17)	4,879,075		4,466,331
Pension funding	 119,484		121,748
	\$ 35,243,255	\$	35,299,711

A significant portion of the University's income is received from the Government of Yukon. In 2020, total Government of Yukon contributions made up 73% of total revenues (2019 - 70%). In 2020, the University received \$119,484 (2019 - \$121,748) for pension letter of credit costs.

NOTE 19 - MISCELLANEOUS INCOME

	<u> 2020</u>	<u> 2019</u>
Salary, travel and other expense recovery	\$ 383,544	\$ 834,355
General student fees	256,248	172,432
Other miscellaneous revenue	166,191	136,157
Computer lab usage fees	149,910	119,205
Facilities and equipment rental	83,358	48,352
Book, publication and supply sales	18,011	10,190
Course materials recovery	8,533	5,724
Pension contract recovery	 	 594,784
	\$ 1,065,795	\$ 1,921,199

NOTE 20 - RELATED PARTY TRANSACTIONS

In addition to those related party transactions disclosed in Note 18, the University enters into transactions with related entities in the normal course of business.

The University receives funds from the Government of Yukon for student training allowances, the value of which was \$467,121 (2019 - \$497,538) and this is recognized on the Consolidated Statement of Operations within student assistance/scholarships. Included in the amortization of deferred capital contributions on the Consolidated Statement of Operations is \$307,849 (2019 - \$246,459) related to the Government of Yukon. These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

At June 30, 2020 there was \$104,777 (2019 - \$121,630) of accounts payable and accrued liabilities and \$7,666,357 (2019 - \$1,490,853) of accounts receivable related to the Government of Yukon. At June 30, 2020 there was \$432,035 (2019 - \$640,478 (Restated - note 3)) of deferred contributions and \$4,302,860 (2019 - \$4,706,511) of deferred capital contributions related to the Government of Yukon. The University has a lease agreement with the Government of Yukon for a building and land lease which expires June 2022. Lease payments total \$47,828 for fiscal 2020, \$49,194 for 2021, and \$50,561 for 2022.

NOTE 21 - CONTRACTUAL RIGHTS

Contractual rights are rights to economic resources arising from contracts or agreements that will result in revenues and assets in the future. The University's contractual rights arise because of contracts entered into for undertaking specific programs and projects in the normal course of business. The following table summarizes the contractual rights of the University:

	Go	vernment of	<u>G</u>	overnment of	<u>Other</u>		<u>Total</u>
	(Canada_		Yukon			
2021	\$	2,734,403	\$	21,867,192	\$ 922,921	\$	25,524,516
2022		1,305,250		118,750	521,205		1,945,205
2023		648,180		100,000	464,417		1,212,597
Thereafter		477,544		100,000	354,167		931,711
	\$	5,165,377	\$	22,185,942	\$ 2,262,710	\$	29,614,029

Government of Canada contributions consist of funds to be received for the Northern Basic Adult Education program, the Industrial Research Chair – Northern Energy Innovation, a Yukon satellite program, and various other programs and initiatives such as Industrial Research Assistance, Partners for Children, Bringing Research Home and Environmental Monitoring.

Government of Yukon contributions consist of funds to be received for core operational funding, the Centre for Northern Innovation in Mining, university transition, the Yukon Research Centre, the Cold Climate Innovation Centre, programs such as Practical Nursing and Environmental Monitoring and other initiatives.

Other contributions consist of funds to be received for student support, the Industrial Research Chair – Northern Energy Innovation and other initiatives.

NOTE 22 - CONTRACTUAL OBLIGATIONS

Leases

The University has operating leases and maintenance service agreements for classroom space, telecommunication, the information system and course curriculum and is committed to basic payments as follows:

				Telecommunication,								
	N	Maintenance			C	ourse curriculum and						
		<u>Services</u>	Fa	cility Leases		Other Contracts		<u>Total</u>				
2021	\$	164,138	\$	238,441	\$	401,893	\$	804,472				
2022		170,704		50,561		122,929		344,194				
2023		177,532		-		92,600		270,132				
2024	_	182,633			_			182,633				
	\$_	695,007	\$	289,002	\$_	617,422	\$	1,601,431				

.

NOTE 22 - CONTRACTUAL OBLIGATIONS (continued)

Capital Assets

The land and buildings at Ayamdigut Campus and some community campuses are owned by the Government of Yukon and leased to the University at no charge. The Government of Yukon is responsible for major maintenance and upkeep of the buildings and grounds, and the University is responsible for minor interior maintenance and repairs.

NOTE 23 - EXCESS OF REVENUE OVER EXPENSES

The revenue in excess of expenses includes net periodic pension cost of \$251,000 (2019 - \$1,551,500). As disclosed in note 8a, the University's employer contributions to the pension plan were \$2,169,200 (2019 - \$2,084,200), which is \$1,612,400 (2019 - \$532,700) higher than the amount recognized in expenses for the year.

NOTE 24 - COMPARATIVE FIGURES

In addition to the comparative figures for 2019 that were restated (note 3), certain other comparative figures for 2019 have been reclassified to conform with 2020 presentation. The most significant reclassifications have been described in note 17.

NOTE 25 - SUBSEQUENT EVENTS

Change in year-end

The University changed its financial year end from June 30 to March 31. The effective date of this change is March 31, 2021.

FINANCIAL STATEMENTS

March 31, 2021

(audited)

This page intentionally left blank.

YUKON UNIVERSITY Management Responsibility

The consolidated financial statements are the responsibility of management and the Board of Governors of the Yukon University. The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards with Section 4200 series for government not-for-profit organizations. The consolidated financial statements include estimates based on the experience and judgment of management.

Management is responsible for maintaining the books of account, financial and management controls, and information systems, together with management practices designed to provide reasonable assurance that reliable and accurate financial information is available on a timely basis, that assets are safeguarded and controlled, that resources are managed economically and efficiently in the attainment of University objectives and that operations are carried out effectively.

Management is also responsible for designing systems and practices to provide reasonable assurance that transactions are in accordance with the *Yukon University Act*, bylaws, and policies of the University.

The Board of Governors is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control. The Board meets on a periodic basis with management and the external auditor to review the scope and results of the annual audit, and to review the consolidated financial statements and related financial reporting matters. The Board of Governors has reviewed and approved the consolidated financial statements.

These consolidated financial statements have been independently audited by the University's auditor, the Auditor General of Canada, and her report is included herein.

Dr. Lesley Brown

President

Sheila Ananthan, CPA, CGA

Director, Finance and Administrative Services

September 24, 2021

INDEPENDENT AUDITOR'S REPORT

To the Board of Governors of Yukon University

Opinion

We have audited the consolidated financial statements of Yukon University and its controlled entity (the Group), which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of operations, consolidated statement of changes in net assets, consolidated statement of remeasurement gains and losses, and consolidated statement of cash flows for the 9-month period then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2021, and the consolidated results of its operations, its consolidated remeasurement gains and losses, and its consolidated cash flows for the 9-month period then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty
 exists related to events or conditions that may cast significant doubt on the Group's
 ability to continue as a going concern. If we conclude that a material uncertainty exists,

we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the
 entities or business activities within the Group to express an opinion on the consolidated
 financial statements. We are responsible for the direction, supervision, and performance
 of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Lana Dar, CPA, CA

Notes to the Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 1 - PURPOSE

- a) The Yukon University Act was proclaimed into force effective February 6, 2020 replacing the Yukon College Act. Under the Yukon University Act, Yukon College, incorporated under the Yukon College Act, continues as a corporation under the name Yukon University. Yukon University (the University) is a post-secondary educational institution. The University is a not-for-profit organization and is a registered charity under the Income Tax Act and is therefore exempt from tax. A significant portion of its funding is provided by the Government of Yukon. The purpose of the University is to offer a balance of educational programs. Programs include baccalaureate, masters and doctoral degree programs, certificate and diploma programs, and continuing and adult basic education. The University also undertakes and maintains research, scholarly activities and other learning and training activities for these purposes.
- b) The Yukon University Foundation (the Foundation) is incorporated as a not-for-profit organization under the *Canada Not-For-Profit Corporations Act*. The Foundation is a registered charity under the *Income Tax Act* and is therefore exempt from tax. The Foundation was established:
- to fund, facilitate, promote, and carry out activities which are consistent with the objectives of the University and to provide support for its educational facilities, educational programs, and education services;
- to fund the provision of bursaries, scholarships and prizes granted by the University for any purpose for students in attendance at facilities owned and/or operated by the University;
- to receive bequests, legacies, donations, gifts, funds, and property from all sources and to hold and invest such funds and property and to administer and distribute such funds and property for the purposes of the Foundation; and
- to do all such other things as are incidental and ancillary to the attainment of the foregoing purposes and the exercise of the power of the Foundation.
- c) The University changed its financial year end from June 30 to March 31 to better align with the fiscal year end of existing funders. The effective date of this change is March 31, 2021.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

a) Basis of presentation

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. The University has elected to apply the Section 4200 series for government-not-for-profit organizations.

b) Basis of consolidation

The consolidated financial statements include the accounts of the University and its controlled entity, the Foundation. All inter-entity transactions and balances have been eliminated on consolidation.

The University controls the Foundation as the Board of Governors of the University have the ability to be appointed as the majority of the members of the Board of Directors of the Foundation. The President of the University is the only board member in common for the Foundation and the University. The President is an ex-officio member of the Board of Directors of the Foundation and a non-voting member of the Board of Governors of the University. The Foundation operates out of the University's main campus building with the assistance of University employees in the advancement office.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

c) Financial instruments

The financial instruments of the University include cash, accounts receivable, restricted cash and cash equivalents, restricted investments, accounts payable and accrued liabilities, employee accrued liabilities and loan payable.

All of the University's financial instruments are assigned to the cost or amortized cost measurement category, except for restricted investments which are assigned to the fair value measurement category.

Fair value classification

Restricted investments includes equity and debt instruments that are quoted in an active market. They are initially recognized at fair value and subsequently carried at fair value. Unrealized changes in fair value are recognized in the Consolidated Statement of Remeasurement Gains and Losses until they are realized. Realized changes in fair value of restricted investments are recorded as deferred contributions, where they remain deferred until the restriction on use is fulfilled, and at that time the amount is transferred to the Consolidated Statement of Operations. Transaction costs are expensed as incurred.

Where a decline in fair value is determined to be other than temporary, the amount of the loss is removed from accumulated remeasurement gains and losses and recognized in the Consolidated Statement of Operations.

The University classifies, for financial reporting purposes, fair value measurements using a fair value hierarchy made up of three levels, according to the inputs used in making the measurements.

Level 1: This level includes assets and liabilities measured at fair value based on unadjusted quoted prices for identical assets and liabilities in an active market that the University can access at the measurement date

Level 2: This category includes measurements that use, either directly or indirectly, observable inputs other than quoted prices included in level 1.

Level 3: The measurements in this category depend upon inputs that are less observable, not available or for which observable inputs do not justify most of the instruments' fair value.

Amortized cost classification

These financial instruments are initially recognized at cost and subsequently carried at amortized cost using the effective interest rate method, less any impairment losses on financial assets. Transaction costs are added to the cost of the instrument.

Writedowns are recognized when the amount of the loss is known with sufficient precision, and there is no realistic prospect of recovery. Financial assets are written down to net recoverable value with the writedown recognized in the Consolidated Statement of Operations. Accounts receivable are recorded at cost less valuation allowances. Valuation allowances are calculated by examining amounts overdue 90 days or more to estimate amounts deemed to be uncollectible.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Capital assets

Capital assets are recorded at cost less accumulated amortization. Contributed capital assets are recorded at fair value at the time of contribution.

When conditions indicate that an asset no longer contributes to the University's ability to provide its services, the carrying value of the capital asset is reduced to reflect the decline in the asset's value.

Construction in progress costs are capitalized as incurred. These amounts are transferred to various categories of capital assets and are amortized on a basis consistent with similar assets once the assets are placed in service.

Capital assets are amortized on a straight-line basis over their estimated useful lives, which are estimated as follows:

	<u>Useful life (years)</u>
Leasehold improvements	20
Equipment general	10
Equipment electronic data processing (EDP)	3
Mobile trailers	20
Furniture and fixtures	10
Vehicles	5

The Works of art are capitalized at cost and no amortization is recorded.

e) Inventories

Inventories consist of items for resale in the bookstore and food service operations and are valued at the lower of cost and net realizable value. Cost is determined on a first-in first-out basis.

f) Contributed services

The University benefits from services provided by volunteers in assisting the institution in carrying out its activities. The fair value of these services is not reliably estimable and accordingly is not recognized in the consolidated financial statements.

g) Employee future benefits

Pension benefits

Yukon University Employees' Pension Plan (pension plan) is a contributory defined benefit pension plan. The pension plan provides mandatory pension benefits for all full-time employees and optional benefits for part-time employees of the University after 24 months of continuous service. The University's pension plan provides for defined retirement benefits based on an employee's years of service and average final earnings, in accordance with the federal *Pension Benefits Standards Act*, and is indexed in accordance with the change in Consumer Price Index for 12 months ended September 30. In general, pension benefits are based on 2% of the best five years of continuous service minus any adjustments required by the Canada Pension Plan. Plan members can accumulate up to 35 years of continuous service. The University has contracted with external organizations to provide the services of trustee, administration, consulting, and investment management for the pension plan. The pension plan assets are held by a trustee and separate financial statements are prepared for the pension plan.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Employee future benefits (continued)

The University accrues its obligations under the pension plan and the related costs, net of plan assets.

The cost of pension benefits earned by employees is actuarially determined using the projected benefit method prorated on service and management's best estimate of expected plan investment performance, inflation rates, salary escalation, and retirement ages of employees.

Past service costs from plan amendments are accounted for in the period of the plan amendments.

Actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service life of the related employee group.

Other non-pension benefits

The cost of the benefit plan, other than pension, including severance benefits, non-vesting but accumulating sick leave and special leave and managers' accrued leave, payable upon termination of employment, death or retirement, is actuarially determined using the projected accrued benefit method prorated on employment services using management's best estimate of inflation rates, salary escalation, and retirement ages of employees, and is recognized over the period in which the benefits are earned (i.e. the period the employee renders service to the University). Actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service life of the related employee group. The University accrues other vacation and leave benefits for employees as earned based on their respective terms of employment.

h) Revenue recognition

The University follows the deferral method of accounting for contributions. Restricted contributions are deferred and recognized as revenue on the same basis and in the same periods as expenses under the terms of the restrictions. Contributions restricted for the purchase of capital assets are deferred and amortized into revenue at a rate corresponding with the amortization rate for the related capital assets.

Unrestricted contributions, such as operating grants, are recognized as revenue when received or receivable, if the amount to be received can be reasonably estimated and collection is reasonably assured.

Endowment contributions are recognized as direct increases in endowment net assets. Interest earned on endowment contributions where a portion of the interest cannot be spent is added to the endowment principal. Interest earned on endowment contributions where the investment income can be spent is deferred until the interest is spent for the specified purposes.

Sales, rentals and services, miscellaneous income, and tuition are reported as revenue at the time the services are substantially provided, or the products are delivered. Deposits received from students are recognized as a liability until the student enrolls in courses and requests application of the deposit against tuition fees charged on their student account. Tuition fees received in advance of courses being delivered are deferred and recognized as revenue when the courses are delivered.

The University provides education, rentals, research and services to private companies, federal and territorial government departments, agencies, and corporations through contractual arrangements. Payments received under these contracts for which the development and delivery of courses and projects are not completed are recorded as deferred revenue until completion in accordance with the terms of the agreements.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Allocation of expenses

The University allocates the majority of its expenses by function. General administration expenses are not allocated to other functions but are disclosed separately. Fundraising expenses incurred during the year are included in general administration expenses.

j) Internally restricted net assets

Net assets invested in capital assets represents the amount the University has spent on capital assets using its own funding sources. Net assets internally restricted for pension represents the amounts restricted in order to meet future pension obligations. Net assets internally restricted for capital assets represents the amounts restricted in order to invest in capital assets (replacement and purchase of new assets).

k) Related party transactions

The University is related to all Government of Yukon departments, corporations, agencies, and the University's key management personnel. Key management personnel are those persons having authority and responsibility for planning, directing, and controlling the activities of the University. Significant transactions with related parties and balances at year-end are disclosed separately in the consolidated financial statements and notes thereto.

Inter-entity transactions are transactions between commonly controlled entities. Inter-entity transactions are recorded on a gross basis and are measured at the carrying amount, except for when inter-entity transactions are undertaken on similar terms and conditions to those adopted if the entities were dealing at arm's length, or where costs provided are recovered, they are measured at the exchange amount.

Related party transactions other than inter-entity transactions are recorded at the exchange amount.

The University receives certain services provided by the Government of Yukon without charge. The majority of the services received without charge represent costs associated with facilities provided by the Government of Yukon at a reduced, or no, charge. These services are recognized as expenses with an offsetting credit to revenues in order to reflect the full cost of the University's operations in its consolidated financial statements. These services are recorded at amounts based on the Government of Yukon's amortization expense (for the main campus), and on fair value for the rental of other facilities.

1) Use of estimates

The preparation of financial statements in accordance with Canadian public sector accounting standards applicable for government not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses for the year. Significant areas requiring the use of management estimates relate to the determination of the accrued pension benefit asset and the liabilities for other employee future benefits, and the estimated useful lives of capital assets. Actual results could differ significantly from those estimated. Estimates are reviewed annually and as adjustments become necessary, they are recorded in the consolidated financial statements in the period which they become known.

m) Contingent liabilities

Contingent liabilities may arise from time to time in the normal course of operations. Liabilities on any litigation are recognized in the consolidated financial statements when it is likely that a future event will confirm that a liability has been incurred at the date of the consolidated financial statements and the amount can be reasonably estimated. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingent liability is disclosed in the notes to the consolidated financial statements and no liability is accrued.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 3 – FINANCIAL RISK MANAGEMENT

The University's financial instruments are exposed to the following risks: interest rate risk, foreign exchange risk, credit risk, liquidity risk and other price risk. The University manages these risk exposures on an ongoing basis. The University is not party to any financial derivatives.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The University is exposed to interest rate risk on its fixed interest rate for financial instruments, which subject the University to a fair value risk. Investments are monitored by the Board of Governors and managed by investment managers, subject to asset mix and performance benchmarks contained in the investment policies. The investment managers report on a regular basis to the Board of Governors.

Foreign exchange risk

Foreign exchange risk is the risk that the value of financial assets and liabilities denominated in foreign currencies will fluctuate due to changes in their respective exchange rates. The University is not exposed to any significant foreign exchange risk because instruments held in foreign currency are not considered significant.

Credit risk

Credit risk arises from the possibility that the issuer of a financial instrument fails to meet its obligation. The carrying amount of cash, accounts receivable, restricted cash and cash equivalents and restricted investments represents the maximum credit exposure. The credit risk associated with these instruments is considered to be minimal due to the nature of the instruments and the fact that the majority of the accounts receivable are due from the federal, territorial, first nation and municipal governments.

Information regarding the University's accounts receivable is as follows:

	<u>March 31, 2021</u>	<u>J1</u>	<u>ine 30, 2020</u>
Carrying value	\$ 7,716,264	\$	8,692,908
Allowance for doubtful accounts	\$ 47,170	\$	55,230
Accounts receivable % less than 30 days	93 %		89%
Accounts receivable % over 90 days	4 %		4%

Liquidity risk

Liquidity risk is the risk that the University will not be able to meet its financial obligations as they become due.

The University manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing and financing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the University's reputation. As at March 31, 2021 and June 30, 2020, substantially all of the University's accounts payable and accrued liabilities is due within 6 months of period-end.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 3 – FINANCIAL RISK MANAGEMENT (continued)

Other price risk

Other price risk is the risk that changes in financial or market conditions impair the value of the University's assets, or that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The University's investments are managed by investment managers in accordance with the University's investment Governance Policy. The University is not involved in any hedging relationships through its operations and does not hold or use any derivative financial instruments for trading purposes. Other price risk is not considered significant.

NOTE 4 - CASH

The University has, if needed, an operating demand line of credit with its banker that allows the University to borrow up to \$1,000,000 (June 30, 2020 - \$500,000) at bank prime. The credit line was unused at both March 31, 2021 and June 30, 2020. The University's credit facility interest rates are subject to fluctuations in the prime rate.

NOTE 5 - RESTRICTED CASH AND CASH EQUIVALENTS

Restricted cash and cash equivalents consists of guaranteed investment certificates of \$818,913 (June 30, 2020 - \$162,277) and cash of \$292,597 (June 30, 2020 - \$478,206).

An amount of \$298,450 (June 30, 2020 - \$479,023) is externally restricted for certain endowment and deferred contributions. An amount of \$270,463 (June 30, 2020 - \$161,460) is internally restricted for prepaid employee leave. An amount of \$542,597 (June 30, 2020 - \$ -) is internally restricted for investment in capital assets.

NOTE 6 - RESTRICTED INVESTMENTS

Investments were comprised of the following:

	Level	Percentage	March 31, 2021	June 30, 2020
Equity securities	1	61.90%	\$ 2,978,152	\$ 2,503,499
Debt securities	1	34.70%	1,671,808	1,407,219
Cash and cash equivalents	1	3.40%	165,082	100,359
Total		100.00%	\$ 4,815,042	\$ 4,011,077

Restricted investments are externally restricted.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 7 - EMPLOYEE FUTURE BENEFITS

a) Pension benefits

Yukon University Employees' Pension Plan is a defined-benefit pension plan, which requires the employer and the employee to make annual contributions to an employee's retirement account. Plan administrators hire an actuary to calculate the future benefits that the plan must pay an employee and the amount that the employer and employee must contribute to provide those benefits. During the 9-month period ended March 31, 2021, the pension benefits paid by the pension plan were \$3,764,500 (year ended June 30, 2020 - \$3,590,600) and the employer and employee contributions to the pension plan were \$1,812,000 (year ended June 30, 2020 - \$1,863,400) and \$1,797,000 (year ended June 30, 2020 - \$1,994,000), respectively.

The pension plan has two groups of members. Group 1 is for members with a start date prior to July 1, 2013. Group 2 is for members with a start date on or after July 1, 2013. The age at which a member can retire without a reduced pension is age 60 for Group 1 and age 65 for Group 2. During the 9-month period ended March 31, 2021 and the year ended June 30, 2020, Group 1 members were required to contribute to the plan at a rate of 10.72% on annual earnings up to the Yearly Maximum Pensionable Earnings (YMPE) plus 13.12% on annual earnings in excess of the YMPE. During the 9-month period ended March 31, 2021 and year ended June 30, 2020, Group 2 members were required to contribute to the plan at a rate of 9.43% on annual earnings up to the YMPE plus 11.21% on annual earnings in excess of the YMPE.

Assets in the pension plan are based on fair values as reported by the custodian of the funds as at March 31, 2021. No adjustment is made for contributions/payments in transit at that date.

An actuarial valuation for accounting purposes was performed as at March 31, 2021 using the projected benefits method prorated on services.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 7 - EMPLOYEE FUTURE BENEFITS (continued)

a) Pension benefits (continued)

The actuarial valuation was based on a number of assumptions about future events, such as inflation rates, interest rates, wage and salary increases and employee turnover and mortality. The assumptions used reflect management's best estimates of these future events. Key assumptions are summarized below:

	-	onth period ended March 31, 2021		year ended June 30, 2020
Weighted-average assumptions for benefit costs				
Discount rate		5.30%		5.25%
Expected long-term rate of return on plan assets		5.30%		5.25%
Rate of compensation increase		3.40%		3.40%
Inflation rate		2.00%		2.00%
Expected average remaining service life		10 years		10 years
Weighted-average assumptions of accrued benefit obligation				
Discount rate		5.30%		5.25%
Rate of compensation increase		3.40%		3.40%
Inflation rate		2.00%		2.00%
	9-m	onth period ended		year ended
	1	March 31, 2021		June 30, 2020
Change in accrued benefit obligation:				
Accrued benefit obligation - beginning of period	\$	93,159,000	\$	87,143,800
Current service cost, net of employee contributions		1,898,200		2,095,100
Interest cost		3,657,700		4,800,300
Employee contributions		1,797,000		1,994,000
Benefits paid		(3,764,500)		(3,590,600)
Admin expenses		(458,100)		(230,000)
Actuarial (gains)/losses		(1,226,100)	_	946,400
Accrued benefit obligation - end of period	\$	95,063,200	\$_	93,159,000
	9-m	onth period ended		year ended
		March 31, 2021		June 30, 2020
Change in plan assets:				
Fair value of plan assets - beginning of period	\$	113,825,300	\$	112,401,800
Actual return on plan assets		19,293,500		1,386,700
Employer contributions		1,812,000		1,863,400
Employee contributions		1,797,000		1,994,000
Benefits paid		(3,764,500)		(3,590,600)
Admin expenses		(458,100)	_	(230,000)
Fair value of plan assets - end of period	\$	132,505,200	\$_	113,825,300
	٠	March 31, 2021		June 30, 2020
Reconciliation of accrued pension benefit asset - end of period:				
Accrued benefit obligation	\$	(95,063,200)	\$	(93,159,000)
Fair value of plan assets		132,505,200		113,825,300
Pension benefit surplus		37,442,000		20,666,300
Unamortized net actuarial gains		(16,912,700)	_	(778,100)
Accrued pension benefit asset	\$	20,529,300	\$	19,888,200

The unamortized net actuarial gains of \$16,912,700 as at March 31, 2021 is primarily comprised of the difference between the expected return on plan assets and the actual return on plan assets for the 9-month period ended March 31, 2021.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

Total		100%	_	100%

The net periodic pension cost of \$1,170,900 (year ended June 30, 2020 - \$251,000) is recognized in salaries, wages and benefits in note 16 and allocated to expenses by function on the Consolidated Statement of Operations in a manner consistent with the employee allocation to those functions.

Actuarial valuation for funding purposes

An actuarial valuation for funding purposes was performed as at June 30, 2020 which identified the University's required current service contributions as 100.4% (June 30, 2019–94.3%) of employee contributions. Under economic and demographic assumptions used in these calculations this level of University contributions, together with the employee contributions is sufficient to fund the current service costs of the pension plan benefits.

The actuarial valuation for funding purposes as at June 30, 2020 for the University had an actual surplus of \$16,005,500 (June 30, 2019 - \$19,586,500) at the measurement date on a going-concern basis and a deficit of \$21,013,500 (June 30, 2019 - \$11,295,600) if valued on the basis that the pension plan was terminated/wound up as at June 30, 2020. The solvency ratio of the pension plan was 86.3% as at June 30, 2020. The Government of Yukon provided a pension related contribution to the University during the year as described in note 17. All required contributions to the pension plan have been made.

The *Pension Benefits Standards Act* permits that in lieu of making special solvency payments, letters of credit can be obtained to reduce the solvency deficiency. In May 2011, for the solvency deficiency, the University acquired a letter of credit for the pension plan. The face value of the letter of credit was increased by \$202,067 per month for the period January 1, 2021 to March 31, 2021. On April 15, 2020 the Federal Government adopted a regulation to provide temporary, short-term solvency funding relief for sponsors of federally regulated defined benefit pension plans and, as a result, no increases to the face value of the letter of credit were required for the period April 1, 2020 to December 30, 2020. The University chose to adopt this moratorium. The face value of the letter of credit as at June 30, 2020 was \$18,932,500. In January 2021 the University renewed the letter of credit to December 31, 2021 for face value of \$21,357,297. The letter of credit is guaranteed by the Government of Yukon.

A new actuarial valuation for funding purposes will be prepared as at June 30, 2021 and will be filed with the regulator prior to December 31, 2021.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 7 - EMPLOYEE FUTURE BENEFITS (continued)

a) Pension benefits (continued)

The Government of Yukon has issued letters to a bank guaranteeing that, should there be a requirement to draw upon the letter of credit required by the University to address its solvency deficit in its pension plan, the Government of Yukon will provide the necessary support to address any resulting debt, interest and costs that may be required under the federal pension legislation. In January 2021, the guarantee remained in effect to December 31, 2021.

b) Other non-pension benefits

The non-pension benefit plan is not funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation. The benefits include severance, non-vesting but accumulating sick leave, special leave and other outstanding leave entitlements and will be paid from future sources of revenue. The actuarial valuation of the accrued benefit liability is:

	\underline{M}	farch 31, 2021		June 30, 2020
Accrued benefit obligation, end of period Unamortized actuarial gain	\$	6,707,200	\$	6,355,200

NOTE 13 - LOAN PAYABLE

The University has entered into an agreement with a donor for a non-interest bearing loan that is invested as deemed appropriate by the University. Income from the loan will be used to establish and grow a research endowment. The principal will remain invested until it has been gifted to the University at which time it will be added to the research endowment and managed under the terms of the endowment agreement. While the loan is repayable within 90 days on demand, the loan may be converted to a gift at any time by the donor.

NOTE 19 - RELATED PARTY TRANSACTIONS

In addition to those related party transactions disclosed in Note 17, the University enters into transactions with related entities in the normal course of business.

The University receives funds from the Government of Yukon for student training allowances. An amount of \$334,354 (year ended June 30, 2020 - \$467,121) is recognized on the Consolidated Statement of Operations within student assistance/scholarships. Included in the amortization of deferred capital contributions on the Consolidated Statement of Operations is \$306,493 (year ended June 30, 2020 - \$307,849) related to the Government of Yukon. These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

At March 31, 2021 there was \$159,528 (June 30, 2020 - \$104,777) of accounts payable and accrued liabilities and \$5,273,063 (June 30, 2020 - \$7,666,357) of accounts receivable related to the Government of Yukon. At March 31, 2021 there was \$7,700 (June 30, 2020 - \$432,035) of deferred contributions and \$4,378,331 (June 30, 2020 - \$4,302,860) of deferred capital contributions related to the Government of Yukon. The University has a lease agreement with the Government of Yukon for a building and land lease which expires June 2022. Lease payments total \$49,194 for the 9-month period ended March 31, 2021, and \$50,561 for the year ended March 31, 2022.

