FIRST NATION of NA-CHO NYÄK DUN - COMMUNITY OF MAYO

COMPLIMENTS OF YTG PHOTO GALLERY

First Nation of Na-Cho Nyäk Dun History

The Na-Cho Nyäk Dun are affiliated with the Northern Tutchone people of the Selkirk First Nation and the Little Salmon/Carmacks First Nation. Some of the Na-Cho Nyäk Dun trace their ancestry to the Gwich'in people to the north and Mackenzie people to the east. The name "Na-Cho Nyäk Dun" means "big river people".

Since earliest times, the people lived on the land using the rich supply of game, fish, birds and plants. They traveled across their traditional territory throughout the year. The people of the area followed a traditional moiety (dualistic kinship) system of Crow and Wolf. The oral history of the Na-Cho Nyäk Dun reveals early contacts and trade relationships with explorers and traders in the area.

Mayo is located at the confluence of the Mayo and Stewart rivers in the heart of Yukon, approximately 400 km northwest of Whitehorse, within the traditional territory of the First Nation of Na-Cho Nyäk Dun. Mayo was originally established as a river settlement, and became the service centre for significant mining activity in the area in the early 1900's. An all-weather road linking Mayo with Whitehorse was completed in 1950. The community is a convenient base for wilderness tourism, canoeing, hiking, big-game hunting and fly-in fishing.

The Na-Cho Nyäk Dun administer the following departments in order to meet the needs of their community members: Governance & Administration (internal support and central services), Lands & Resources (guardian of lands, water and resources), Capital and Housing (capital projects, housing and maintenance), Education (training for careers), Social & Health (counselling and community health and care) and Heritage (preserve, protect and promote the traditional knowledge, culture, governance & language).

First Nation of Na-Cho Nyäk Dun Self-Government Agreement

Land Claim Agreements

The First Nation of Na-Cho Nyäk Dun signed Final and Self-Government Agreements with Yukon and Canada on May 29, 1993. The Effective Date of these agreements was February 14, 1995.

Government Structure

The Na-Cho Nyäk Dun government structure is established by its Constitution, which was developed according to the Self-Government Agreement. Among other things, the Constitution provides for a number of governing bodies, including the Assembly, the Council, the Chief, the Deputy Chief, the Elders Council, the External Relations Council, the Youth Council, and a Tribal Justice System.

Traditional Territory

The Traditional Territory of the First Nation of Na-Cho Nyäk Dun is situated in north-east Yukon, centred on the Village of Mayo. In very generalized terms, this area of historic use and occupation extends west to east from the Dempster Highway to the Yukon/NWT border, and north to south from the Peel River watershed to the Macmillan River. The First Nation of Na-Cho Nyäk Dun has an un-settled claim with the Government of the Northwest Territories and is involved in exploratory discussions with that government and the Federal Government regarding potential transboundary negotiations.

Settlement Land and Special Management Areas

Through the terms of the Umbrella Final Agreement, First Nation of Na-Cho Nyäk Dun owns the following Settlement Land:

- 2,408.69 km² of Category A Land – meaning that the First Nation owns both the surface of the land as well as what is below it (such as minerals and oil and gas).
- 2,330.99 km² of Category B Land – meaning that the First Nation owns the surface of the land but not what is below the surface.
- 9.27 km² of land allocated per section 4.3.4 of the Final Agreement.

The Na-Cho Nyäk Dun Final Agreement created two Special Management Areas – Ddhaw Ghro Habitat Protection Area (previously known as the McArthur Wildlife Sanctuary; also referenced in the Selkirk Final Agreement); and Horseshoe Slough Habitat Protection Area. Both areas are to be designated under Yukon's Wildlife Act.

Heritage Sites

The Na-Cho Nyäk Dun Final Agreement requires the establishment of the Lansing townsite as a historic site pursuant to the Historic Resources Act. Lansing townsite was located upstream from Mayo on the Stewart River, at the mouth of the Lansing River. The Final Agreement also required the nomination of the Bonnet Plume River as a Canadian Heritage River. This was done and the Bonnet Plume was designated as a Heritage River in 1998.

