FOREWORD

The ***Yukon Statistical Review*** is an annual report published by the Yukon Bureau of Statistics (YBS) as a companion to the ***Monthly Statistical Review***. Data presented in the review originate from YBS surveys and Statistics Canada as well as from government, industry and private sources.

Data for a particular year is usually published in the following year. However, some data are published with a lag of more than a year. The contents of this publication are based on the most current data available at the time of publication.

The Yukon Bureau of Statistics acknowledges the support of Statistics Canada, other federal departments, Yukon government departments and survey respondents in our efforts to produce and publish reliable and timely statistical information.

TABLE GUIDE

Statistics presented in tables on the following pages of this Annual Review provide a monthly, and annual summary of information. The latest twelve months are highlighted.

Annual figures follow the monthly data beginning with the most recent year and dating back ten years. Depending on the statistics presented, annual data may be either the average or the sum of monthly data. Previous years of data are presented, with the latest year highlighted.

Below the annual data, the data source and, as appropriate, notes regarding the table are provided.

¹ As diagnosed by a health professional.

² The condition or problem has lasted, or is expected to last 6 months or longer.

³ Non-smoking population exposed everyday or almost everyday.

⁴ A definition change was implemented in 2013 to conform with the World Health Organization (WHO) and Health Canada guidelines for Heavy drinking. Heavy drinking refers to males who reported having 5 or more drinks, or women who reported having 4 or more drinks, on one occasion, at least once a month in the past year. While this indicator remains comparable for males to the 5 or more drinks indicator published in previous years, it is no longer comparable for females.

⁵ Based on physical activity over the past 3 months.

⁶ Based on information provided by females aged 15 to 55 who had a baby in the last 5 years.

⁷ Initiated breastfeeding refers to mothers who breastfed or tried to breastfeed their last child even if only for a short time.

⁸ Exclusive breastfeeding refers to an infant receiving only breast milk, without any additional liquid (even water) or solid food.

⁹ Based on 8 dimensions of functioning (vision, hearing, speech, mobility, dexterity, feelings, cognition and pain). Otherwise known as the Health Utility Index (HUI).

¹ In March 2012, the Yukon Rent Survey was expanded to include any building with three or more rental units. Prior to 2012, buildings with less than four units were excluded from the survey. Therefore, figures prior to 2012 are not strictly comparable to subsequent figures. Buildings with less than three rental units (i.e. houses, suites and duplexes) are not included in the survey.

² Includes Granger, Arkell, Copper Ridge, Ingram, Logan, Hillcrest, Takhini, Valleyview and Lobird/South Access. This aggregation has been made due to small numbers of surveyed buildings in these subdivisions. Due to non-response of a landlord in Hillcrest from September 2007 to September 2011, the figures for Upper Whitehorse units are not a complete representation of Upper Whitehorse units within that time frame.

³ Caution should be used when analysing data from Dawson City due to the small number of buildings in the community. June 2006 was the first month that Dawson City was included in the Yukon Rent Survey.

⁴ Beginning in 2014, the Yukon Rent Survey is being conducted on a semi-annual basis (April and October).

¹ The Yukon Rent Survey includes buildings with three or more rental units. Buildings with less than three rental units (i.e. houses, suites and duplexes) are not included in this table.

² Includes Granger, Arkell, Copper Ridge, Ingram, Logan, Hillcrest, Takhini, Valleyview and Lobird/South Access. This aggregation has been made due to small numbers of surveyed buildings in these subdivisions.

³ *Small Building* indicates three rental units in one building.

⁴ *Low-rise* units are in buildings with five or more units.

⁵ *Store-top* units are residential units in buildings which primarily contain commercial space.

† Use caution when analysing data due to high variance or a small number of rental units within the category.