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 20 - CONTRACTUAL RIGHTS

Contractual rights are rights to economic resources arising from contracts or agreements that will result in revenues and assets in the future. The University's contractual rights arise because of contracts entered into for undertaking specific programs and projects in the normal course of business. The following table summarizes the contractual rights of the University:

		Government of Canada	Government of Yukon	Other			<u>Total</u>		
2022	\$	\$3,413,885	\$ \$236,186	\$	\$1,994,064	\$	5,644,135		
2023		1,928,180	109,368		1,732,493		3,770,041		
2024		1,602,544	100,000		1,780,949		3,483,493		
Thereafter	_	1,212,094	-		1,860,313		3,072,407		
	\$	8,156,703	\$ 445,554	\$	7,367,819	\$	15,970,076		

Government of Canada contributions consist of funds to be received for the Northern Basic Adult Education program, the Industrial Research Chair – Northern Energy Innovation, a Yukon satellite program, and various other programs and initiatives such as Industrial Research Assistance, Partners for Children, Bringing Research Home and Environmental Monitoring.

Government of Yukon contributions consist of funds to be received for the Centre for Northern Innovation in Mining, the Yukon Research Centre, the Cold Climate Innovation Centre, programs such as Environmental Monitoring and other initiatives.

Other contributions consist of funds to be received for student support, the Industrial Research Chair – Northern Energy Innovation and other initiatives.

NOTE 21 - CONTRACTUAL OBLIGATIONS

Leases

The University has operating leases and maintenance service agreements for classroom space, telecommunication, the information system and course curriculum and is committed to basic payments as follows:

	Maintenance Services	Facility Leases	_	Course curriculum and Other Contracts	<u>Total</u>
2022	\$ 199,029	\$ 86,238	\$	1,021,381	\$ 1,306,648
2023	206,991	13,061		246,839	466,891
2024	215,270	-		75,935	291,205
2025	-	-		20,666	20,666
	\$ 621,290	\$ 99,299	\$	1,364,821	\$ 2,085,410

Notes to Consolidated Financial Statements 9-month period ended March 31, 2021 and year ended June 30, 2020

NOTE 21 - CONTRACTUAL OBLIGATIONS (continued)

Capital Assets

The land and buildings at Ayamdigut Campus and some community campuses are owned by the Government of Yukon and leased to the University at no charge. The Government of Yukon is responsible for major maintenance and upkeep of the buildings and grounds, and the University is responsible for minor interior maintenance and repairs.

NOTE 22 - EXCESS OF REVENUE OVER EXPENSES

The revenue in excess of expenses includes net periodic pension cost of \$1,170,900 (year ended June 30, 2020 - \$251,000). As disclosed in note 7a, the University's employer contributions to the pension plan were \$1,812,000 (year ended June 30, 2020 - \$1,863,400), which is \$641,100 (year ended June 30, 2020 - \$1,612,400) higher than the amount recognized in expenses for the 9-month period ended March 31, 2021.

NOTE 23 – COMPARATIVE FIGURES

Certain comparative figures for 2020 included in these financial statements, have been reclassified to conform with the 2021 presentation.

Management's Responsibility for Financial Reporting

Management is responsible for the preparation of these consolidated financial statements in conformity with International Financial Reporting Standards and all other financial information relating to the Corporation contained in this annual report. These consolidated financial statements have been prepared by management using methods appropriate for the industry in which the Corporation operates and necessarily include some amounts that are based on judgments and best estimates of management. The financial information contained elsewhere in this annual report is consistent with that in the consolidated financial statements. The Auditor General of Canada is the external auditor of the Corporation.

Management has established internal accounting control systems to meet its responsibilities for reliable and accurate reporting. These systems include policies and procedures, the careful selection and training of qualified personnel and an organizational structure that provides for the appropriate delegation of authority and segregation of responsibilities.

The Board of Directors, through its Audit Committee, oversees management's responsibilities for financial reporting. The Audit Committee meets regularly with management and the independent auditor to discuss auditing and financial matters to ensure that management is carrying out its responsibilities and to review the consolidated financial statements. The auditors have full and free access to the Audit Committee and management.

INDEPENDENT AUDITOR'S REPORT

To the Minister responsible for the Yukon Development Corporation

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of the Yukon Development Corporation and its subsidiary (the Group), which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of operations and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities
 or business activities within the Group to express an opinion on the consolidated financial
 statements. We are responsible for the direction, supervision, and performance of the
 group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the consolidated financial statements, we have audited transactions of the Yukon Development Corporation coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Financial Administration Act* of Yukon and regulations, the *Yukon Development Corporation Act* and regulations, the *Public Utilities Act* and regulations, the *Business Corporations Act* and regulations, and the articles and by-laws of the Yukon Development Corporation.

In our opinion, the transactions of the Yukon Development Corporation that came to our notice during the audit of the consolidated financial statements have complied, in all material respects, with the specified authorities referred to above. Further, as required by the *Yukon Development Corporation Act*, we report that, in our opinion, the accounting principles in IFRSs have been applied on a basis consistent with that of the preceding year. In addition, in our opinion, proper books of account have been kept by the Yukon Development Corporation and the consolidated financial statements are in agreement therewith.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Yukon Development Corporation's compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Yukon Development Corporation to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the consolidated financial statements are in compliance with the specified authorities referred to above.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

1. Nature of operations

a) General

Yukon Development Corporation was originally established under the *Yukon Development Corporation Act* to participate with the private sector in the economic development of the Yukon, to make strategic investments to the benefit of the territory and to acquire and operate the assets of Northern Canada Power Commission in the Yukon. In 1993, the Yukon Development Corporation's mandate was changed to restrict its new initiatives to energy-related activities designed to promote the economic development of the Yukon. The Yukon Development Corporation's principal place of business is located at 2180 Second Avenue, Suite 234 Whitehorse, YT, Y1A 5N6.

Yukon Development Corporation's wholly-owned subsidiary, Yukon Energy Corporation (the "Utility") was incorporated under the Yukon *Business Corporations Act*. The Utility generates, transmits, distributes and sells electrical energy in the Yukon and is subject to overall regulation by the Yukon Utilities Board ("YUB") and specific regulation by the Yukon Water Board. Both boards are consolidated by the Yukon Government and are related parties for accounting purposes to the Yukon Development Corporation and the Utility. Management has assessed that these boards operate independently from the Yukon Development Corporation and the Utility from a rate setting and operating perspective. The Utility's principal place of business is located at #2 Miles Canyon Road, Whitehorse, YT, Y1A 6S7.

Yukon Development Corporation and the Utility are not subject to income taxes.

Yukon Development Corporation consolidates the financial statements of its subsidiary, the Utility. All intercompany transactions, balances, income and expenses are eliminated on consolidation. References in these consolidated financial statements to "Corporation" refer to the consolidated entity.

b) Rate regulation

The operations of the Corporation are regulated by the YUB pursuant to the *Public Utilities Act*. The Corporation is subject to a cost of service regulatory mechanism under which the YUB establishes the revenues required (i) to recover the forecast operating costs, including depreciation and amortization, of providing the regulated service, and (ii) to provide a fair and reasonable return on Corporation investment in rate base. There is no minimum requirement for the Corporation to appear before the YUB to review rates. However, the Corporation is not permitted to charge any rate for the supply of power that is not approved by an Order of the YUB. As actual operating conditions may vary from forecast, actual returns achieved can differ from approved returns.

The regulatory hearing process used to establish or change rates typically begins when the Corporation files a General Rate Application ("GRA") for its proposed electricity rate changes over the next one or two forecast years. The YUB must ensure that its decision, which fixes electricity rates, complies with appropriate principles of rate making, all relevant legislation including the *Public Utilities Act* and directives issued by Yukon Government through Orders-In-Council (OIC) that specify how the interests of the customer and Corporation are to be balanced.

The YUB typically follows a two-stage decision process. In the first stage, the total costs that the Corporation expects it will incur to provide electricity to its customers over the immediate future are reviewed and approved. The approval of these costs determines the total revenues the Corporation is allowed to collect from its customers.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

1. Nature of operations - continued

It is the responsibility of the YUB to examine the legitimacy of three classes of costs:

- the costs to the Corporation to run its operations and maintain its equipment (personnel and materials);
- the cost associated with the depreciation of all capital equipment; and
- the return on rate base (the costs related to borrowing that portion of rate base which is financed with debt, plus the costs to provide a reasonable rate of return on that portion of rate base which is financed with equity).

The YUB assesses the prudency of costs added to rate base, which includes an allowance for funds used during construction ("AFUDC") charged to capital projects. The YUB also reviews the appropriateness of property, plant and equipment depreciation rates, which are periodically updated by the Corporation through depreciation studies.

In the second stage, the YUB approves how the revenue will be raised. This stage essentially determines the electricity rates for the various customer classes in the Yukon: wholesale, general service, industrial, residential, sentinel and street lights and secondary sales. This process is guided mainly by requirements of OIC 1995/90 and can include a cost-of-service study which allocates the Corporation's overall cost of service to the various customer classes on the basis of appropriate costing principles.

In November 2020, the Corporation filed a GRA for the year 2021 requesting approval of revenue requirement and related rate increases. The GRA requested a rate increase of 11.54%. An interim refundable rate rider (10.08%) was approved effective July 1, 2021. The Corporation expects to complete the process and a final order from the YUB near the end of 2021.

The GRA requested a board order related to the regulatory deferral accounts, specifically a change to the long-term average for fuel costs to better reflect current market conditions.

These consolidated financial statements do not reflect the requested rate increase as the rate increase is for the period starting January 1, 2021. Refer to Note 4 Regulatory deferral account balances.

c) Water regulation

The Yukon Water Board ("YWB"), pursuant to the *Yukon Waters Act*, decides if and for how long the Corporation will have water licences for the purposes of operating hydro generation stations in the Yukon. The licences will also indicate terms and conditions for the operation of these facilities. The current water licenses have the following terms:

Aishihik Generating Station February 28, 2023
Mayo Generating Station December 31, 2025
Whitehorse Generating Station December 31, 2025

d) Capital structure

The Utility's policy which has been approved by the YUB is to maintain a capital structure of 60% debt and 40% equity (Note 27).

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

1. Nature of operations - continued

e) Yukon Government

In August 2020, the Yukon Government authorized the continuation of the Interim Electrical Rebate program (the "rebate") for 12 months to March 31, 2021. The rebate provides subsidies to non-government residential and municipal customers. It was implemented in 1998 after the Faro mine closed to protect customers from significant bill increases that would have resulted from that shutdown. The Yukon Government is providing funding for the monthly rebate based on \$0.02395/kwh for the period from April 1, 2020 to May 31, 2020 and \$0.02328/kwh for the period from June 1, 2020 to March 31, 2021 applied to residential customers to a maximum of \$3.5 million annually.

The Corporation and the Yukon Government signed a Memorandum of Understanding for the accounting period starting April 1, 2011 to March 31, 2042 regarding the Mayo B and Carmacks-Stewart Transmission line projects. The Yukon Government will assist in funding the repayment of a portion of the bond interest costs of up to \$2.625 million annually, subject to the Corporation meeting specified terms set out in the agreement.

The Corporation signed an agreement with the Yukon Government for the period from January 1, 2018 to March 31, 2021 for total funding of up to \$1.5 million annually to conduct Innovative Renewable Energy Initiative programs throughout the Yukon. The program is intended to encourage the development of small-scale, community-based renewable energy generation capacity.

2. Basis of presentation

a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

These consolidated financial statements were authorized for issue by the Board of Directors on June 25, 2021.

b) Basis of measurement

The financial information included in the consolidated financial statements has been prepared on a historical cost basis, except for some financial instruments, as described in Note 3(f), which are measured at fair value.

3. Significant accounting policies

a) Revenue recognition

The Corporation recognizes revenue from contracts where the right to consideration from a customer corresponds directly with the value to the customer of the Corporation's performance completed to date.

The majority of the Corporation's revenues from contracts with customers are derived from the generation, transmission, distribution, purchase and sales of electricity under the *Public Utilities Act*. The Corporation evaluates whether the contracts it enters into meet the definition of a contract with a customer at the inception of the contract and ongoing basis if there is an indication of a significant change in facts and circumstances.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

Revenue is measured based on the transaction price specified in a contract with a customer. Revenue is recognized when control over a promised good or service is transferred to the customer and the Corporation is entitled to consideration as a result of completion of the performance obligation.

The Corporation recognizes a contract asset or deferred revenue for the contracts where the performance obligation has not been satisfied. Deferred revenue is recognized when the Corporation receives consideration before the performance obligations have been satisfied. A contract asset is recorded when the Corporation has rights to consideration for the completion of a performance obligation when that right is conditional on something other than the passage of time. The Corporation recognizes unconditional rights to consideration separately as a trade receivable. Contract assets are evaluated at each reporting period to determine whether there is any objective evidence that they are impaired.

Electricity sales contracts are deemed to have a single performance obligation as the promise to transfer individual goods or services is not separately identifiable from other obligations in the contracts and therefore not distinct. These performance obligations are considered to be satisfied over time as electricity is delivered because of the continuous transfer of control to the customer. The method of revenue recognition for the electricity is an output method, which is based on the volume delivered to the customer.

The Corporation's electricity sales are calculated based on the customers usage of electricity during the period at the applicable published rates for each customer class. Electricity rates in the Yukon are set by the YUB. Electricity sales include an estimate of electricity deliveries not yet billed at period-end. The estimated unbilled revenue is based on several factors, including estimated consumption by customer, applicable customer rates and the number of days between the last billing date and the end of the period.

b) Translation of foreign currencies

The functional currency of the Corporation is the Canadian Dollar. Revenue and expense items denominated in foreign currencies are translated at exchange rates prevailing during the period. Monetary assets and liabilities denominated in foreign currencies are translated at period-end exchange rates. Non-monetary assets and liabilities are translated at exchange rates in effect when the assets are acquired or the obligations are incurred. Foreign exchange gains and losses are reflected in net income for the period.

c) Allowance for funds used during construction

The cost of the Corporation's property, plant and equipment and intangible assets includes an allowance for funds used during construction ("AFUDC"). The AFUDC rate is based on the Corporation's weighted average cost of debt.

d) Cash

Cash is comprised of bank account balances (net of outstanding cheques).

e) Inventories

Inventories consist of materials and supplies, diesel fuel and liquefied natural gas. Inventories are carried at the lesser of weighted average cost and net realizable value. Cost includes all expenditures incurred in acquiring the items and bringing them to their existing condition and location. Critical spare parts are recognized in the Corporation's property, plant and equipment.

The recoverable value of inventory considers its net realizable value, including required processing costs, and is impacted by estimates and assumptions on price, quality, recovery and exchange rates. Obsolete materials and supplies are recorded at salvage value in the period when obsolescence is determined.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

f) Financial instruments

Financial assets and financial liabilities are recognized on the Corporation's Consolidated Statement of Financial Position when the Corporation becomes party to the contractual provisions of the instrument.

i) Financial assets

Cash, finance lease receivable, and accounts receivable, plus any transaction costs that are directly attributable to the acquisition of the financial asset, are initially measured at fair value. Subsequent to initial recognition, cash is measured at amortized cost and finance lease receivable and accounts receivable are measured at amortized cost using the effective interest rate method less any impairment. The Corporation's business model is to hold these assets to collect contractual cash flows.

A provision for impairment of accounts receivable is established applying the expected credit loss model based on all possible default events over the expected life of the financial asset. For trade accounts receivable, the Corporation applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables. For the other receivables, at the reporting date, if credit risk has increased significantly since initial recognition, the Corporation measures the loss allowance at an amount equal to the lifetime expected credit losses, otherwise, if the credit risk has not increased significantly since initial recognition, the Corporation measures the loss allowance at an amount equal to 12-month expected credit losses.

Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy or require financial reorganization, and default or delinquency in payments are considered indicators that the related accounts receivable are impaired. The accounts receivable carrying amount is reduced through the use of an allowance account and the loss is recognized in net income. A financial asset is derecognized when the rights to receive cash flows from the asset have expired, or the Corporation has transferred its rights to receive cash flows from the asset and has transferred substantially all of the risk and rewards of the asset.

ii) Financial liabilities

Bank indebtedness, accounts payable and accrued liabilities, and long-term debt are initially measured at fair value less any transaction costs that are directly attributable to the issuance of the financial liability. Subsequent to initial recognition, these financial liabilities are measured at amortized cost using the effective interest rate method.

Transaction costs are presented as a reduction from the carrying value of the related debt and are amortized using the effective interest rate method over the terms of the debts to which they relate. Transaction costs include fees paid to agents, brokers and advisors but exclude debt discounts and lender financing costs.

Derivative financial instruments are financial contracts that derive their value from changes in an underlying variable. The Corporation has entered into interest rate swaps to manage interest rate risk. The Corporation's interest rate swaps are classified as fair value through profit and loss and are thus recognized at fair value on the date the contract has been entered into with any subsequent unrealized and realized gains and losses recognized in net income during the period in which the fair value movement occurred.

A financial liability is derecognized when the obligation is discharged or cancelled, or expires.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

g) Property, plant and equipment

Property, plant and equipment are carried at cost, less accumulated depreciation and any asset impairment charges. Cost includes the direct costs of acquisition and materials, direct labour, and, if applicable, an allocation of directly attributable overhead costs, AFUDC and any asset retirement costs associated with the property, plant and equipment.

AFUDC is applied to actual costs in work-in-progress less any contributions in aid of construction. For items of property, plant and equipment acquired prior to January 1, 2011, the AFUDC rate also included a regulatory cost of equity component as allowed by the YUB. Capitalization of AFUDC ceases when the asset being constructed is substantially ready for its intended purpose.

Assets under construction are recognized as in construction work in progress until they are operational and available for use, at which time they are transferred to the applicable component of property, plant and equipment.

Depreciation is recognized in net income based on the straight-line method over the estimated useful life of each major component of property, plant and equipment.

The range of estimated useful lives of the major classes and subclasses of property, plant and equipment is as follows:

Generation	
Hydroelectric plants	30 to 103 years
Thermal plants	12 to 72 years
Transmission	20 to 65 years
Distribution	12 to 55 years
Buildings	20 to 55 years
Transportation	9 to 31 years
Other equipment	5 to 20 years

Depreciation commences when an asset is available for use. The estimated useful lives of the assets are based upon depreciation studies conducted periodically by the Corporation and any changes in the estimated useful life are accounted for prospectively.

Major overhaul costs are capitalized and depreciated on a straight-line basis over the period of the expected useful life (until the next major overhaul) which varies from 2 to 10 years. Repairs and maintenance costs of property plant and equipment are expensed as incurred unless they meet the criteria of a betterment.

h) Intangible assets

Intangible assets are carried at cost less accumulated amortization and any asset impairment charges. Cost includes the direct costs of acquisition and materials, direct labour, and, if applicable, an allocation of directly attributable overhead costs and AFUDC. Amortization is recognized in net income on a straight-line basis over the estimated useful lives as follows:

3 years

Software	5 years
Deferred service costs	12 years
Financial software	10 years
Licensing costs	2
Hydro generation	17 to 25 years

Diesel generation

27

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

The water license for the Aishihik generating station received a 3 year extension. Costs associated with the 3 year extension are being amortized over 3 years (see Note 23).

i) Leases

At inception of a contract, the Corporation assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset, the Corporation assesses whether:

- (i) The contract involves the use of an identified asset;
- (ii) The Corporation has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use; and
- (iii) The Corporation has the right to direct the use of the asset.

At inception, the Corporation allocates the consideration in the contract to each lease component on the basis of the relative stand-alone prices.

The Corporation recognizes a right-of-use asset and a lease liability at the lease commencement date.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any incentives received. The Corporation elected to exclude short-term leases with a term of twelve months or less as well as leases of low value assets, and accounts for the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Right-of-use assets are tested for impairment in accordance with IAS 36, *Impairment of Assets*, and impairments are recorded in net income.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Corporation's incremental borrowing rate. Generally, the Corporation uses its incremental borrowing rate as the discount rate. Subsequent to recognition, the lease liability is measured at amortized cost using the effective interest rate method. A lease liability is remeasured when there is a change in future lease payments arising mainly from a change in an index or rate, or if the Corporation changes its assessment of whether it will exercise a renewal or termination option. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use assets has been reduced to zero.

j) Impairment of non-financial assets

Property, plant and equipment, and intangible assets with finite lives are reviewed for impairment on an annual basis if there is an indication that the carrying amount may not be recoverable. Impairment is assessed at the level of cash-generating units, identified as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets.

When an impairment review is undertaken, the recoverable amount is assessed by reference to the higher of value in use and fair value less costs to sell ("FVLCS").

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

Value in use is the net present value of expected future cash flows of the relevant cash-generating unit in its current condition. The best evidence of FVLCS is the value obtained from an active market or binding sale agreement. Where neither exists, FVLCS is based on the best information available to reflect the amount the Corporation could receive for the cash-generating unit in an arm's length transaction.

This is often estimated using discounted cash flow techniques and where unobservable inputs are material to the measurement of the recoverable amount, the measurement is classified as level 3 in the fair value hierarchy. The cash flow forecasts for FVLCS purposes are based on management's best estimates of expected future revenues and costs, including the future cash costs of production, capital expenditure, closure, restoration and environmental cleanup. For regulatory deferral account debit balances the impairment review focuses on whether the amount is considered collectible based on the expected cash flows from the rates approved by the YUB.

These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period. Changes in these assumptions may alter the results of impairment testing, impairment charges recognized in net income and the resulting carrying amounts of the assets.

k) Rate regulated accounting policies

Regulatory deferral accounts

Regulatory deferral accounts in these consolidated financial statements are accounted for differently than they would be in the absence of rate regulation. The Corporation defers certain costs or revenues as regulatory deferral account debit balances or regulatory deferral account credit balances on the Consolidated Statement of Financial Position and recognizes changes in the regulatory deferral account balances in the net movement in regulatory deferral account balances in the Consolidated Statement of Operations and Other Comprehensive Income. The amounts recognized as regulatory deferral account balances are expected to be recovered or refunded in future rates, based on approvals by the YUB. The recovery or settlement of regulatory deferral account balances through future rates is impacted by demand risk and regulatory risks (e.g. potential future decisions of the YUB which could result in material adjustments to these regulatory deferral account debit balances and regulatory deferral account credit balances as described in Note 1(b)).

i) Regulatory deferral account debit balances

Regulatory deferral account debit balances represent costs which are expected to be recovered from customers in future periods through the rate-setting process. In the absence of rate regulation and the Corporation's adoption of IFRS 14, Regulatory Deferral Accounts, such costs would be expensed as incurred.

ii) Regulatory deferral account credit balances

Regulatory deferral account credit balances represent future reductions or limitations of increases in revenues associated with amounts that are expected to be refunded to customers as a result of the rate-setting process. In the absence of rate regulation and the Corporation's adoption of IFRS 14, such amounts would be recorded in income as performance obligations are met.

Note 11 describes the individual regulatory deferral accounts, the Corporation's related regulatory deferral and amortization policies and describes the related account activity in the relevant periods.

I) Provision for asset retirement obligations

The Corporation has legal obligations related to the closure and restoration of property, plant and equipment, which includes the costs of dismantling, demolition of infrastructure and the removal of residual materials and remediation of the disturbed areas.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

3. Significant accounting policies - continued

Where a reliable estimate of the present value of these obligations can be determined, the total retirement costs are recognized as a provision in the accounting period when the obligation arises. There is also a corresponding increase to property, plant and equipment upon recognition of the obligation.

Management estimates its costs based on feasibility and engineering studies and assessments using current restoration standards and techniques.

m) Provision for environmental liabilities

Environmental liabilities consist of the estimated costs related to the remediation of environmentally contaminated sites. The Corporation will accrue a provision when it has a present obligation as a result of a past event to remediate the contaminated site, it is expected that future economic benefits will be given up to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

If the likelihood of the Corporation's obligation to incur these costs is either not determinable or the amount of the obligation cannot be reliably estimated, the contingency is disclosed in the notes to the consolidated financial statements.

The Corporation reviews its provision for environmental liabilities on an ongoing basis and any changes are recognized in net income for the current period.

n) Contributions in aid of construction

Certain property, plant and equipment additions are made with financial assistance from the Yukon Government or the Government of Canada. These contributions are deferred upon receipt and amortized to income on the same basis as the assets to which they relate.

o) Post-employment benefits and other comprehensive income

The Corporation sponsors an employee defined benefit pension plan for employees joining the Corporation before January 1, 2002. The Corporation also sponsors an executive defined benefit pension plan and supplemental executive retirement plan for a former executive. Benefits provided are calculated based on length of pensionable service, pensionable salary at retirement age and negotiated rates. The Corporation contributes amounts to the pension plans as recommended by an independent actuary.

For the defined benefit pension plans, the cost of pension benefits is actuarially determined using the projected benefits method, prorated on service, and reflects management's best estimates of investment returns, wage and salary increases, and age at retirement. Remeasurements of the net defined benefit liability, including actuarial gains and losses and return on plan assets, are recognized in other comprehensive income ("OCI") and are not reclassified to net income in a subsequent period.

The Corporation's policy is to immediately transfer actuarial gains and losses recognized in OCI to retained earnings. The expected return on plan assets is based on the fair value of these assets.

Employees joining the Corporation after January 1, 2002 are eligible for a defined contribution retirement plan and are not eligible to participate in the defined benefit pension plan. The Corporation has no legal or constructive obligation to pay further contributions with respect to this plan. Contributions are recognized as an expense in the year when employees have rendered service and represents the obligation of the Corporation.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

4. Significant accounting judgements, estimates and assumptions

The preparation of financial statements requires the use of judgement in applying accounting policies and in making critical accounting estimates that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of any contingent assets and liabilities. These judgements and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience, but actual results may differ from the amounts included in the consolidated financial statements. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which estimates are revised and in any future periods affected. Information about such judgements and estimation is contained in the accounting policies and/or the notes to the consolidated financial statements, and the key areas are summarized below. Areas of significant judgements and estimates made by management in preparing these consolidated financial statements include:

Impairment of non-financial assets - Note 3(j)

An evaluation of whether or not an asset is impaired involves consideration of whether indicators of impairment exist. Management continually monitors the Corporation's operations and makes judgements and assessments about conditions and events in order to conclude whether possible impairment exists.

Asset retirement obligations - Notes 3(I) and 24

In determining the present value of the obligation, the Corporation must estimate the amount and timing of the future cash payments and then apply an appropriate risk-free interest rate. Any change to the anticipated amount, timing of future payments or risk-free interest rate can result in a change to the obligation.

Depreciation - Notes 3(g), 7 and 9

Significant components of property, plant and equipment are depreciated over their estimated useful lives. Useful lives are determined based on current facts and past experience and the results of depreciation studies.

While these useful life estimates are reviewed on a regular basis and depreciation calculations are revised accordingly, actual lives may differ from the estimates. As such, assets may continue in use after being fully depreciated, or may be retired or disposed of before being fully depreciated. The latter could result in additional depreciation expense in the period of disposition.

Intangible assets - Notes 3(h) and 10

In determining whether to recognize costs as intangible assets, management makes judgements about when the criteria for recognition are met. Changes to management's judgements would affect the carrying amount of the Corporation's intangible assets and amortization recognition.

Post-employment benefits - Notes 3(o) and 15

The Corporation accrues for its obligations under defined benefit pension plans using actuarial valuation methods and other assumptions to estimate the projected benefit obligation and the associated expense related to the current period. The key assumptions utilized include the long-term rate of inflation, rates of future compensation, liability discount rates and the expected return on plan assets. The Corporation consults with qualified actuaries when setting the assumptions used to estimate benefit obligations. Actual rates could vary significantly from the assumptions and estimates used.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

4. Significant accounting judgements, estimates and assumptions - continued

Revenue - Note 3(a), and Note 18

The Corporation estimates usage not yet billed at year end, which is included in revenues from sales of power. This accrual is based on an assessment of unbilled electricity supplied to customers between the date of the last meter reading and the year end. Management applies judgement to the measurement of the estimated consumption. Significant judgements have also been made in determining the nature of the Corporation's performance obligations, the appropriate process measure and the contract terms to be used in recognizing the related revenue.

Provisions and contingencies - Notes 3(m) and 24

Management is required to make judgements to assess if the criteria for recognition of provisions and contingencies are met, in accordance with IAS 37, *Provisions, Contingent Liabilities and Contingent Assets*.

Key judgements are whether a present obligation exists and the probability of an outflow being required to settle that obligation. Key assumptions in measuring recognized provisions include the timing and amount of future payments and the discount rate applied in measuring the provision.

Where the Corporation is defending certain lawsuits management must make judgements, estimates and assumptions about the final outcome, timing of trial activities and future costs as at the period end date. Management will obtain the advice of its external counsel in determining the likely outcome and estimating the expected obligations associated with these lawsuits; however, the ultimate outcome or settlement costs may differ from management's estimates.

Financial instruments - Notes 3(f) and 26

The Corporation enters into financial instrument arrangements which may require management to make judgements to determine if such arrangements are derivative instruments in their entirety or contain embedded derivatives, in accordance with IFRS 9, *Financial Instruments*. Key judgements are whether certain non-financial items are readily convertible to cash, whether similar contracts are routinely settled net in cash or delivery of the underlying commodity taken and then resold within a short period, and whether the value of a contract changes in response to a change in an underlying rate, price, index or other variable.

Regulatory deferral account balances - Notes 1(b), 3(k) and 11

The Corporation accounts for its regulatory deferral accounts in accordance with IFRS 14 and the decisions of the YUB. As discussed in Note 1(b) the recovery of these balances will be determined by the YUB as part of the regulatory proceeding to approve the GRA. Management is required to make judgements as to the amounts that the YUB will approve the Corporation to collect deferred costs through future rates.

Notes to Consolidated Financial Statements

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

8. Direct financing lease

The Corporation's investments in direct financing leases are summarized as follows:

	 2020	 2019
Direct financing leases Less: current portion	\$ 85	\$ 85 -
	\$ 85	\$ 85

In 2003, the Corporation financed an electric boiler system for the Yukon Hospital Corporation at a cost of \$595,898. The repayment terms on this lease stipulate that one half of the realized energy cost savings resulting from the boiler usage during the year will be repaid against the investment. Interest on this investment is earned at the rate of 7.5% per annum and recognized as interest income.

