This letter is to inform you that Yukon Communicable Disease Control (YCDC) has been made aware of **positive cases of COVID-19 at Jack Hulland Elementary School** affecting the:

- Grade 6M Class, on Monday November 8th, 2021

Students and staff who attended or worked in the above class on those dates have been identified as close contacts of COVID-19. COVID-19 is a respiratory illness that is spread through droplets when a person coughs, speaks, or by touching surfaces contaminated by the virus with your hands and then touching your face before washing your hands.

A risk assessment has been completed by YCDC. After careful analysis, we recommend the following for students and staff connected to the above classes:

- If you are **significantly immunosuppressed** due to illness or medication AND have received 3 doses of COVID-19 immunization, with the last dose prior to October 25th, **we recommend you self-monitor for symptoms through November 22nd.**
- All others **not fully immunized** are recommended to self-isolate until November 18th, inclusive, and self-monitor for symptoms through November 22nd.

It is very important that if **any** symptoms develop, no matter how mild, that you arrange for testing. Symptoms to self-monitor for include:

• Fever	• Sore throat	• Loss of appetite
• Chills	• Loss of sense of taste or smell	• Nausea and vomiting
• Cough	• Headache	• Diarrhea
• Shortness of breath	• Fatigue	• Muscle aches

If you develop **any** symptoms, no matter how mild, contact **the COVID Testing and Assessment Centre (CTAC) in Whitehorse at 867-393-3083.** When calling CTAC, please mention that you are part of the Jack Hulland Elementary School notifications.
