NOTE ON INVENTORY FORMAT AND CONVENTIONS

The material has been arranged according to series and subseries. Following each subseries description is a list of the files or items that belong to it (see example below).

<u>Location</u>	<u>File</u>	<u>Description</u>	<u>Orig. File #</u>	<u>Vol.</u>	<u>Dates</u>	<u>R</u>
GOV 2201	2	Personnel - General Instructions	1-1-0	1	1951-1962	*

The location of each file or item is indicated in the columns marked "Location" and "File". Use this code when requesting material to be retrieved. Files to be reviewed under the *Access to Information and Protection of Privacy Act* are indicated by an asterisk [*]. If the review has been completed, the result is noted: *o = open, *po = partially open, or *c = closed. Please inquire at the Reference Desk for procedures for accessing such files. The "Description" area provides a transcription of the file title or description of the item. If an item is other than text, the media type precedes the description. For instance, 'Map:' precedes map descriptions, 'Photograph:' precedes photograph descriptions, and so on. Cross references to other files within the finding aid are indicated in the description area. Other pertinent information, such as appraisal notes, is indicated in the description area. The original file number is given in the next column. The column "Vol." indicates the volume numbers that make up the file, or whether the material was found in an envelope.

FONDS DESCRIPTION

YUKON, RECORDS OFFICE FONDS. — 1901-1977.

Physical Description

60.125 m. of textual records and other material.

Administrative History

The Records Office was a centralized body responsible for maintaining the records of the Government of the Yukon Territory. The records were primarily maintained in a centralized location, however there were a number of sub-stations. The Records Office maintained the files in a duplex-numeric filing system. These include the Commissioner's files, which formed the 1- series, which developed in the early 1920s. The development of other blocks took place after 1953 and were as follows: 10, Administration; 50, Personnel; 60, Finance; 100, Information Services; 400, Territorial Buildings; 450, Operation and Maintenance; 470, Communications; 480, Public Utilities; 500, Roads; 600, Ordinances; and 900, Federal Lands Transferred to the Commissioner. The Records Office maintained files dating back to 1899 (brought forward from earlier records keeping systems). The Records Office maintained the records of the government centrally until the 1970s, when the responsibility for records keeping was decentralized and devolved to the departments.

Scope and Contents

The subseries consists of records for the following series: 1, Commissioner; 10, Administration; and 600, Ordinances.

Restrictions

Access to records subject to Access to Information and Protection of Privacy Act. Please consult reference attendant or Government Records Archivist for access.

Source of Title

Title taken from original file plan.

Arrangement Note

The records are arranged according to the original filing number. The subseries and subseries designations are based on the organization of the files and the file plan.

Associated Material

Many of the series or subseries continue in departmental records systems. If the records remained inactive, the original Records Office number remained unchanged. In many instances, the records were still active, and the files were renumbered using the new block numeric code.

SERIES DESCRIPTION