9. Property, plant and equipment

A reconciliation of the changes in the carrying amount of property, plant and equipment is as follows:

	Generation		eneration Transmission & Distribution			Buildings & Other quipment	Transportation		Co	nstruction Work-in Progress		Total
Cost: At December 31, 2018 Additions Transfers Disposals	\$	303,132 - 2,634 (1,771)	\$	172,682 - 21,225 -	\$	18,276 - 1,592 -	\$	4,887 - 285 -	\$	3,417 29,928 (25,736)	\$	502,394 29,928 - (1,771)

(i) Feasibility studies and infrastructure planning

The Corporation undertakes certain studies to determine the feasibility of a range of projects and infrastructure proposals. While in progress, the costs of these studies are deferred within this account. The Corporation is directed to defer and amortize the costs over terms (between five and ten years) at the discretion of the YUB. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(ii) IFRS planning

These deferred costs are associated with the conversion from previous GAAP to IFRS and are amortized over a term of five years. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

11. Regulatory accounts - continued

(iii) Regulatory costs

These costs are associated with the YUB regulatory proceedings. The costs consist primarily of various rate and project review proceedings but also include resource plans, hearing costs from before 2012 and demand side management costs (consumer energy conservation program). The Corporation is directed to defer and amortize the costs over terms at the discretion of the YUB. In February 2021, the Corporation lost an appeal relating to a decision by the YUB denying certain Demand Side Management costs. As a result, the Corporation wrote off costs with a net book value as at December 31, 2020 of \$1,329,000. The regulatory provision for the year reflects an amount transferred of \$199,000 (2019 - \$883,000) to the regulatory deferral account credit balance class Hearing Reserve (See Note 11(b)(ii)). In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(iv) Vegetation management

Prior to 2017, the Corporation was deferring annual brushing costs in excess of a prescribed maximum annual amount based on a review of prior year brushing costs. In 2017, the Corporation established a vegetation management policy and as a result of expected annual costs, deferral is no longer required.

The Corporation completes a full cycle of all its brushing requirements every 10 years and is amortizing previously deferred costs over a 10 year period. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(v) Dam safety review

The Corporation has a program of conducting safety reviews of its dams in accordance with standards set by the Canadian Dam Association. External consultants are hired every five years with intermittent costs incurred in the interim periods. These costs are being amortized over five years. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(vi) Uninsured losses

Uninsured losses is an account maintained to address uninsured and uninsurable losses as well as the deductible portion of insured losses. The account is maintained through an annual provision and collected through customer rates. There is an annual regulatory provision of \$267,000 and amortization of the 2016 accumulated balance of \$1,059,000 over five years (\$212,000 per year). Costs incurred during 2020 of \$4,764,000 include \$3,631,000 of costs due to repairs required at the WH1 and WH2 penstocks. The Corporation expects to recover a significant portion of these costs in 2021 from insurance proceeds (see Note 19). In the absence of rate regulation, IFRS requires these costs to be expensed as incurred and the expected insurance proceeds recognized as revenue.

(vii) Deferred overhauls

YUB Order 2013-01 restricted inclusion of property, plant and equipment overhaul depreciation expense in rates charged to customers until the Corporation comes before the YUB for a prudence review. As such, starting in 2013 the Corporation deferred depreciation expense related to overhauls. In 2017, the Corporation came before the YUB for a prudence review and began to recognize these deferred depreciation amounts. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(viii) Fuel price adjustment

OIC 1995/90 directs the YUB to permit the Corporation to adjust electricity rates to reflect the fluctuations in the price of diesel fuel. The amount by which actual fuel prices vary from the long-term average prices is deferred and recovered from or refunded to customers in a future period. In 2017 the Corporation updated the long-term average cost to better reflect current market conditions.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

11. Regulatory accounts - continued

As part of the 2017-18 GRA, the balance as at June 30, 2019 of \$3,940,000 was transferred to the regulatory deferral account debit balance class 2017/18 GRA (See Note 11(a)(ix)). For all of 2019 Rider F was a refund of 0.011 cents per kWh. For the period January 1, 2020 through October 31, 2020 Rider F was a charge to customers of 0.970 cents per kWh. Effective November 1, 2020, the charge increased to 1.371 cents per kWh. In the absence of rate regulation, IFRS requires these costs to be expensed as incurred and revenues be recognized as earned.

(ix) 2017/18 GRA

The Corporation recognizes a regulatory deferral account debit balance when the Corporation has the right, as a result of the actual or expected actions of the rate regulator, to increase rates in future periods in order to recover its allowable costs plus return on rate base, as described in Note 1(b). The amount recognized represents the amount approved by the YUB in November 2019, less amounts received from customers during the year. The ending balance at December 31 comprises the Corporation's remaining revenue shortfall and the amount transferred from the regulatory deferral account debit balance class Fuel Price Adjustment in 2019 (see Note 11(a)(viii)) to be collected from customers in future years.

(x) Deferred gains and losses

Deferred gains and losses represent amounts from disposals of property, plant and equipment that have or will be submitted for approval by the YUB to be deferred. There are no deferred gains or losses during any of the reporting years.

b) Regulatory deferral account credit balances

December 31, 2019	\$	(253)	\$	(828)	\$	(5.031)	\$	(1.173)	\$	471	•	(6,814)

(i) Deferred insurance proceeds

The deferred insurance proceeds represents a gain on fire insurance proceeds related to a fire at the Whitehorse Rapids Generating Station in 1997 which is being amortized to income at the same rate as depreciation of the related replacement assets. In the absence of rate regulation, IFRS requires the gain to have been fully recognized as income in the year received.

(ii) Hearing reserve

The Corporation has established a deferral account for future regulatory hearing costs. In 2017 the Corporation adjusted the annual provision and recognition of the accumulated balance to more accurately reflect expected hearing costs. The regulatory provision for the year reflects an annual provision of \$250,000 less \$199,000 (2019 - \$883,000) of costs transferred from the regulatory deferral account debit balance class Regulatory Costs (See Note 11(a)(iii)). In the absence of rate regulation, IFRS requires these costs to be expensed as incurred.

(iii) Low Water Reserve Fund

The Low Water Reserve Fund ("LWRF") was established by YUB Order 2018-10. The LWRF is used to protect the Corporation and ratepayers for costs associated with variability in thermal generation required when there is a thermal cost variance due solely to water-related hydro generation variances from YUB approved GRA forecasts. YUB Order 2019-08 amended how the LWRF is calculated.

The LWRF attracts interest based upon short/intermediate term bond rates. Any negative balance attracts interest at the lowest short-term bond rates available to the Corporation through its line of credit. The Corporation is required to file quarterly reports with the YUB on the LWRF's activity.

In accordance with YUB Order 2015-01, the Corporation defers recognition of the additional amounts collected from rate payers when the cost of thermal consumed in the period is less than the long-term average thermal requirements estimated for the actual annual generation load. These deferred amounts are recognized as revenue in the period when the cost of thermal incurred for the period is greater than the long-term average thermal requirements and the reason for the shortfall is a shortage of water in the hydro system. The YUB has set a cap rate of +/- \$8 million for the LWRF. If the balance falls outside of this range, the Corporation is to make an application to the YUB requesting recovery or a refund to customers. In accordance with YUB Order 2015-06, the Corporation is providing a refund to the customers of 0.68 cents/kWh effective September 1, 2015. YUB Order 2019-02 set the refund rider to 0.00 cents/kWh effective April 1, 2019.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

11. Regulatory accounts - continued

In the absence of rate regulation, IFRS requires any amounts earned or incurred related to the LWRF to be included in the Corporation's net income in the year incurred.

(iv) Future removal and site restoration costs

The Corporation maintains a regulatory provision for future removal and site restoration costs related to property, plant and equipment, which is incremental to that required to be recognized as an asset retirement provision under IAS 37. The reserve has been established through amortization rates based upon depreciation studies conducted periodically by the Corporation. As a result of the YUB Order 2005-12, effective January 1, 2005, the provision is not to exceed the cumulative value of the provision at December 31, 2004 of \$5,757,000.

Costs of dismantling capital assets, including site remediation, will be applied to this regulatory deferral account credit balance if they do not otherwise relate to an asset retirement provision. The period over which the provision will be reduced is dependent on the timing of future costs of demolishing, dismantling, tearing down, site restoration or otherwise disposing of the asset net of actual recoveries, and is therefore indeterminate. In the absence of rate regulation, IFRS requires these costs to be expensed or included in the gain or loss on disposal of the related property, plant and equipment, as applicable.

(v) Contracts with customers

Effective January 1, 2018 the Corporation adopted IFRS 15, *Revenue from Contracts with Customers*. As a result of the impacts of IFRS 15, certain revenues are recognized in net income over a shorter period than allowed by the YUB for rate-setting purposes. The timing difference is reflected as a regulatory deferral account credit balance.

(c) Regulatory account expenses

Regulatory account expenses represent costs incurred related to regulatory account debit balances of \$10,645,000 (2019 - \$3,102,000) and regulatory account credit balances of \$677,000 (2019 - \$5,211,000).

(d) Net movement in regulatory deferral account balances related to net income

Net movement in regulatory deferral account balances related to net income is \$(3,326,000) (2019 - \$11,014,000) and represents the adjustment to net income for the year before net movement in regulatory deferral account balances for the effects of rate regulation in accordance with IFRS 14. The net movement figure is comprised of a decrease of \$4,375,000 for regulatory account debit balances and a decrease of \$1,049,000 for regulatory account credit balances for rate regulation compared to the amounts that would be recorded under IFRS absent rate regulatory account debit balances and a decrease of \$6,814,000 for regulatory account credit balances for rate regulation compared to the amounts that would be recorded under IFRS absent rate regulation.

12. Bank indebtedness

The line of credit accrues interest on withdrawals at prime rate minus 0.75% per annum. Refer to the interest rate risk section within Note 26.

14. Long-term debt - continued

(i) Bond

The Corporation issued a bond in 2010 for the face value of \$100 million. The interest rate is 5% and the bond matures June 29, 2040. There are no principal payments due until the bond matures and interest is payable semi-annually. The bond was issued at a discount of \$0.7 million which is being amortized over the period of the related debt using the effective interest rate. Transaction costs were \$1.2 million and includes fees paid to agents and advisors and are presented as a reduction from the carrying value of the related debt and are amortized over the period of the related debt using the effective interest rate.

(ii) Toronto Dominion Bank Loan and Interest Rate Swap

On December 28, 2012, the Corporation entered into a loan and interest rate swap with Toronto Dominion Bank to arrange financing for the purpose of continuing to develop the electrical infrastructure in the Yukon. On September 11, 2020, the Joan and interest rate swap was amended. The amendment changed the interest rate from 2.69% to 2.06% and the termination date from December 28, 2022 to September 28, 2035.

(iii) Toronto Dominion Bank Loan and Interest Rate Swap

On August 23, 2018, the Corporation entered into a loan and interest rate swap with Toronto Dominion Bank to arrange financing for the purpose of continuing to develop the electrical infrastructure in the Yukon. On September 11, 2020, the loan and interest rate swap was amended. The amendment changed the interest rate from 3.67% to 3.40% and the termination date from August 23, 2038 to August 23, 2043.

(iv) Toronto Dominion Bank Loan and Interest Rate Swap

On July 15, 2019, the Corporation entered into a loan and interest rate swap with Toronto Dominion Bank to arrange financing for the purpose of continuing to develop the electrical infrastructure in the Yukon. On September 11, 2020, the loan and interest rate swap was amended. The amendment changed the interest rate from 2.90% to 2.64% and the termination date from July 14, 2039 to July 14, 2044.

(v) Toronto Dominion Bank Loan and Interest Rate Swap

On November 4, 2020, the Corporation entered into a loan and interest rate swap with Toronto Dominion Bank to arrange financing for the purpose of continuing to develop the electrical infrastructure in the Yukon. The interest rate swap matures November 4, 2045.

Long-term debt repayment

Scheduled repayments for all long-term debt are as follows:

2021	\$ 3,608
2022	3,654
2023	3,695
2024	3,737
2025	3,781
Thereafter	186,314

\$ 204,789

The change in long-term debt arising from financing activities during the year related to principal repayment of \$3,362,000 and the issuance of additional debt in the amount of \$4,800,000.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

14. Long-term debt - continued

Fair value

The fair value of long-term debt at December 31, 2020 is \$257 million (December 31, 2019 - \$231 million). The fair value for all long-term debt including current portions was estimated using discounted cash flows based on an estimate of the Corporation's current borrowing rate for similar borrowing arrangements.

15. Post-employment benefits

Characteristics of benefit plans

The Corporation sponsors an employee defined benefit pension plan for employees joining the Corporation before January 1, 2002. The Corporation also sponsors an executive defined benefit pension plan and supplemental executive retirement plan for a former executive. Benefits provided are calculated based on length of pensionable service, pensionable salary at retirement age and negotiated rates.

Employees joining the Corporation after January 1, 2002 are not eligible to participate in the employee defined benefit pension plan.

The Corporation makes contributions to a Registered Retirement Savings Plan ("RRSP") on behalf of these employees and employees hired before January 1, 2002 who belonged to the employee defined benefit pension plan and elected to opt out of that plan. The RRSP is a defined contribution retirement plan. The costs recognized for the period are equal to the Corporation's contribution to the plan. During 2020, these were \$510,000 (2019 - \$418,000).

The defined benefit pension plan for employees is regulated by the Office of the Superintendent of Financial Institutions ("OSFI") through the *Pension Benefits Standards Act* and regulations. This Act and accompanying regulations impose, among other things, minimum funding requirements. The executive defined benefit pension plan and supplemental executive retirement plan are not registered with OSFI and are not subject to minimum funding requirements of the Act.

These minimum funding requirements require the Corporation to make special payments as prescribed by the OSFI to repay any unfunded liability or deficit that may exist. For the employee defined benefit pension plan the Corporation is currently required to pay \$259,300 for 2021. This amount may change in future years and may be summarized as follows:

Start Date	Minimum Annual Payment	End Date
January 1, 2013	\$38,000	December 31, 2027
January 1, 2014	\$49,300	December 31, 2028
January 1, 2018	\$61,000	December 31, 2032
January 1, 2019	\$36,000	December 31, 2033
January 1, 2020	\$75,000	December 31, 2034

A committee of the Utility's Board of Directors oversees these plans and is responsible for the investment policy with regard to the assets of these funds.

Risks associated with defined benefit plans

The defined benefit pension plans expose the Corporation to risk such as investment risk and actuarial risk. Investment risk is the risk that the assets invested will be insufficient to meet expected benefits. Actuarial risk is the risk that benefits paid will be more than expected. There are no particular unusual, entity-specific or plan specific risks or any significant concentration of risk.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

15. Post-employment benefits - continued

Distribution of plan assets of defined benefit pension plans:

The fair values of the defined benefit pension plans' assets are based on market values as reported by the plans' custodians as at each applicable Consolidated Statement of Financial Position date.

The distribution of assets by major asset class is as follows:

Equities Fixed income securities Real estate	<u>December 31, 20</u> 20 51.9% 39.0% 9.1%	<u>December 31, 201</u> 9 50.9% 39.1% 10.0%
Significant assumptions:		
Discount rate - accrued benefit obligation Assumed rate of salary escalation	<u>December 31, 20</u> 20 2.50% 2.80%	<u>December 31, 201</u> 9 3.10% 2.80%
Pension growth	2.00%	2.00%

Sensitivity Analysis:

The sensitivities of key assumptions used in measuring accrued benefit obligations at each Consolidated Statement of Financial Position date have been calculated independently of changes in other key assumptions. Actual experience may result in changes in a number of assumptions simultaneously. The sensitivity analysis has been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period. The mortality assumptions are based on the 2014 Canadian Pensioner Mortality Private Table projected with full generational mortality improvements using scale MI-2017.

Assumptions and sensitivity to the recognized post-employment benefits liability balance at December 31, 2020						
Assumption	+1%	-1%	+1%	-1%		
Discount rate	-14%	18%	\$(4,428)	\$5,622		
Salary growth	1%	-1%	231	(220)		
Pension growth	16%	-13%	4,878	(3,449)		
Life expectancy (1 year movement)	3%	-3%	940	(944)		
Assumptions and sensitivity to the recognized post-er	mployment benefit	s liability baland	ce at December :	31, 2019		
Assumption	+1%	-1%	+1%	-1%		
Discount rate	-14%	18%	\$(3,918)	\$4,966		
Salary growth	1%	-1%	278	(265)		
Pension growth	16%	-13%	4,200	(3,442)		
Life expectancy (1 year movement)	3%	-3%	770	(777)		

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

15. Post-employment benefits - continued

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same that is applied in calculating the defined benefit obligation liability recognized in the Consolidated Statement of Financial Position.

The Corporation pays the balance of the cost of the employee benefit plan over the employee contributions, as determined by the actuary. Members are required to contribute 3.5% of earnings up to the Year's Maximum Pensionable Earnings ("YMPE") plus 5% of earnings above the YMPE. Permanent part-time members will have required contributions as above multiplied by their permanent part-time service ratio. Employees can make additional contributions to purchase ancillary benefits. Members choose the ancillary benefit on termination of service or on retirement.

The average duration of the benefit obligation is 16.3 years (2019 - 16.0 years). The Corporation expects to make payments of \$766,800 (2019 - \$718,600) to the defined benefit pension plans during the next financial year.

16. Contributions in aid of construction

		vernment f Canada	1000	Yukon vernment ince 1998		re - 1998 ributions	Total

At December 31, 2019 Additions Revenue recognized in Sales of Power	\$	17,886 1,071 (1,612)	\$	2,769 30 -	\$	20,655 1,101 (1,612)
At December 31, 2020	\$	-17,345	\$	2,799	\$	20,144

Customer contributions represent monies paid or assets contributed by customers for connection to the grid. The contributions are recognized into revenue when the performance obligation is satisfied. During the year, there were no assets contributed by customers. During 2019, there were assets contributed by customers of \$10,345,000 as part of a power purchase agreement.

The decommissioning fund represents monies paid in advance by an industrial customer to decommission the spur line that connects its operation to the Corporation's grid. Under a power purchase agreement, the customer has the financial responsibility for decommissioning activities to be performed by the Corporation on its behalf. Any amounts not required for decommissioning will be refunded to the customer. This money accrues interest at the rate equal to the three month Canadian Dealer Offered Rate ("CDOR"). This amount will be recognized to revenue when uncertainty associated with its recognition is satisfied.

18. Sales of power

	\$ 70,625	\$ 50,206

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

19. Other revenue

During penstock inspections, deformation was noticed in WH1 and WH2 penstocks and major repairs were required before the units could be put back into service. The repairs of WH1 were completed in 2020 but the repairs of WH2 continued in 2021. The Corporation incurred \$3,631,000 of costs in 2020 due to repairs required at the penstocks (see Note 11(a)(vi)). The Corporation has accrued a receivable included in Other revenue for \$3,531,000, equal to the costs incurred less the deductible.

20. Operations and maintenance expenses

	2020	2019

Travel	111	224
	\$ 13,076	\$ 12,482

22. Related party transactions

The Corporation is related in terms of common ownership to all Yukon Government departments, agencies and Territorial Corporations. Transactions are entered into in the normal course of operations with these entities. All sales of power transactions are recorded at the rates approved by the YUB.

The finance lease with the Yukon Hospital Corporation is disclosed in Note 8.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

22. Related party transactions - continued

The following table summarizes the Corporation's related party transactions with the Yukon Government for the year:

	2020	2019
Revenues		
Contributions for Interim Electrical Rebate program	\$ 3,418	\$ 3,454
Contributions for bond interest expense	2,625	 2,625
Contributions for Innovative Energy Renewable Initiatives	1,296	1,376

At the end of the year, the amounts receivable from and due to the Yukon Government are as follows:

-	2020	2019
Balances		
Long-term debt	\$ 37,200	\$ 38,200
Accounts receivable	\$ 15,496	\$ 348
Accounts payable	\$ 660	\$ 512

Included in accounts receivable is an amount of \$12,695,000 for capital projects funded by YG and the federal government (2019 - \$0) as well as an amount of \$2,443,000 related to the Interim Electrical Rebate (2019 - \$0). These balances are non-interest bearing and payable on demand except for long-term debt.

Transactions with Key Management Personnel

The Corporation's key management personnel comprise of members of senior management and the Board of Directors, a total of 26 individuals (2019 - 27 individuals). Key management personnel compensation is as follows:

Year ended December 31,	2020	2019
Short-term employee benefits Post-employment benefits	\$ 1,795 198	\$ 1,539 161
	\$ 1.993	\$ 1.700

23. Commitments

Aishihik water licence

The Yukon Water Board issued a water use licence in 2002, valid until December 31, 2019, for the Corporation's Aishihik Lake facility. In addition to maintaining a minimum and maximum water level, this licence commits the Corporation to meet a number of future requirements including annual fish monitoring programs.

Due to outstanding issues with affected stakeholders, the Corporation was unable to secure a long term renewal of the licence prior to expiry. During 2019, a two month extension was granted and then, in order to ensure continued generation from this plant, the Corporation made application for a short term (three year) renewal to the existing licence. This application was approved and a renewed licence was granted by the YWB effective March 1, 2020. This short term licence includes additional monitoring and potential operational adjustments, the cost of which will be charged to the fiscal year in which they occur.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

23. Commitments - continued

The Corporation continues to work with affected parties with the objective of a longer term licence agreement prior to the expiry of the extension. Fish monitoring programs are also required under an authorization provided by the federal government Department of Fisheries and Oceans, which is valid until December 31, 2022.

Contractual obligations

The Corporation has entered into contracts to purchase products or services for which the liability has not been incurred as at December 31, 2020 as the product or service had not been provided. The total commitments at year end are \$30,930,000 (December 31, 2019 - \$8,892,000).

24. Contingencies

Aishihik Third Turbine Project

This project was commissioned into service in December 2011. On March 2, 2012, the general contractor filed a claim with the Supreme Court of Yukon for \$4,000,000 plus interest and costs alleging the Utility has not paid for work performed. During 2017, the Yukon Supreme Court issued an award in favor of the contractor. The Utility successfully appealed the award in 2018. A re-trial was held in April 2020; the decision of the judge was received on February 1, 2021. The trial resulted in a net award in favour of the Utility in the amount of \$443,000. The Utility's claims for cost and interest are still to be adjudicated.

Asset retirement obligations

The Corporation has not recognized a provision for the closure and restoration obligations for certain generation, transmission and distribution assets which the Corporation anticipates maintaining and operating for an indefinite period, making the date of retirements of these assets indeterminate. These significant uncertainties around the timing of any potential future cash outflows are such that a reliable estimate of the liability is not possible at this time. A provision will be recognized when the timing of the retirement of these assets can be reasonably estimated.

25. Provision for environmental liabilities

The Corporation's activities are subject to various federal and territorial laws and regulations governing the protection of the environment or to minimize any adverse impact thereon. The Corporation conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations.

The Corporation has conducted environmental site assessments at all its diesel plant sites. No new environmental contamination was found. As at December 31, 2020 no new provisions for environmental liabilities, for which a legal obligation exists to remediate, have been identified by the Corporation. The Corporation has its Environmental Management System to monitor and assess previous and potential existing environmental liabilities on an ongoing basis. The Corporation does not have a provision for environmental liabilities as there is no present obligation to remediate.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

26. Risk management and financial instruments

At December 31, 2020, the Corporation's financial instruments included cash, accounts receivable, finance lease receivables, accounts payable and accrued liabilities, long-term debt and interest rate swaps. The fair values of cash, accounts receivable, finance lease receivables, and accounts payable and accrued liabilities approximate their carrying values due to the immediate or short-term maturity of these financial instruments.

Interest rate swaps are financial contracts that derive their value from changes in an underlying variable. The fair value of the interest rate swaps is estimated using standard market valuation techniques and is provided to the Corporation by the financial institution that is the counterparty to the transactions.

Interest rate risk

Interest rate risk is the risk that future cash flows or fair value of a financial instrument will fluctuate due to changes in market interest rates. The Corporation's future-cash flows are not exposed to significant interest rate risk due to its long-term debt having fixed interest rates, with the exception of the Bankers' Acceptances from the Toronto Dominion Bank. The Bankers' Acceptances have had the variable rate converted to a fixed rate using an interest rate swap to eliminate the interest rate risk.

As at December 31, 2020, the Corporation had four (2019 - three) interest rate swap agreements in place. The three agreements from 2019 were amended on September 11, 2020 (see Note 14). The first agreement has a notional principal amount of \$8.2 million (2019 - \$8.6 million) and the agreement effectively changes the Corporation's interest rate exposure on this notional amount from a floating rate to a fixed rate of 2.06% (2019 - 2.69%). The second agreement has a notional principal amount of \$22.2 million (2019 - \$22.8 million) and the agreement effectively changes the Corporation's interest rate exposure on this notional amount from a floating rate to a fixed rate of 3.40% (2019 - 3.67%). The third agreement has a notional principal amount of \$6.5 million (2019 - \$6.7 million) and the agreement effectively changes the Corporation's interest rate exposure on this notional amount from a floating rate to a fixed rate of 2.64% (2019 - 2.90%). The fourth agreement has a notional principal amount of \$4.8 million (2019 - \$0) and the agreement effectively changes the Corporation's interest rate exposure on this notional amount from a floating rate to a fixed rate of 2.06% (2019 - 0%).

The fair value of the interest rate swap agreements on December 31, 2020 was a liability of \$5,050,000 (2019 - liability of \$1,930,000). The decrease in the fair value in 2020 of \$3,120,000 (2019 - \$888,000) is recognized on the Consolidated Statement of Operations and Other Comprehensive Income as an unrealized loss. A 100 basis point increase/decrease in the interest rate assumption would have resulted in an increase/decrease in the interest rate swap agreements fair value of \$4,710,000 (2019 - \$3,534,000).

The Corporation has access to \$17.5 million in lines of credit. Effective June 6, 2019, the line of credit was increased temporarily to \$34.0 million. Effective May 31, 2020, the line of credit was increased temporarily to \$43.5 million. Effective April 22, 2021, the line of credit was increased temporarily to \$50.5 million. The temporary increase expires June 30, 2022. The account accrues interest on withdrawals at prime rate minus 0.75% (2019 - 0.75%) per annum. By agreement the financial institution has a legally enforceable right to set off the outstanding balance under the lines of credit by cash balances in other accounts with the same bank. The amount outstanding on the line of credit balance at year end was \$34.7 million (2019 - \$22.5 million). The Corporation has cash balances with the same financial institution with legal right of offset of \$3.1 million (2019 - \$2.9 million). Due to the short-term nature of the amount drawn on the lines of credit and the Corporation's cash balances with the same financial institution the interest rate risk is minimal.

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

26. Risk management and financial instruments - continued

Credit risk

Credit risk is the risk of failure of a debtor or counterparty to honour its contractual obligations resulting in financial loss to the Corporation.

The following table illustrates the maximum credit exposure to the Corporation if all counterparties defaulted:

	2020	2019
Cash	\$ 5,964	\$ 9,085
Accounts receivable	30,127	10,452
Finance lease receivables	85	85
Adams organi	per Where passings on the	
	\$ 36,176	\$ 19,622

Credit risk on cash is considered minimal as the Corporation's cash deposits are held by a Canadian Schedule 1 Chartered bank.

Credit risk on accounts receivable is considered minimal as the Corporation has experienced insignificant bad debt in prior years. In addition, its primary customer is a rate regulated utility that purchases power from the Corporation for resale and as such these receivables are considered fully collectible. Included in the accounts receivable past due but not impaired at December 31, 2020 are \$7,837,000 (2019 - \$1,680,000) which management believes will be received in full.

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they fall due. The Corporation manages liquidity risk through regular monitoring of cash and currency requirements by preparing cash flow forecasts to identify financing requirements. The Corporation's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Corporation's reputation. Rate regulation assists the Corporation with liquidity management by providing consistent revenues and a consistent debt to equity ratio.

Fair values

The following table illustrates the fair value hierarchy of the Corporation's financial instruments as at December 31, 2020:

	Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Derivative related liability	- '	\$5,050	-	\$5,050
Long-term debt	-	-	\$256,657	\$256,657

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

26. Risk management and financial instruments - continued

The following table illustrates the fair value hierarchy of the Corporation's financial instruments as at December 31, 2019:

	Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Derivative related liability	-	\$1,930	-	\$ 1,9 <mark>3</mark> 0
Long-term debt	-	-	\$230,876	\$230,876

27. Capital management

The Utility's capital is its shareholder's equity which is comprised of share capital, contributed surplus and retained earnings. The Utility manages its equity by managing revenues, expenses, assets and liabilities to ensure the Utility effectively achieves its objectives while remaining a going concern.

The Utility maintains a balance in retained earnings as an indicator of the Utility's equity position. The Utility has a policy which defines its capital structure at a ratio of 60% debt and 40% equity. This policy has been reviewed and accepted by the YUB.

The Utility monitors its capital on the basis of the ratio of total debt to total capitalization. Debt is calculated as total borrowings, which is comprised of long-term debt, including the portion of long-term debt due within one year, as well as the decommissioning fund (Note 17). Short-term debt related to assets under construction at the Statement of Financial Position date is excluded from the calculation of total debt, as the assets are similarly excluded from the determination of rate base.

Total capitalization is calculated as total debt plus total shareholder's equity as shown on the Utility's Statement of Financial Position.

The table below summarizes the Utility's total debt to total capitalization position:

	2020	2019
Long-term debt due within one year	\$ 6,280	\$ 6,054
Long-term debt	166,056	163,602
Total debt	172,336	169,656
Add decommissioning fund (note 17)	2,799	2,769
Total debt to include in the calculation	\$ 175,135	\$ 172,425

Notes to Consolidated Financial Statements

December 31, 2020 (tabular amounts in thousands of Canadian dollars)

27. Capital management - continued

		2020		2019
Share capital Contributed surplus Retained earnings	\$	39,000 15,968 64,249	\$	39,000 14,600 65,596
Total shareholder's equity		119,217		119,196
Total capitalization	. \$	294,352	\$	291,621
Total debt to total capitalization		59 %	er-	59 %

There were no changes in the Utility's approach to capital management during the period.

