¹ Other Retail Categories is equal to total sales minus the retail categories which have data displayed; therefore Other Retail Categories also includes the listed categories in the case of suppression in a given period (i.e. Motor Vehicle and Parts Dealers). Other Retail Categories includes: Electronics and Appliance Stores; Building Material and Garden Equipment and Supplies Dealers; Health and Personal Care Store; Gasoline Stations; Sporting Goods, Hobby, Book and Music Stores; General Merchandise Stores; and Miscellaneous Store Retailers.

Notes: Data for retail trade are presented based directly on the North American Industrial Classification System (NAICS) basis, rather than the trade group variant of NAICS; therefore detailed industry data is only available back to 2004.

BANKRUPTCY:

A legal process carried out through a trustee in bankruptcy designed to relieve honest but unfortunate debtors of their debt burden. When individuals are in bankruptcy, creditors cannot initiate any collection actions against them.

A **consumer bankruptcy** applies to an individual with more than 50% of total liabilities related to consumer goods and services.

A **business bankruptcy** applies to any commercial entity or organization other than an individual, or an individual who has incurred 50% or more of total liabilities as a result of operating a business.

PROPOSAL:

An offer to creditors to settle debts under conditions other than the existing terms. A proposal is a formal agreement under the *Bankruptcy and Insolvency Act*.

A **consumer proposal** can be submitted to creditors only if an individual's total debt does not exceed \$250,000, not including debts secured by their principal residence. In addition, the debt must be paid off within five years.

A **division I proposal**, also known as a "commercial proposal", is available to businesses or individuals and there is no limit with respect to how much money is owed.