Financial Compensation

In accordance with the terms of Chapter 19 of the Umbrella Final Agreement, the First Nation of Na-Cho Nyäk Dun became entitled, on the Effective Date of its Final Agreement, to its share of the financial compensation package provided by Canada. This amounted to \$14,554,654, as measured in 1989 dollars. The Final Agreements include formulae for determining each First Nation's Adjusted Final Share; in the case of the Na-Cho Nyäk Dun, factoring in interest, this resulted in 15 annual payments of \$1,824,627 starting on the date the Agreement was signed (May 29, 1993).

Taxation

As a self-governing Yukon First Nation, the First Nation of Na-Cho Nyäk Dun has the authority for taxation, for local purposes, of interest in Settlement Land and of occupants and tenants of that land. The First Nation is also able to enter into 'tax sharing' arrangements with Canada and Yukon regarding the sharing of tax-generated revenue. Na-Cho Nyäk Dun passed the First Nation of Na-Cho Nyäk Dun Income Tax Act in 1998. The First Nation of Na-Cho Nyäk Dun is responsible for paying property taxes for some, but not all Settlement Land, in accordance with Chapter 21 of the Final Agreement. Property taxes are not paid on unimproved rural Settlement Land.

Economic Development Measures

Chapter 22 of the Na-Cho Nyäk Dun Final Agreement provides for certain economic development measures intended to provide Yukon Indian People with opportunities to participate in the Yukon economy and to ensure they obtain economic benefits that flow directly from the Agreement.

¹CAFN - Custom grouping for all responses associated with Aishihik, Champagne and Champagne Aishihik First Nation.

²NND - For the 2006 Census, the municipal boundaries were used; therefore, for Mayo, a large number of NND members were included in 'Yukon Unorganized' rather than Mayo.

³LFN - Home Community is comprised of Census subdivisions of Watson Lake, Upper Liard, Two Mile Village and Two and One Half Mile Village.

⁴TTC - Home Community is comprised of Census subdivisions of Teslin and Teslin Post 13.

Note: Many Yukon communities, as represented by Census subdivisions (*Champagne Landing 10; Ibex Valley; Destruction Bay; Two Mile Village; Two and One-Half Mile Village; Lake Laberge*) have very small First Nation populations. In order to maintain confidentiality, detailed information on these census subdivisions is largely suppressed, and therefore not included.

DEFINITIONS

Aboriginal identity population: Aboriginal identity refers to those persons who reported identifying with at least one Aboriginal group, that is, North American Indian, Métis or Inuit, and/or those who reported being a Treaty Indian or a Registered Indian, as defined by the *Indian Act of Canada*, and/or those who reported they were members of an Indian band or First Nation.

Aboriginal population: There are different ways to identify the Aboriginal population based on four questions asked in the census (Aboriginal identity; member of an Indian Band/First Nation; Registered or Treaty Indian; and ethnic origin, including Aboriginal ancestries) depending on the focus and the requirements of the data user.

Area suppression for income characteristic data: When applied for data quality purposes, is used to replace all income characteristic data with zeroes for geographic areas with populations and/or number of households below a specific threshold. Income characteristic data are zeroed out for areas where the population is less than 250 or where the number of private households is less than 40.

Category 'A' Settlement Land: Land which has been identified pursuant to 5.3.1, declared pursuant to 5.12.1.1, or designated pursuant to 7.5.2.8 (a) to be Category A Settlement Land and which has not ceased to be Settlement Land in accordance with 5.11.0. (includes subsurface mines and minerals).

Category 'B' Settlement Land: Land which has been identified pursuant to 5.3.1, declared pursuant to 5.12.1.2, or designated pursuant to 7.5.2.8 (b) to be Category B Settlement Land and which has not ceased to be Settlement Land in accordance with 5.11.0. (does not include subsurface mines and minerals).