28. Subsequent events

In February 2021, the Yukon Government issued OIC 2021-16 '2021 Direction to Amend the Rate Policy Directive (1995)' which will impact the Low Water Reserve Fund (see Note 11(b)(iii)). The directive applies to filings on or after November 1, 2020 and for which no order was issued by the YUB. The directive removes the generation load cap the YUB instituted as part of the 2017-18 GRA. As part of the requirements of the 2021 General Rate Application, the Corporation has filed its 2019 and 2020 Low Water Reserve Fund Annual filings with the YUB in April 2021. The Corporation will adjust the LWRF prospectively based on results of this filing.

29. Non-consolidated financial information

The nature and size of operations of the non-consolidated Yukon Development Corporation and its wholly-owned subsidiary, Yukon Energy Corporation differ substantially. Unaudited non-consolidated financial statements of the Yukon Development Corporation and audited financial statements of Yukon Energy Corporation for the year ended December 31, 2020 are also prepared.

Yukon Hospital Corporation

Management Responsibility Statement

The accompanying consolidated financial statements of the Yukon Hospital Corporation are the responsibility of management and have been approved by the Executive Committee of the Board of Trustees.

These consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. The consolidated financial statements include some amounts, such as the determination of amounts related to the estimated useful lives of capital assets, the defined benefit pension plan obligation, the calculation of allowance for doubtful accounts and the liabilities for accrued severance, retirement and sick leave benefits, that are necessarily based on management's best estimates and judgement. Management has determined such amounts on a reasonable basis.

Management maintains a system of internal accounting and administrative controls designed to provide reasonable assurance as to the reliability of financial information and the safeguarding of assets.

The Board of Trustees of the Corporation is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls. The Board exercises this responsibility for financial reporting through the delegation of the approval of the consolidated financial statements by the Executive Committee consisting of three non-management members. The Executive Committee meets regularly with management and with the external auditors to review the scope, results of the annual audit, and to review and approve the consolidated financial statements and related financial reporting matters.

These consolidated financial statements have been independently audited in accordance with Canadian generally accepted auditing standards by the Auditor General of Canada, and her report is included with these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the Yukon Hospital Corporation

Opinion

We have audited the consolidated financial statements of the Yukon Hospital Corporation and its subsidiary (the Group), which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of operations, consolidated statement of changes in net assets and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2021, and the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these consolidated financial statements.

March 31, 2021 (in thousands of dollars)

1. Purpose

- a) The Yukon Hospital Corporation ("Corporation") is a charitable organization established under the *Hospital Act* of the Yukon. The Corporation operates hospitals in Whitehorse, Watson Lake and Dawson City. The objectives of the Corporation are to provide hospital and medical services to meet the needs of people in the Yukon. The Corporation is a registered charity and accordingly is exempt from income taxes, provided certain requirements of the Federal *Income Tax Act* are met. The Corporation has historically been dependent on the Government of Yukon to maintain its operations and meet its liabilities. It is expected that the ongoing operations of the Corporation will depend on continued financial support from the Government of Yukon.
- b) The Yukon Hospital Foundation ("Foundation") is a society incorporated under the Societies Act of the Yukon. The purpose of the Foundation is to promote health of people in the Yukon and to raise money for hospital and medical care and services, supervised residential care and continuing care, and rehabilitative care and services. The Foundation also grants funds and provides equipment, services and facilities to health facilities in the Yukon, and in particular to the Corporation.

2. Significant Accounting Policies

a) Basis of Accounting

The consolidated financial statements have been prepared by management in accordance with Canadian public sector accounting standards. The Corporation has elected to apply the Section 4200 series for government not-for-profit organizations.

b) Basis of Consolidation

The consolidated financial statements include the accounts of the Corporation and its wholly-owned subsidiary, the Foundation. All significant inter-company transactions and balances have been eliminated on consolidation.

c) Cash

This balance includes cash held in Canadian bank accounts including amounts designated for the First Nations Health Program ("FNHP") and externally restricted funds. The FNHP is administered by the Corporation.

d) Inventory

Inventories are comprised of pharmacy, medical and general operating supplies, and are valued at the lower of cost and net realizable value. Inventories are determined on a first-in, first-out basis.

e) Capital Assets

Capital assets are recorded at cost except for contributed capital assets which are recorded at fair market value at the date of contribution. The cost of a capital asset includes the cost to acquire, construct, develop or better the capital asset and includes all costs directly attributable to the acquisition, construction, development or betterment of the capital asset including the cost of installation and overhead costs. Except for land, all capital assets are recorded net of accumulated amortization.

March 31, 2021 (in thousands of dollars)

2. Significant Accounting Policies (continued)

e) Capital Assets (continued)

Interest on loans during construction of capital assets is capitalized. Amortization is calculated by the straight line method over the assets' expected useful lives. Construction in progress costs are capitalized as incurred. They are transferred to various categories of capital assets and are amortized on a basis consistent with similar assets, once the assets are placed in service.

Capital AssetEstimated Useful LifeComputer, hardware & systems development2-10 yearsEquipment & vehicles5-15 yearsBuildings10-40 yearsBuilding improvements10-20 years

When a capital asset no longer has any long-term service potential to the Corporation, the excess of its net carrying amount over any residual value is recognized as an expense in the Consolidated Statement of Operations. Write-downs are not reversed.

8-20 years

f) Revenue Recognition

Land improvements

The Corporation follows the deferral method of accounting for contributions. Externally restricted contributions are recognized as revenue in the year in which the related expenses are recognized. Contributions restricted for the purchase and construction of capital assets are deferred and amortized into revenue at a rate corresponding with the amortization rate for the related capital assets. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Revenue from other provinces and uninsured patients, operational revenue and ancillary services are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Revenue for funded programs is recognized in the period expenses are incurred.

Interest income is recorded on an accrual basis and is recognized as revenue when earned.

g) Inter-entity Transactions

The Corporation is related in terms of common ownership to all Government of Yukon departments, corporations, and agencies. Inter-entity transactions are those occurring between commonly controlled entities.

The Corporation records inter-entity transactions undertaken on similar terms and conditions to those adopted if the entities were dealing at arm's length and inter-entity cost allocation and recovery transactions at the exchange amount.

March 31, 2021 (in thousands of dollars)

2. Significant Accounting Policies (continued)

g) Inter-entity Transactions (continued)

The exchange amount is the amount of consideration given for the item transferred or service provided as established and agreed to by the related parties.

Inter-entity transfers of assets or liabilities for nominal or no consideration are measured at the carrying amount by the Corporation, as transferor, and at the carrying amount or fair value by the Corporation, as transferee. As transferor, any difference between the exchange amount and the carrying amount of the transferred asset or liability results in the recognition of a gain or loss in the Consolidated Statement of Operations.

h) Donated Services

A substantial number of volunteers contribute a significant amount of their time each year. Because of the difficulty of determining the fair value, these donated services are not recognized in the consolidated financial statements.

i) Short-Term Debt

Short-term debt includes embedded interest rate swap derivatives. These embedded derivatives are not separated from the short-term debt agreement and are not accounted for as a standalone derivative instrument as management believes that the economic characteristics and risks associated with these embedded derivatives are closely related to those of the short-term debt agreements. Therefore, they are included in the measurement of the short-term debt.

Short-term debt includes a demand loan with the Government of Yukon. The loan is repayable in full at the end of the term of the loan. Interest compounds on a semi-annual basis and is accrued within accounts payable and accrued liabilities on the Consolidated Statement of Financial Position.

j) Financial Instruments

The Corporation's financial instruments include cash, accounts receivable, contributions receivable, accounts payable and accrued liabilities, accrued payroll and benefits and short and long-term debt. The carrying value of cash, accounts receivable, accounts payable and accrued liabilities, accrued payroll and benefits approximate their fair values due to the short-term nature of these financial assets and liabilities.

The following is a list of the Corporation's financial instruments and their related measurement basis as at March 31, 2021.

Financial Assets	Measurement Basis		
Cash	Cost		
Accounts receivable	Cost		
Contributions receivable	Cost		

Financial Liabilities Accounts payable and accrued liabilities

Measurement Basis
Cost

March 31, 2021 (in thousands of dollars)

2. Significant Accounting Policies (continued)

j) Financial Instruments (continued)

Accrued payroll and benefits
Short-term debt
Long-term debt

Cost Amortized Cost Amortized Cost

As all financial instruments are measured at cost or amortized cost, there have been no re-measurement gains or losses. Therefore, the Consolidated Statement of Remeasurement Gains and Losses has been excluded.

All financial assets are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the Consolidated Statement of Operations.

Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability. Transaction costs are added to the carrying value of the instruments when they are initially recognized.

k) Contingent Liabilities

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is uncertain or cannot be reliably determined.

I) Pensions

Eligible employees of the Corporation participate in the Yukon Hospital Corporation Employees' Pension Plan, a defined benefit plan administered by the Corporation's Board of Trustees. Contributions to the plan are required from both the employees and the Corporation.

In general, pensions are based on 2% of the best five years of continuous service minus any adjustments required by the Canada Pension Plan and provisions under the Special Reciprocal Transfer Agreement. The plan members can accumulate up to 30 years of continuous service. Cost of living increases are provided annually to pensioners, as well as upon retirement for deferred pensions.

The expected return on plan assets is based on the fair value of plan assets at the beginning of each fiscal year. Cumulative unrecognized actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service lifetime ("EARSL") of active employees expected to receive benefits under the plan. Past service credits and costs arising from retroactive plan amendments are recognized in the year of plan amendments.

March 31, 2021 (in thousands of dollars)

2. Significant Accounting Policies (continued)

m) Employee Future Benefits Other Than Pensions

Employees earn specified severances, sick leave and special leave benefits as provided for under union contracts and conditions of employment. The benefits are paid upon resignation, retirement or death of an employee. The expected cost of providing these benefits is recognized as employees render service. The cost of the benefits has been determined based on management's best estimates using expected compensation levels and employee leave credits.

n) Asset Retirement Obligation

Liabilities are recognized for statutory, contractual or legal obligations, associated with the retirement of capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion is included in the Consolidated Statement of Operations.

o) Use of Estimates and Measurement Uncertainty

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards applicable for government not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. By their nature, these estimates and assumptions are subject to measurement uncertainty. Significant areas requiring the use of management estimates relate to the estimated useful lives of capital assets, determination of the defined benefit pension plan obligation, calculation of allowance for doubtful accounts and actuarial gains or losses, and the liabilities for accrued severance, special leave, retirements and sick leave benefits. Financial results as determined by actual events could differ significantly from these estimates especially given the added uncertainties resulting from the COVID-19.

March 31, 2021 (in thousands of dollars)

5. Pension Costs and Obligations

The Corporation sponsors a defined benefit pension plan. The Corporation contributes amounts as prescribed by an independent actuary. Effective January 1, 2015 changes to the pension plan outlined below divides the Corporation's employees into two groups. In calendar 2021, Group 1 members were required to contribute to the plan at a rate of 7.90% (calendar 2020 – 8.10%) of annualized earnings up to the Year's Maximum Pensionable Earnings ("YMPE") plus 9.90% (calendar 2020 – 10.10%) of annualized earnings in excess of YMPE. Group 2 members were required to contribute to the plan at a rate of 6.80% (calendar 2020 – 7.00%) of annualized earnings up to the YMPE plus 8.80% (calendar 2020 – 9.00%) of annualized earnings in excess of YMPE.

A separate pension fund is maintained to hold plan assets. The Corporation has contracted with external organizations to provide trustee and investment management services for the fund. Pension fund assets are invested in balanced pooled funds of the investment manager. The market value of plan assets was \$169,366 as at March 31, 2021 (2020 - \$127,640).

An actuarial valuation for accounting purposes was performed as at March 31, 2021 using the projected benefits method prorated on services. The actuarial valuation included services rendered by members under the Yukon Hospital Corporation Employees' Pension Plan since the inception of the plan in 1993, as well as service credits in respect of pre-1993 service transferred to the Yukon Hospital Corporation Employees' Pension Plan from the Public Service Pension Plan under the Special Reciprocal Transfer Agreement dated June 1995. The next actuarial valuation for accounting purposes will be performed as at March 31, 2022.

The Corporation has made changes to the Yukon Hospital Corporation Employees' Pension Plan to be consistent with changes made to the Public Service Superannuation Plan in January 2013. These changes affect all employees who are employed by the Corporation after January 1, 2015, with exception of the 50/50 cost sharing that will affect all employees enrolled in the pension plan. Changes include an increase to the early retirement age and the age of eligibility for an unreduced pension as well as a gradual change in cost sharing of contributions to the plan.

Increases to the age of eligibility for an unreduced pension

The normal retirement age for all members is age 65. Existing plan members as of December 31, 2014 may retire with an unreduced pension at age 60, or after having completed 30 years of continuous service. Plan members who join the Corporation on or after January 1, 2015, will be able to retire with an unreduced pension at age 65, or after having completed 30 years of continuous service.

Increases to the early retirement age

Existing plan members as of December 31, 2014 may retire as early as age 50 with a reduced pension, if they have two years of continuous employment service. Plan members who join the Corporation on or after January 1, 2015, will be able to retire early with a reduced pension at age 55, if they have two years of continuous employment service.

March 31, 2021 (in thousands of dollars)

5. Pension Costs and Obligations (continued)

Contributions

Historically, the contribution rates for employee and employer contributions were 40% and 60% respectively. Changes to the plan in January 2015 saw a gradual increase of contribution rates to a 50/50 cost-share. This was achieved by January 2019.

The actuarial valuation was based on a number of assumptions about future events, such as inflation rates, interest rates, wage and salary increases, employee turnover and mortality. The assumptions used reflect management's best estimate of these future events. Key assumptions are summarized below:

	2021	2020
Weighted Average Assumptions for Net Period Pension Cost for Fiscal Year		
Discount rate	6.00%	6.00%
Expected long-term rate of return on plan assets	6.00%	6.00%
Rate of compensation increase (exclusive of seniority, merit)	2.50%	2.50%
Expected average remaining service lifetime (EARSL)	8.9	8.9
Inflation rate	2.00%	2.00%
Weighted Average Assumptions for Benefit Obligation at Fiscal Year		
Discount rate	6.00%	6.00%
Rate of compensation increase (exclusive of seniority, merit)	2.50%	2.50%
Expected average remaining service lifetime (EARSL)	8.9	8.9

As at March 31, 2021, pension fund assets are valued at market value. No adjustment is made for benefits payable or contributions receivable.

	2021 \$	2020 \$
Change in Accrued Benefit Obligation		
Accrued benefit obligation, beginning of year	104,494	96,636

Pension benefits cost	5,359	1,299

As at December 31, 2020 the pension plan had a solvency deficit of \$43,308 (December 31, 2019 - \$31,970) if valued on the basis that the pension plan were terminated/wound up as at December 31, 2020. The solvency ratio of the plan is 82% (84% in 2019). In accordance with the *Pension Benefits Standards Act, 1985*, the Corporation is required to make special payments to eliminate the solvency shortfall. The Corporation is permitted to cover up to a specified maximum of 15% of the solvency liability with a conforming letter of credit. As at March 31, 2021 the Corporation has a conforming letter of credit totaling \$27,703 (2020 - \$26,508). The actuary has determined that the special payment shortfall for calendar 2021 is \$6,904 (2020 - \$4,940)

During the year, the Corporation received \$0 (2020 - \$3,063) from the Government of Yukon related to the calendar year 2020 special payment in the form of a loan and the Corporation contributed this amount to the pension plan. This loan from the Government of Yukon is included in short-term debt in the Consolidated Statement of Financial Position (note 8).

7. Contributions Receivable

The Corporation received financing from CIBC for the construction of the Crocus Ridge building, Watson Lake Hospital, and Dawson City Hospital (note 8). The Government of Yukon has committed funds since 2011-12 to repay these loans. As a result, the Corporation has recognized a contribution receivable for the amount committed by the Government of Yukon as outlined in the following tables.

	Commitment	Principal Payment	Total
	\$	\$	\$
March 31, 2021 Crocus Ridge building Watson Lake Hospital Dawson City Hospital	9,201 10,909 9,700	(951) (1,388) (1,200)	8,250 9,521 8,500

8. Short-Term Debt	2021 \$	2020 \$
Demand term installment loan with CIBC with interest calculated at Bankers' Acceptance with stamping fees calculated at 85 bps per annum exchanged for fixed rate by way of interest rate swap fixed at 5.15% per annum for the Watson Lake Hospital construction project. Blended payments of \$160 due monthly beginning on December 30, 2011 with the final payment due on December 31, 2026.	9,521	10,909
Demand term installment loan with CIBC with interest calculated at Bankers' Acceptance with stamping fees calculated at 85 bps per annum exchanged for fixed rate by way of interest rate swap fixed at 4.525% per annum for the Dawson City Hospital construction project. Principal payments of \$100 due monthly beginning on May 1, 2013 with the final payment due on April 1, 2028.	8,500	9,700
Demand term installment loan with CIBC with interest calculated at Bankers' Acceptance with stamping fees calculated at 85 bps per annum exchanged for a fixed rate by way of interest rate swap fixed at 5.23% per annum for the Crocus Ridge construction project. Blended payments of \$117 due monthly beginning December 15, 2010 with the final payment due on March 15, 2028.	8,250	9,201
Demand term loan with Government of Yukon with interest on letter of credit portion at 65 bps. Annual interest rate is prime (3.95%), Term of loan is 15 years, with final payment due on December 11, 2034.	3,063	3,063
	29,334	32,873

Due to the conditions in the loans with CIBC and the Government of Yukon, all debt has been classified as current as CIBC and the Government of Yukon have the ability to call the loans at any time.

O.I.C 2019/121 Financial Administration Act – Health Act, Yukon Hospital Corporation Loan Regulation, was made to allow the Minister responsible for the Department of Health and Social

Services to make a loan of public money in the purpose of assisting the Corporation in meeting the prescribed tests and standards for Solvency required under the Pension Benefits Standards Act, 1985 (Canada). In 2021, the Government of Yukon loaned the Corporation \$0 (2020 –

March 31, 2021 (in thousands of dollars)

8. Short-Term Debt (continued)

\$2,892) to meet the solvency requirement and \$0 (2020 - \$171) for letter of credit interest payments.

Principal Repayment Schedule

Principal repayment on the indebtedness over the next five years and thereafter are as follows:

		\$	
2022 2023 2024 2025 2026 2027 and thereafter	×		3,663 3,794 3,932 4,076 4,229 9,640 9,334
		SEA PROPERTY OF THE PARTY OF TH	

In addition to its repayment schedule, the demand term instalment loans with CIBC require that the Corporation exchange the variable interest payment with a fixed interest payment. Under these agreements, the Corporation exchanged with CIBC \$519 (2020 - \$1,284) of variable interest payments representing an average variable rate of 1.98% (2020 - 4.07%) to a fixed interest payment of \$1,401 (2020 - \$1,577), representing an average fixed rate of 5.33% (2020 - 5.00%). These exchanges were made on a net cash basis.

9. Deferred Revenue

The balance is comprised of \$0 (2020 – \$119) received from the Government of Yukon related to MRI warranty costs, and \$469 (2020 - \$258) of other externally restricted funds.

10. Long-Term Debt

In 2003, Yukon Development Corporation, a common control entity of the Government of Yukon, financed an electric boiler system for the Corporation for a total cost of \$596. The long-term debt bears interest of 7.5% which is payable in an annual installment. The principal is repayable based on 50% of the realized annual energy savings. The long-term debt is secured by a general security agreement on building improvements with a net book value of \$60 (2020 - \$89).

An initial payment on principal of \$200 was made by the Corporation in 2004 and since then \$311 has been repaid from the realized annual energy savings including \$0 repaid in the current year based on realized energy savings of \$0 (2020 - \$0). The final payment of \$85 (2020 - \$85) is due in 2023.

March 31, 2021 (in thousands of dollars)

11. Employee Future Benefits Other Than Pensions

In addition to pension benefits, the Corporation provides severances, sick leave and special leave benefits to its employees. The cost of these benefits accrues either as employees render service or upon the occurrence of an event resulting in eligibility for benefits under the terms of the plan. This benefit plan is not pre-funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation.

	2021 \$	2020 \$
Severance Sick leave Less: short-term portion (included in accrued payroll	2,487 800 (342)	2,262 714 (474)
and benefits)	2,945	2,502

12. Deferred Capital Contributions

Deferred capital contributions represent restricted contributions received or receivable to purchase capital assets. The changes in the deferred capital contributions balance for the year are as follows:

2021 \$	2020 \$
155,890	158,343
11,119	4,677
(105)	(57)
(7,180)	(7,073)
159,724	155,890
	\$ 155,890 11,119 (105) (7,180)

13. Investment in Capital Assets

a) Net assets invested in capital assets is calculated as follows:

	2021 \$	2020 \$
Capital assets (note 6) Amounts financed by deferred capital contributions (net of unexpended externally restricted contributions)	162,858 (159,541)	162,982 (155,397)

Contributed Land

Certain assets in Whitehorse, including land were transferred from the Government of Canada and the Government of Yukon to the control of the Corporation on April 1, 1993 and January 19, 1994. Contributed land also includes land transferred from the Government of Yukon on May 14, 2010 in Watson Lake, in April 2011 in Dawson City, and on May 12, 2011 for the escarpment behind the existing Whitehorse General Hospital.

In fiscal 2012, the Government of Yukon transferred land and building in Dawson City, as well as land behind Whitehorse General Hospital to the Corporation at no cost. The value of this additional land and buildings is \$741. The land and buildings were recorded at fair value.

Contributed Equipment

In fiscal 2021, the Government of Yukon transferred to the Corporation six drug dispensers and six drug cabinets at no cost. These assets were recorded at a fair value of \$746.

In fiscal 2021, in response to the COVID-19 pandemic, the Government of Canada transferred to the Corporation two sterilizers for N95 masks at no cost. These assets were recorded at a fair value of \$240.

14. First Nations Health Program

Under an annual contribution agreement, the Government of Yukon provides funds to the Corporation for the purpose of operating the FNHP at the Whitehorse General Hospital. The FNHP includes a health liaison worker program, child life worker for the pediatric ward, traditional medicine, traditional diet, employment equity and training program, interpretation services and in-service training.

March 31, 2021 (in thousands of dollars)

14. First Nations Health Program (continued)

The FNHP was established in 1993 under the Whitehorse General Hospital Programs and First Nations Health Services and Community Health Transfer Agreement. Core funding was provided by the Government of Yukon. The programs could not all be implemented in the year which the funding was received and as a result a substantial surplus was realized. An agreement between the Government of Yukon and the First Nations Health Committee restricted this surplus to be used for First Nations programming only. The FNHP is outlined in the *Hospital Act*.

The following amounts pertain to the FNHP and have been included in the Consolidated Statement of Operations.

	2021 \$	2020 \$

Other	3,710	3,746
COVID-19 funding	6,533	200
Total Government of Yukon contribution	84,815	76,080

Revenue received from the Government of Yukon for services was \$84,815 for 2021 (2020 - \$76,080). The 2021 contribution includes \$93 (2020 - \$93) flow-through funding provided to the Foundation.

20,	2021 \$	2020 \$
Other government contracts Government Service contracts	967	824
Cost recovery arrangement	1,429	1,392
Total other government contracts	2,396	2,216

In fiscal 2021, the Corporation held various service contracts relating to the provision of food, laundry and housekeeping services with Government of Yukon. The revenue recognized from these agreements is included in Other government contracts in the Consolidated Statement of Operations.

In compliance with the agreement outlined in Appendix H of the 1994 Whitehorse General Hospital Transfer Agreement between the Corporation, the Government of Yukon and the Government of Canada (Appendix H), the Corporation provided goods in the amount of \$1,429 (2020 - \$1,392) to related parties which includes a 15% administration charge on material management supplies purchased in excess of \$80. The Corporation recovered only the cost of goods of \$1,325 (2020 - \$1,319). As this is a cost recovery arrangement, the revenues and cost of sales have been reported on a gross basis.

March 31, 2021 (in thousands of dollars)

16. Related Party Transactions (continued)

Services Without Charge

The Corporation leases space to the Government of Yukon. The leases for the ambulance station, #2 Hospital Road, #4 Hospital Road, and 29,679 square feet of office space located in the Thomson Centre building are at an annual nominal amount of \$1.

Appendix H outlines Whitehorse General Hospital's obligation to provide residual services to Yukon communities at no charge. The total cost of providing these services for 2021 was \$533 (2020 - \$563).

Other Related Party Transactions

In addition to those related party transactions disclosed elsewhere in these consolidated financial statements (notes 5, 7, 8, 9, 10, 12, 13 and 14) the Corporation entered into the following transactions with related entities on similar terms and conditions as entities at arm's length.

As at March 31, 2021 there were \$321 (2020 - \$287) of accounts payable and accrued liabilities and \$6,726 (2020 - \$4,865) of accounts receivable related to the Government of Yukon.

The Government of Yukon and the Corporation entered into an agreement transferring ownership of the Watson Lake Hospital to the Corporation effective April 1, 2010. The Watson Lake Hospital transfer included land, buildings and medical equipment worth \$2,424. The transaction was recorded at fair value. The Corporation agreed that it may transfer part of the old building back to the Government of Yukon at the request of, and subject to any conditions imposed by the Government of Yukon. In addition, the Corporation may be required to grant to the Government of Yukon a lease on such terms as the Government of Yukon may require. No transfers were made back to Government of Yukon in fiscal 2021.

In fiscal 2012 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 22,075 square feet of office space located on the 1st and 2nd floor of the Crocus Ridge building. This lease is recorded at the exchange amount which approximates fair value.

In fiscal 2014 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 2,540 square feet of clinical space located in the Dawson City Hospital. This lease is recorded at the exchange amount which approximates fair value.

In fiscal 2015 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 2,206 square feet of office space located in the Dawson City Hospital. This lease is recorded at the exchange amount which approximates fair value.

March 31, 2021 (in thousands of dollars)

16. Related Party Transactions (continued)

In fiscal 2016 the Corporation (the Lessor) amended a lease from fiscal 2014 with the Government of Yukon (the Lessee) for approximately 2,660 square feet of rentable space to add 2,858 square feet of space in the lower level of the Watson Lake Hospital. This lease is recorded at the exchange amount which approximates fair value.

In fiscal 2019 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 97 square feet of office space located in the Dawson City Hospital. This lease is recorded at the exchange amount which approximates fair value.

In fiscal 2019 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 147 square feet of office space located in the Dawson City Hospital. This lease is recorded at the exchange amount which approximates fair value.

In fiscal 2019 the Corporation (the Lessor) entered into a lease with the Government of Yukon (the Lessee) for approximately 153 square feet of clinical space and approximately 22 square feet of storage space located in the Dawson City Hospital. This lease is recorded at the exchange amount which approximates fair value.

Details of the leases are outlined as follows:

	Annual Lease Payments \$	Term Years
Crocus Ridge 1st and 2nd floor office space	825	10
Dawson City Hospital clinical space	95	15
Dawson City Hospital office space	69	12
Dawson City Hospital office space	5	3

Dawson City Hospital clinical space	7	10
Watson Lake Hospital rentable space	69	15
Watson Lake Hospital space	74	13
	1,147	

March 31, 2021 (in thousands of dollars)

17. Contractual Obligations

The Corporation has contractual commitments whereby the minimum required payments for the next five years and thereafter are as follows:

	\$
2022	7,366
2023	2,000
2024	1,711
2025	551
2026 and thereafter	422
	12,050

Contractual commitments fall under the following major categories; capital projects, medical and other equipment service agreements, software maintenance agreements and professional/service level agreements.

18. Financial Risks

The Corporation has exposure to the following risks from its use of financial instruments: credit risk, liquidity risk and market risk.

The Board of Trustees is responsible for ensuring that the Corporation has identified its major risks and ensures that management monitors and controls them. The Executive Committee oversees the Corporation's systems and practices of internal control, and ensures that these controls contribute to the assessment and mitigation of risk. The Executive Committee reports regularly to the Board of Trustees on its activities. The Corporation has experienced no change in its risk exposure and has not made any changes to its risk management policies and procedures.

a) Credit Risk

Credit risk is the risk of a financial loss to the Corporation if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held by the Corporation consisting of cash, accounts receivables, and contributions receivable.

Cash:

The Corporation's exposure to credit risk associated with cash is assessed as low because the Corporation's cash deposits are held by a Canadian Schedule 1 Chartered bank.

March 31, 2021 (in thousands of dollars)

18. Financial Risks (continued)

Accounts Receivable:

The Corporation's exposure to credit risk associated with accounts receivable is assessed as low because it is due largely from governments.

Allowances for doubtful accounts are provided for potential losses that have been incurred at the reporting date. The amounts disclosed on the Consolidated Statement of Financial Position are net of these allowances for doubtful accounts. All accounts receivable are considered for impairment based on the type of patient revenue and historical repayment information.

The maximum exposure to credit risk for accounts receivable by type of customer is as follows:

	2021 \$	2020 \$
Government of Yukon	6,726	4,865
Consumers Other governments	1,331 453	1,580 540
Other	698	191
	9,208	7,176

The Corporation's accounts receivable has a carrying value of \$9,208 as at March 31, 2021 (2020 - \$7,176). As at March 31, 2021, approximately 31% (2020 - 43%) of accounts receivable were over 90 days past due, whereas 67% (2020 - 50%) were current or less than 30 days past due. The Corporation's allowance for doubtful accounts is \$605 as at March 31, 2021 (2020 - \$412).

Contributions Receivable:

The Corporation's exposure to credit risk associated with contributions receivable is assessed as low because the amount is due from the Government of Yukon.

b) Liquidity Risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they become due. The Corporation's objective is to have sufficient liquidity to meet these liabilities when due. The Corporation monitors its cash balance and cash flows generated from operations to meet its liquidity requirements.

The liquidity risk arises from the financial liabilities consisting of accounts payable and accrued liabilities, accrued payroll and benefits, short-term debt and long-term debt. The Corporation's accounts payable and accrued liabilities had a carrying value of \$9,311 as at March 31, 2021 (2020 - \$10,352). As at March 31, 2021, approximately 1% (2020 - 4%) of accounts payable were over 90 days past due, whereas 68% (2020 - 64%) were current or less than 30 days past due. The Corporation's accrued payroll and benefits has a carrying value of \$6,863 as at March 31, 2021 (2020 - \$6,223) and is payable in the next fiscal year.

