

Yukon Employment Historical Data 2011 — 2020

About the Labour Force Survey

The Labour Force Survey (LFS) is a source of estimates of total employment (including self-employment) and unemployment. It is a monthly household survey conducted by Statistics Canada. The survey covers individuals who are representative of the civilian, non-institutionalized population 15 years of age or older.

The LFS provides employment estimates by industry, occupation, hours worked, etc., all cross-classifiable by a variety of demographic details. The survey also produces wage, union status, job permanency and workplace size for employees.

In this publication, industry estimates are based on North American Industry Classification System (NAICS) 2017, Version 3.0; and occupation estimates are based on National Occupational Classification (NOC) 2016, Version 3.1.

For additional information about the LFS, please see [Guide to the Labour Force Survey, 2020](#).

Revisions to the Labour Force Survey

Fluctuations in time series are caused by seasonal, cyclical, and irregular movements. A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, holidays, vacation periods and cycles related to crops, production and retail sales associated with Christmas and Easter.

The seasonally adjusted LFS estimates are revised yearly, going back three years and are published around the end of January. Every five years, all the LFS estimates are revised historically over a longer time span. At that time, population base is updated according to the latest census population counts, the latest classifications for industry, occupation and geography. The seasonal factors are updated at the same time. This exercise is called rebasing. In 2020, LFS estimates were rebased on the 2016 Census population counts.

In general, there is a small impact on trends as a result of these revisions. However, due to Yukon's small population base, a minor change in any number may significantly affect the relevant rates.

For additional information about these LFS revisions, please see [The 2021 Revisions of the Labour Force Survey](#).

Paid overtime: includes any hours worked during the reference week over and above standard or scheduled paid hours, for overtime pay or compensation (including time off in lieu).

Extra hours without pay (unpaid overtime): refers to time spent directly on work or work-related activities over and above scheduled paid hours. These must be extra hours worked for which the respondent received no additional compensation.

Definitions:

- 1. Education level:** Highest level of schooling completed. Any education that could be counted toward a degree, certificate or diploma, from an educational institution is taken as post-secondary education.
- 2. Employment rate (employment/population ratio):** Number of employed persons expressed as a percentage of the population 15 years of age and over. The employment rate for a particular group (age, sex, etc.) is the number employed in that group expressed as a percentage of the population for that group.
- 3. Employment:** Persons who, during the reference week did any work for pay or profit, or had a job and were absent from work.
- 4. Full-time employment:** Consists of persons who usually work 30 hours or more per week at their main or only job.
- 5. Goods-producing sector:** Includes agriculture; forestry, fishing, mining, and oil and gas extraction; utilities; construction; and manufacturing.
- 6. Labour force:** Civilian non-institutional population 15 years of age and over who, during the survey reference week, were employed or unemployed.
- 7. Not in labour force:** Persons who, during the reference week, were unwilling or unable to offer or supply labour services; that is, they were neither employed nor unemployed.
- 8. Occupation:** The kind of work persons were doing during the reference week, as determined by the kind of work reported and the description of the most important duties. Occupation classification is based on the 2011 National Occupational Classification (NOC).
- 9. Overtime (extra hours worked):** The number of hours worked during the reference week in excess of the usual hours reported in main job. It includes all extra hours, whether the work was done at a premium or regular wage, or without pay. *Paid overtime:* Any hours worked during the reference week over and above the standard or scheduled paid hours, for overtime pay or compensation (including time off in lieu). *Unpaid overtime:* time spent directly on work or work-related activities over and above scheduled paid hours, and no additional compensation was received.
- 10. Participation rate:** Total labour force expressed as a percentage of the population aged 15 years and over. The participation rate for a particular group (age, sex, etc.) is the labour force in that group expressed as a percentage of the population for that group.
- 11. Part-time employment:** Consists of persons who usually work less than 30 hours per week at their main or only job.
- 12. Private/Public Sector:** *Public sector employment:* includes employees in public administration at the federal, provincial, territorial, municipal, First Nations and other Aboriginal levels, as well as Crown corporations, liquor control boards, and other public institutions such as schools (including universities), hospitals, and public libraries. *Private sector employment:* All other employees and self-employed owners of businesses (including unpaid family workers in those businesses), and self-employed persons without businesses.
- 13. Reference week:** The entire calendar week (from Sunday to Saturday) covered by the Labour Force Survey each month. It is usually the week containing the 15th of the month. The interviews are conducted during the following week, called the Survey Week, and the labour force status determined is that of the reference week.
- 14. Seasonal adjustment:** A seasonally adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, holidays, vacation periods, and retail sales associated with Christmas and Easter. It should be noted that the seasonally adjusted series contains irregular as well as longer-term cyclical fluctuations.
- 15. Self-employment:** Working owners of an incorporated or unincorporated business, farm or professional practice. Also included are self-employed workers who do not own a business, and unpaid family workers.
- 16. Services-producing employees:** Includes trade; transportation and warehousing; finance, insurance, real estate and leasing; professional, scientific and technical services; business, building and other support services; educational services; health care and social assistance; information, culture and recreation; accommodation and food services; other services; and public administration.
- 17. Three-month moving average:** All monthly figures for the territories, whether seasonally adjusted or unadjusted, are three-month moving averages. This means that the number unemployed in March 2012 is actually an average of the number unemployed for the months of January, February, and March; while for April it is the average of February, March and April.
- 18. Unemployment rate:** Number of unemployed persons expressed as a percentage of the labour force. The unemployment rate for a particular group (age, sex, etc.) is the number unemployed in that group expressed as a percentage of the labour force for that group.
- 19. Unemployment:** Those who, during the reference week, were available for work and were either on temporary layoff, had looked for work in the past four weeks or had a job to start within the next four weeks.
- 20. Union status:** Employees are classified as to their union status: (a) union member; (b) not a member, but covered by a union contract or collective agreement; or (c) non-unionized.

Notes:

- x = suppressed to meet the confidentiality requirements of the Statistics Act.
- Due to rounding, rows and columns may not sum to totals.
- All Yukon monthly figures are three-month moving averages.
- For many of the variables displayed in this publication, additional breakdowns of the data is available by contacting the Yukon Bureau of Statistics.
