*Persons with RRSP room is the number of taxfilers who have either unused room from previous years, new room based on their earned income, or both. New RRSP room is included in the total RRSP room, and is calculated as 18% of earned income minus pension adjustment (PA), minus past service pension adjustment (PSPA) in the tax year. Unused room is the amount of RRSP deduction limit that is not claimed by the taxfiler, or the amount remaining after subtracting actual contributions claimed on the tax return from that year's contribution room. Unused room can be carried forward indefinitely.*