March 31, 2021 (in thousands of dollars)

18. Financial Risks (continued)

The Corporation's short-term debt has remaining undiscounted contractual cash flows of \$36,279 as at March 31, 2021 (2020 - \$41,219) and may be repayable in the next fiscal year. The Government of Yukon has committed the funds to repay the short-term debt owed to third parties (note 7). The Corporation's long-term debt has remaining undiscounted contractual cash flows of \$91 as at March 31, 2021 (2020 - \$91).

c) Market Risk

Currency Risk

Currency risk is the risk that the value of financial assets and liabilities denominated in foreign currencies will fluctuate due to changes in their respective exchange rates. The Corporation is not exposed to any significant currency risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The Corporation is not exposed to any significant interest rate risk.

Long-term debt has interest rates fixed for long periods of time with the debt intended to be repaid in accordance with corresponding energy savings.

For its short-term debt with CIBC, the Corporation mitigates interest rate risk through interest rate swaps that exchange the variable rate inherent in the term debt for a fixed rate. Therefore, fluctuations in market interest rates would not impact future cash flows and operations relating to the short-term debt. The short-term loan with the Government of Yukon is at the Government's prime rate and is subject to market fluctuations. Due to the loan balance the variability in interest rates is not expected to have a significant impact on the Corporation.

19. Capital Management

The Corporation is subject to the financial management and accountability provisions of the *Hospital Act*, the Yukon *Financial Administration Act*, and the *Yukon Act* which impose restrictions in relation to borrowings and acquisitions of investments. The Corporation receives its principal source of capital through funding received from the Government of Yukon. The Corporation's financial objectives are to comply with externally imposed restrictions and manage its capital as a by-product of managing revenues, expenses, assets and liabilities. The Corporation considers its capital to be its net assets related to restricted for capital purchases, internal; restricted for pension; and unrestricted. The Corporation's financial objectives as stated above have remained unchanged from the prior year. The Corporation has complied with the externally imposed restrictions on the funding provided.

Internally restricted capital purchases are used to cover commitment or obligations that are expected to arise in the future. The restricted for pension capital is the difference between the contributions to the pension plan and the actuarially determined pension expense and is recorded as an accrued pension benefit asset (non-current assets) and restricted for pension

March 31, 2021 (in thousands of dollars)

19. Capital Management (continued)

(net assets) on the Consolidated Statement of Financial Position. This entry reflects trapped capital as these contributions cannot be touched and remain in the plan.

The Corporation computes its capital as follows:

	2021 \$	2020 \$
Restricted for capital purchases, internal Restricted for pension	410 51,339	48 53,149
Unrestricted	(8,435)	(10,194)
	43,314	43,003

20. Impact of COVID-19

The World Health Organization declared the Coronavirus COVID-19 (COVID-19) outbreak a pandemic on March 11, 2020. In response to the impacts of COVID-19, the Corporation continues to experience a change in demand for its services and is working diligently to mitigate the financial impacts.

Other government contract revenue and expenses

For the year ended March 31, 2021, the Government of Yukon committed \$6,533 (2020 - \$200) (Note 16) to cover COVID-19 related incremental expenses and loss of revenues. These amounts have been recorded in various expense accounts in the Consolidated Statement of Operations as determined by the nature of the expense. During the year, the Corporation incurred COVID-related expenses of \$6,619 (2020 - \$148). As at March 31, 2021, \$451 of the Government of Yukon contribution committed is recognized in accounts receivable on the Consolidated Statement of Financial Position.

Personal protective equipment

In response to the COVID-19 Pandemic, the Corporation was requested to centralize all Personal Protective Equipment (PPE) for the territory and ensure timely and appropriate access to supplies in collaboration with the Government of Yukon. PPE was provided through Government of Canada Federal programs such as the National Emergency Strategic Stockpile (NESS) and the Public Health Agency of Canada (PHAC) at no cost to the territory. As at March 31, 2021, the Corporation has estimated the fair value of inventory on hand from these PPE programs to be \$1,440 and has not included this inventory as an asset on the Corporation's financial statements as it does not meet the definition of an asset.

COVID-19 vaccines

During the fiscal year, the Corporation managed the receiving and storage of COVID-19 vaccines provided by the Government of Canada at no cost to the territory. The Government of Yukon is responsible for the administration and coordination of vaccine deployment. A fair market value estimate of the vaccines on hand as at March 31, 2021 is unknown at this time.

March 31, 2021 (in thousands of dollars)

Future impact on operations

The ongoing effects of COVID-19 on financial markets, regulations, and experience are uncertain and still evolving. It is not possible to reliably estimate the impact that COVID-19 will have on the financial results and condition of the Corporation in future periods. Financial areas that may be impacted include government funding and the pension plan experience and/or assumptions that could affect future valuation results.

21. Subsequent Events

On June 1, 2021, the Corporation implemented an updated Electronic Medical Record "EMR" and Health Information System. This implementation included a complete rebuild of all the Corporation's Meditech applications as well as the implementation of advanced clinical functionality. The project termed "1Health" is a transformational project that has spanned multiple years and was done in collaboration with Government of Yukon's Department of Health and Social Services. The current estimated cost for the Corporations portion of this project is approximately \$13,000 and has been funded through agreements with Government of Yukon.

Included in capital work-in-progress is \$8,856 (2020 - \$4,133) related to the project.

YUKON HOUSING CORPORATION FINANCIAL STATEMENTS March 31, 2021

This page intentionally left blank.

YUKON HOUSING CORPORATION Management's Responsibility for Financial Reporting

The financial statements contained in this annual report have been prepared by management in accordance with Canadian public sector accounting standards. The integrity and objectivity of the data in these financial statements are management's responsibility.

Management is responsible for developing and maintaining books of account, records, financial and management controls, information systems and management practices. These are designed to provide reasonable assurance as to the reliability of financial information; that assets are safeguarded and controlled; and that transactions are in accordance with the Financial Administration Act as well as the Housing Corporation Act and the by-laws of the Yukon Housing Corporation (the Corporation).

The Board of Directors (the Board) is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board exercises its responsibility through the Finance Audit and Risk Management Committee, which meets on a periodic basis with management and the independent external auditor to review the manner in which these groups are performing their responsibilities, and to discuss auditing, internal controls, and other relevant financial matters. The Finance Audit and Risk Management Committee reviews the audited financial statements with the external auditor before making recommendations to the Board of Directors for their approval.

The Corporation's external auditor, the Auditor General of Canada, is responsible for auditing the financial statements and issuing her report thereon which is included with the audited financial statements. The Auditor General of Canada addresses her report to the Minister responsible for the Yukon Housing Corporation.

PROTECTED A

INDEPENDENT AUDITOR'S REPORT

To the Minister responsible for the Yukon Housing Corporation

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Yukon Housing Corporation (the Corporation), which comprise the statement of financial position as at 31 March 2021, and the statement of operations and accumulated surplus, statement of change in (net debt) net financial assets and statement of cash flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Corporation as at 31 March 2021, and the results of its operations, changes in its net financial assets, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, design and perform audit procedures responsive to those risks, and
 obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
 The risk of not detecting a material misstatement resulting from fraud is higher than for
 one resulting from error, as fraud may involve collusion, forgery, intentional omissions,
 misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including
the disclosures, and whether the financial statements represent the underlying transactions
and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the financial statements, we have audited transactions of the Yukon Housing Corporation coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Financial Administration Act* of Yukon and regulations, the *Housing Corporation Act* and regulations, and the by-laws of the Yukon Housing Corporation.

In our opinion, the transactions of the Yukon Housing Corporation that came to our notice during the audit of the financial statements have complied, in all material respects, with the specified authorities referred to above. Further, as required by the *Housing Corporation Act*, we report that, in our opinion, the accounting principles in Canadian public sector accounting standards have been applied on a basis consistent with that of the preceding year. In addition, in our opinion, proper books of account have been kept by the Yukon Housing Corporation and the financial statements are in agreement therewith.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Yukon Housing Corporation's compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Yukon Housing Corporation to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the financial statements are in compliance with the specified authorities referred to above.

David Irving, CPA, CA

1. Authority and operations

(a) Authority

Yukon Housing Corporation (the Corporation) was established in 1972 by the Housing Corporation Act of Yukon to undertake, carry to completion, or assist in the provision, development, maintenance and management of housing. The Corporation is subject to the Financial Administration Act of Yukon. Disbursements for operations and loans are authorized by the Yukon Legislative Assembly through the Appropriation Acts.

(b) Mission

The mission of the Corporation is to improve the quality of housing in Yukon and help Yukoners resolve their housing needs.

In carrying out its mission, the Corporation provides rental housing at below market rents to applicants who qualify for social housing. Rental income received from housing tenants is less than the associated costs of supplying these rental units. The Corporation also provides loans for the purpose of housing. The Corporation is dependent on the Government of Yukon for funding its operations.

Pursuant to Section 45(1) of the Housing Corporation Act, the Commissioner in Executive Council has established Housing Advisory Boards in the communities of Carcross, Carmacks, Dawson City, Faro, Haines Junction, Mayo, Ross River, Teslin, Watson Lake and Whitehorse. Local Housing Advisory Boards involve local community members in the decision making process regarding housing in their community. They provide advisory services to the Corporation and a review function in appeals of decisions made by the Corporation.

(c) Main estimates

The Main Estimates comparative figures are from the Main Estimates approved in the Yukon Legislative Assembly in 2020. These figures do not reflect changes arising from the Supplementary Estimates approved later in the year by the Yukon Legislative Assembly.

2. Significant accounting policies

These financial statements have been prepared in accordance with Canadian public sector accounting standards. Significant accounting policies are as follows:

(a) Reporting entity

The Corporation's financial results include the transactions of the Housing Advisory Boards.

(b) Funding and advances from the Government of Yukon

A funding agreement between the Corporation and the Government of Yukon authorizes the Government of Yukon to provide the Corporation with an annual operations and maintenance transfer payment and a capital transfer payment. The transfer payments are equal to the Corporation's actual net operating deficit and net capital expenditures calculated in accordance with the funding agreement and reported to the Government of Yukon in the Corporation's final Period 12 Variance Report. The transfer payments are recognized in accordance with the Corporation's policy for the recognition of government transfers (Note 2(j)). Advances provided by the Government of Yukon in excess of the transfer payments are recorded as a liability of the Corporation (Note 11).

The free rental of a social housing building provided by the Government of Yukon to the Corporation is recorded as rental assistance in-kind revenue and offsetting building services in-kind expenses (Note 15(b) and Schedule A).

(c) Cash

Cash includes cash on hand, bank balances and bank indebtedness repayable on demand.

(d) Housing inventory

The Corporation recognizes a house for sale as inventory when all of the following criteria are met prior to the date of the financial statements: sale of the asset is approved; the asset is in a condition to be sold; the asset is publicly seen to be for sale; there is an active market for the asset; there is a plan in place for selling the asset; and it is reasonably anticipated that the sale to the third party will be completed within one year. The asset held for sale is measured at the lower of its carrying amount or fair value less cost to sell.

(e) Mortgages and loans receivable

Mortgages receivable are fully secured and recorded at cost less any amount for valuation allowances.

Based on historical loss experience, management establishes a valuation allowance for impaired loans. Mortgages are classified as impaired when the Corporation no longer has reasonable assurance of timely collection of the full amount of principal and interest due. The valuation allowance adjusts a mortgage's carrying value to its net recoverable value.

Under the Social Housing Agreement signed with Canada Mortgage and Housing Corporation (CMHC) in 1998, the Corporation may be required to subsidize a debtor's repayment of a Rural and Native Housing Home Ownership Program mortgage. These subsidies vary in amount depending on the income of the recipients and are expensed when incurred. CMHC funding provided to the Corporation includes an amount for subsidies.

Under the Home Repair Program, the Corporation may subsidize a debtor's repayment. These subsidies, reviewed annually, are based on the debtor's ability to pay. Each year, the Corporation records an allowance for Home Repair Program subsidies based on loans receiving a subsidy at year end.

Loans with concessionary terms are reviewed annually.

Concessionary loans are recorded at the discounted value of the loan after the grant portion has been charged to concessionary loan discount expense. For concessionary loans, subsequent to initial valuation, the loans are carried at amortized costs using the effective interest method. The discounted value and the effective interest rate are determined using the prime rate adjusted for risk at the date of issuance. The grant portion is calculated as the difference between the face value and the discounted value of the loan and is recorded as concessionary loans discount expense at the date of issue.

Housing industry loans are provided to private organizations and individuals as a way to finance the construction of more affordable rental units. These loans are also provided to organizations that are seeking financing to build shelters to accommodate social programs.

Loans receivable from lots sold to purchasers for residential, commercial and recreational purposes under land sales agreements are recorded at the lower of cost or net recoverable value.

(f) Tangible capital assets

Tangible capital assets are recorded at cost, net of accumulated amortization. Interest on loans during construction of capital assets is capitalized. Assets under construction are not amortized until available for use.

Amortization is calculated using the straight-line method, over the estimated useful lives of assets.

Social housing projects	40 years
Social housing betterment	15 years
Staff housing projects and other facilities:	
Standard construction	40 years
Mobile home units	20 years
Office building	40 years
Other facilities	15 years
Furnishings and equipment	5 to 15 years
Vehicles	6 years
Computer systems	3 years
Leasehold improvements	remaining lease term

Tangible capital assets are written down when conditions indicate that they no longer contribute to the Corporation's ability to provide services. The write-downs are accounted for as expenses in the Statement of Operations and Accumulated Surplus.

(g) Environmental liabilities

A contaminated site is a site at which substances occur in concentrations that exceed the maximum acceptable amounts under an environmental standard. The Corporation recognizes a provision for environmental clean-up when all of the following conditions are prevalent: an environmental standard exists; the level of contamination has been determined to exceed the environmental standard; the Corporation is directly responsible or accepts responsibility; it is expected that future economic benefits will be given up; and a reasonable estimate of the amount can be made at that time. A liability is recognized net of expected recoveries and the costs associated with the clean-up are expensed during the year when the Corporation is obligated to incur such costs. The estimate of a liability includes costs directly attributable to remediation activities. Costs would include post-remediation operation, maintenance and monitoring that are an integral part of the remediation strategy for a contaminated site.

(h) Post-employment benefits

Post-employment benefits are expected to be provided to employees of the Corporation after employment but before retirement. These benefits include severance benefits and accumulated sick and vacation leave benefits that are paid in cash when employment is terminated. The Corporation recognizes the obligation for these benefits as a liability and uses an actuary to estimate the amount of the obligation. Expenses related to post-employment benefits are recognized in the period in which the employee's service is rendered and the benefit is earned. The accrued benefit liability for these benefits is calculated as the accrued benefit obligation adjusted by unamortized actuarial gains or losses. Net actuarial gains and losses are amortized on a straight-line basis over the expected average remaining service life of the active employees commencing with the period following the determination of the net actuarial gains or losses.

(i) Retirement benefits

All eligible employees participate in the Public Service Pension Plan administered by the Government of Canada. The Corporation's contribution to the Plan reflects the full cost as employer. This amount is currently based on a multiple of the employees' required contributions, and may change over time depending on the experience of the Plan. The Corporation's contributions are expensed during the year in which the services are rendered and represent the total pension obligation of the Corporation. The Corporation is not currently required to make contributions with respect to any actuarial deficiencies of the Public Service Pension Plan.

(j) Revenue recognition

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized as the stipulation liabilities are settled.

Interest income on mortgages is recognized using the effective interest method. When a mortgage becomes impaired, recognition of interest ceases; thereafter, interest income for impaired loans is recognized on a cash basis.

Rental income is recorded on an accrual basis.

(k) Expenses

Expenses are recorded on an accrual basis. Transfer payments are recorded as expenses when authorized and recipients have met eligibility criteria.

(I) Measurement uncertainty

The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and contingencies. By their nature, these estimates are subject to measurement uncertainty. As adjustments to these estimates become necessary, they are recorded in the financial statements in the year they become known. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant; although, at the time of preparation of these statements, the Corporation believes the estimates and assumptions to be reasonable.

Significant management estimates include: valuation of mortgages and loans receivable, valuation of accounts receivable, determination of amortization, valuation of post-employment benefits, estimation of contingencies and environmental liabilities.

The estimation of the environmental liabilities is subject to a high degree of measurement uncertainty because the existence and extent of contamination, the responsibility for clean-up and the timing and cost of remediation cannot be reliably estimated in all circumstances. The degree of measurement uncertainty resulting from the estimation of the environmental liabilities cannot be reasonably determined.

At the time of preparation of these financial statements, management believes the estimates and the assumptions to be reasonable under the circumstances. However, the effect on the financial statements of changes to such estimates and assumptions in future periods could be significant especially given the added uncertainties resulting from the COVID-19 pandemic declared by the World Health Organization on March 11, 2020.

(I) Measurement uncertainty (continued)

In response to the COVID-19 pandemic, management issued a Technical Bulletin 03 – Loans and Grants Deferral dated March 24, 2020 which provided loan repayment deferrals and project extensions to clients. Such deferrals and extensions would be offered at the request of clients upon their submission of application and supporting paperwork. This bulletin was still in effect as of March 31, 2021.

Management also issued Technical Bulletin 06 – Streamlined Process for Rent Reductions dated March 24, 2020 in anticipation that a higher volume of rent deduction requests would be submitted to the Corporation by clients adversely impacted by the pandemic. This bulletin was still in effect as of March 31, 2021.

(m) Related party transactions

The Corporation is related to all Government of Yukon departments, territorial corporations and key management personnel. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Corporation. Significant transactions with related parties and balances at year-end are disclosed separately in the financial statements and notes thereto.

Inter-entity transactions are transactions between commonly controlled entities. Inter-entity transactions are recorded on a gross basis and are measured at the carrying amount, except for the following: when inter-entity transactions are undertaken on similar terms and conditions to those adopted if the entities were dealing at arm's length, or where costs provided are recovered, they are measured at the exchange amount.

Related party transactions other than inter-entity transactions are recorded at the exchange amount.

The Corporation receives certain services provided by the Government of Yukon without charge (Note 15(b)).

On August 14, 1998 the Corporation entered into an agreement with CMHC to access funding under the Social Housing Agreement (SHA). Under this 31 year agreement (1999/2000 to 2029/2030) CMHC agreed to contribute up to \$114,379,000 for the Corporation to assume full responsibility for the management of various public housing programs specified in the SHA. As at March 31, 2021 the amount receivable under the SHA is \$239,000 (2020 - \$242,000).

On April 1, 2014 the Corporation entered into an agreement with CMHC to access funding under the Investment in Affordable Housing (IAH) agreement. Under this five year agreement (2014/2015 to 2018/2019) CMHC agreed to contribute up to \$7,875,000 (\$1,575,000 each year) for project commitments made by the Corporation to improve access to affordable, sound, suitable and sustainable housing for households in need. The funding was fully cost matched by the Corporation. As at March 31, 2021 the amount receivable under the IAH is \$1,575,000 (2020 - \$1,575,000).

On April 1, 2018 the Corporation entered into an agreement with CMHC to access funding under the National Housing Strategy Agreement (NHS). Under this 10 year agreement (2019/20 to 2027/2028) CMHC agreed to contribute up to \$28,269,700 (various amounts each year) for project commitments made by the Corporation to increase access to housing, reduce housing need and achieve better housing solutions across the spectrum. As at March 31, 2021 the amount receivable under the NHS is \$4,041,000 (2020 - \$4,111,100).

Yukon Housing Corporation Notes to the financial statements for the year ended March 31, 2021

4. Accounts receivable (continued)

On April 1, 2018 the Corporation entered into an agreement with CMHC under the Northern Funding Agreement, which was made under the IAH agreement. Under this one year agreement (2018/2019) CMHC agreed to contribute up to \$2,400,000 for project commitments made by the Corporation to increase the affordable housing that meets the needs of households in the Yukon. As at March 31, 2021 the amount receivable under the Northern Funding Agreement is \$2,400,000 (2020 - \$2,400,000).

5. Mortgages and loans receivable

instalments with maturities up to 2022.

Mortgages receivable	Stated interest rates %	2021 (thousands	2020 s of dollars)
Home Ownership Loans with terms up to five years, secured by registered charges against real property, repayable in blended weekly, bi-weekly or monthly payments at fixed rates of interest and with maturities up to 2026. Rural and Native Home Ownership mortgages receiving subsidies (Note 2(e)) at March 31, 2021 were \$13,000 (2020 - \$28,000).	0.00 - 4.41	\$ 27,838	\$ 28,444
Owner Build Loans are advanced during the construction phase of a home for a maximum period of two years with interest of 1% below posted average five year rate of major banks. Repayment terms are up to five years, commencing upon completion of construction, secured by registered charges against real property with maturities up to 2025.	3.64 - 4.41	6,191	6,626
Repair and Upgrade Loans with terms up to 12 years, secured by registered charges against real property or chattel mortgages, repayable in blended weekly, bi-weekly or monthly payments at fixed rates of interest with maturities up to 2029. Mortgages receiving subsidies (Note 2(e)) and forgiveness at March 31, 2021 were \$30,000 (2020 - \$23,000).	0.00 - 4.95	2,194	3,050

*The total remaining principal \$1,724,000 is for 17 loans.			
These mortgages and loans receivable earn interest at the following we	ighted average ra	ites:	
		2021	2020
Mortgages receivable		3.63%	3.69%
Land sales agreements receivable		5.00%	5.00%

6. Environmental liability

Changes in the environmental liability are as follows:

	2	021		2020
	(t	housands	of dol	llars)
Balance at beginning of year	\$	216	\$	368
Actual expenditures in current year relating to fuel oil spills		_		(152)
Balance at end of year	\$	216	\$	216

Notable sites within the environmental liability include:

In fall 2010, it was confirmed that approximately 20,000 liters of fuel oil spilled under two Yukon Housing Corporation properties in Dawson City. The remediation plan and projected future costs were prepared by independent consultants, and the remediation started in the summer of 2011. To facilitate remediation the apartment building was demolished and removed. In fall 2012, it was determined that the residence adjacent to the apartment building would need to be removed to complete remediation of the site. The projected future expenditures at year end associated with this spill are estimated at \$50,000 (2020 - \$50,000).

In the summer of 2015, a split fuel line occurred under a house in Dawson City. Approximately 800 liters of fuel leaked from the oil storage tank. The projected future expenditures at year end associated with this spill are estimated at \$100,000 (2020- \$100,000).

Projected future expenditures at year end for site monitoring of \$66,000 (2020 - \$66,000) are for ongoing ground water and soils monitoring for remediated oil spill sites in Old Crow and Watson Lake (2020 - Old Crow and Watson Lake).

7. Deferred revenue

	2021		2020	
		(thousands	of do	llars)
Canada Mortgage and Housing Corporation (CMHC) funding

										· · · · · · · · · · · · · · · · · · ·

At March 31, 2021, the Corporation did not have any outstanding Government of Yukon Land Sales Agreements principal payments.

9. Post-employment benefits

The Corporation provides post-employment benefits to its employees based on years of service and salary. These benefits consist of severance benefits and unused sick and vacation leave.

The actuarial obligation for sick and vacation leave and severance benefits is calculated using the projected benefit method prorated on service. Post-employment benefits are not funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation. Benefits will be paid from future appropriations or other sources of revenue.

The results measured at March 31 are summarized as follows:

	2021			2020
		(thousand	s of do	ollars)
Accrued benefit liability, beginning of year	\$	2,241	\$	2,137
Receipt from Government departments for staff transfers		196		10
Add: Post-employment benefits expenses				
Current service costs		199		212
Interest on accrued benefit liability		71		74
Amortization of net actuarial (gains)losses		(16)		22
Less: Benefits paid during the year		(518)		(61)
Plan amendment		-		(153)
Accrued benefit liability, end of year		2,173		2,241
Unamortized net actuarial gain		(44)		(480)
Accrued benefit obligation, end of year	\$	2,129	\$	1,761
The significant actuarial assumptions were:				
		2021		2020
Discount rate		3.20%		3.80%
Inflation		2.00%		2.00%
Expected average remaining service life of active employees	1	1.6 years	1	1.6 years
			Marc	ch 31,
	Marc	h 31,	2017	7
Seniority and Promotional Salary Increases - based on the annual	2017	valuation	valua	ation
rates from the Public Service Pension Plan	repoi	t	repo	rt

The most recent actuarial valuation made for these post-employment benefits was as of March 31, 2020. The next required valuation would be as of March 31, 2023.

Included in the total accrued benefit obligation at March 31, 2021 are vacation leave of \$571,000 (2020 - \$541,000) and accumulated sick leave of \$421,000 (2020 - \$376,000).

The post employment benefit expense for the year is \$450,000 (2020 - \$318,000)

10. Retirement benefits

Substantially all of the employees of the Corporation are covered by the Public Service Pension Plan (the Plan), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Corporation. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The general contribution effective at year end was \$1.01 (2020 - \$1.01) for every dollar contributed by the employee, and \$3.59 (2020 - \$3.80) for every dollar contributed by the employee for the portion of the employee's salary above \$181,600 (2020 - \$1.00) for every dollar contributed by the employee, and \$3.59 (2020 - \$3.80) for every dollar contributed by the employee, and \$3.59 (2020 - \$3.80) for every dollar contributed by the employee for the portion of the employee, and \$3.59 (2020 - \$1.73,000).

Contributions during the year were as follows:

	2	021	2	020
	(t	housands	of dol	lars)
Employer's contribution	\$	579	\$	569
Employees' contribution		567		535

The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of two percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada Pension Plan benefits and they are indexed to inflation.

11. Advances - Government of Yukon

Advances from the Government of Yukon represent a series of working capital advances by the Government of Yukon to the Corporation. These advances are repayable on demand and without interest.

	 2021		2020
	 (thousands	of d	ollars)
Balance at beginning of year	\$ 31,835	\$	24,970
Cash advanced during the year	30,776		21,245

At March 31, 2021, there were construction projects in progress in the amount of \$7,979,000 (2020 - \$1,112,000). There was no interest incurred for the construction of tangible capital assets in the current year or previous year.

Included in the cost of land are 13 vacant lots with a carrying value of \$76,000.

13. Expenses by object

	 2021		2020	
	(thousand	s of dollars)		
Materials, supplies and utilities	\$ 10,326	\$	9,168	
Transfer payments (Grants/Program advances)	9,581		9,787

Interest on long-term debt	 82		99	
	\$ 34,752	\$	33,435	

14. Financial instruments

The balances in Cash, Accounts receivable, Due from the Government of Yukon, and Accounts payable and accrued liabilities have fair values that approximate their carrying amount due to their short term to maturity.

Fair value information is not disclosed for Advances - Government of Yukon (Note 11) because it arose as a result of related party transactions and bears no interest. There is no active market for such instruments.

The fair values of the Corporation's mortgages and loans receivable and long-term debt were based on management's best estimates and were determined using the present value of future cash flows discounted at the March 31, 2021 estimated market rate for mortgages and loans with similar maturities.

14. Financial instruments (continued)

The carrying amount and estimated fair values of mortgages and loans receivable and long-term debt are as follows:

	2021				2020			
	(thousands of dollars)							
	С	Carrying			(Carrying		
	Δ	Amount	Fa	air Value	,	Amount	Fa	ir Value
Mortgages and loans receivable								
Mortgages receivable net of allowances	\$	37,556	\$	38,931	\$	39,772	\$	39,606
Land sales agreements receivable		1,596		1,766		5,908		6,101
	\$	39,152	\$	40,697	\$	45,680	\$	45,707
Long-term debt								
Loans payable to the Government of Yukon		9,153		7,235		9,418		6,803
Land sales agreements due to the Government of Yukon		1,596		1,498		6,407		5,794
Mortgages payable to chartered banks and CMHC		1,089		825		1,462		1,184
Loans payable to chartered banks and CMHC		624		655		719		755
	\$	12,462	\$	10,213	\$	18,006	\$	14,536

These financial instruments do not have active markets.

Until settled, the fair value of mortgages and loans receivable and long-term debt will fluctuate with changes in interest rates. Management believes the carrying amount of mortgages and loans receivable will be fully recovered.

15. Related party transactions and balances

In addition to those related party transactions disclosed elsewhere in these financial statements (Notes 8, 11 and 17), the Corporation enters into transactions with related entities in the normal course of business.

(a) Due from the Government of Yukon

	 2021	2020	
	(thousands	of dollars)	
Accounts payable	\$ (1,693)	\$	(976)
Accounts receivable	430		68
Amount due re: Canada - Yukon Low Carbon Economy Fund	 3,159		1,095
Net amount due from the Government of Yukon	\$ 1,896	\$	187

(b) Other transactions

The Government of Yukon provides life insurance and medical benefits to the Corporation's retired personnel, which are provided without charge and not recorded in the financial statements.

The value of administrative services provided by the Government of Yukon to the Corporation is estimated in 2021 to be \$28,238 (2020 - \$27,900). The value of territorial agent services provided by the Corporation to the Government of Yukon for 2021 is estimated to be \$122,970 (2020 - \$132,700). These services are provided without charge and not recorded in the financial statements.

15. Related party transactions and balances (continued)

The employees of the Corporation are paid by the Government of Yukon. The Corporation reimbursed the Government for personnel expenses (Note 13 and Schedule A) paid of \$8,080,000 during 2021 (2020 - \$8,152,000) which are recorded at the exchange amount.

In 2008, the Corporation entered into an agreement with the Government of Yukon for the use of a 48 unit seniors' social housing constructed as part of the Athletes' Village in Whitehorse. The Corporation is responsible for the operation and maintenance of the facility. The value of services provided without charge, relating to the use of this building by the Corporation, is estimated in 2021 to be \$502,000 (2020 - \$502,000) based on the Government of Yukon's amortization expense.

During 2021, the Corporation was charged \$1,007,000 (2020 - \$517,000) by the Government of Yukon for information technology support services, office rental, office supplies, computer software licensing, vehicle rental services and other upgrades. These charges are recorded at the exchange amount.

At the end of 2021, the Corporation has re-imbursed Government of Yukon, Highways and Public Works (HPW), for the scope and design of the Old Crow multi use facility project that HPW is managing on behalf of the Corporation and Health and Social Services.

