

Building Permits, November 2022

Released by Statistics Canada – January 9, 2023

In November 2022, the preliminary seasonally adjusted value of building permits (\$13.8 million) in Yukon decreased by \$0.3 million, or -2.2%, compared to November 2021 (\$14.1 million). In Canada, the total value of permits decreased by 4.5% during the same time period.

On a **year-to-date basis** (January through November) in 2022, the preliminary total value of building permits issued in Yukon was \$214.5 million. This represents an increase of \$22.9 million, or 12.0%, compared to the same time period in 2021 (\$191.6 million); residential permits were down by \$16.8 million, or 16.7%, and non-residential permits were up by \$39.8 million, or 43.8%.

^r = revised

^p = preliminary data

¹ Data may not add up to totals due to rounding.

² Percent change is based on unrounded numbers.

Note to Readers:

- 1) This release presents seasonally adjusted data (except where noted), which facilitates month-to-month comparisons by removing the effects of seasonal variations. The Building Permits Survey covers 2,400 municipalities representing 95% of the Canadian population. The communities representing the other 5% of the population are very small and their levels of building activity have little impact on the total for the entire population. Building permits data are used as a leading indicator of activity in the construction industry. The value of planned construction activities presented in this release excludes engineering projects (such as waterworks, sewers or culverts) and land.
- 2) Yukon Bureau of Statistics obtains data on building permits from Community Services and the City of Whitehorse on a monthly basis and publishes aggregated figures (unadjusted) in the Bureau's [Monthly Statistical Review](#).