Census family: Refers to a married couple (with or without children of either or both spouses), a couple living common-law (with or without children of either or both partners) or a lone parent of any marital status, with at least one child living in the same dwelling. A couple may be of opposite or same sex. 'Children' refer to blood, step- or adopted sons and daughters (regardless of age or marital status) who are living in the same dwelling as their parent(s), as well as grandchildren in households where there are no parents present.

Census subdivision types: City (CY); Indian Reserve (IRI); Settlement (SÉ); Unorganized (NO); Town (T); Village (VL).

Economic family: Refers to a group of two or more persons who live in the same dwelling and are related to each other by blood, marriage, common-law or adoption. A couple may be of opposite or same sex. Foster children are included.

Employed: Persons who, during the week (Sunday to Saturday) prior to Census Day (May 16, 2006): 1. did any work at all for pay or in self-employment or without pay in a family farm, business or professional practice or, 2. were absent from their job or business, with or without pay, for the entire week because of a vacation, an illness, a labour dispute at their place of work, or any other reasons.

Employment rate: Refers to the number of persons employed in the week (Sunday to Saturday) prior to Census Day (May 16, 2006), expressed as a percentage of the total population 15 years of age and over. The employment rate for a particular group (age, sex, marital status, geographic area, etc.) is the number of employed persons in that group, expressed as a percentage of the total population, in that group.

Fee Simple Settlement Land: Land which has been identified pursuant to 5.3.1, declared pursuant to 5.12.1.3, or designated pursuant to 7.5.2.8 (b) to be Fee Simple Settlement Land and which has not ceased to be Settlement Land in accordance with 5.11.0. (fee simple Settlement Land is owned under the same form of fee simple title as is commonly held by individuals who own land).

Household: Refers to a person or a group of persons (other than foreign residents) who occupy the same dwelling and do not have a usual place of residence elsewhere in Canada. It may consist

of a family group (census family) with or without other persons, of two or more families sharing a dwelling, of a group of unrelated persons, or of one person living alone. Household members who are temporarily absent on Census Day (e.g., temporary residents elsewhere) are considered as part of their usual household. For census purposes, every person is a member of one and only one household. Unless otherwise specified, all data in household reports are for private households only.

Median age: The point where exactly one-half of the population is older and the other half is younger.

Median income: The point where exactly one-half of income recipients aged 15 years and over has more income and the other half has less income.

N.I.E.: not included elsewhere.

N.O.S.: not otherwise specified.

Participation rate: Refers to the labour force in the week (Sunday to Saturday) prior to Census Day (May 16, 2006), expressed as a percentage of the population 15 years of age and over. The participation rate for a particular group (age, sex, marital status, geographic area, etc.) is the total labour force in that group, expressed as a percentage of the total population in that group.

Postsecondary education: Educational attainment above the level of secondary (high school) completion. This includes apprenticeship or trades certificate; college or CEGEP diploma; university certificate or diploma below bachelor level; university degree at bachelor's degree and above.

Random rounding: All counts in census tabulations are randomly rounded either up or down to a multiple of '5', and in some cases '10', providing strong protection against disclosure. Similarly, percentages, which are calculated on rounded figures, do not necessarily add up to 100%. A value of "0" in any given cell represents one of the following: 1) value is actually zero; 2) value may be random rounded to zero; or 3) value is more than zero but is suppressed for confidentiality reasons.

Settlement Land: Category A Settlement Land, Category B Settlement Land or Fee Simple Settlement Land.

Total Income: Total of income from all sources, including employment income, income from government programs, pension income, investment income and any other money income.

Unemployed: Persons who, during the week (Sunday to Saturday) prior to Census Day (May 16, 2006), were without paid work or without self-employment work and were available for work and either: 1. had actively looked for paid work in the past four weeks; or 2. were on temporary lay-off and expected to return to their job; or 3. had definite arrangements to start a new job in four weeks or less.

Unemployment rate: Refers to the unemployed expressed as a percentage of the labour force in the week (Sunday to Saturday) prior to Census Day (May 16, 2006). The unemployment rate for a particular group (age, sex, marital status, geographic area, etc.) is the unemployed in that group, expressed as a percentage of the labour force in that group, in the week prior to enumeration.