16. Contractual obligations and contingencies

	2021		2020	
	(thousands of dolla			llars)
Outstanding contractual obligations to complete the funding of mortgages receivable				
at end of year	\$	2,522	\$	2,085
Outstanding contractual obligations to complete agreements and contract				
commitments at end of year		18,718		8,729
Annual subsidies to private social housing organizations		375		375
		21,615		11,189

Of the \$21,615,000 in outstanding contractual obligations, \$20,971,000 will be paid in 2021-22 fiscal year (\$9,441,000 in 2020-21) with the remainder to be paid in future years.

In the normal course of operations, the Corporation is subject to legal claims and possible claims. While the outcome of legal claims or possible claims is subject to future resolution, management's evaluation and analysis of such matters indicates that, individually or in the aggregate, the probable ultimate resolution of all legal claims and possible claims will not have a material financial impact on the Corporation's financial position, results of its operations or its cash flows.

Pursuant to an agreement signed with CMHC in 1998, the Corporation is liable for a mortgage payable by the Whitehorse Housing Co-operative Association Limited (the Co-operative) in the event of a default. The mortgage matures on July 1, 2025 and the amount payable as at March 31, 2021 was \$398,000 (2020 - \$479,000). Management believes that the Corporation would be able to repay the mortgage in full through the sale of the Co-operative's assets (against which the mortgage is made) in the event of a default.

17. Contractual rights

The Corporation has contractual rights for the following payments subsequent to March 31, 2021:

	Expiry Date	2022		22 2023-2030		Total	
		(thousands of dollars)					
CMHC Social Housing Agreement	2030	\$	3,594	\$	14,577	\$	18,171

(Government of Yukon)	2024		2,771		5,602		8,373
		\$	10,837	\$	56,204	\$	67,041

18. Bad debts write-offs

Section 14(4) of the Financial Administration Act of Yukon requires accounts written off during the fiscal year to be reported in the Public Accounts of Yukon. There were no bad debts written off during the current year and previous four years.

19. Prepaid Expense

	 2021	2	020	
	(thousands of dollars			
Prepaid Expense				
Prepaid Lease	\$ 3,325	\$	-	
Other	 73		133	
	\$ 3,398	\$	133	

The Corporation has prepaid \$3.3 million to lease 10 units for the next twenty years in the Normandy Manor development project. The lease will start when project is complete.

20. Subsequent events

Options for Independence Society of Yukon (OFI) is a non-profit organization which provides supportive housing to adults with Fetal Alcohol Spectrum Disorder (FASD). In 2012, OFI entered into a loan agreement with the Corporation to build an apartment in Whitehorse to provide supportive housing to adults with FASD. In 2019, OFI Board of Directors and the Yukon Government consulted on the impacts of mortgage payments on OFI's operational budget. It was decided that a transfer of ownership would occur from OFI to the Corporation with the Corporation receiving the building as a capital asset appraised at approximately \$2.3 million. The Corporation would then discharge mortgage encumbrance worth approximately \$1.8 million, thereby decreasing loans receivable and could result in an approximate \$0.5 million gain. The transfer of ownership and discharge was finalized in April of 2021. OFI will continue to use the space to provide housing with supports and programming for people with FASD. As part of an arrangement with Government of Yukon, the Corporation will not charge OFI for rent but will charge Health & Social

20. Subsequent events (continued)

During the summer of 2021, the Corporation purchased the Lakeview Apartments property from the Town of Watson Lake for the nominal sum of \$1 after supportive housing needs were identified in the community. Due to structural deficiencies, the building will be demolished and a hazardous material abatement, including the partial remediation of contaminated soil, will be completed at an estimated cost of \$560,000 by the end of November 2021. Management has estimated the construction costs of the new housing complex to be \$4,500,000, with construction beginning in the spring of 2022 and an anticipated completion date in the of spring of 2023. As part of the Corporation's Budgeted Main Estimates for 2021-22, \$1,500,000 has been allocated to the project.

21. Impacts of Covid-19

On March 11, 2020 the World Health Organization declared COVID-19 a global pandemic and since April 1, 2020 the preventive measures associated with the pandemic were still in place. The Corporation provided a number of relief measures to ensure that its partners and clients were assisted during this period.

Rent Assist:

In May 2020, the Corporation announced a new COVID-19 Rent Assist program for tenants living in private non-subsidized market rental housing in Yukon who have lost 30% or more of their income due to COVID-19. Tenants are eligible to receive a grant of 50% of median market rent based on unit size. This short-term program was available to tenants from April 1, 2020 to September 30, 2020. Management calculated the cost of the program to be \$433,000.

Rent reduction:

If a tenant client lost income due to the pandemic, they may be able to have their rent reassessed. During 2020-21, 98 out of 714 clients have requested to have their rent reassessed. The program started March 24, 2020 and ended as of December 31, 2020. Management estimates the revenue loss associated with this program in 2020-21 to be \$136,500. The Corporation would not recover these amounts resulting in loss of revenue in future periods.

Deferred loan payments:

If the Corporation's loan or mortgage client was unable to make a payment due to the pandemic, they may request a deferral of their payment. The program started March 24, 2020 and ended in May 2021. In the first twelve months of the program, 38 loan or mortgage clients requested deferrals of payments totaling \$150,000. These actions will impact the Corporation's cash flow in future periods but the loan principal amount and interest for such loan deferrals would be collectible at a future date. As of March 31, 2021, only two loan clients with a total payment value of \$4,000 have not yet resumed their payment plans. The Corporation did not see a significant impact on the allowance for doubtful accounts.

Project extension:

The Corporation will also extend deadlines for loans and grants if clients cannot meet their project's timeline. The Corporation also waived the requirement for pre-approved loans clients to submit quotes for work to be done within 90 days. The program started March 24, 2020 and ended as of May 1, 2021.

The Corporation is not receiving any additional funding from the Government of Yukon for any of these relief measures.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The management of the Yukon Liquor Corporation is responsible for establishing and maintaining a system of books, records, internal controls and management practices designed to provide reasonable assurance that reliable financial information is produced; the assets of the Corporation are safeguarded and controlled; the transactions of the Corporation are in accordance with the relevant legislation, regulations and by-laws of the Corporation; the resources of the Corporation are managed efficiently and economically; and the operations of the Corporation are carried out effectively.

Management is also responsible for the integrity and objectivity of the financial statements of the Corporation. The accompanying financial statements as at March 31, 2021 include amounts based on management's best estimates as determined through experience and judgment, are prepared in accordance with International Financial Reporting Standards. Other financial information included in the Annual Report is consistent with these financial statements.

These financial statements have been independently audited by the Corporation's external auditor, the Auditor General of Canada, and the audit report is included in this report.

INDEPENDENT AUDITOR'S REPORT

To the Minister responsible for the Yukon Liquor Corporation

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the Yukon Liquor Corporation (the Corporation), which comprise the statement of financial position as at 31 March 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Qualified Opinion on the Financial Performance

In our opinion, except for the possible effects of the matter described in the *Basis for Qualified Opinion* section of our report, the accompanying statement of comprehensive income presents fairly, in all material respects, the financial performance of the Corporation for the year ended 31 March 2021 in accordance with International Financial Reporting Standards (IFRSs).

Opinion on the Financial Position and Cash Flows

In our opinion, the accompanying statements of financial position and cash flows present fairly, in all material respects, the financial position of the Corporation as at 31 March 2021 and its cash flows for the year then ended in accordance with IFRSs.

Basis for Opinions, Including Basis for Qualified Opinion on the Financial Performance

On 11 March 2020, the World Health Organization declared a global pandemic due to the novel coronavirus (COVID-19). As a result, measures were put in place that impacted our ability to observe the counting of physical inventories as at 31 March 2020. We were also unable to satisfy ourselves concerning those inventory quantities by alternative means. Since opening inventories enter into the determination of the financial performance, we were unable to determine whether any adjustments might have been necessary in respect of the cost of goods sold reported in the statement of comprehensive income for the year ended 31 March 2021.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the *Audit of the Financial Statements* section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in

accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified opinion on the financial position and cash flows and our qualified opinion on the financial performance.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the financial statements, we have audited transactions of the Yukon Liquor Corporation coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Financial Administration Act* of Yukon and regulations, the *Liquor Act* and regulations, the *Liquor Tax Act* and regulations, the *Cannabis Control and Regulation Act* and regulations, and the by-laws of the Yukon Liquor Corporation.

In our opinion, the transactions of the Yukon Liquor Corporation that came to our notice during the audit of the financial statements have complied, in all material respects, with the specified authorities referred to above. Further, as required by the *Liquor Act*, we report that, in our opinion, the accounting principles in IFRSs have been applied on a basis consistent with that of the preceding year. In addition, in our opinion, proper books of account have been kept by the Yukon Liquor Corporation and the financial statements are in agreement therewith.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Yukon Liquor Corporation's compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Yukon Liquor Corporation to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the financial statements are in compliance with the specified authorities referred to above.

Notes to Financial Statements March 31, 2021

1. Authority and operations

Yukon Liquor Corporation (the Corporation) was established in 1977 under the *Liquor Act* by the Government of Yukon in Canada. It is not a "corporation" under the *Business Corporations Act*, but a government entity and is significantly influenced by the Government of Yukon. As a government entity, the Corporation is exempt from income taxes under Section 149(1)(d) of the Canadian *Income Tax Act*.

The Corporation's registered office is 9031 Quartz Road, Whitehorse, Yukon, Canada Y1A 4P9

Liquor Fund

The Corporation is responsible for the purchase, distribution and sale of liquor within Yukon, controlling the sale of liquor through licensed outlets and enforcing all matters related to the *Liquor Act*. The Corporation operates a central warehouse and distribution centre in Whitehorse and six liquor stores. The rural liquor stores also provide specific government services on behalf of the Government of Yukon.

In accordance with the *Liquor Act*, the profit from liquor operations for the year, before depreciation, less amounts expended on property, plant and equipment, is remitted to the Government of Yukon on a monthly basis.

The Corporation is required by the *Liquor Tax Act* to collect liquor taxes on behalf of the Government of Yukon and to remit these taxes on a monthly basis. The current rate is 12% (2020 - 12%) and is applied to selling prices of all liquor products.

In accordance with the provisions of the Beverage Container Regulations under the *Environment Act*, the Corporation collects various beverage container deposits and recycling surcharges on the sale of its products. These amounts are remitted to the Government of Yukon on a monthly basis.

Cannabis Fund

The Corporation is responsible for the purchase, distribution and sale of cannabis within Yukon through licensees and a retail store that was operational from October 2018 to October 2019. The *Cannabis Control and Regulation Act* received assent on April 24, 2018 and governs the distribution, retail, consumption, personal cultivation and possession of non-medical cannabis in Yukon. Through Order-in-Council 2018/107, the Corporation is designated as the distributor corporation, to act as the principal supplier of cannabis for sale in Yukon.

In accordance with the Cannabis Control and Regulation Act, the profit from cannabis operations for the year, before depreciation, less amounts expended on property, plant and equipment, is remitted to the Government of Yukon.

2. Basis of presentation

These financial statements have been prepared on a historical cost basis, in accordance with International Financial Reporting Standards (IFRSs). The statements are presented in Canadian dollars and are rounded to the nearest thousand (\$000) where indicated.

3. Significant accounting policies

The significant accounting policies summarized below have been applied to all periods presented in these financial statements.

Notes to Financial Statements March 31, 2021

3. Significant accounting policies (continued)

(a) Use of estimates

The preparation of financial statements in accordance with IFRSs requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Estimates are used when accounting for matters such as depreciation based on management's estimate of the useful lives of property, plant and equipment, and the non-pension benefit liability based on the actuarial valuation. Actual results could differ materially from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

(b) Financial instruments

Financial assets

The Corporation's financial assets include cash and accounts receivable and are initially measured at fair value.

After initial recognition, cash is measured at amortized cost and accounts receivable are measured at amortized cost using the effective interest method, less a provision for impairment when applicable. Accounts receivable are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. For accounts receivable, the Corporation applies the simplified approach which requires expected lifetime losses to be recognized from initial recognition of the receivables. The accounts receivable carrying amount is reduced through the use of an allowance account and the loss is recognized in the statement of comprehensive income.

A financial asset is derecognized when the contractual rights to the cash flows from the asset have expired, or when the asset and all substantial risks and rewards are transferred.

Financial liabilities

The Corporation's financial liabilities include accounts payable and accrued liabilities, and due to the Government of Yukon and are initially measured at fair value.

After initial recognition, these financial liabilities are measured at amortized cost using the effective interest method. A financial liability is derecognized when the obligation is discharged, cancelled, or expires.

The Corporation's financial liabilities includes lease liabilities, see note 3 (j) for measurement.

(c) Inventories

Inventories are comprised of alcoholic beverages and cannabis for resale and are valued at the lower of cost and net realizable value. Inventory costs are determined on a first-in, first-out basis. Cost is comprised of supplier-invoiced value and freight. Net realizable value represents the estimated selling price for inventories less the cost to sell.

Notes to Financial Statements March 31, 2021

3. Significant accounting policies (continued)

(d) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Depreciation is calculated on a straight-line basis and is based on the estimated useful lives of the assets as follows:

Land	Indefinite
Buildings	20 years
Leasehold improvements	5 years
Furniture and office equipment	5 years
Operating equipment	15 years
Heavy equipment	5 years
Systems development	5 years
Systems equipment	5 years

The assets' residual values, estimated useful life and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within 'other income - miscellaneous' in the statement of comprehensive income.

Assets are assessed for indications of impairment at each reporting date. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent, if any, of the impairment loss. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units), which are based on the Corporation's individual stores.

At each reporting date, assets are assessed for indications that prior impairment losses should be reversed. An impairment loss is reversed if there is an indication that there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized. This reversal would be recognized immediately in the statement of comprehensive income.

(e) Intangible assets

Intangible assets are comprised of internally developed software systems. They are carried at cost less accumulated depreciation and impairment losses. Depreciation is recognized on a straight-line basis over the estimated useful life of 3 years. The estimated useful life and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use. Gains or losses from de-recognition on an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized within 'other income – miscellaneous' in the statement of comprehensive income.

Notes to Financial Statements March 31, 2021

3. Significant accounting policies (continued)

(f) Employee benefits

Non-pension benefits

Under their conditions of employment, employees may qualify for and earn employment benefits for vacation, sick, and special leave, as well as severance benefits. The benefit obligation is determined on an actuarial basis. The cost of these benefits are accrued as employees render the services required to earn them and are calculated using the projected benefit method prorated on service. Actuarial gains and losses are recognized immediately in other comprehensive income. Other retirement benefits include extended health care and life insurance for retirees, which are paid by the Government of Yukon and not accrued for or expensed by the Corporation.

Pension benefits

Substantially all of the employees of the Corporation are covered by the public service pension plan (the Plan), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Corporation to cover current service cost. Pursuant to legislation currently in place, the Corporation has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Corporation.

(g) Revenue recognition

Revenue is generated from sales to customers through wholesale and retail stores for liquor products as well as through retail stores and e-commerce for cannabis products. Revenue is recognized when the customer obtains control of the asset which is when the Corporation's performance obligations are satisfied. For retail transactions, this is at the point of sale and for wholesale transactions, this is at the time of shipment. Revenue does not include beverage container recycling fees which are remitted to the Government of Yukon in accordance with the Beverage Container Regulations. Revenue also excludes liquor tax which is remitted to the Government of Yukon in accordance with the *Liquor Tax Act*. Licence revenue is initially recognized as deferred revenue and recognized to revenue over the term of the related licence.

Sales of liquor and cannabis products include a right of return. A refund liability is recognized if it is expected that consideration will be refunded to customers. This liability is updated at the end of each reporting period for changes in circumstances. Revenue is stated net of estimated returns. Historically, the return rate for products sold is nominal.

(h) Government grants

Government grants received from the Government of Yukon are recognized in the period in which the funding is committed by the Government of Yukon and when the terms and eligibility of the expenses have been met.

Grants received related to operating expenditures are presented as other income in the statement of comprehensive income.

Grants received for the purpose of purchasing property, plant and equipment or intangible assets are recognized initially as deferred government grant. Deferred government grant is then recognized straight-line over the estimated useful life of the related purchased asset.

(i) Expense recognition

Expenses are recognized as incurred, on an accrual basis, in the period to which they relate.

YUKON LIQUOR CORPORATION Notes to Financial Statements

March 31, 2021

3. Significant accounting policies (continued)

(j) Leases

For any new contracts entered into, the Corporation considers whether a contract is, or contains a lease. A lease is defined as "a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration". To apply this definition the Corporation assesses whether the contract meets three key evaluations which are whether:

- (a) the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Corporation;
- (b) the Corporation has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract;
- (c) the Corporation has the right to direct the use of the identified asset throughout the period of use. The Corporation assesses whether is has the right to direct "how and for what purpose" the asset is used throughout the period of use.

At lease commencement date, the Corporation recognises a right-of-use asset and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made of the initial measurement of the lease liability, any initial direct costs incurred, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Corporation depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Corporation also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Corporation measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Corporation's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

On the statement of financial position, right-of-use assets and lease liabilities have been disclosed seperately.

The Corporation has elected to account for short-term leases (leases with an expected term of 12 months or less) and leases of low-value assets using the practical expedients. Instead of recognizing a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in profit or loss on a straight-line basis over the lease term.

Notes to Financial Statements March 31, 2021

4. Financial instruments

The Corporation, through its financial assets and liabilities, is exposed to the following risks from its use of financial instruments: credit risk and liquidity risk. The Corporation manages these risk exposures on an ongoing basis. The Corporation has no significant exposure to interest rate risk or foreign exchange risk. The Corporation is not party to any derivative financial instruments. The following analysis provides information about the Corporation's risk exposure and concentration as of March 31, 2021.

Credit risk

Credit risk on financial instruments arises from the possibility that the issuer of a financial instrument fails to meet its obligation. The carrying amount of cash and accounts receivable represents the maximum credit risk exposure. The risk on cash is minimized as these assets are held with a Canadian chartered bank. The Corporation's accounts receivable has a carrying value of \$120,000 as of March 31, 2021 (2020 - \$55,000). There is a 7% (2020 - 26%) concentration of accounts receivable with one customer.

The following table provides information about the exposure to credit risk for trade accounts receivable by days the receivable is outstanding:

		2021		2020
	(ir	(in thousands of Canadian		
Current	\$	120	\$	53
91 days or greater				2
Total trade accounts receivable	\$	120	\$	55

The Corporation measures the loss allowance at an amount equal to the lifetime Expected Credit Loss (ECL) for its accounts receivable. For the years ended March 31, 2021 and 2020, the Corporation has estimated the ECL to be nominal. Accounts written off could still be subject to enforcement activities. No accounts are written off directly to the provision for credit losses. As at March 31, 2021 and 2020, the loss allowance was nil.

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they become due. The Corporation's objective is to have sufficient liquidity to meet these liabilities when due. The Corporation monitors its cash balances and cash flows generated from operations to meet its requirements by regularly checking bank balances and accounts payable reports. The carrying amount of accounts payable and accrued liabilities and due to the Government of Yukon represents the maximum exposure to liquidity risk.

The Corporation's accounts payable and accrued liabilities had a carrying value of \$1,424,000 as at March 31, 2021 (2020 - \$3,293,000). As at March 31, 2021, approximately 1.74% (2020 - 22.7%) of accounts payable were over 90 days past due. Due to the Government of Yukon had a carrying value of \$1,750,000 as of March 31, 2021 (2020 - \$1,704,000). As at March 31, 2021 approximately 1% (2020 - 0%) of due to the Government of Yukon were over 90 days past due.

Unless otherwise noted, it is management's opinion that the Corporation is not exposed to significant other price risks arising from these financial instruments.

10. Employee benefits

Pension plan

Substantially all of the employees of the Corporation are covered by the public service pension plan (the Plan), a contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Corporation. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The general contribution rate effective at year end was \$1.01 (2020 - \$1.01) for every dollar contributed by the employee, and \$3.59 (2020 - \$3.80) for every dollar contributed by the employee for the portion of the employee's salary above \$181,600 (2020 - \$173,000). For new employees who are participating in the plan on or after January 1, 2013, the Corporation contributes \$1.00 (2020 - \$1.00) for every dollar contributed by the employee, and \$3.59 (2020 - \$3.80) for every dollar contributed by the employee for the portion of the employee's salary above \$181,600 (2020 - \$173,000). Total contributions to the Plan of \$1,047,378 (2020 - \$1,015,044) were recognized in salaries, wages and benefits; of which \$516,223 (2020 - \$496,651) were contributed by employees and \$531,155 (2020 - \$518,392) by the employer.

The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of two percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation.

Non-pension benefits

The Corporation provides non-pension benefits to its employees based on years of service and final salary. This benefit plan is not pre-funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation.

The discount rate used to determine the present value of the non-pension benefit liability is based on interest rates of high-quality corporate bonds of the same currency and with similar terms to maturity.

Notes to Financial Statements March 31, 2021

Notes to Financial Statements March 31, 2021

The significant assumptions used in the actuarial valuation of the obligation were as follows:

	2021	2020
Discount rate	3.20%	3.80%
Salary escalation rate per annum	2.00%	2.00%

A quantitative sensitivity analysis as at March 31, 2021 shows the impact of the change in the significant actuarial assumptions on the non-pension defined liability obligation:

		1% decrease Canadian dollars)	
Discount rate Salary escalation rate per annum	\$ (145) 175	\$	163 (159)

The most recent full actuarial valuation in respect of this non-pension post-employment benefits plan was prepared as of March 31, 2020. The weighted average of the maturity plan as at March 31, 2021 is 7.7 years.

11. Equity

*	(in 1	2021 (in thousands of C		
Property, plant and equipment Intangible assets	\$	2,148	\$	2,176 22

Section 12.3(b) adjustment (1)		505		505
Equity, end of year	\$	2,636	\$	2,695

The annual change in equity represents net additions, depreciation and amortization of property, plant and equipment, intangible assets, right-of-use assets and lease liabilities, incurred prior to remitting funds to the Government of Yukon (Note 1).

(1) Under Section 12.3(b) of the Cannabis Control and Regulation Act remittance of profit to the Government of Yukon for the year ended March 31, 2019 was reduced.

YUKON LIQUOR CORPORATION Notes to Financial Statements March 31, 2021

12. Capital management

The Corporation manages its capital in order to purchase a range of liquor and cannabis products and make them available to consumers, and to regulate the sale and consumption of these products, while optimizing the net proceeds to the Government of Yukon realized from the sale and control of liquor and cannabis.

The Corporation defines capital as net assets. It is subject to the financial management and accountability provisions of the *Financial Administration Act* of Yukon, the *Corporate Governance Act*, the *Liquor Act*, and the *Cannabis Control and Regulation Act*, which specifies that net assets of the Corporation are the property of the Government of Yukon.

The Corporation manages its net assets through its five year capital plan and as a by-product of managing revenues, expenses, assets, liabilities and general financial dealings to ensure that its objectives are achieved effectively. The five year capital plan and revenue projections are approved annually by the Management Board of the Government of Yukon. The Corporation is required to provide regular variance reporting to the Government of Yukon.

The Corporation is not subject to external capital requirements. There has been no change to its capital management during the year.

13. Related party transactions

The Corporation is related to all departments and public agencies of the Government of Yukon. The Corporation enters transactions with these entities in the normal course of business.

Notes to Financial Statements March 31, 2021

13. Related party transactions (continued)

Other transactions

The Government of Yukon and the Corporation provide services to each other without compensation. These transactions are not recorded in the financial statements of the Corporation. The Government of Yukon provides rent-free occupation of several government buildings to the Corporation with an estimated value of \$816,000 (2020 - \$732,690). The Corporation provides Territorial Agent services in rural community liquor stores on behalf of the Government of Yukon with an estimated value of \$513,000 (2020 - \$488,857).

The Corporation reimburses the Government of Yukon on a monthly basis for salaries and benefits expense paid on its behalf and administered by the Government of Yukon. The Government of Yukon also provides mail services with an estimated value of \$28,231 (2020 - \$46,658).

The Corporation has entered into lease agreements for the Haines Junction and Mayo community liquor stores and service level agreements for the three owned community liquor stores in the amount of \$261,000 (2020 - \$274,000) with the Government of Yukon.

The Government of Yukon provides certain property management services to the Corporation. During 2020 the Corporation was charged \$57,000 (2020 - \$nil) for work done on its properties.

The Corporation has entered into service agreements with the Government of Yukon for the provision of information, communication and technology services. During the year the Corporation was charged \$287,000 (2020 - \$311,000) for these services.

The Corporation has entered into a service agreement with the Government of Yukon for the provision of human resources' services. During the year the Corporation was charged \$263,000 (2020 - \$nil) for these services.

Key management compensation

The remuneration of key management personnel, which includes the members of the executive committee, recognized as an expense during the period was:

	2021		:	2020	
	(in thousands of Canadian dollars)				
Salaries and short-term employee benefits	\$	1,026	\$	905	
Post-employment benefits		159		142	
Other long-term employee benefits		13		16	
Pre-retirement and severance benefits		<u></u>		47	

In the prior year, members of the executive committee and managers were included as key management personnel. During the year, management re-evaluated the composition of key management personnel and concluded that it is executive committee members who are key management personnel. As a result, this note discloses remuneration of the executive committee for the year ended March 31, 2021 with comparative figures for the year ended March 31, 2020. This change did not impact any of the financial statements and did not impact any other note disclosures.

16. Deferred government grant

The Corporation received funding from the Government of Yukon during fiscal 2019 for capital expenditures related to cannabis operations. These amounts are being amortized over 5 to 20 years.

Notes to Financial Statements March 31, 2021

17. Leases

The Corporation has leases that relate to the Whitehorse, Haines Junction and Mayo liquor stores with lease terms from 1 year up to 5 years. The Corporation does not have an option to purchase the buildings at the expiry of the lease periods. Subsequent to year-end, the Corporation entered into a new contract for a 1 year lease extension to its Mayo liquor store location. The Mayo lease agreement is a short term lease and therefore no right-of-use asset and no lease liability are recognized.

Each lease generally imposes a restriction that, unless there is a contractual right for the Corporation to sublet the asset to another party, the right-of-use asset can only be used by the Corporation. Leases are either non-cancellable or may only be cancelled by incurring a substantive termination fee. The Corporation is prohibited from selling or pledging the underlying leased assets as security.

The table below describes the nature of the Corporation's leasing activities by type of right-of-use assets recognized on the statement of financial position:

Right-of-use asset	No. of right- of-use assets leased	Range of remaining term	Average remaining lease term	No. of leases with extension options	No. of leases with options to purchase	No. of leases with variable payments linked to ar index	leases with termination options

COMPENSATION FUND (YUKON)

FINANCIAL STATEMENTS

December 31, 2020

(audited)

This page intentionally left blank.

Management's Discussion and Analysis

The Management's Discussion and Analysis provides further insight into the financial performance of the Compensation Fund (the Fund) for the year ended December 31, 2020. The audited financial statements and supporting notes are integral to this analysis and should be read in conjunction with it. Unless otherwise indicated, all amounts are expressed in Canadian dollars and have been derived from the Fund's annual financial statements prepared in accordance with International Financial Reporting Standards.

Forward-looking statements

Any forward-looking statements in this document represent the views of management. Forward-looking information is subject to many risks and uncertainties, and may contain significant assumptions about the future. These statements are presented to help stakeholders understand the Fund's financial position, priorities and anticipated financial performance.

Risk and uncertainties about future assumptions include, but are not limited to, the changing financial markets, the industry mix of the Yukon workforce, the general economy, legislation, accounting standards, appeals and court decisions, and other known or unknown risks. Readers are cautioned not to place undue reliance on forward-looking information as our actual results may differ materially from those expressed or implied.

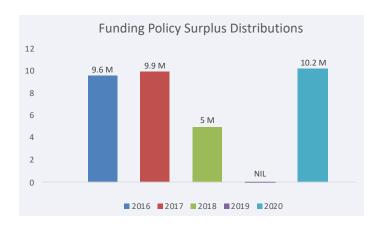

Operating results

In 2020, the Fund incurred an operating surplus of \$2.0 million, versus \$15.3 million in 2019. This was a result of higher claims and administration costs and lower net investment income compared to 2019.

Total comprehensive income (loss), which includes funding policy surplus distributions or recoveries, and the actuarial gain or loss on post-employment benefits, was \$8.3 million (loss) in 2020 versus \$15.3 million (income) in 2019.

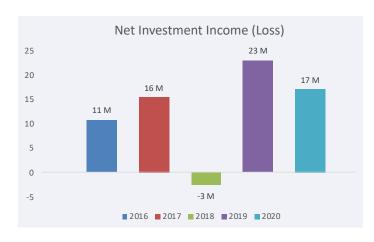

The main difference in total comprehensive income is due to the \$10.2 million surplus distributions approved by the Board of Directors in 2020.

Revenues

The Fund's revenue and income totalled \$45.2 million in 2020 versus \$52.0 million in 2019. The change in overall revenue was mainly a result of a decrease in net investment income.

Net investment income in 2020 was \$17.1 million versus \$23.0 million in 2019, a decrease of \$5.9 million.

In 2020 the Fund was able to recover from the drop in the stock market due to the onset of COVID-19 restrictions and was able to end the year with an overall return of 8.4% and a four-year annualized return in 2020 of 6.7%. The investment portfolio's asset mix is 42% fixed income and 58% equities.

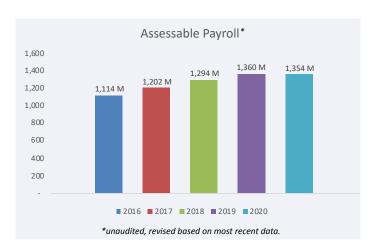

This asset mix reflects Yukon Workers' Compensation Health and Safety Board's (the Board) conservative approach to managing its investment portfolio.

Assessment revenue in 2020 was \$27.0 million, down slightly from \$27.6 million in 2019.

The decrease in assessment revenue can be partly attributed to a slight decrease in assessable payroll of approximately \$6.0 million compared to 2019. This decrease is due to certain industries who were negatively impacted by COVID-19 lockdowns and travel restrictions.

Expenses

Total claims expenses increased to \$28.5 million in 2020 from \$22.8 million in 2019. Claims expenses were higher in 2020 mainly due to higher than expected payments on prior year injuries and a change in actuarial assumptions that saw a decrease in the discount rate used by the actuaries to value the benefits liability. The nominal discount rate changed from 5.5% in 2019 to 5.15% in 2020.

Administration costs increased to \$14.0 million in 2020 from \$13.4 million in 2019. This is mainly due to costs associated with salaries and benefits and an increase in computer systems. Increases to salaries and benefits were mainly driven by the cost-of-living increases required by the collective bargaining agreement. The increase in computer systems related costs was due to the cost of transitioning to a remote work environment and increased spending for security.

Balance Sheet

At the end of each fiscal year, the Board's actuary calculates the benefits liability for all injuries that have occurred to date. This liability represents the actuarial present value of all future benefits and related administration costs. As at December 31, 2020, this liability was \$171.2 million, an increase of approximately 6.6% over the previous year. The benefits liability increased when compared to 2019 mainly as a result of the change in discount rate and the favourable claims experience incurred in long-term claims in 2019, which resulted in a lower than expected increase in 2019.

The total assets of the Fund increased by \$13.2 million or 5.6% in 2020. The increase in total assets is related mainly to the increase in the value of the investments which were driven by the solid annual returns earned during 2020.

Funded Position

The funding ratio is calculated by dividing the total assets by the total liabilities. Like a pension plan, the Fund must have adequate assets to ensure that benefits can be provided to injured workers both now and well into the future. Reserves are necessary to ensure that the Board can minimize rate volatility, protect the Fund from unforeseen catastrophic events and preserve capital during large downturns in financial markets.

As at December 31, 2020, the funding ratio was 132%, down from 141% in 2019. Due to the strong investment returns in 2020 the Board of Directors authorized a surplus distribution of \$10.2 million.

Outlook

2020 has been a year like no other and overall the Board weathered the storm while ending the year in a strong financial position. The COVID-19 pandemic created tremendous economic damage to certain industries and financial hardship for many individuals. In Yukon, any industry that relies on travel and or tourism has been hit very hard and even as we enter 2021 uncertainty surrounding the pandemic still prevails.

In 2020, after the pandemic struck and governments placed restrictions on workplaces and travel, the Board moved quickly to help alleviate financial hardship to employers by eliminating late-payment penalties and stopping interest on overdue accounts. Working closely with employers, payments were deferred and flexible payment schedules were developed.

2020 brought many challenges that allowed our dedicated staff to showcase our ability to execute under very challenging circumstances. We benefited from our continued investment in our IT infrastructure and major business systems that occurred over the last decade. The Board was able to pivot very quickly when the pandemic struck. We were able to move the majority of our workforce out of the office to their homes and, leveraging our digital assets, we were able to carry on providing our services to our clients with minimal disruption. This was also true for dealing with our stakeholders where physical in-person meetings were switched to "Zoom" virtual meetings. The year 2020 significantly changed how our services were provided and will definitely influence the "new normal" once the pandemic is under control.

As we enter 2021, our robust balance sheet, strong stakeholder relationships and dedicated staff should allow us to adapt to whatever lies ahead. This should allow the Board to maintain affordable rates for our employers, ensure that our future obligations to injured workers can be met and continue to help make all workplaces as safe as possible. Hopefully, the pandemic of 2020, is a once-in-a-hundred-year event!

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The management of the Yukon Workers' Compensation Health and Safety Board (the "Board") is responsible for establishing and maintaining a system of books, records, internal controls and management practices designed to provide reasonable assurance that reliable financial information is produced on a timely basis; Compensation Fund assets are safeguarded and controlled; transactions of the Compensation Fund are in accordance with relevant legislation, regulations and Board policies; the Board's resources are managed efficiently and economically and the operations of the Board are carried out effectively.

Management is also responsible for the integrity and objectivity of the financial statements of the Compensation Fund, including any amounts that must of necessity be based on management's best estimates, experience and judgement. Management is responsible for preparing the accompanying financial statements in accordance with International Financial Reporting Standards. Other financial information included in the Annual Report is consistent with these financial statements.

Members of the Board of Directors are responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Board of Directors exercises its responsibilities through the Finance, Investment, and Audit Committee (the "Committee"). The Committee meets with management and the external auditors on a regular basis. The Committee has reviewed the financial statements and has submitted its report to the Board of Directors, which has approved these financial statements.

The Auditor General of Canada conducts an independent audit for the purpose of expressing her opinion on the financial statements. She also considers whether the transactions that come to her notice in the course of the audit are, in all significant respects, in accordance with specified legislation.

Morneau Shepell, an independent consulting actuarial firm, has completed an actuarial valuation of the benefits liability of the Compensation Fund included in the financial statements and reported thereon in accordance with accepted actuarial practice.

Actuarial Statement of Opinion

I have completed the actuarial valuation of the benefits liability of the Yukon Workers' Compensation Health and Safety Board (the "board") as at December 31, 2020 (the "valuation date"). Details of the data, actuarial assumptions, valuation methods and results are included in the actuarial valuation report as at the valuation date, of which this statement of opinion forms part. In my opinion:

- 1. The data on which the valuation is based were supplied by the board in accordance with specifications provided by us. We applied such checks of reasonableness of the data as we considered appropriate, and have concluded that the data are sufficient and reliable to permit a realistic valuation of the benefits liability.
- 2. The actuarial assumptions adopted in computing the benefits liability are adequate and appropriate for the purpose of the valuation. The economic assumptions are consistent with the funding and investment policies of the board.
- 3. The methods used are appropriate for the purpose of the valuation and are in accordance with accepted actuarial practice for workers' compensation organizations in Canada.
- 4. The estimate of the actuarial liabilities as at the valuation date is \$171,226,000. This includes provisions for benefits expected to be paid after the valuation date for claims that occurred on or before the valuation date. A provision for future claims arising from long latency occupational diseases is included in this valuation. This liability includes future administrative expenses for all benefits, with the exception of the Annuity benefit. It does not include any accrued liability for claims arising from self-insured accounts.
- 5. The liability as at the valuation date for Annuity contributions and interest already set aside by the board up to the valuation date for purposes of providing pension benefits to injured workers was obtained from the board's finance division and is included in item 4 above.
- 6. The amount of the actuarial liabilities makes appropriate provision for all personal injury compensation obligations and the financial statements fairly present the results of the valuation.
- 7. This report has been prepared, and my opinions given, in accordance with accepted actuarial practice in Canada.
- 8. The valuation is based on the provisions of the *Workers' Compensation Act* of the Yukon Territory and on the board's policies and practices in effect on the valuation date.

Office of the Auditor General of Canada Bureau du vérificateur général du Canada

INDEPENDENT AUDITOR'S REPORT

To the Minister responsible for the Compensation Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Compensation Fund, which comprise the statement of financial position as at 31 December 2020, and the statement of operations and comprehensive income, statement of changes in funded position (equity) and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Compensation Fund as at 31 December 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the *Audit of the Financial Statements* section of our report. We are independent of the Compensation Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Yukon Workers' Compensation Health and Safety Board's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Compensation Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Compensation Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Compensation Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Compensation Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty
 exists related to events or conditions that may cast significant doubt on the
 Compensation Fund's ability to continue as a going concern. If we conclude that a
 material uncertainty exists, we are required to draw attention in our auditor's report to the

related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Compensation Fund to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Compliance with Specified Authorities

Opinion

In conjunction with the audit of the financial statements, we have audited transactions of the Compensation Fund coming to our notice for compliance with specified authorities. The specified authorities against which compliance was audited are the *Workers' Compensation Act* and regulations, the *Occupational Health and Safety Act* and regulations, and the *Financial Administration Act* of Yukon and regulations.

In our opinion, the transactions of the Compensation Fund that came to our notice during the audit of the financial statements have complied, in all material respects, with the specified authorities referred to above. Further, as required by the *Workers' Compensation Act*, we report that, in our opinion, the accounting principles in IFRSs have been applied on a basis consistent with that of the preceding year. In addition, in our opinion, proper books of account have been kept by the Compensation Fund and the financial statements are in agreement therewith.

Responsibilities of Management for Compliance with Specified Authorities

Management is responsible for the Compensation Fund's compliance with the specified authorities named above, and for such internal control as management determines is necessary to enable the Compensation Fund to comply with the specified authorities.

Auditor's Responsibilities for the Audit of Compliance with Specified Authorities

Our audit responsibilities include planning and performing procedures to provide an audit opinion and reporting on whether the transactions coming to our notice during the audit of the financial statements are in compliance with the specified authorities referred to above.

David Irving, CPA, CA

Principal

The accompanying notes are an integral part of these financial statements.

1. Reporting Entity

The Compensation Fund (the "Fund") was established by the *Workers' Compensation Act* of Yukon (the "Act") and is administered by the Yukon Workers' Compensation Health and Safety Board (the "Board") pursuant to the Act. In 2008, the Act was amended and received assent in the Legislative Assembly. The effective date of the new Act was July 1, 2008. The Board is exempt from income tax and the goods and services tax.

The Fund, as administered by the Board, provides compensation for injury or death by accidents arising out of and in the course of employment. Annual assessments are levied upon employers by applying their industry assessment rate to their actual or estimated payrolls for the year. The assessment and investment revenue pays for all claims, administration and prevention expenses.

Since 1992, the Board has also been responsible for the administration of the *Occupational Health and Safety Act* and Regulations to advance strategies for preventing workplace injuries in the territory.

The Board, a territorial entity, is domiciled in Canada and has its office at 401 Strickland Street, Whitehorse, Yukon, Canada.

2. Statement of Compliance and Basis of Preparation

These financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS").

The Board of Directors approved and authorized for issue the 2020 financial statements on April 20, 2021.

Basis of Measurement

These financial statements have been prepared on a historical cost basis, except for the following: investments classified as held-for-trading that are measured at fair value, benefits liability and the employee benefits which are both actuarially determined. The Fund's functional currency is the Canadian dollar, which is the currency of the primary economic environment in which the Fund operates, and is also the presentation currency of the financial statements.

All financial information is presented in Canadian dollars and tabular financial information has been rounded to the nearest thousand dollars, unless otherwise stated.

Critical Accounting Estimates and Judgements

The Board makes estimates and judgements in respect of certain key assets and liabilities of the Fund. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

The significant areas of estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are the following:

- Note 7 Investments Valuation of financial instruments
- Note 12 Benefits liability Determination of discount rates and other assumptions
- Note 12 Benefits liability Determination of latent occupational disease provision

The major areas of judgements in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are the following:

- Note 7 Investments Classification of financial instruments
- Note 8 Property and equipment The degree of componentization
- Note 9 Intangible assets The determination of development costs eligible for capitalization
- Note 14(b) The timing of recognition of the surplus distribution

3. Application of New and Revised IFRS

New and revised IFRS issued but not yet effective

IFRS 9 Financial Instruments

IFRS 9 provides a revised model for recognition and measurement of financial instruments and a single, forward-looking 'expected credit loss' impairment model. The standard is effective for annual periods beginning on or after January 1, 2018. The IASB issued amendments to IFRS 4, which provide optional relief to eligible insurers in respect of IFRS 9. Entities whose predominant activity is issuing insurance contracts within the scope of IFRS 17 are provided a temporary exemption to defer the implementation of IFRS 9. The Board will be required to adopt IFRS 9 on January 1, 2023, which aligns with the effective date of IFRS 17.

The Board evaluated its liabilities and concluded that all of the liabilities were predominately connected with insurance. Additionally, the Board has not previously applied any version of IFRS 9; therefore, the Board is an eligible insurer that qualifies for optional relief from the application of IFRS 9. As at January 1, 2018, the Board has elected to apply the optional transitional relief under IFRS 4 that permits the deferral of the adoption of IFRS 9 for eligible insurers. The Board will continue to apply IAS 39 – Financial instruments: Recognition and measurement until January 1, 2023.

With the exemption in place, the Board will continue to classify its investments as held-for- trading and measured at fair value through profit or loss, refer to note 7 for more details.

Accounts receivable is classified as loans and receivables and due to their short-term nature; the carrying value approximates their fair value. Accounts payable, accrued liabilities, and surplus distributions payable are classified as other financial liabilities. All will continue to be measured initially at fair value, and subsequently measured at amortized cost using the effective interest rate method. Credit risk disclosure, including significant credit risk concentrations, are disclosed in note 5.

The Board will continue to assess at year-end whether a receivable is considered to be uncollectible and will write off against the allowance account.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

The impact of applying IFRS 9 is not expected to have a material impact on the Fund's financial statements.

IFRS 17 Insurance Contracts

IFRS 17 *Insurance Contracts* was issued in May 2017. On March 17, 2020, the IASB agreed to the following: to defer the effective date of IFRS 17 to annual reporting periods beginning on or after January 1, 2023; and to extend the fixed expiry date of the temporary exemption from applying IFRS 9 for qualifying insurers (as contained in IFRS 4), so that all entities must apply IFRS 9 for annual reporting periods beginning on or after January 1, 2023. The Board continues to monitor developments and discussion related to this standard. IFRS 17 will replace IFRS 4 *Insurance Contracts* and is expected to change the way insurance contract liabilities are recognized and measured. It will also change the presentation and disclosures of the Fund's financial statements.

The Board is assessing the impact of this standard and expects that it may potentially have a significant effect on the Fund's financial statements.

The Board reviewed all other new or revised standards that were issued but yet not effective for 2020 and concluded that there would be no significant impact on the Fund's financial statements in the future as a result of these revisions.

4. Significant Accounting Policies

The following is a summary of the significant accounting policies:

(a) Cash

For the purposes of the Statement of Financial Position and Statement of Cash Flows, cash includes cash on hand and bank balances net of any bank overdrafts. Foreign currency transactions incurred within operating activities are translated based on the exchange rate at the time of the transaction. Any gains or losses incurred as result of translation are recorded in the Statement of Operations and Comprehensive Income. The cash balance remaining in the account at year-end is translated at the exchange rate in effect as of December 31, 2020.

Cash and short-term investments held by custodians for investment purposes are not available for general use and are included in investments.

(b) Assessments and recoveries and other receipts

Assessment revenue is calculated monthly on actual or estimated payrolls as reported by the employer, or on provisional assessments as determined by the Board. Separate rates of assessment are established for each industry classification. At year-end, assessments receivable and payable are adjusted based on the difference between estimated and actual payrolls.

The Government of Yukon pays certain claims costs to the Compensation Fund for claims prior to 1993 and reimburses the cost of supplementary benefits pursuant to the Yukon Workers' Compensation Supplementary Benefits Ordinance. Supplementary compensation benefits are granted, pursuant to the Yukon Workers' Compensation Supplementary Benefits Ordinance, to all persons receiving compensation on or after October 1, 1973 for accidents prior to that date. Compensation is increased to the amount that would have been granted had the accident occurred after the Act came into force. The cost of these benefits is recovered from the Yukon

Consolidated Revenue Fund. Effective January 1, 1993, all Government employees were covered by the Fund. The Government also reimburses the Compensation Fund for all claims costs associated with those injured workers, who are designated as workers employed by the Government under section 6 of the Act. These amounts are recorded in recoveries and other receipts in the year in which the related expenses are incurred (note 15(a)).

(c) Recoveries from third parties

Since July 1, 2008, under section 51 of the *Workers' Compensation Act*, the Board is deemed to be an assignee of a cause of action in respect of a worker's injury that arose out of a work-related injury. If settled, or as a result of a Court decision, the legal costs and costs associated with the claim create the settlement. Out of the settlement are paid the legal costs, and legal disbursements, and all past, present and future costs. Any funds remaining are paid to the worker. The amount recovered for past, present and future costs is used to pay for future claims benefits, which were previously expensed in accordance with actuarial calculations, and which were previously incorporated in the benefits liability.

Recoveries from third parties are recognized when their receipt is virtually certain and the amount can be reliably measured. They are recorded as a recovery in the year they are recognized. No provision is made in the benefits liability for possible future third party recoveries because of their contingent nature.

(d) Financial instruments

Investments

Investments are classified as held-for-trading because they are acquired for the purpose of selling or repurchasing in the near term and are measured at fair value through profit or loss. The fair value of publicly traded investments is the quoted market price which approximates the bid price at the end of the reporting period. Pooled fund units are valued at their year end net asset value, as determined by the fund manager. Purchases and sales of investments are recognized on the trade date. Short-term investments held by the investment managers for investment purposes are included in Investments.

Net investment income is comprised of realized gains and losses earned in the period arising on the sale of investments; unrealized gains and losses arising from fluctuations in fair value in the period; and dividends and interest earned in the period; net of investment management fees and transaction costs.

Investments denominated in foreign currencies are translated into Canadian dollars at exchange rates prevailing at the end of the year. Income from investments is translated at the rate in effect at the time it is earned. Exchange gains and losses resulting from the translation of foreign currency balances and transactions are recognized in net investment income in the period in which they arise.

The Board does not enter into any financial derivative instruments as part of managing the Fund's investment portfolio.

Other financial assets and liabilities

Accounts receivable are classified as loans and receivables. Accounts payable and accrued liabilities, and surplus distributions payable are classified as other financial liabilities. All are initially measured at fair value, and subsequently measured at amortized cost using the effective interest rate method. Due to the short-term nature of accounts receivable, accounts payable and accrued liabilities, and surplus distributions payable, their carrying values approximate their fair values, which are classified as Level 2 in the fair value hierarchy.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

Fair value hierarchy

The Fund uses the following hierarchy for determining and disclosing the fair value of its financial instruments by valuation technique:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: Other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: Techniques that use inputs which have a significant effect on the recorded fair value which are not based on observable market data.

Changes in valuation methods may result in transfers into or out of an instrument's assigned level. The Board's policy is to recognize transfers into or out of the fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. There were no such transfers between levels in 2020 (2019 – No transfers).

Impairment of financial assets

The carrying amount of accounts receivable is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. The Board assesses at each reporting date whether a financial asset or group of financial assets is impaired. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

Derecognition of financial assets and liabilities

A financial asset is derecognized when the contractual right to the cash flows from the asset expires or if the Board transfers the financial asset and substantially all risk and rewards of ownership to another entity.

Financial liabilities are derecognized when the contractual obligations are discharged, cancelled, or expire.

(e) Property and equipment

Property and equipment are recorded at cost less accumulated depreciation and accumulated impairment. Depreciation is calculated based on the straight-line method, using rates based on the estimated useful lives of the assets as follows:

Buildings and fixtures 10-75 years Furniture and equipment 5-15 years Computer equipment 5-7 years

Where an item of property and equipment is comprised of significant components with different useful lives, the components are accounted for separately.

The estimated useful life, residual value and depreciation method is reviewed at each year-end and any change in estimate is made on a prospective basis.

(f) Intangible assets

Intangible assets are comprised of purchased software and internally developed software systems.

Research costs are expensed as incurred. Development costs of internally developed software systems are capitalized when the system is technically feasible, resources are available, costs can be measured reliably, management intends to use the asset and future economic benefits are probable. The asset is derecognized when it no longer meets these criteria. Salaries, wages and benefits directly related to internally developed software systems are included in the asset's cost. When the asset is substantially complete and is available for use, development costs capitalization ceases and the costs are transferred to the related asset category and amortized.

Intangible assets are recorded at cost less accumulated amortization and accumulated impairment. Amortization is calculated based on the straight-line method, using rates based on the estimated useful lives of the assets as follows:

Systems and software 5-25 years

The estimated useful life and amortization period is reviewed at each year end and any change in estimate is made on a prospective basis.

(g) Impairment of non-financial assets

IAS 36 *Impairment of Assets* requires an entity to test assets for impairment if indicators of impairment exist. The impairment review must be conducted for an individual asset, an asset group, or the cash-generating unit level, which is the smallest identifiable group of assets that generates cash inflows independent of cash inflows from other assets or groups of assets.

Based on an analysis of cash flows, the Board has established that the appropriate cash generating unit for impairment review is the entity. The Board has statutory power under the Act to increase premiums and/or charge a premium surcharge to ensure full funding into the foreseeable future and therefore, the likelihood of impairment at the entity level is remote.

Individual assets that may have experienced impairment due to loss, damage, obsolescence or curtailed service potential are reviewed and the estimated useful life, depreciation method and residual value are adjusted.

The Board assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Board estimates the asset's recoverable amount. As at December 31, 2020, management conducted an impairment review at the entity level, which confirmed that there were no indicators of impairment—changes in the legislative, economic or business environment—that would have a material impact on the Board's ability to generate future economic benefits from its operating (non-financial) assets.

(h) Government grants

There are two types of government grants which include government grants related to expenses and government grants related to assets. Government grants related to expenses are recognized as income when there is reasonable assurance that the conditions attached to the grant will be complied with and the grant will

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

be received. When the grant relates to an asset, it is recognized as deferred income and is released into income in equal amounts over the expected useful life of the related asset.

In 2005, the Government of Yukon approved the reinstatement of ongoing funding for the Mine Safety Program (the "Program") through an annual grant to the Fund. The Program, which was transferred to the Board in 1993, provides mine rescue training and support services as well as mine safety inspection services. The funding is to be reviewed by the Government, at a minimum, every five years. The grant is accounted for as income in the period in which the related expenses are incurred (note 11).

In 2011, the Board signed an agreement with the Government of Yukon which provides the Fund with funding for the purpose of upgrading mine safety equipment. The grant is accounted for as deferred income and released into income over the expected useful life of the equipment (note 11).

(i) Benefits liability

The benefits liability is determined annually and represents the actuarial present value of all future benefit payments expected to be made for claims which have occurred in the current fiscal year or in any prior year. The benefits liability includes a provision for future payments on claims that have not been finalized to date. It also includes a provision for all benefits provided by current legislation, policies and administrative practices in respect of existing claims as well as future claims management costs. A provision has been made for claims related to known latent occupational diseases which may have occurred in the current or previous years, but which may not be recognized and reported for a number of years due to the extended latency period of such diseases. Due to the nature of the estimated liability for long latent occupational diseases and the extent of related historical claims information available, this liability is more uncertain by its nature than other benefits liabilities (note 12).

The benefits liability is comprised of four liabilities—medical aid, compensation, pension, and annuity:

- Medical aid includes benefits for medical aid, emergency transportation, traditional Aboriginal healing, death and funeral expenses, lump sum payments for permanent impairment, and rehabilitation assistance.
- Compensation includes income amounts that are paid to all eligible workers who suffer a work-related injury, incapacity or occupational disease that has resulted in a loss of earnings.
- The pension liability includes monthly pension benefits indexed annually that are paid to spouses, dependent children and guardians of dependent children of those who die from a work-related injury.
- The annuity liability is for workers who have received compensation for the same disability for at least 24 months. An amount equal to ten percent of the total compensation payments, plus interest, is set aside to provide a retirement annuity when a worker becomes entitled to apply for Old Age Security benefits.

Many assumptions are required to calculate the benefits liability, including estimates of future inflation, interest rates and mortality rates. The benefits liability is determined annually by an independent actuarial valuation. The Actuarial Statement of Opinion on the adequacy and appropriateness of the benefits liability is attached to these financial statements.

A portion of administration and general expenses is allocated as claims management costs to the current year's claims and the prior years' claims. The amount allocated to claims is reviewed by the independent actuary for reasonableness as part of the annual actuarial valuation of the benefits liability.

(j) Employee benefits

Short-term employee benefits

Employee benefits that are expected to be settled within twelve months of the reporting date are measured on an undiscounted basis. These benefits include annual vacation leave earned but not yet used.

Other long-term employee benefits

Benefits that are expected to be settled beyond twelve months are determined based on an actuarial valuation as the best estimate of future cash flows discounted to present value with actuarial gains and losses recognized in profit and loss as incurred. These benefits include long service vacation leave, sick leave and special leave benefits earned but not used.

Post-employment benefits

(i) Retirement and severance benefits

Retirement or severance benefits are available to employees who have completed five years of service with the Board. Payments are made upon retirement or termination, with benefits increasing with additional length of service. The benefit obligation is determined based on an actuarial valuation using estimates of future inflation and interest rates. Actuarial gains and losses are recognized in other comprehensive income as incurred. The obligation is calculated using the projected unit credit method prorated on service.

(ii) Public Service Pension Plan

Substantially all of the employees of the Board are covered by the Public Service Pension Plan (the "Plan"), a multi-employer contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both employees and the Fund to cover current service cost. Pursuant to legislation currently in place, the Fund has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Fund.

(k) Funding policy surplus distributions

The Board may issue surplus distributions in accordance with its Funding Policy. These are recorded as an expense in the period in which they are approved by the Board of Directors. Surplus distributions that are approved but not issued are recorded as payable when an obligation exists, when the amount of such distributions can be reliably estimated and when it is probable a payment will be issued in the future to settle the obligation.

5. Risk Management

The Fund has exposure to the following financial risks: credit risk, liquidity risk and market risk (which also includes inflation risk, interest rate risk and currency risk). The Fund's exposure to these risks arises primarily in relation to its investment portfolio, but also in relation to its other financial assets and financial liabilities.

The Board's management is responsible for monitoring performance and recommending changes to the Investment Policy. The Board of Directors is ultimately responsible for governance and strategic direction of the investment portfolio through its review and approval of the Investment Policy and selection of investment managers. The investment managers' compliance with this Investment Policy is monitored on a regular basis. Quarterly, independent consultants benchmark the performance of the Fund's investment managers and advise on the appropriateness and effectiveness of the Fund's Investment Policy and practices.

The following sections present information about the Fund's exposure to each of the above risks and the Board's objectives, policies and processes for measuring and managing each risk. There were no changes to these risks or the Board's objectives, policies and process for managing them during the year ended December 31, 2020.

Credit risk

Credit risk on financial instruments arises from the possibility that the issuer of a fixed-term instrument fails to meet its obligations. Excess cash is held on deposit with the Government of Yukon's banker. Short-term deposits with this bank are rated as R-1 (high). To manage this risk, the Board, as prescribed in the Investment Policy, has determined that cash and cash equivalents held in the investment portfolio and short-term investments must have a credit rating of at least R1L, and long-term investments require a rating of BBB or higher by the Dominion Bond Rating Service or the equivalent rating by Moody's, in order to be eligible for consideration as an investment. Diversification of credit risk is managed by limiting the exposure in a single private institution to 15% of the portfolio. The Board has stayed within these guidelines during the year.

Fixed Income Portfolio Credit Ratings

Ratings		AAA		AA		Α		BBB	 -Dec-20 \$000's)	 -Dec-19 \$000's)	
· ·	Φ.	04.007	Φ.	04.000	Φ.	00.040	Φ.		 , ,	 · , , , , , , , , , , , , , , , , , , ,	
Fixed Income Securities	\$	31,807	\$	31,903	\$	20,048	\$	9,244	\$ 93,002	\$ 92,488	

The Fund's exposure to credit risk associated with its accounts receivable is the risk that an employer or a cost recovery customer (the "customer") will be unable to pay amounts due to the Fund. The Fund's maximum exposure to credit risk associated with its accounts receivable is \$2,683,000 (2019 – \$2,858,000). An estimated allowance for doubtful accounts has been recorded for accounts receivable that may not be collectible as at the reporting date. The amounts disclosed on the Statement of Financial Position are net of these allowances for doubtful accounts. At December 31, 2020, there were no accounts receivable that were past due but not impaired. The Board takes into consideration payment and collections history, and the current economic environment in which the Board operates to assess impairment. The Board recognizes a bad debt provision when management considers that the expected recovery is less than the carrying amount receivable.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

The Board believes that the credit risk of accounts receivable is mitigated by the following:

- i. The employer base is dispersed across various industries, with government comprising a significant concentration. The non-government-based employers may be affected by any downturns due to prevailing economic conditions.
- ii. As at December 31, 2020, approximately 93% (2019 94%) of accounts receivable were outstanding for less than 90 days. The Board does not require collateral or other security from employers or customers for accounts receivable.
- iii. The Board has the power and remedies to enforce payment owing to the Fund.

Liquidity risk

Liquidity risk is the risk that the Fund is not able to meet its financial obligations as they become due or can do so only at excessive cost. The Fund's operations are financed through a combination of the cash flows from operations and investments. One of management's primary goals is to maintain an optimal level of liquidity through the active management of the assets and liabilities as well as the cash flows.

The Fund has access to the Government of Yukon's overall line of credit facility with the Government's banker. This access provides the Fund with overdraft coverage of \$7,000,000 if needed. As of December 31, 2020 the Fund had used nil of the overdraft coverage (nil - 2019).

The Fund's accounts payable and accrued liabilities had a carrying value of \$5,079,000 as at December 31, 2020, (2019 – \$4,850,000) and were all payable within a year.

The Fund's surplus distributions payable had a carrying value of \$10,220,000 as at December 31, 2020 (2019 - nil) (note 14).

Liquidity risk related to the benefits liability is included in note 12 (f).

Market risk

The Fund is exposed to market risk, which is the risk that the fair value or future cash flows of its investments will fluctuate in the future because of economic conditions. Market risk is managed through diversification between different asset classes and geographic diversification and by limiting the concentration in any single entity to 15 per cent or less of the fair value of the investment fund (note 7).

The table below presents the Fund's investment targets and actual asset mix at fair value:

	Targ	get	Actu	ual
	Minimum	Minimum Maximum 3		31-Dec-19
Equities				
Canadian	0%	25%	18.3%	17.5%
United States	0%	25%	19.4%	17.4%
International	0%	25%	20.2%	20.8%
Fixed Income				
Short-term investments	0%	10%	1.7%	2.3%
Bonds	35%	85%	40.4%	42.0%
			100.0%	100.0%

The table below presents the effect of a material adverse change in the fair value of each of the categories of equities in the Fund's investments portfolio on operating results and equity:

	31-Dec-20 (\$000's)			31-Dec-19 (\$000's)		
Percentage decrease in fair value	-10%	-20%		-10%	-20%	
Equities						
Canadian	\$ (4,216)	\$ (8,432)	\$	(3,853) \$	(7,707)	
United States	(4,466)	(8,933)		(3,839)	(7,678)	
International	(4,662)	(9,323)		(4,575)	(9,151)	
Total impact on operating results and equity	\$ (13,344)	\$ (26,688)	\$	(12,267) \$	(24,536)	

Inflation risk

Inflation risk is the risk that a general increase in price level may result in loss of future purchasing power of current monetary assets. The Board manages inflation risk through its investment allocation between equities and fixed income investments.

Interest rate risk

Interest rate risk is the risk that the value of a financial security will fluctuate due to changes in market interest rates. The Fund's investment portfolio is exposed to interest rate risk through its holdings of short and long-term fixed income investments. Interest rate risk is minimized by actively managing the duration of the fixed income investments.

The table below presents the effects of a 50 and 100 basis point ("bp") 1 adverse change in the nominal interest rate on the fair value of the bond portfolio on operating results and equity.

	31-Dec-20 (\$000's)			31-Dec -′ (\$000's		
Positive bp change in nominal interest rate		+50bp	+100bp	 +50bp	+100bp	
Bonds	\$	(3,355) \$	(6,711)	\$ (3,253) \$	(6,505)	
Total impact on operating results and equity	\$	(3,355) \$	(6,711)	\$ (3,253) \$	(6,505)	

⁽¹⁾ One basis point (bp) equals 1/100 of 1%; 50 bps = 50/100 of 1%, or 0.5%.

In the event the nominal interest rates decrease by 50 and 100 basis points, the impact will be equal and opposite to the above stated values.

The table below presents the remaining terms to maturity at fair value, along with the average effective yields for each maturity, for fixed income investments exposed to inflation and interest rate risk.

								31	-Dec-20	31	-Dec-19
	Rem	nai	ning term	ı to	maturity	<i>ı</i> (1	l)	(\$000's)	(\$000's)
	<1 year		1 - 5 years	5	- 10 years		>10 years		Total		Total
Bonds	\$ 3,438	\$	39,239	\$	25,102	\$	25,223	\$	93,002	\$	92,488
Average effective yield	1.14%		0.64%		1.23%		2.12%		1.22%		2.32%

⁽¹⁾ Maturity is defined as the earliest a bond can be redeemed without penalty by the bond issuer.

The Fund is also exposed to the risk that interest rate movements may materially impact the value of its benefits liability (note 12(e)).

Currency risk

Currency risk is the risk that the value of financial assets and financial liabilities denominated in foreign currencies will fluctuate due to changes in their respective exchange rates relative to the Canadian dollar.

The Fund is exposed to exchange rate volatility that is managed by the contracted fund managers. The Board does not undertake long-term hedging strategies for the currency risk of foreign investments. The Fund's most significant exposure is to the US dollar, Euro, British pound, Swiss franc, and the Japanese yen. At December 31, the Fund held foreign currency denominated holdings, at fair value as follows:

Currency	-Dec-20 \$000's)	31-Dec-19 (\$000's)		
USdollar	\$ 48,257	\$	44,818	
Euro	\$ 13,740	\$	14,613	
Swiss franc	\$ 7,502	\$	5,745	
British pound	\$ 6,696	\$	7,538	
Japanese yen	\$ 6,434	\$	5,823	

Notes to the Financial Statements / December 31, 2020

The sensitivity analysis below presents the effect of a 10 per cent appreciation in the Canadian dollar as compared to the US dollar, Euro, British pound, Swiss franc, and the Japanese yen on operating results and equity:

Currency	-Dec-20 \$000's)	31-Dec-19 (\$000's)		
USdollar	\$ (4,387)	\$	(4,074)	
Euro	\$ (1,249)	\$	(1,328)	
Swiss franc	\$ (682)	\$	(522)	
British pound	\$ (609)	\$	(685)	
Japanese yen	\$ (585)	\$	(529)	

In the event there is a 10 per cent depreciation in the Canadian dollar, the impact will be equal and opposite to the above stated values.

6. Accounts Receivable

	31-Dec-20 (\$000s)		 - Dec-19 \$000s)
Assessments			
Assessed and due from employers	\$	2,703	\$ 2,220
Allowance for doubtful accounts		(135)	(67)
	\$	2,568	\$ 2,153
Other			
Other receivables and recoveries	\$	139	\$ 751
Allowance for doubtful accounts		(24)	(46)
		115	\$ 705
	\$	2,683	\$ 2,858

Included in other receivables and recoveries are amounts due from the Government of Yukon, which are disclosed in note 15.

Reconciliation of allowance for doubtful accounts

The allowance for doubtful accounts is a provision for potential credit losses and amounts are subsequently written off once reasonable collection efforts have been made. The allowance details are as follows:

	 Dec-20 000's)	31-Dec-19 (\$000's)		
Balance, beginning of year	\$ 113	\$	305	
Accounts written off	(23)		(118)	
Recoveries and other adjustments	(5)		(201)	
Current year provision	74		127	
Balance, end of year	\$ 159	\$	113	

7. Investments

The Board of Directors has established an Investment Policy for the management of the investment process, utilizing external investment managers. The investment managers' compliance with this Investment Policy is monitored on a regular basis.

		-Dec-20 (\$000s)		-Dec-19 (\$000s)
	F	air Value	F	air Value

	\$	230,366	\$	220,237

Net investment income (loss) for the year ended December 31 consisted of the following:

	2020 (\$000s)				
Interest	\$	2,587	\$	2,746	
Dividends		2,689		3,193	
Realized gains in the year		5,475		3,300	
Unrealized gain in fair value in the year		7,091		14,520	
Investment management fees		(758)		(740)	
	\$	17,084	\$	23,019	

Fair Value Hierarchy

The Fund's investments are categorized into the fair value hierarchy based on type, frequency and visibility of pricing, source of pricing and liquidity. There are three levels of classification:

Level 1 classification reflects public daily market or quote pricing with a good volume level.

Level 2 classification is used when pricing is:

- a) model or matrix based (using observable inputs and/or market information);
- b) based on closely-related securities;
- c) derived pricing (when no public quote exists); or
- d) from a broker quote on less active markets.

Level 3 security would have no public pricing and poor to non-existent liquidity.

As at December 31, 2020, the Fund held the following financial instruments measured at fair value:

System research and analysis costs expensed in 2020 were \$18,000 (2019 – \$14,000).

⁽¹⁾ Included in internal software development costs is the claims management system which has a net book value of \$1,458,000 (2019 - \$765,000) and a remaining amortization period of 6 years.

(In Canadian Dollars)

10. Accounts Payable and Accrued Liabilities

	~ -	Dec-20 (000s)	 Dec-19 (6000s)
Payable			
Assessments refundable	\$	2,776	\$ 2,716
Other payables and accrued liabilities		2,303	2,134
	\$	5,079	\$ 4,850

Included in other payables and accrued liabilities are amounts due to the Government of Yukon, which are disclosed in note 15.

11. Government Grants

In 2020, the Fund received \$330,000 for the Mine Safety Program Grant (2019 - \$330,000). This was accounted for as income in the period.

The deferred portion of the government grant as at December 31, 2020 was \$36,000 (2019 - \$72,000) and \$36,000 (2019 - \$37,500) was expensed and released into income during the year.

There are no unfulfilled conditions or contingencies attached to these grants.

12. Benefits Liability

The following is an actuarial reconciliation of the changes in the benefits liability during the years ended December 31:

	2020 (\$ 000's)	2019 (\$ 000's)
Balance, beginning of year	\$ 160,659	\$ 155,499
Add: Provision for gurrent year's daims	11.548	10.790
Provision for current year's daims Interest allocated	8,132	8.028
Experience loss (gain)	4,754	(648)
	24,434	18,170
Deduct:		
Payments for prior years' daims	13,867	13,010
Balance, end of year	\$ 171,226	\$ 160,659

(a) Objectives in managing risks arising from insurance contracts and policies for mitigating those risks

The Board has an objective to control insurance risk, thus reducing the volatility of operating results. In addition, due to the inherent uncertainty of insurance risk, which can lead to significant variability in the loss experience, operating results from the Fund's workers' compensation business are affected by market factors, particularly movements in asset values. Short-term variability is, to some extent, a feature of the workers' compensation business.

Key aspects of processes established to mitigate insurance risks include:

- The maintenance and use of management information systems, which provide data on the risks to which the Fund is exposed to at any point in time;
- Actuarial models, using information from the management information system, are used to monitor claims patterns and calculate assessment premiums. Past experience and statistical methods are used as part of the process; and
- The asset mix of the Fund investments is driven by the nature and term of insurance liabilities. The management of assets and liabilities is closely monitored to attempt to match maturity dates of assets with the expected pattern of claim payments.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

(b) Terms and conditions of the Act

The terms and conditions attaching to the Act affect the level of insurance risk accepted by the Fund. All workers' compensation coverage entered into is subject to substantially the same terms and conditions under the Act.

(c) Concentration of insurance risk

The Fund's exposure to insurance risk is due to workplace injury caused through an event or disaster that occurred during the reporting period, and/or occupational diseases diagnosed during the reporting period. The Fund's benefits liability includes an amount estimated to cover any such occurrences. This figure is reviewed on an annual basis. The Fund's risk is concentrated by industry as some industries have higher claims experience costs than other industries and is mitigated by higher assessments being charged to industries with proven higher experience costs.

(d) Development of claims

There is a possibility that changes may occur in the estimate of the Fund's obligations over time. The tables in part (i) of this note show the estimates of total net and gross claims outstanding for each underwriting year at successive year ends.

(e) Interest rate risk

The Fund is exposed to the risk that interest rate movements may materially impact the value of the benefits liability. The financial impact of changing interest rates on the benefits liability is expected to be offset in the longer term by similar changes in claims inflation.

The discount rate being applied to future claims payments in determining the valuation of the benefits liability is disclosed in part (g) of this note.

The exposure to interest rate risk and the effective weighted average interest rate for classes of financial assets is set out in note 5.

(f) Liquidity risk

The Fund's exposure to liquidity risk is set out in note 5.

The following table estimates the expected amounts and timing of future benefit payments for the provision of outstanding claims. The expected timing of payments from the provision for outstanding claims involves considerable uncertainty. The projections presented below do not include a provision for future administration expenses or latent occupational diseases.

2010

Expected timing of future payments for outstanding claims:

Up to 1 year	5%	5%
Over 1 year and up to 5 years	15%	15%
Over 5 years and up to 10 years	18%	19%
Over 10 years	62%	61%
Total	100%	100%

2020

(g) Actuarial assumptions and methods

The key actuarial assumptions used to value the benefits liability are as follows:

	31-Dec-20	31-Dec-19
Discount rate for medical aid benefits - net (1,3,4)	0.40%	0.70%
Discount rate for compensation benefits - net (2,3,4)	2.90%	3.15%
Discount rate for survivor and other pension benefits - net (2,4)	2.90%	3.15%

- (1) Net of discount rate attributable to inflation of 4.75% (2019 4.75%).
- (2) Net of discount rate attributable to inflation of 2.25% (2019 2.25%).
- (3) The same discount rates are attributable to the applicable components of the occupational disease provision.
- (4) The gross discount rate is 5.15% (2019 5.50%).

The benefits liability was determined using accepted actuarial practice in accordance with standards established by the Canadian Institute of Actuaries. The actuarial present value of future benefits reflects management's and the actuary's best estimates of long-term economic and actuarial assumptions.

The overall valuation approach is designed to reflect emerging trends without placing too much emphasis on temporary fluctuations. The factors used in the valuation have been developed on a best-estimate basis, without margins for adverse deviations, by taking the Board's historical experience into consideration along with recent trends in that experience. The general philosophy is to avoid reacting too strongly to temporary fluctuations until there is sufficient evidence that a change in assumption is required. By waiting until a clear trend has emerged, this reduces the likelihood of larger liability adjustments than warranted, both positive and negative, and unstable financial results.

The degree to which the valuation reflects trends is partly impacted by formulas intended to place the appropriate amount of weight on observed experience for each recent year and partly affected by professional judgement based on observation of payment and claiming trends, including discussions with the Board's staff about the underlying factors that might be causing an observed trend.

The Medical Aid liability represents the present value of expected future benefit payments for medical services in respect of all claims arising from injuries that occurred on or before December 31, 2020. Medical services include hospital and physician services, prescription drugs, travel expenses and other eligible medical services under the Act.

The Short Term Compensation liability represents the present value of expected future short-term loss of earnings payments in the first seven years of a claim for injuries that occurred on or before December 31, 2020.

Notes to the Financial Statements / December 31, 2020

(In Canadian Dollars)

The Short Term Compensation liability is included in the Compensation liability category for financial reporting purposes.

The Medical Aid and Short Term Compensation liabilities are calculated using the loss development method also known as the "claims run-off" approach. In this method, historical paid claims data are summarized by injury year and payment year in order to observe the relationships between payments at different durations for each injury year. Historical factors, at each duration, are developed from prior injury years and are applied to injury years that are not yet fully mature in order to estimate the future timing and amount of remaining benefit payments. A provision with respect to the 10 per cent annuity contribution required on loss of earnings benefits paid beyond 24 months is included in the Short Term Compensation liability.

The Long Term Compensation liability represents the present value of expected future long-term loss of earnings payments for injury years 2014 and prior, including future inflationary adjustments, for individuals still in receipt of a long-term loss of earnings award at December 31, 2020. The Long Term Compensation liability is calculated on a seriatim, or individual basis using the discounted cash flow method. Loss of earnings benefits are indexed annually in the month following the anniversary of the date of when the injured worker's loss of earnings began. Mortality rates are used to determine the future life expectancy of individuals in receipt of a long-term loss of earnings award. A provision with respect to the 10 per cent annuity contribution required on loss of earnings benefits paid beyond 24 months is included in the Long Term Compensation liability. The Long Term Compensation is included in the Compensation liability for financial reporting purposes.

The Pension liability represents the present value of expected future pension payments, including future inflationary adjustments, to individuals who have been approved for a pension or survivor award at December 31, 2020. The Pension liability is calculated on a seriatim basis using the discounted cash flow method. Pension benefits are indexed annually on January 1st of each year. Mortality rates are used to determine the future life expectancy of individuals in receipt of a pension award.

The Future Long Term Compensation liability represents the present value of future long-term loss of earnings awards that have not yet reached long-term status as of December 31, 2020. These future awards are in respect of all claims arising from injuries which occurred on or before December 31, 2020. The estimated number and timing of these future awards has been developed based on the historical emergence of claims. In addition, the expected cost of each claim has been developed based on actual long-term awards approved prior to December 31, 2020. A provision with respect to the 10 per cent annuity contribution required on future loss of earnings benefits paid beyond 24 months following injury is included in the Future Long Term Compensation liability. The Future Long Term Compensation liability is included in the Compensation liability category for financial reporting purposes.

The Occupational Disease provision represents a portion of the present value of the expected future cost of claims that have not yet been filed but are expected to manifest themselves in the future as a result of cumulative exposure to a causative agent in the workplace (i.e. long latency cases). Only a portion of the total provision is held based on the accumulated exposure up to the valuation date relative to total exposure before an occupational disease manifests itself. Occupational diseases differ from occupational injuries in that there can be a considerable time lag between the exposure, the manifestation of the disease and the identification of the ensuing disability as a workers' compensation claim. Furthermore, while the circumstances of an injury usually make it clear whether it is work-related or not, the link between an occupational disease and the workplace may be difficult to establish.

The discount rate is used to calculate the present value of expected future payments.

The administration rate represents the present value of the expected future costs required to provide administrative services for the continuation of claims management and maintenance of existing claims. The administration rate applied at December 31, 2020 is 15% (15% for December 31, 2019), and is applied to all liability components with the exception of the Annuity liability.

As these assumptions may change over time to reflect underlying economic or legislated conditions, it is possible that such changes could cause a material change to the actuarial present value of future benefit payments.

The significant changes in the benefits liability for experience gains or losses as at December 31 were:

	Increase (decrease) in benefits liability					
	2020 (\$000s)			2019 (\$000s)		
Change in runoff factors Update of first year inflation Other changes in actuarial assumptions	\$	(616) (607) 4,854	\$	(880) (210) 3,321		
Favourable daims experience during year	\$	3,631 -	\$	2,231 (3,275)		
Actual versus expected daims paid on prior years' injuries	\$	3,631 1,123 4,754	\$	(1,044) 396 (648)		
		.,	-	(0.0)		

(h) Liability sensitivity

The most significant assumption in the determination of the benefits liability is the net discount rate. The net discount rate is the assumed rate of return in excess of the assumed inflation rate. A reduction in the net discount rate would increase the actuarial present value of the benefits liability resulting in an increase in claims expense and benefits liability. An increase in the discount rate would decrease the actuarial present value, resulting in a decrease in claims expense and benefits liability.

Medical benefits represent approximately 16% (2019 - 19%) of the benefits liability. A change in the assumed excess medical inflation rate (above the assumed inflation rate) and the net discount rate would result in a change in claims expense and the benefits liability as follows:

Percentage change in assumed rates
Increase (decrease) in daims expense and benefits
liability from change in net discount rate
Increase (decrease) in daims expense and benefits
liability from change in excess medical inflation rate

	31-Dec-	20	31-Dec-19				
	(\$000s	s)	(\$000s)				
	+1%	-1%		+1%	-1%		
\$	(14,289) \$	16,927	\$	(13,269) \$	14,874		
	4,139	(2,617)		3,512	(2,970)		

(i) Claims Development

The following table shows the development of claims cost estimates for the nine most recent injury years:

Estimate of Ultimate											
Claim	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	Total
Payments	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)	(\$000s)
At end of accident year	26,540	29,113	23,197	24,833	24,832	19,145	18,850	21,312	25,648	21,869	(+,

Balance Sheet	Liability										171,226

During the year ended December 31, 2020, the Investigations Unit continued to monitor ongoing investigations. The outcome of the investigations is not determinable at this time and therefore, the potential future effect of these claims is not reflected in the benefits liability.

13. Employee Benefits

	 Dec-20 (000s)	31-Dec-19 (\$000s)		
Short-term employee benefits Other long-term employee benefits (a) Post-employment benefits (b)	\$ \$ 725 1,221 2.010		583 1,081 1,743	
	\$ 3,956	\$	3,407	

Short-term benefits included in the above amounts are expected to be paid within the next 12 months.

(a) Other Long-term Employee Benefits

Long service vacation leave is an additional five days of vacation leave available to employees who have completed five years of continuous service with the Board and on each five year anniversary date thereafter.

Employees receive six days of special leave credits for each year of service up to a maximum of 30 days. Unused special leave is not payable upon termination or retirement.

Unused sick leave credits accumulate and are carried forward to a maximum of 180 days. A retiring employee may convert up to one third as pre-retirement leave.

The balance in the liability accrual for accumulating sick and special leave benefits and long service vacation for the year was:

	 - Dec-20 \$000s)	31-Dec-19 (\$000s)		
Long service vacation benefits Accumulating sick and special leave benefits	\$ 62 1,159	\$	50 1,031	
Total	\$ 1,221	\$	1,081	

The movement in the accrual for other long-term benefits for the year was:

	(9	2019 (\$000s)		
Benefits, beginning of the year	\$	1,081	\$	992
Current service cost		85		76
Payments made during the year		(72)		(135)
Interest cost		29		33
Other changes		31		60
Actuarial loss		67		55
Benefits, end of the year	\$	1,221	\$	1,081

Actuarial loss remeasurements:

	2020 (\$000s)			019 000s)
Effect of changes in financial assumptions Effect of changes in demographic assumptions	\$	67 -	\$	33 22
Remeasurements loss in profit or loss	\$	67	\$	55

(b) Post-employment Benefits

(i) Retirement and Severance Benefit

Retirement or severance benefits are available to employees who have completed five years of service with the Board. Retirement benefits are one week of pay for each year of service. Severance benefits are half a week of pay for each year of service to a maximum of twenty-eight weeks.

Beginning January 1, 2020, management employees are no longer eligible to receive any further accruals related to severance payable on resignation or retirement. Severance entitlements accrued up to December 31, 2019, are payable upon resignation or retirement.

The movement in the accrual for retirement and severance benefits for the year was:

	2020 6000s)	2019 (\$000s)		
Benefits, beginning of the year	\$ 1,743	\$	1,571	
Current service cost	93		105	
Payments made during the year	-		(55)	
Interest cost	51		58	
Other changes	6		73	
Actuarial (gain) loss	117		(9)	
Benefits, end of the year	\$ 2,010	\$	1,743	

Actuarial (gain) loss remeasurements:

	_	020 000s)	2019 (\$000s)		
Effect of changes in financial assumptions Effect of changes in demographic assumptions	\$	117	\$	64 (27)	
Effect of changes in the management benefits plan Remeasurements (gain) loss in other comprehensive income	\$	- 117	\$	(46) (9)	

The plan is not pre-funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation. The risk of default is low as the Fund is in a strong financial position.

The key assumptions used to calculate the retirement and severance benefit are the discount rate and the wage inflation rate. The discount rate of 1.90% (2019-2.80%) is selected by reference to a spot curve at the valuation date of high-quality corporate and provincial debt instruments with cash flows that match the timing and amount of the expected benefit payments. The annual rate of general escalation in wages is 1.75% for 2021 based on negotiated wage increases and 2.0% for 2022 and beyond (2019-1.75 for 2020 and 2021 and 2.0% for 2022 onwards) based on management's best estimate.

The expected Fund contributions for retirement and severance for the next year are \$437,000 (2019 – \$281,000). The weighted average duration of the retirement and severance benefit is 7.0 years (2019 – 6.5 years).

(ii) Retirement and Severance Benefit Risks and Sensitivity

The retirement and severance benefit is indirectly exposed to measurement risk from assumptions based on economic factors and uncertainty of future economic conditions, such as discount rates affected by volatile bond markets and inflation risk due to payment timing uncertainty. Demographic factors such as workforce average age and earnings levels, attrition and retirement rates affect current and future benefit costs due to the amount and timing of expected payments.

A change in the key assumptions used to calculate these benefits would result in a change in the obligation and benefit expense as follows:

	31-Dec-20				31-Dec-19			
		(\$00	00s)			(\$00)0s)	
Percentage change in assumed rates		+1%		-1%		+1%		-1%
Discount rate	\$	(130)	\$	147	\$	(117)	\$	132
Wage Inflation rate	\$	145	\$	(131)	\$	132	\$	(119)

The above sensitivity analysis is based on a change in an assumption while keeping all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. The same method of calculation has been applied to the sensitivity analysis as to the calculation of the retirement and severance benefit obligation, the projected unit credit method, and did not change compared to the prior year.

(iii) Public Service Pension Plan

Substantially all of the employees of the Board are covered by the Public Service Pension Plan (the "Plan"), a multi-employer contributory defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both employees and the Fund. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution.

The employer contribution rates effective for the year were as follows:

	20	20	2019		
Contribution rate for the year	Up to	Above	Up to	Above	
Contribution rate for the year	Maximum	Maximum	Maximum	Maximum	
For employees eligible before January 1, 2013	1.01	3.80	1.01	3.79	
For employees eligible after January 1, 2013	1.00	3.80	1.00	3.79	
Maximum salary limit	\$ 173,000	No limit	\$ 169,300	No limit	

The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of two per cent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation. For employees joining the plan after January 1, 2013, the normal retirement age has been raised from age 60 to age 65.

Contributions made to the Public Service Pension Plan by the Fund and the employees for the year were as follows:

	2	2019		
Employees' contributions	(\$0	(\$000s)		
Employees' contributions	\$	791	\$	741
Fund contributions	\$	800	\$	747

The expected contributions to the Plan for the next year are \$764,000 (2020 - \$723,000) employee contributions and \$785,000 (2020 - \$741,000) Fund contributions.

(c) Benefit Expense

Benefit expense recognized in salaries and benefits within administration expenses in the Statement of Operations and Comprehensive Income for other long-term employee benefits and post-employment benefits was \$1,162,000 in 2020 (2019 - \$1,207,000).

14. Capital Management, Surplus Distributions and Reserves

(a) Capital Management

The Workers' Compensation Act establishes that one of the purposes of the Act is to maintain a solvent Compensation Fund managed in the interest of workers and employers. To ensure that the Fund is able to meet its financial obligations, premiums charged to employers over time must be sufficient to cover current and future costs of all claims incurred by injured workers. These assessment revenues, combined with investment returns from the Fund's assets, are designed to provide the foundation for the Fund to meet all current and future obligations for injured workers.

The Board of Directors considers that capital is the net difference between assets and liabilities. There have been no changes in the objectives and definition of capital from the previous period. The Fund does not have any external capital requirements. The reserves are established to protect the fully funded position of the Fund and to stabilize the effect of fluctuations in the employer assessment rates and investment returns. At the end of the fiscal year, once the benefits liability is determined, the net difference between the Fund's assets and liabilities is allocated to reserves.

The Board of Directors uses the Funding Ratio (Assets/Liabilities) to manage capital. At December 31, 2020, the Funding Ratio was 132% (2019-141%). Management's funding target ratio is between 121% and 129%, which ensures that the Fund remains fully funded plus sustains the Adverse Events and Stabilization Reserves' target funding levels. The Fund is considered fully funded when there are sufficient funds for the payment of all present and future compensation, and other liabilities, including the cost of administration.

31-Dec-20 31-Dec-19

(b) Surplus Distributions

In 2020, in order to bring the funding ratio closer to target, the Board of Directors approved a surplus distribution of \$10,220,000 to be paid in 2021 to eligible employers. (2019 - \$ nil)

Reconciliation of funding policy surplus distributions:

	(\$000s)	(\$000s)
Current year surplus distributions approved	10,220	-
Prior year surplus distribution adjustments		(18)
Funding policy surplus distributions (recoveries)	\$ 10,220	\$ (18)

In 2020, an amount of \$ nil (2019 - \$18,000) was recovered relating to previously approved surplus distributions. Distributions paid are conditional upon employers being compliant with the *Workers' Compensation Act* and *Occupational Health and Safety Act*.

Reconciliation of surplus distributions payable:

	31	-Dec-20	31-	Dec-19	
	(\$000s)	(\$000s)		
Surplus distributions payable, beginning of year	\$	-	\$	64	
Amounts paid for prior year surplus distributions		-		(46)	
Prior year surplus distribution adjustments		-		(18)	
Current year surplus distributions approved		10,220		-	
Surplus distributions payable, end of year	\$	10,220	\$	-	

(c) Reserves

Under the current Funding Policy, two reserves are established as follows:

(i) Stabilization Reserve

The Stabilization Reserve is to protect the fully funded position of the Fund and to stabilize the effect of fluctuations on employer assessment rates. The target level for this reserve is equal to 10 per cent of the benefits liability. In 2020 the benefits liability was \$171,226,000 (2019 - \$160,659,000). The target was \$17,123,000 as at December 31, 2020 (2019 - \$16,066,000). The operating range for this reserve is determined as the target-level balance plus or minus three and a half per cent of the benefits liability. At December 31, 2020, the Stabilization Reserve has a balance of \$34,084,000 (2019 - \$43,596,000).

This reserve is considered to have a surplus when its balance exceeds the top of the operating range and a deficit if the reserve balance is below its target level. The funding policy requires that any deficiency or surplus at the end of a fiscal year be amortized over a period not exceeding 10 years from the year in which the deficiency or surplus arose.

A rebate in 2020 was included in the assessment rates as required by the Funding Policy based on the 2019 funded position.

(ii) Adverse Events Reserve

The Adverse Events Reserve is to provide funding for infrequent, unexpected adverse claims experience and catastrophic events to protect employers from the sudden impact of the costs of these types of events. The target level for this reserve is \$26,198,000 (2019 - \$24,980,000), which has been set at 100 times the maximum wage rate plus 10 per cent of the benefits liability and is calculated annually upon completion of the actuarial valuation of the benefits liability. Costs related to catastrophic and adverse events and latent occupational diseases are charged to this reserve, resulting in a charge of nil for 2020 (2019 - nil). This reserve is limited to its target level. Funds in excess of the target level are transferred to the Stabilization Reserve, with nil funds transferred in 2020 (2019 - nil). At December 31, 2020, the Adverse Events Reserve has a balance of \$26,198,000 (2019 - \$24,980,000).

Transfers cannot be made from this reserve to any other temporary fund or reserve if the transfer will reduce this reserve below its target level.

15. Related Party Transactions

(a) Government of Yukon

The Board is a territorial entity with delegated powers on behalf of the Government of Yukon (the "Government"), and is related to all Government departments, agencies and Government corporations.

During 2020, the Compensation Fund paid the Government \$225,000 (2019 - \$254,000) for computer, office supplies, payroll processing, and recruitment services. The Fund also reimbursed the Government for payroll costs of \$10,584,000 (2019 - \$9,989,000).

Reimbursements for claims costs received from the Government were \$348,000 in 2020 (2019 – \$303,000) (note 4(b)).

The Board enters into transactions with the Government and entities related to the Government in the normal course of business and the transactions are recorded at fair value.

Revenues and recoveries from the Government for the year ended December 31, 2020, totalled \$8,318,000 (2019 – \$7,250,000), including the Mine Safety Program Grant (note 11).

In 2020, the Board accrued 2,485,000 (2019 – nil) in surplus distributions to the Government to be paid in early 2021.

Included in the Fund's accounts receivable and accounts payable as of December 31, 2020 are amounts owing to and from the Government as follows:

	31	-Dec-20	31-Dec-19		
		(\$000s)	(\$000s)		
Due to the Government of Yukon	\$	(1,354)	\$	(1,274)	
Due from the Government of Yukon		674		698	
Net amount due	\$	(680)	\$	(576)	

The Workers' Advocate Office operates independently from the Board and assists workers or dependants of workers in respect of claims for compensation. The approved budget of the Workers' Advocate shall be paid out of the Compensation Fund. In 2020, the Fund reimbursed the Government \$348,000 (2019 - \$409,000)\$ for the Workers' Advocate Office expenses.

(b) Key Management Personnel

Notes to the Financial Statements / December 31, 2020

The remuneration of key management personnel, which includes the members of the Board of Directors and the senior management team, recognized as an expense during the period was:

	2	2020	2	2019
	(\$000s)	(\$000s)	
Short-term employee compensation and benefits	\$	1,262	\$	1,253
Other long-term employee benefits		29		20
Post employment benefits		199		186
Total remuneration	\$	1,490	\$	1,459

Contributions made to the Public Service Pension Plan by the Fund for key management personnel was \$139,000 (2019 – \$134,000) and are included in post-employment benefits.

As at reporting date, there were no business relationships, outstanding amounts or transactions other than compensation, between the Fund and its key management personnel.
